BRAND MATTERS

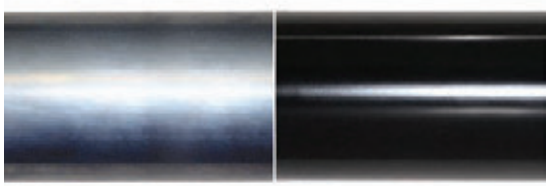
3”Round, No-Drill Installation Step Bars

Galvanized Step Bars

The Galvanized Difference - Westin’s 25-Series 3”round tube step bars are made of galvanized corrosion resistant quality steel and are highly rust resistant. Galvanized steel is a mixture of alloys that collectively provide layers of resistance to rust caused by oxidation and everyday environments. Signature 25-Series step bars bear the Westin name becasue quality is our signature.



RAW GALVANIZED STEEL

BLACK POWDERCOATED GALVANIZED STEEL

Signature Series

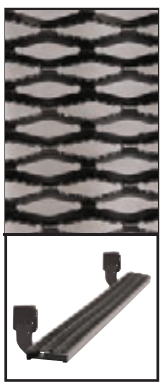
RUNNING BOARDS



ROUGH STEP
- Anodized aluminum with secure footing.
- Interchangable end caps and mud flaps.

SS ELITE
- Streamlined shape with the strength of steel.
- Full length rubber trim.

FX EXTRUDED
- Distinct aluminum extrusion.
- Buffed and powder coated finish.

FX BLACK
- Sleek UltraBlack powder-coat.
- Molded step pad provides traction.

BRITE-TREAD
- Classic styling of Brite-Tread aluminum.
- Powder-coated to prevent oxidation.

NXt
- Same features and benefits of the NXc running boards now available for pickups.

Part numbers in blue represent side box boards.		Rough Step	Stainless Elite	FX Extruded	FX Black	Brite Tread

BULLY TRUCK ACCESSORIES

Stainless Steel Step Bars

Bully Step Bars are a step above the rest. They are made of the highest quality materials and are backed by our lifetime warranty. Bully Step Bars are mandrel bent for a smooth appearance. They go through a 6 stage polishing process to create a mirror like shine. The stainless retention clips will not rust. Bully Bars are designed to fit existing holes in the truck's frame, so no drilling is required on most vehicles. Add a rugged, finished appearance to your truck .

Hoop II

- Exclusive new Multi-Mount System
- Made of corrosion resistant, durable cast aluminum alloy
- Available in XM3 Polished "chrome like" finish, XP4 Titanium Silver Powder Coat, and XP3 Black Powder Coat Finish
- Rugged tread pattern provides for safe and attractive non-slip surface
- Rocker panel installation provides for the strongest and easiest installation of any step products
- Unique design gives the vehicle a rugged off-road look, while being a stylish accent for today's trucks and SUVs

Benefits

- Easy Installation
- Durable die-cast aluminum alloy
- Strong enough to hold up under extreme conditions
- Innovative stylish design
- Limited Lifetime Warranty

Exclusive New
Multi-Mount System

- Mounting heads are designed to rotate for a precise fit and easier installation
- Manufactured from zinc plated steel

MADE IN THE USA

XM3 - POLISHED

CARR's new Xtreme Mechanical polished finish that won't rust crack or peel and requires very little maintenance, NO chrome means NO rust.

XP3 - BLACK

CARR's new Xtreme Black Powder coat finish features a lightly textured matte finish that resists scratching peeling and fading.

POLISHED **BLACK**

Super Hoop

- All the same great features of the HOOP II but with a larger footpad style
- Exclusive new Multi-Mount System

Tool Box Step

Unique swing away step allows access to tool box and cargo area of pickup truck bed. Heavy duty design clamps to the frame for a no-drill application. Rugged styling compliments our Hoop II and Super Hoop steps.

Hides and locks away when not in use. Swings out into position with one hand.

Year	Make	XM3 Polish

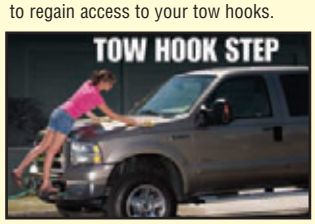
Tow Hook Step

Place a step where it is needed most for access to the engine compartment or hood of your truck. All mounting hardware is included for easy installation. And, it can be easily removed in seconds to regain access to your tow hooks.



Folds up out of the way when not in use. Available in many different graphic faces.

Durable die cast aluminum for a longer life. Resists scratching and corrosion.

NEW

Rhino! HitchStep™

- Provides easy access to a truck bed, SUV and/or roof rack
- Universal applications for 2" and 1 1/4" receiver hitches
- Offers ultimate protection to vulnerable, molded bumpers in the event of a collision
- Includes a convenient storage bag
- Anti-rattle device included
- Easily installed within minutes

2" HitchStep
Part No. 360B– Black Powder Coat
Part No.360C– Chrome
Part No. 360PS– Polished Stainless

1 1/4" HitchStep
Part No. 310B– Black Powder Coat
Part No.310C– Chrome
Part No. 310PS– Polished Stainless

Dominator Hitch Step™

- Includes an anti-rattle device and a convenient black storage bag
- Added step makes storage areas and racks accessible
- Manufactured of the highest quality steel for unmatched strength
- Available in black powder-coat; or polished stainless
- Limited 5-Year warrantly on black powder coat

DOMINATOR HITCH STEP™
Part No. D360PS
Polished Stainless

DOMINATOR HITCH STEP™
Part No. D360B
Black Powder Coat

Step-N-Tow

- Made from high grade aluminum alloy
- Universal – Fits receiver hitches cannot exceed 2 3/8"
- Slip resistant step surface
- Provides step access to rear of vehicle with or without trailer attached

Part No. BIG340B Black Powder Coat
Part No. BIG340P Polished Aluminum

DOMINATOR III

MODULAR SideSteps

- Wheel to wheel sidesteps
- 3" round tubing
- Aluminum step pads are removable for cleaning & color matching
- Black powder coat with 5 year warranty
- Polished Stainless with limited lifetime warranty
- Will ship UPS

Nerf-Steps and Rock-Rails

Highest Weight Rating in the Industry!!!

Best Warranty in the Industry!!!

STAINLESS STEEL
Made from 304 Marine Grade Stainless Steel, this Nerf-Step is built to last. All S/S N-FAB Nerf-Steps are derived from our most popular step which is the Wheel 2 Wheel.

BED ACCESS
Built with you in mind, these Nerf-Steps give you added convenience to reach those hard to get items, tool boxes, bed mounted hitches, and anything else in the bed.

WHEEL 2 WHEEL
Our most popular step utilizes the same patented hoop step design and innovative mounting system as all of our steps, allowing them to work on stock or body lifted vehicles.

CAB LENGTH
Built for today's work truck, this step is perfect for Flat Bed and Stake Bed Trucks, Trucks with Campers, and Trucks with Side Exhaust. This step is work truck approved.

ROCK-RAILS
Designed with a fully welded double tube main structure Rock-Rails provide optimum strength and protection for your vehicle. They are an all bolt on design that wont flex.

RSP Bumpers, Pre-Runners, Light Cages, Light Bars, and Rear-Runners

Don't see it, Don't worry...
Call N-FAB Today...
Many Other Applications Available...

Designed to complement other N-FAB products, all RSP Bumpers, Pre-Runners, Light Cages, Light Bars, and Rear Runners are made to last. Built using .095 wall tubing that has been treated with a zinc base coat to give you more corrosion protection and a peace of mind knowing that you have one of the best products on the market today. All come with N-FAB's Lifetime Craftsmanship Warranty and a 5 Year Finish Warranty and can proudly be labeled MADE IN THE USA...

RSP Bumper
One of N-FAB's newest products, this full replacement bumper is designed to bolt directly to factory bumper mounts on the frame horns.

Pre-Runner
N-FAB Pre-Runners are a perfect complement to other N-FAB products such as Nerf-Steps, Rear Runners, Tire Carriers and more.

Light Cage
Designed for the serious Off-Road enthusiast, N-FAB Light Cages protect those expensive off-road lights and bumper from damage.

Light Bar
The perfect addition to any stock or modified vehicle. N-FAB Light Bars give you the ability to add up to four 9" lights with little to no modification.

Rear Runner
The perfect complement to other N-FAB products such as Pre-Runners, Light Cages, and Light Bars. Made to hold two 6" round lights.

Original Bar Grille

- Original Bar design provides a classic, distinct look
- Premium T-6 aircraft grade billet aluminum provides maximum durability
- Hassle-free installation requiring no drilling on most applications

Edge Cut and 3D Flame Grilles

- Using cutting edge laser technology these grilles are cut to give a unique twist to our Original Bar Grilles
- Edge Grilles have vertical dashes cut into the horizontal bars
- 3D Flame Grilles have a 3-diminsional flame design cut into the horizontal bars
- Premium T-6 aircraft grade billet aluminum provides maximum durability
- Hassle-free installation requiring no drilling on most applications
- Photos just don't do these grilles any justice. You need to see them in person

Elliptical Grille

- Patented Elliptical design provides stylish, unique look
- Premium T-6 aircraft grade billet aluminum provides maximum durability
- Hassle-free installation requiring no drilling on most applications

Framed Perimeter Grille

- Stylish Framed Perimeter design provides a clean, sharp look
- Premium T-6 aircraft grade billet aluminum provides maximum durability

Stainless Mesh Grille

- Manufactured of 12-guage 304 stainless steel for maximum durability and shine
- Unique mesh design provides optimum style

Superstep™ Universal Truck Step

If you want a stylish one-step entry to your vehicle and you don't want to spend a lot of money, SuperStep™ Universal Truck Steps are for you! Rigid molded, black polymer construction ready-to-install or they can be painted to match your vehicle. Heavy duty, rust-proof steel brackets and wrap-around rubber step tread make SuperSteps a secure, sure-footed entry.

UNIVERSAL	Part #
Fits most domestic and import full size and mini size standard cabs	LUN53001
Fits most domestic and import full size and mini size extended cabs, 2-door SUVs	LUN53002

X-Step™ Custom Fiberglass Step

These steps are custom designed for each vehicle with an extra wide deep step pad area for easy access. The rugged, factory recommended body mounted bracket system keeps body and frame separate to reduce road noise and vibration. The rust-resistant steel brackets and support plates provide strength along the entire step area. Constructed of durable solid fiberglass with ready-to-paint white gelcoat finish. Most installations require no drilling in exposed vehicle surfaces including rocker panel.

Original SunVisor® and MoonVisor®

The MoonVisor has the same unique features as the SunVisor with the addition of recessed running lights for night safety and great looks.

- The industry standard in visor style and protection
- Patented airflow design for improved aerodynamics
- Provides glare reduction
- Mounts to cab roof with self-tapping screws
- Custom designed to fit most pickups, vans and SUVs
- Solid fiberglass construction with easy-to-paint white gelcoat finish

Truck & SUV Billet Aluminum Grilles

- Made of 6061-T6 "Solid-Stock" billet aluminum.
- All grilles are TIG-welded by hand or "Robotically"

- Bolt-Over Series - the easiest installation... bolts over the OEM grille... NO Cutting, NO Drilling!
- Original Series - offers the best appearance enhancement option for a custom look and OEM fit.
  - "No-Cut" Replacement design replaces the OEM shell WITHOUT CUTTING!
  - "Cut-Out' Replacement design requires Cutting/Sanding and/or Drilling for the greatest eye appeal.

EZSolid™ GRILLES

The Precision EZsolid grille line stands out as one of the premier upgrade grilles. Each grille is made from a solid plate of 6061-T6 aircraft grade aluminum and is CNC machined on both sides for crisp and clean lines. EZsolid grilles feature a simple bolt over design for easy installation that is installed with little or no drilling or cutting.

EZ Stainless™ GRILLES

Each EZstainless grille starts with the highest quality 16 gauge 304 stainless steel (this is 25 percent thicker than similar products) and all have a flawless mirror finish. The primary benefit of 304 stainless is that soap and water washing is the only maintenance required, eliminating the need for polishing.

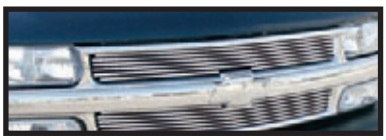
PHAT BILLET™



"Phat Billet" it's just what it sounds like, a full 1/4'' thicker bar than our Classic Billet line. Engineered with the same precision fit as our Classic Billet line which requires a custom install. Hand crafted from Aircraft Grade 6061-T6 Aluminum and made from 3/4" thick material, to create the finest custom grilles available.

Sidewinders

All of V-Tech's Sidewinder applications fit the glass on extended cab trucks, providing a finished look while allowing the pop-out windows to function as the manufacturer intended. Sidewinders extended cab window covers, which V-Tech originated, are the best way to dress up the extended cab quarter window.

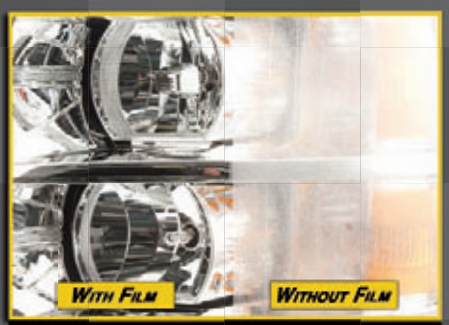
HUSKY SHIELD HEADLITEGUARD

REVOLUTIONARY HEADLIGHT PROTECTION

HUSKY LINERS — VEHICLE PROTECTION THAT LASTS A LIFETIME

Protecting Vehicles for Over 20 Years



Half of this headlight was protected with Husky Shield® Headlite Guard and sand blasted at a distnace of 12"

MADE IN USA

- Great, long-lasting protection for your headlights.
- Easy to install, designed specifically for the do-it-yourselfer.
- Pre-cut to fit your specific vehicle, no trimming necessary.
- Built-in UV inhibitors help your headlights remain clear by minimizing the oxidation caused by UV sunlight.
- Useful on all vehicles – not just new. Perfect for applying after a headlight restoration or polishing kit.
- Easy to follow installation instructions.
- Made exclusively in the USA.

Part No. DZE95054(B)	Fits standard full size pickups Rear style - no mesh
Part No. DZE95054W(B)	Fits wide full size pickups Rear style - no mesh

Part No. DZE95050
Part No. DZE95054B

"B" denotes black powder-coat finish

WORLD CLASS TRUCK ACCESSORIES
Made with Pride in the USA

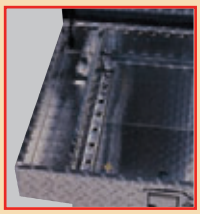
DUST SEAL protects contents from elements.

.050 SOLID ALUMINUM INNER LINER*
Welded to outer lid

STRUCTURAL FOAM INJECTED TO CREATE SUPER-SOLID LID*
Insulates against moisture/ heat/ cold

SINGLE POST STRIKER
Solid Striker Bracket attached to the lid via H.D. twin-studs mounted through the inner liner and securely attached with machine nuts.

CONVENIENT SCREWDRIVER HOLDERS AND TOOL TRAY
Built in tool organizers keep small tools immediately accessible. The sliding tool tray helps to organize the tool box as well.

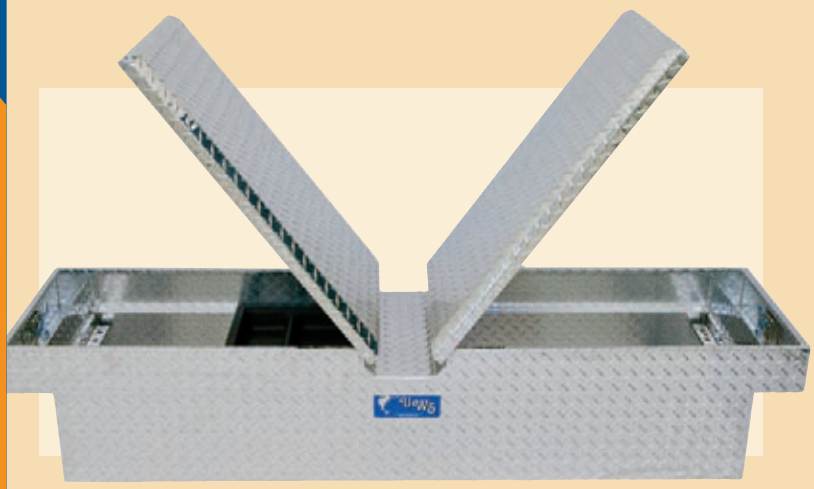


90° OPENING LID
Opens Fully for easy loading and unloading.

HEAVY DUTY STAINLESS STEEL LATCH
Interlocking stainless steel locks with adjustable steel strikers keep the toolbox tightly locked.

HEAVY DUTY GAS CYLINDERS
UWS Strong lid places the lift cylinders to the outer edge of the box for clean and uncluttered storage and cylinder action.

AVAILABLE IN BLACK POWDER COAT
Single Lid, Low Profile & Notched boxes are available in black powder coat. Add "BLK" to end of part #



Gull Wing

The Gull Wing Series* from UWS is a strong lower-profile cross box which mounts on the pickup bed. Each side of this box has a sturdy lockable stainless steel latch. Note the sliding tool tray, convenient side organizers and tool holders. The unique UWS twin foam Injected lids* give super-strength to a normally flexible lid. The solid UWS foamed lid* will help keep locks adjusted properly to provide dependable security for the box contents. This lower-profile style box allows for a more spacious view out of the rear window, thus providing the driver better rearward vision for safe maneuvering in traffic or checking the load. This new Gull Wing design has also virtually eliminated leaks commonly found in competitors Gull Wing Style boxes.

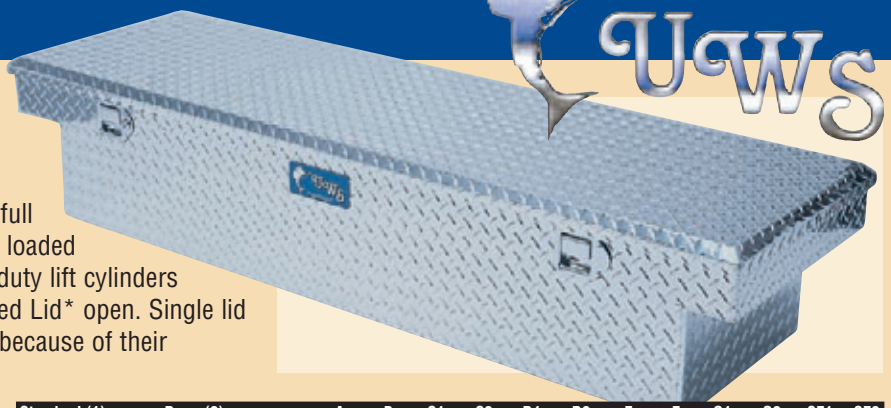
Single Lid



The Single Lid Series* from UWS is a lower-profile box with lids opening to a full 90 degrees; thus easily allowing it to be loaded with large and bulky items. Two super-duty lift cylinders help raise and hold the Structural Foamed Lid* open. Single lid boxes are the most popular selling box because of their large capacity and easy to use features.

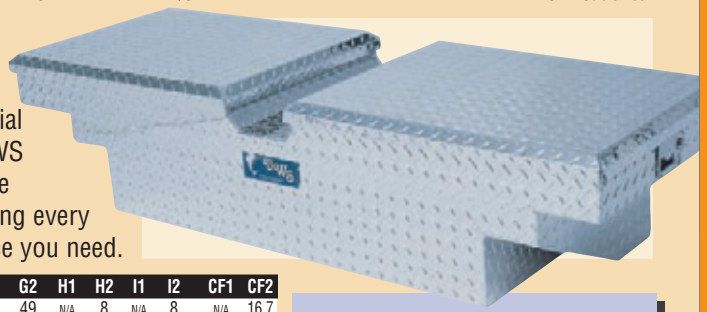
Notched



This Series was developed to accommodate the smaller import and domestic trucks. Notched Series boxes have special features including the Structurally Foamed Lids* that only UWS products can share. The notched box is unique because of the special shape that allows it to fit around the wheel well, utilizing every bit of space available without losing the important cargo space you need.

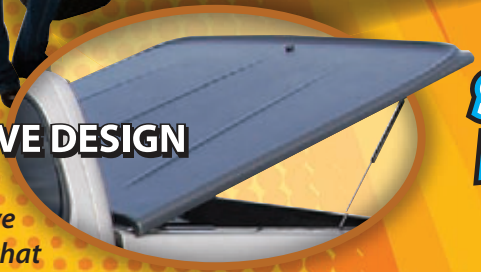
NEW UNDERCOVER SE™

UNDERCOVERINFO.COM

SOME THINGS CHANGE



NEW EXPRESSIVE DESIGN

Mild ribs and a curved spoiler give this cover a look that has never been seen before on a tonneau cover.

NEW CENTER POINT LOCK

Placement of the lock allows ease of use while the weather-proof twist-lock secures the cover on both sides.

SOME THINGS NEVER WILL

MADE IN THE USA

STILL As Light As 58lbs Seconds To Remove

STILL Unparalled In Strength And Durability

extang
AMERICA'S #1 SELLING TONNEAU

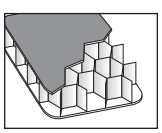
SOLID FOLD

FOLDING HARD LID TONNEAU

- Extang Engineered ultra strong, yet lightweight. All aluminum, aircraft grade, alloy frame and honeycomb core construction.
- Easy to use clamping system provides the ultimate in truck bed versatility. SpeedKlamps provide instant access at the tailgate (shown at right). SafetyKlamps at the cab secure simply by hand tightening.
- Sporty black textured poly-tex finish. UV protected against harmful rays and fading. Great for all climates.
- Keeps cargo protected, out of sight. The Solid Fold provides simple security with an OE or aftermarket tailgate lock and a single key.
- Maximum Strength Warranty - 3 years.

56000 SERIES

EXTANG TUFF HONEY COMB CONSTRUCTION



TRIFECTA™

TRI-FOLD STYLE TONNEAU

- Comes completely assembled. No Tools!
- 45 degree steel corner brackets, commercial grade rails and I-Beam style Monster Bows provide unparalleled strength.
- SafetyKlamps made of extremely strong glass-filled nylon construction.
- SpeedKlamps operate with spring action handle for instant fasten and release. Clamps conveniently stow away inside rail when not in use.
- The Trifecta offers two fabric options; traditional heavy-duty commercial grade vinyl, or the Signature Series with a rich looking vinyl-backed black canvas.
- Maximum Strength Warranty: Lifetime frame and tarp.

ALSO AVAILABLE
TRIFECTA Signature Series
PREMIUM FABRIC UPGRADE

44000 SERIES
46000 SIGNATURE SERIES

BLACKMAX™

THE BOLD, ALL BLACK TONNO

2000 series

BLACK RAILS & BOWS:

- BlackMax–when solid black is the bold look you want.
- Exclusive patented all-climate engineered design that's 4-way fully adjustable for cold weather. No tugging.
- The BlackMax features fiberglass reinforced nylon snaps that will not break.
- Snaps along cab rail allows quick and easy access into the front of your truck bed.
- Maximum Strength Warranty - Lifetime frame, 10 years tarp.

FULLTILT™

HEAVY DUTY HINGED TONNEAU

Snaps: 8000 series
Snapless: 38000 series

HINGED TONNEAU:

- Very easy to use and install.
- Available in snap or snapless style.
- Hinged at cab rail for full truck bed usage.
- Quick disconnect of gas shocks allows for easy removal.
- Lightweight design allows quick removal by one person.
- Self-centering closure design.
- Gas shocks provide easy open & close.
- Maximum Strength Warranty - Lifetime frame, 10 years tarp.
- Available to fit with an existing toolbox.

TUFF TONNO™

14000 series

SHARP LOOKS & TOUGH:

- Rotating rear end rail engineered for easier fit and tighter, better looks.
- "SpringLock" bows are easy to install and they'll never fall off at any speed.
- J45 strip is the world's strongest tarp attachment.
- Tuff Tonno gives you a clean, smooth side with its "peel & seal" strip edging and rear rail system.
- Maximum Strength Warranty - Lifetime frame, 10 years tarp.

ULTRA LOW PROFILE TONNEAU:

- Industry's first roll up with NO snaps and NO Velcro.
- Multi-directional tension system provides quick latch and go. Keeps tarp tight and looking great.
- Ultra low profile provides a stylish near flush fit.
- Tarp easily rolls up & instantly fastens using the double-latch system.
- Maximum Strength Warranty - Lifetime on frame and tarp!

CLASSIC PLATINUM

7000 series

PREMIUM METAL DESIGN:

- Exclusive all-climate tarp design that's fully adjustable 4 waysfor easy use in any climate.
- "SpringLock™" bows never fall off – easy to install.
- NO drilling and NO damage to the truck.
- One-handed tail rail quick release with the patented "ClickLock™" corner system.
- "SnapStopper™" keeps snaps on the rail when tarp is rolled up for bulk hauling.
- Maximum Strength Warranty - Lifetime frame, 10 years tarp.

EXPRESS TONNO

50000 series

ROLL-TOP TONNEAU:

- Installs in minutes! Extang Engineered side rails are pre-drilled for quick and easy no-measure clamp placement.
- Low profile clamps and unique side rail design keep clamps hidden out of the way for full truck bed usage.
- Quick release levers at the cab and tail rail. Tarp can be fastened at the cab, or completely removed when bulk hauling.
- Automatic, self-adjusting tension system keeps tarp taught and looking great in all weather conditions.
- Sleek, over-the-rail, aerodynamic design provides maximum performance. Repels water while improving mpg!!
- Maximum Strength Warranty - Lifetime on frame and tarp!

B-light TONNEAU LIGHTING SYSTEM

- Illuminate the entire bed with one control switch.
- The B-Light is totally compatible with all makes/models of pickup trucks.
- The B-Light kit contain 8 high intensity LED units with six bulbs each.
- The strategic under rail bed placement keeps the lights well protected.
- Fast and easy installation.
- 1 year warranty

315 SERIES 315-4 (4PK)

TONNO TONIC™

- Quickly cleans, beautifies and protects.
- UV protectant formulated for Extang's tonneau covers.
- Can be used on any vinyl, rubber, fiberglass or leather.
- Outstanding on tires and will not harm alloy wheels.

*✓The factory supplied track system will NOT work with the FullTilt. * FullTilt and Toolbox Tonneaus will not work with Ford F-150 optional track system. * FullTilts will not work with Dakota factory track system.*

ADDITIONAL APPLICATIONS AND TONNEAUS ARE AVAILABLE: INCLUDING VINTAGE AND INTERNATIONAL. *FullTilts will not work with Dakota factory track systems. * FullTilts and Toolbox Tonneaus will not work with Ford F-150 optional track systems.*

ROLL•N•LOCK® TONNEAU COVERS

ROLL•N•LOCK®

ROLL•N•LOCK®… the most advanced retractable truck bed cover systems made, have redefined the rules for truck bed security. From their retractable function to their rigid vinyl-over-aluminum laminated construction, these covers offer every feature you need.

ROLL•N•LOCK® E-Series™

Electric Retractable Cover

- Convenient remote control operation
- Fast opening electric motor over torsion-spring drive system
- Handy built-in cargo light
- Lowest-profile aluminum housing - only 7½" deep
- Patented emergency "Drive Converter" allows the operator to instantly convert from electric drive to manual with the turn of a handle
- AutoLock™ automatic tailgate lock

ROLL•N•LOCK® M-Series™

Manual Retractable Cover

- Smallest aluminum housing
- Aluminum cargo shield
- Heavy-duty torsion spring
- Aluminum reel mechanism
- Easy clamp-on installation
- Fast & convenient operation
- Multiple latching positions
- AutoLock™ automatic tailgate lock

CARGO MANAGER®

An optional companion product for either ***ROLL•N•LOCK® E-Series*** or ***M-Series***, ***Cargo Manager®*** is a moveable bed divider that can be positioned at any point along the length of the truck bed to manage and contain lightweight cargo.

- Easy positioning every 3"
- Laterally adjustable tie-offs
- Flip-up feature allows room for long objects
- Easily removable to accommodate large objects

1. ***Roll•N•Lock®*** unit impedes operation of the OE Bed Extender option.
2. Requires drilling holes to mount tracks.
3. OE cargo management system must be removed & discarded for installation of ***Roll•N•Lock®*** unit. Consider ***Cargo Manager®*** option.
4. Needs eight (8) #2 bed clamps.
5. OE plastic tailgate cap must be replaced with 1/16" thick aftermarket tailgate cap.
6. Special Order Only. Must provide exact bedrail length at time of order.
7. Uses additional flanges (included) that screw or clamp to the inside edge of the OE bed rails. Allow additional 15 min. for installation.
8. Ships in two boxes. Additional shipping charges may apply.
9. OE chrome bedrails must be removed and discarded. Mounting holes will be visible. Consider replacing OE bedrail caps.
10. OE tailgate cap must be replaced with aftermarket tailgate cap provided with system.
11. If equipped with OE tailgate step, cover must be converted to an "NT" (no tailgate lock) installation. Necessary components are included.
12. Reduces OE trunk opening to 15.5"
13. '99 - '00 models require the use of eight (8) #2 Clamps

ROLL·N·LOCK®

TRUXEDO Lo-Pro QT Patented — #1 SELLING SOFT ROLL-UP TONNEAU COVER

LIFETIME WARRANTY covers everything, even the fabric

Improves Gas Mileage Up To 10%

Easy, No Drill Installation

Sleek, Low Profile Appearance
Inside mounts for a sleek appearance on any truck.

Patented Auto Tension Control
Self-adjusts to keep the cover tight in any temperature.

Easy Trigger Latch
One finger release opens quickly.

Quick & Easy Installation
Installs in minutes with quick attach header guide.

Floating Attachment System
Hook and loop moves on the rail to keep the cover tight.

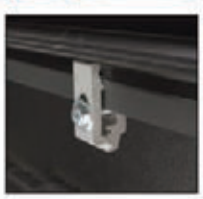
Exclusive Side & Corner Seals
Keeps elements out and protects cargo.

NEW Edge — NEWEST SOFT ROLL-UP TONNEAU BY TRUXEDO®

5 Year Warranty

NEW Cutting Edge Design
Inside mount design with aerodynamic arched back improves the look of any truck.

Style & Value
Economical inside mount design works with most bed caps and rails. Stylish look and quality at a competitive price.



Simple Installation
No drill, clamp-on installation in less than 20 minutes.

Adjustable Tension Control
No tools - Adjusts in seconds to keep the cover tight.

Easy, No Drill Installation

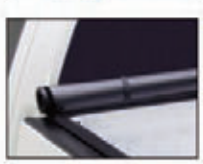
TRUXPORT — ECONOMICAL, SOFT ROLL-UP TONNEAU COVER

Improves Gas Mileage Up To 10%

5 Year Warranty

Quick One-Person Operation
No loose parts - Cover completely rolls up and self-stores in seconds.

Smooth Look
No covered wagon style arched bows.



Fast Install
Easy clamp-on installation in minutes.

Adjustable Tension Control
Integrated into the latching system for easy access. Adjusts in seconds to keep the cover tight.

Easy, No Drill Installation

THE PERFECT MATE FOR YOUR TONNEAU COVER

One SKU: P/N 1117416
Universal design fits most full-size trucks with or without a tonneau cover.

Tonneau Cover Companion
Mounts under a cover for added security - Works great with many tonneau covers.

Under Cover & Off Floor
Mounts to bed side for use of the entire truck bed floor. Easy access to the bottom of the toolbox.

Durable Construction
Aluminum frame and composite design supports heavy loads up to 200 lbs. and built to last.

Four properly placed handle clamps for easy installation

BEDRUG

THE NEXT GENERATION BEDLINER

BEDTRED PRO SERIES

NEW ZIPPER DESIGN

BEDTRED OUTPERFORMS SPRAY-IN/ DROP-IN LINERS

Get the look of a spray in bedliner without damaging your truck bed finish. BedTred offers features superior to any spray-in liner, including dent & cargo protection, quick & easy install, and a lifetime warranty. The textured anti-skid surface is UV resistant and surpasses any other liner on the market today.

BEDRUG

TOUGHER THAN YOUR TRUCK

100% Plastic Liner: Durable bed protection that looks and feels like carpet. Will not absorb water!

Ultimate Bed Protection: Keeps cargo from shifting AND provides impact & scratch protection for the truck bed.

Great Looks: Vehicle specific contour fit. 3/4" ribbed foam backing molds to the shape of the truck bed.

BEDRUG MAT

VERSATILE BED PROTECTION

Durable & Convenient: Same great construction as BedRug Liner in a convenient BedMat style.

Works with other liners: Available for Drop-in & non-liner/Spray-in applications.

Optional Tailgate Mat: Tailgate Mat is sold separately.

MANY MORE PRODUCTS & APPLICATIONS AVAILABLE. CALL OR STOP BY TODAY FOR PRICING AND AVAILABILITY.

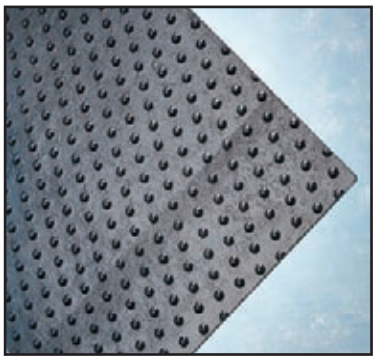
HEAVY WEIGHT BED MATS

ProTecta

Protection, Durability and Value All Rolled Into One Bedmat

Better by design, ProTecta Heavy Weight Bedmats and Tailgate Protectors are extra thick to give you exceptional toughness and durability. Our lifetime warranty guarantees it!

Extra thickness—a full, 3/8-inch—provides up to 50% more protection than other bedmats.



Knobby underside promotes aeration and drainage to keep truck bed dry, helping to prevent rust and mildew.

KC SlimLites

KC **SlimLites**® feature a 6" round housing with a sleek, flat profile that allows them to fit where many other lights won't. Their optical quality glass lens, halogen bulb and precision polished reflectors combine to generate a super bright and specially focused beam of light. KC Stone Guards are included with the lights. They're available in plated "Titanium Look", chrome plated or black powder coat finishes.

KC SlimLite Pair Packs Include:
- Two KC SlimLites with two protective stone guards
- Pre-terminated relay wiring harness
- Illustrated installation instructions

KC Front End Lite Bars

23 Year Warranty **On all KC Products**

KC **FRONT END LITE BARS** are an attractive alternative to bulky bumpers and grille guards. They feature a great looking textured BLACK POWDER COAT finish. An optional *BRIGHT SILVER POWDER COAT* finish is also available for a select number of applications. KC Lite Bars come with light mounting tabs for 2, 3, 4 or 5 lights, depending on model and application. Installation is simple, bolting up to existing factory holes, so there's no need for drilling, plus they're UPS shippable.

Nifty™ Xtreme™ Catch-All

Patented snap fastener system

Cleans easily simply hose off

ACCESSORIES TRUCK & SUV

Floor Protection with Attitude

- Custom molded to each vehicle for exact shaping and a perfect fit
- Covers maximum floor area for extreme protection
- Professional slip resistant surface is designed to minimize shifting of cargo and other objects
- Patented snap fastener system secures the Catch-All Xtreme™ in place and ensures stability under foot
- Patented molded outer edge creates an anti-penetrating barrier preventing unwanted debris and moisture from breaching onto the original carpeting or flooring
- Available in gray, tan and black to complement the interior of any vehicle
- Easy to clean - simply hose and wipe dry
- Lifetime guarantee not to crack, split or break - heavier than the competition

2nd Seat and SUV Rear Cargo Mats are also available.

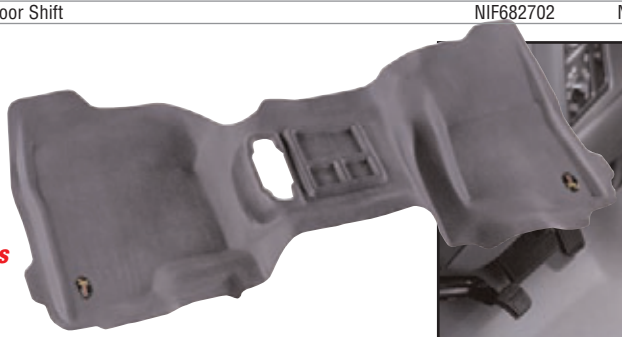
Xtreme™ Catch-All PLUS™



Xtreme Protection for Xtreme Conditions

- Custom molded for a perfect fit
- Innovative one-piece design for maximum floor protection
- Professional slip resistant surface is designed to minimize shifting of cargo and other objects
- Patented snap fastener system secures the Catch-All Xtreme™ in place and ensures stability under foot
- Patented molded outer edge creates an anti-penetrating barrier preventing unwanted debris and moisture from breaching onto the original carpeting or flooring
- Available in gray, tan and black to complement the interior of any vehicle
- Easy to clean - simply hose off and wipe dry
- Lifetime guarantee not to crack, split or break - heavier than the competition

The WARN 15 Series: Perfect for Sport Quads and Small ATVs

RT15 ATV winch

With 1,500 lbs. of pulling power, this winch is great for getting a stuck sport quad or small ATV out of a sticky situation. Standard features include a sealed 0.4hp motor; 50' of 5/32" diameter aircraft-grade wire rope; a potted-and-sealed mini-rocker handlebar control; a compact waterproof contactor; and a hawse fairlead. **PN 66200**

XT15 ATV Winch

This is the top-of-the-line 1,500 lb. light-duty winch perfect for sport quads or small ATVs. It comes standard with 50' of 5/32" synthetic rope for light weight and easy handling; a sealed 0.4hp motor; a potted-and-sealed mini-rocker handlebar control; a compact waterproof contactor; and a roller fairlead. WAR **73150**

The WARN 25 Series: Industry Standard for ATVs

RT25 ATV Winch

With 2,500 lbs. of pulling capacity, this winch has plenty of muscle to pull a stuck ATV from the muck, plus it is fully sealed for plenty of protection against Mother Nature. Features include an all-new 0.9hp motor; 50' of 3/16" diameter aircraft-grade wire rope; an ergonomically designed clutch knob; a potted-and-sealed mini-rocker handlebar control; a waterproof contactor; and a roller fairlead. **PN 75000**

XT25 ATV Winch

Here is the premium 2,500-lb. ATV winch. It comes with 50' of 3/16" diameter synthetic rope for less weight and easy handling, and features include an all-new 0.9hp motor; an ergonomically designed clutch knob; a potted-and-sealed mini-rocker handlebar control; a waterproof contactor; and a roller fairlead. Don't worry about the weather; this winch is fully sealed. WAR **75500**

The WARN 30 Series: Ultimate Power to Recover the Biggest ATVS

RT30 ATV Winch

This winch will rescue the heaviest of ATVs thanks to 3,000 lbs. of pulling strength, and it's fully sealed, meaning outside elements stay outside. Includes an all-new 0.9hp motor; 50' of 3/16" wire rope; an ergonomically designed clutch knob; a hand-held remote and a potted-and-sealed mini rocker handlebar control; a waterproof contactor; and a roller fairlead.

The mini-rocker switch and the hand-held remote are both included with the RT30 winch

WAR **76000**

XT30 ATV Winch

This is the ultimate ATV winch! With 3,000 lbs. of pulling capacity, it can rescue the heaviest ATVs, and to keep the elements out, the winch is fully sealed. Premium amenities include a wireless remote with handlebar-mounted holster, and 50' of 3/16" diameter synthetic rope for reduced weight and easy handling. This winch also features a new 0.9hp motor; an ergonomically designed clutch knob; a potted-and-sealed mini-rocker handlebar control; a waterproof contactor; and a roller fairlead.

The mini-rocker switch and the wireless remote come standard with the XT30 winch

WAR **76500**

WARN ATV Winch Mounting Systems

- *Warn mounting systems are built for nearly every ATV on the trail.*
- *Each system is custom designed to fit specific ATV models.*
- *Durable and long lasting, laser cut, robotically welded.*
- *CNC bent for precise fit.*
- *All necessary hardware included.*

See Warn Catalog or website for application part numbers

WARN PROVANTAGE PLOW SYSTEM

The WARN ProVantage ATV and Side x Side plow systems have been designed from the ground up to be the most versatile, durable, and high-performance powersports plow systems on the market. They're easy to connect, heavy-duty, and engineered to perform. And with a variety of useful, innovative accessories, they're the most complete plow system money can buy.

Features include:

- *A variety of heavy-duty plow blades in sizes from 50" to 72"*
- *High lift height*
- *Rapid-connect, front-mount system for easy attachment—no crawling under the vehicle*
- *Plow mount does not interfere with ground clearance*
- *A variety of accessories to help you get the job done efficiently*

WINCHES

WAR **20910** *Hawse Fairlead, 80' wire rope*

M6000

A COMPACT 6,000 LB. CAPACITY WINCH

- *Line speed is fast across the pulling range – 48.5 feet / minute no-load retrieval rate, 10 feet / minute full-load pull rate.*
- *4.8 hp series-wound motor delivers big torque and power.*
- *Runs cool with lower amp draw for longer winching duty cycles.*
- *Comes with 80 ft. of wire rope, remote control, roller fairlead*

WAR **45880** *M6000 Winch*
WAR **39116** *M6000 SDP Portable Winch. Includes 6000 lb. capacity winch, carrier, 50' wire rope, hook, 12' remote control, hawse fairlead and wiring for front of vehicle (not pictured).*

M8274-50

THE FASTEST IS EVEN FASTER.

- *Our original 8,000-lb. capacity off-road winch.*
- *No-load retrieval line speed is fast– 73.4 feet / minute.*
- *Line capacity is long–150 ft. of 5/16" wire rope.*
- *4.6 hp series-wound motor delivers big torque and power.*
- *Spur-gear drive train and upright design are totally rugged.*
- *Comes with hook, remote control on 12' lead, free-spool clutch, roller fairlead and battery cables.*

WAR **38631**

VALUE SERIES • Delivers the best value for the entry-level winch user

Tabor 9K

- *9,000 lb. capacity, low profile winch*
- *Automatic brake and freespooling actuator*
- *3-stage planetary gear train*
- *100' of 5/16" diameter wire rope, roller fairlead and hand-held remote control*

WAR **900560**

Tabor 12K

- *12,000 lb. capacity, low profile winch*
- *Automatic brake and freespooling actuator*
- *3-stage planetary gear train*
- *80' of wire rope, roller fairlead and hand-held remote control*

PowerPlant™
DUAL FORCE

COMBINES AN AIR COMPRESSOR WITH A WARN WINCH FOR THE ULTIMATE ON- BOARD TOOL

- *Available in two models – HP model has a 9,500 lb. pulling capacity; HD model has a 12,000 lb. capacity*
- *Compressor allows you to rapidly air-up tires, run air tools, or inflate recreational items, such as rafts*
- *1/2 gallon on-board air tank with intercooler*
- *100 PSI max air pressure; flows 12 CFM at 0 PSI; 5 CFM at 90 PSI*
- *Thermometric switch prevents the unit from overheating*
- *Hand-held control with thermometric LED*

PowerPlant™ Dual Force HD
FOR HEAVIER PICKUPS

- *Best-in-class on-board air, plus the heavy pulling power and longer winch duty cycle trucks require*
- *12,000 lbs. maximum rated pull*
- *Geared to deliver an extra long winching duty cycle*
- *80 feet of 3/8" wire rope*

WAR **71801**

PowerPlant™ Dual Force HP
FOR OFF-ROAD VEHICLES

- *Best-in-class on-board air, plus a winch geared to deliver the fast line speeds serious off-roaders demand*
- *9,500 lbs. maximum rated pull*
- *Fast line speed of 26.9 feet per minute (no load), 5.2 feet per minute (at 9,500 lbs. max load)*
- *125 feet of 5/16" wire rope*

WAR **71800**

PowerPlant Air Accessory Upgrade Kit
Includes heavy-duty tire inflator, 4 tire deflators, extra 25' of nylon hose, quick-connect couplings, custom WARN® storage bag.
WAR **73945**

PowerPlant Auxiliary Air Tanks
2.5 gallon WAR **73938**
5 gallon WAR **73939**

PowerPlant Plumbing Kit
Includes everything needed to hook the PowerPlant up to WARN Auxiliary Air Tanks.
WAR **73940**

ULTIMATE PERFORMANCE SERIES FOR THE SERIOUS OFF-ROADER
- Industry-leading technology
- No-compromise construction
- Highest performance and reliability
- Extreme sealing
- WARN Limited Lifetime Warranty

Endurance 12.0
12,000 LBS. OF PULLING POWER. 0 POUNDS OF QUIT.

- *Remote-mount fan cools the winch motor for the ultimate in performance, delivering the longest duty cycle of any electric winch on the market today*
- *Heavy-duty contactor for increased durability and reliability*
- *High-speed, three-stage planetary geartrain for fast, smooth, and dependable operation*
- *Stainless-steel clutch lever and hardware for protection against the elements*
- *Extreme-duty winch sealing to keep the elements out* WAR **73010**

9.0Rc
LIGHTWEIGHT, COMPACT WINCH FOR ROCKCRAWLERS

- *Lightweight, short-drum 9,000 lb. capacity winch*
- *Includes 50' of 3/8" diameter synthetic rope with 360-degree swivel hook, polished aluminum hawse fairlead and remote control*
- *4.8 hp series-wound motor and extreme duty control pack provide reliable operation and fast line speeds*
- *Exclusive, multi-segment cam actuated brake gives positive operator control during winching*
- *Extreme duty winch sealing provides superior water resistance*

WAR **71550**

9.5xp
EXTREME PERFORMANCE

TOP OF THE LINE. FAST AND POWERFUL.

- *9,500 lb. capacity winch features a 6 hp, high-output parallel series-wound motor that delivers the fastest line speed under load and longest duty cycle of any WARN self-recovery winch.*
- *Other features include a 3-stage planetary geartrain and a multi-segment cam actuated brake for positive operator control when winching.*
- *New, continuous duty control pack delivers long winching duty cycles. High gloss, chip resistant powder coat finish over chromate coating affords superior corrosion resistance.*
- *Extreme duty winch sealing system enables superior water resistance.*
- *Comes with 100' of 5/16" wire rope, hook, remote control on 12' lead, clutch, roller fairlead and battery cables.*

WAR **68500**

9.5cti CONTACTOR EQUIPPED, THERMOMETRIC

THE NEWEST ADDITION TO THE WARN ULTIMATE PERFORMANCE WINCH LINEUP

- *Massive protective structure combined with sophisticated operator feedback*
- *New contactor control features exceptional durability, extra long life, and superior weather sealing*
- *9,500 lbs. of pulling capacity, fast line speeds, and long duty cycles*
- *Extreme duty winch sealing system*
- *Motor-mounted thermal sensor relays temperature information to winch operator by way of the hand-held remote control with LED indicator*
- *Redesigned remote control stands up to rough treatment off-road. Rubberized, ergonomic pistol-grip handle. Remote is ultra weather/mud resistant thanks to improved sealing.*
- *High gloss, chip-resistant black powder coat finish over a massive cast-aluminum alloy housing*
- *Comes with 125 ft. of 5/16" wire rope, hook, remote control on 12' lead, and roller fairlead*

WARN 1700 Utility Winch

A DYNAMO IN A SMALL PACKAGE

- *1,700 lb. pulling capacity*
- *DC-powered, 1.6 hp. motor requires minimal amp draw*
- *Clutch makes free spool simple*
- *Hand-held remote controls power-in and out*
- *Brake is a self-locking gear train that holds full rated load*
- *Tension plate keeps wire rope tightly wound*
- *Includes 35' of 3/16" wire rope with hook and fairlead*

WAR **651700**

WARN 3700 Utility Winch

MEDIUM CAPACITY WINCH THAT MAKES TOUGH PULLING CHORES EASY

- *3,700 lb. pulling capacity*
- *1.9 hp. permanent magnet motor and robust three-stage planetary gear design.*
- *Includes 60' of 7/32" wire rope with safety-clasp hook and roller fairlead.*
- *Wireless ready*

WAR **603700**

WARN 4700 Utility Winch

MAKE WORK EVEN EASIER WITH A HIGH CAPACITY WINCH

- *4,700 lb. pulling capacity*
- *All metal gear housing and gear train.*
- *1.9 hp. permanent magnet motor and patented split-ring gear design.*
- *60' of 7/32" wire rope with safety-clasp hook.*
- *Wireless ready*

WAR **604700**

WARN 1000AC UTILITY WINCH

If you're looking for an AC-powered utility winch for the shop, garage, or anywhere else 120V power is available, check out the WARN 1000AC. Features include:

- *Strong 1,000 lb. (454 kg) pulling capacity*
- *Superior duty cycle*
- *Long 43' (13.1 m) of 3/16" (4.8 mm) wire rope*
- *Smooth and durable planetary geartrain*
- *Powerful permanent-magnet motor with serviceable brushes for long life*
- *Sealed, pendant-style remote with 8' (2.4 m) lead*

WAR **80010**

Wireless Control System

- *Control your winch from anywhere within a 50' range*
- *Rugged, water-resistant transmitter is ergonomically designed and easy to use*
- *Complete kit includes everything needed to add wireless control*
- *Compatible with any wireless-ready WARN utility winch*

WAR **79080**

Hitch Adapter

FOR VEHICLE MOUNTING OF WARN WORKS WINCHES

- *Use with the Universal Mounting Plate to mount WARN Works winches.*
- *Mounts to 2" Class III Receiver*
- *Hitch pin is included*

WAR **68531**

Universal Mounting Plate

FOR WARN WORKS® WINCHES

- *Provides a safe and stable mounting platform.*
- *Can be permanently mounted to a platform surface, or it can allow the winch to be portable and anchored to a variety of objects.*

For Standard Mounting Kit

Synthetic Rope

- *Easier to handle than traditional wire rope*
- *100' of 3/8"-diameter plasma fiber rope with high abrasion resistance*
- *Coated with black high-temperature urethane*
- *Includes black high-temperature-resistant Nomex sleeve on first layer*
- *Unique self-tightening rope attachment keeps rope secure on winch drum*
- *Ballistic nylon sliding sleeve to provide extra protection against abrasion and wear*
- *360-degree swiveling hook*
- *For winches with 9,500 lb. pull rating or less*
- *The only synthetic rope approved by Warn Industries for use on WARN winches*

WAR **76300**

ON-BOARD AIR COMPRESSORS

NEW FROM WARN – a full line of powerful, reliable on-board 12V air compressors.
Whether you're powering your air tools or inflating your tires, it's time to call in WARN Air-Power.

Air-Power VTC

THE ULTIMATE ON-BOARD 12V AIR COMPRESSOR

- *Perfect for inflating tires, powering air tools, and more.*
- *Fan-cooled motor and V-twin-style compressor produces an airflow rating of 20 CFM @ 0 PSI and 8 CFM @90 PSI*
- *On-board one-gallon air tank/intercooler helps even air flow and extend hose life*
- *Air-pressure switch prevents the unit from exceeding 125 PSI*
- *Removable carrying cage allows unit to be portable or hard mounted to a vehicle or trailer*

WAR **75789**

Air-Power SPI

POWERFUL 12V AIR COMPRESSOR SMALL ENOUGH TO BE MOUNTED ALMOST ANYWHERE

- *Perfect for powering air tools, inflating tires, and more*
- *Fan-cooled motor powers single-piston compressor to produce airflow of 12 CFM @ 0 PSI and 4 CFM @ 90 PSI*
- *Pressure switch turns the unit off at maximum 100 PSI and turns it back on when more air is needed*
- *Removable carry cage allows the unit to be portable or hard mounted to a vehicle or trailer*

WAR **76800**

Air-Power SPC

BIG ON POWER AND VALUE, BUT SMALL ON SIZE

- *Powerful, efficient motor with a thermal protection device to prevent overheating and prolong product life*
- *A quick-connect coupler allows the 25' air hose to be attached and removed easily*
- *Can be hard mounted, or can remain portable, thanks to a carry handle*
- *Includes carry bag, dual air chuck and 25' air hose*

WAR **77495**

WINCH BUMPERS

WARN Heavy Duty Bumper FOR FORD, CHEVY AND DODGE TRUCKS.

- *Bumpers come standard without grille/brush guard. Bumpers with integrated tubular grille/brush guard assembly available through special order*
- *All steel construction and textured black powder-coated finish*
- *Integrated ports for 5" WARN lights*
- *Additional light mounting holes in top of the bumper*
- *Reuses factory tow hooks or comes with welded eyelets for D-shackles*
- *Accommodates diesel applications and oversize tires*
- *Commercial duty rated and fleet approved*
- *Rated for use with all WARN large-frame winches including the 16.5ti*

See application guide for part numbers.

WAR **73040** *Front Off-Road Winch Bumper*
WAR **73961** *Rear Off-Road Bumper*

WARN® Off-Road Bumpers for the 2007 Toyota® FJ Cruiser

INCREASE YOUR FJ'S RECOVERY OPTIONS.

- *Front Off-Road Winch Bumper has an integral winch mount to accommodate all current WARN mid-frame winches, including PowerPlant Dual Force. Features integrated grille guard for increased protection, auxiliary light brackets to accommodate WARN lights, and lower fog-lamp mounts.*
- *Rear Off-Road Bumper fits around factory receiver hitch, accommodates factory back-up sensors (if so equipped), and features a cutaway to allow factory tire carrier to transport up to a 33" tire.*
- *Rugged black powder-coated wrinkle finish for outstanding durability.*

WARN Bumper for the Jeep® XJ

- *Replaces the factory bumper with function and style.*
- *Sloped vertical surfaces are tapered and welded; designed to allow for maximum approach angles.*
- *Bumper sides continue around to the flare so they match the style-line and protect the unibody parts.*
- *Welded eyelets are ready for D-shackles and the winch mounting system is integrated and pull-tested for winches up to 9500-pound capacity.*
- *Made from 3/16" and 1/4" steel and black powder coated.*

WAR **64535** *(with grille guard tubes)*
WAR **64737** *(without grille guard tubes)*
WAR **65852** *Extension kit (required for '97–01 models)*

WINCH ACCESSORIES

Medium-Duty Winch Accessory Kit

FOR WINCHES FROM 4,000 - 9,500 LBS. EVERYTHING YOU NEED IN ONE KIT.

- *Includes snatch block, tree protector, shackle, gloves, and 10' of 5/16" grade 7 choker chain with hooks.*
- *Compact nylon soft case with 4 internal pockets.*

WAR **25300** *Kit with Red Bag*
WAR **37880** *Kit with Camouflage Bag*

Heavy-Duty Winch Accessory Kit

FOR HEAVY-DUTY WORK (24,000 LBS.), THIS IS WHAT TO CARRY. ALWAYS.

- *Includes snatch block, tree protector, shackle, gloves, choker chain, and 3" x 30' recovery strap.*
- *All carried in compact, camouflage soft case.*

WAR **29460** *(Camouflage)*

Tree Trunk Protector

- *Rigging strap is used to secure winch rope to anchor point*

WAR **25322** *2" x 8' Rated at 14,400 lbs. breaking strength.*
WAR **61415** *4" x 8' Rated at 30,000 lbs. breaking strength. (For use with the M15000).*

Wireless Winch Control

OPERATE YOUR WINCH WITH NO STRINGS (OR WIRES) ATTACHED

- *Operate your truck's winch remotely from up to 50' away.*
- *The system will work with any WARN winch with 5 wire electrical system*
- *For easy installation, the Wireless Control System comes with a receiver with an internal antenna, and all of the necessary mounting hardware is included.*
- *Weather-proof transmitter has two large buttons that make it easy to operate, even while wearing gloves, and its two-color LED provides operator feedback.*

WAR **76080**

Remote Control Kit

FOR VEHICLE MOUNTED WINCH, 5 PRONG WITH PLASTIC PLUG.

- *Includes 12' lead and rubber hand grip.*
- *Comes standard with Self-Recovery winches.*

WAR **83665** *Standard remote*
WAR **83653** *Remote for PowerPlant*
WAR **83669** *Remote for Endurance 12.0*
WAR **83658** *Remote for 9.5ti*

Premium Recovery Strap

BEST IN THE INDUSTRY. WITH SLIDING WEAR SLEEVE.

- *Use a recovery strap to "snatch" or pull out a stuck vehicle.*
- *Nylon webbing absorbs the shock of heavy pulls, while the elastic rebound energy aids in quick recovery.*

WAR **29898** *2" strap* WAR **29899** *3" strap*

GEN II *Trans4mer®* MOUNTING SYSTEM

NEW DESIGN FROM WARN INDUSTRIES

The newly engineered winch tray bolts directly to your vehicle's frame, making it easier than ever to mount a winch to a vehicle. Now, whether you simply need a strong, durable place to mount your WARN winch, or you want the top-of-the line system with headlamp guards, grille guard, light bar, and a front receiver, the WARN Gen II Trans4mer system is more accessible, durable, and versatile than ever before.

See WARN application guide or call for application part number.

BASE KIT

This group of parts features the minimum amount of components needed to attach the Gen II Trans4mer to your vehicle. It allows you to mount either a WARN winch or up to four WARN lights on your truck.

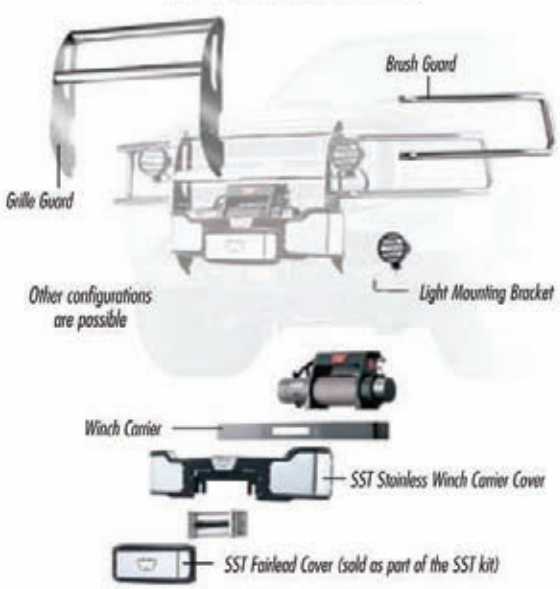
1. *Mounting Brackets*
   - *Attaches to the system to the vehicle*
   - *Vehicle-specific application*
2. *Winch Tray*
   - *Allows you to mount a WARN winch*
   - *Available for mid-frame or large-frame winches*
   - *Includes tow hooks*
   - *Black or stainless steel finish*
   - *Includes optional Light Mounting Bracket, allowing you to mount up to four WARN lights instead of a winch. Note: Light mounting bracket cannot be used with winch*

OPTIONAL GEN II TRANS4MER PARTS

These optional parts can be added to the Base Kit, and allow you to get the most out of the Gen II Trans4mer.

3. *Grille Guard*
   - *Gives you extra protection to your vehicle's grille area*
   - *Allows you to mount other optional parts*
   - *Vehicle-specific application*
   - *Available in black or stainless steel finish*
4. *Light Mounting Bar*
   - *Lets you use up to four WARN lights with a WARN winch*
   - *Attaches to the Grille Guard; has three different mounting positions*
   - *Vehicle-specific application*
   - *Available in black or stainless steel finish*
5. *Headlamp Guards*
   - *Protects the area around your vehicle's headlamps*
   - *Attaches to Grille Guard*
   - *Available in black or stainless steel finish*
6. *Receiver Bracket*
   - *Class III, 2" receiver for the front of a vehicle.*
   - *For use with WARN Multi-Mount system or receiver shackle*
   - *Universal fit*
   - *Black finish only*

TRANS4MER WITH FIXED WINCH MOUNT AND SST CARRIER COVER



Trans4mer® Mounting System

THE MOST VERSATILE MOUNTING SYSTEM ON AND OFF THE ROAD TODAY.

- *Six piece system includes grille guard, brush guard, winch carrier, stainless fascia, light bar and receiver.*
- *Add entire system at once or experiment with different looks piece by piece.*
- *Available for virtually every truck on the road—in black powder coat or polished stainless steel finishes.*
- *Mounts around factory bumpers for easy installation.*
- *Holds all WARN winches securely in the optimal position.*

See WARN application guide or call for application part number.

Hidden Kit Winch Mounting System

FOR A MORE MODEST SHOW OF FORCE.

- *Designed for those who want the benefits of a WARN winch without having to change the original lines of their vehicle.*
- *Currently available for most newer Chevrolet, GMC, Ford, and Dodge full-size trucks.*

Ford Super Duty and Excursion:

- *Able to accommodate the Warn M12, M15 and 16.5ti winches with a slight adjustment of the bumper five inches outward.*
- *Matte black ABS trim, applied to accentuate factory lines, can also be painted to match the vehicle color.*
- *Winch controls are accessed from the top.*

'97-05 Ford 4x4 F150 and '97-02 Expedition:

- *Winch mounts fully inside the factory bumper.*
- *Wire rope is fed through a roller fairlead mounted beneath the bumper.*
- *Controls area accessed through large air intake in the bumper.*

Heavy Duty Chevy and GMC kits:

- *Includes a special XD9000 short-drum winch, only available as part of this kit, which was created to fit the special requirements of this mounting system.*
- *The XD9000 winch includes a 5/16" x 50' long wire rope and is pre-assembled to the hidden kit's mounting bracket.*
- *Designed to bolt directly to the truck frame so the only visible feature is the bumper and the integrated roller fairlead.*

Chevy and GMC 1/2 ton pickup and sport utility:

- *System can handle up to the Warn 9.5ti winch.*
- *Winch is hidden and protected behind the factory bumper.*
- *Remote control extension allows remote to be plugged into location of your choice.*

WARN® Rock Crawler Front Bumper for Jeep® Vehicles

TOUGH, DURABLE, WELL DESIGNED.

- *Available for Wrangler JK, TJ, YJ, and CJ*
- *Tapered ends for increased approach angles and clearance*
- *Welded eyelets to mount D-shackles, and pre-drilled holes to mount lights*
- *Laser-cut from 3/16" steel, then CNC formed and robotically welded for precise fit*
- *Black powder-coated finish for durability and good looks*
- *JK bumper features black wrinkle-coat finish, optional skid plate for factory blocker beam, and integrated ports for 5" lights (lights sold separately)*
- *Optional grille guard tube sold separately*
- *Winch plate required to mount winch (sold separately)*

(Not compatible with M8274-50 winch plate PN 21395)
'76–86 CJ, WAR **51861** *Requires winch plate PN 13910 or 11310*

WARN® Rock Crawler Rear Bumper for Jeep® Vehicles

DESIGNED FOR MAXIMUM OFF-ROAD PERFORMANCE.

- *Available for Jeep Wrangler JK, TJ, YJ, and CJ*
- *Tapered ends for increased approach angles and clearance*
- *For increased recovery options on the TJ, YJ, and CJ, there's an integrated 2" receiver hitch to mount your portable winch or shackle bracket (not rated for towing)*
- *Bumper for the JK features welded eyelets for D-shackles and a cutout for the factory hitch*
- *Laser cut from 3/16" steel, CNC formed and robotically welded for precise fit*
- *Powder coated to enhance durability. Bumper for the JK features wrinkle finish*
- *Available with or without tire carrier*
- *Tire carrier model is designed to carry heavier tires (up to 37")*

Rock Crawler bumper only (will not accept tire carrier):
'97–06 TJ, WAR **61854**
'87–95 YJ, WAR **51857**

'97–06 TJ, WAR **65508**
'87–95 YJ, WAR **5509**
'76–86 CJ7, WAR **52947**

Tire carrier (carrier only – bumper sold separately):
For use with PN 62947, WAR **63253**
For use with PN 65508, PN 65509, WAR **4337**
For use with PN 74300, WAR **4299**

WARN® Winch Mounting Plate for Jeep® Vehicles

TWO OPTIONS FOR MOUNTING A WARN WINCH.

- *Option #1: A mounting plate that connects the classic M8274-50 to the standard factory bumper or the WARN Rock Crawler Bumper.*
- *Option #2: A plate that mounts the XD9500i, XD9000i and other low profile winches to the standard bumper, optional factory tube bumpers, or the WARN Rock Crawler bumper.*

Choose from two optional grille guard tubes: one designed to fit the factory bumper, or another for the WARN Rock crawler bumper

See application chart for part numbers

Jeep TJ shown with optional grille guard tube for the factory bumper

Jeep CJ shown with optional grille guard tube for the WARN Rock Crawler bumper

4X Flares™

AGGRESSIVE STYLING AND A TOUGH, PROFESSIONAL LOOK.

- *The best way to protect a vehicle's paint and glass from rocks and debris.*
- *Made of an exclusive Armor Guard™ high impact ABS co-laminate for maximum flexibility and durability.*
- *Easily mounted inside fender wells with screws.*
- *Available in black finish but easily painted to match any color.*
- *Sold in pairs for front or rear of vehicle.*

See application chart for part numbers.

Screws securely mount flares inside wheel wells. Heavy-duty tape seals flares to fender rim, sealing out dirt and moisture.

WARN Rock Sliders for the Jeep Wrangler JK, YJ, CJ and Cherokee XJ

- *Thick steel construction and black powder coat finish.*
- *For the Wrangler TJ, YJ, and CJ, the steel plate bolts right to the Jeep body.*
- *For the Wrangler JK, Cherokee XJ, tube style sliders use support brackets bolted directly to the subframe.*
- *Mounting hardware is included. Some drilling required.*

Steel plate bolt right to the body, protecting the most vulnerable area.

Tube style sliders for the Cherokee XJ and Wrangler JK bolt directly to the subframe

Standard Manual Hubs

OUR REPUTATION FOR QUALITY AND INNOVATION IS UNMATCHED IN THE INDUSTRY.

- *Designed to fit most 1/2, 3/4 and 1 ton 4WD vehicles. Same quality as original equipment hubs.*
- *Features chrome-plated or painted housings and sure-turn dials for easy engagement.*
- *Installation time is less than 1 hour per set. Guaranteed for life.*

See application chart for part numbers

Premium Manual Hubs

BEST SELLING HUBS IN THE WORLD. MADE IN THE U.S.A.

- *Made of new ZA27 super alloy body and durable, all metal components.*
- *First choice for most 4WDs manufactured today.*
- *Longer clutch-ring spline teeth and body spline area for better load handling.*
- *Larger body wall thickness to optimize clutching strength.*
- *Corrosion resistant, chrome-plated finish for long-lasting performance.*

See application chart for part numbers

OFF-ROAD LIGHTS

SDB-210HB Driving/Spot Light

- *A 9" dual-beam light, controlled by a dashboard switch.*
- *Spot beam range is 886 feet. Driving beam range is 429 feet.*
- *Internal light frame protects the lamp against vibration and shock.*
- *Stone guard protects the lens.*
- *Polycarbonate resin body is impact resistant, lightweight.*
- *Kit includes: pair of lights, dashboard switch, wiring*

WAR **37609**

SDB-160HB Driving/Spot Light

- *A 6" dual-beam light.*
- *Spot beam range is 770 feet. Driving beam range is 410 feet.*
- *Internal light frame protects the lamp against vibration and shock.*
- *Offers 15° of vertical adjustment for various driving situations.*
- *Stone guard protects the lens.*
- *Heat and weather resistant*
- *Polycarbonate resin body is impact resistant, lightweight.*
- *Kit includes: pair of lights, dashboard switch, wiring*

WAR **37606**

W700D-HID Driving Lights

At 7" (17.8 cm) in diameter, these HID lights deliver outstanding range and spread, and will blaze a trail of intense white light through the darkest off-road terrain. The Xenon HID bulb is 300% brighter—and lasts 10 times longer—than 55W halogens. Features include tempered clear glass lenses, vaporized aluminum over die-cast aluminum reflectors for outstanding light output, and impact- and corrosion-resistant polymer cases for great weather resistance. The integrated ballast and wireless control switch allow for a straightforward installation. WAR **82405**

Kit contains two lights, mounting hardware, wireless control, transmitter, wiring, rock guards and covers

W400D-HID Driving Lights

These 4" (10.2 cm) diameter HID lights have the extra light output, beam spread and reach you need to drive off-road with confidence. They're 300% brighter than a 55W halogen lights, have lower amp draw and last 10 times longer. Features include durable tempered clear glass lenses, sturdy vaporized aluminum over die-cast aluminum reflectors for maximum light output, and sealed corrosion-resistant polymer outer cases for weather resistance. A self-contained ballast and a wireless control switch mean installation is easy. WAR **82400**

Kit contains two lights, mounting hardware, wireless control, transmitter, wiring, rock guards and covers

W650D Driving Lights

These big 6.5" (16.5 cm) halogen lights deliver outstanding performance, great value, and are ideal for increased visibility on the trail. Features include 55W H3 halogen bulbs, hardened clear glass lenses, vaporized aluminum over steel reflectors for maximum output, steel cases with a powder-coated finish for great weather resistance, and a thin profile for increased mounting options. These lights also come with a wireless control switch for simple installation. WAR **82420**

Kit contains two lights, mounting hardware, wireless control, transmitter, wiring, rock guards and covers

W650F Fog Beams

Designed to light the way through foggy, rainy, dusty, or snowy conditions, these fog beams feature large 6.5" (16.5 cm) diameter lenses and broad 70-degree beam spread. The hardened clear glass lenses have a dichroic coating, for a low-glare yellow light. Features include 55W H3 halogen bulbs, vaporized aluminum over steel reflectors for great light output, thin-profile powder-coated steel cases for excellent water resistance, and a wireless control switch for hassle-free installation. WAR **82425**

Kit contains two light s, mounting hardware, wireless control, transmitter, wiring, rock guards and covers

W350F Fog Beams

At 3.5" (8.9 cm) in diameter, these lights are the optimal medium-sized fog lights. The 55W H3 halogen bulb and 66-degree bar-shaped light beam deliver great low-visibility performance. Features include hardened clear glass lenses; vaporized aluminum over steel compound curve reflectors for maximum light output; and impact-resistant polymer cases with O-ring seals for excellent water resistance. These lights also have a wireless control switch, so there's need to run wires through the firewall. WAR **82410**

Kit contains two lights, mounting hardware, wireless control, transmitter, wiring, rock guards and covers

W2030F Fog Beams

These compact 2" x 3" (5.1 cm x 7.6 cm), 55W halogen lights provide 66-degree bar-shaped beams of light, perfect for use in fog, rain, dust, or snow. Features include impact-resistant hardened blue glass lenses; durable vaporized aluminum over die-cast aluminum compound curve reflectors for maximum light output; and lightweight, corrosion-resistant aluminum cases. The new wireless control switch allows for easy installation without having to drill through the firewall. WAR **82415**

Kit contains two lights, mounting hardware, wireless control, transmitter, wiring, rock guards and covers

1) Street Legal in 50 states 2) Street Legal in most states, not legal for use in California or other states with similar emission control regulations 3) w/Panel Filter 4) w/Round Filter 5) LLY 6) LB7 7) exc. S/C 8) S/C 9) Turbo

PREFIX 57 AND 63 INDICATE A BLACK AERODYNAMICALLY SHAPED HIGH DENSITY POLYETHYLENE INTAKE TUBE (EXCEPT GEN 1). PREFIX 69 AND77 INDICATE ALUMINUM INTAKE TUBE. KP= BRIGHT, KG=GREY, KD=DARK GREY, TFK=FLAT BLACK, TWK= WRINKLE BLACK, TWR=WRINKLE RED, TB=BLUE, TP=POLISHED, TR=RED, TS=SILVER. Estimated horsepower gains based on specific or similar vehicle dynamometer tests. Results will vary. For more information, look up vehicle and/or testing protocols at knfilters.com

MANY MORE PRODUCTS & APPLICATIONS AVAILABLE. CALL OR STOP BY TODAY FOR PRICING AND AVAILABILITY.

Engineered To Fit

Installs Quickly and Easily

Stage 1 (EZ) Easy Install

54-10061

1999.5-2001 Ford Super Duty, Power Stroke TD

- *Uses bottom half of stock air box*
- *Retains factory intake tube*
- *Washable/reusable lifetime filter*
- *360º radial free flowing conical filter*

Stage 1 Upgrade Torque Booster Tube

54-10419

2003-2006 Dodge Ram, Cummins TD

- *Replaces restrictive stock intake tube*
- *High-temp silicone coupler at turbo*
- *Smoothes airflow and reduces turbulence*
- *15-30 minute install*

Stage 1 (Cx) Classic

54-10811

2003-2006 Dodge Ram, Cummins TD

- *Replaces entire stock air box*
- *Retains stock intake tube*
- *Larger washable/reusable lifetime filter*
- *360º radial free flowing conical filter*

Stage 2 (Cx) Classic

75-30392

54-30392 5 Layer

2003-2006 Ford Super Duty, Power Stroke TD

- *Replaces stock air box and intake to turbo & throttle body*
- *Custom intake tube accelerates and enhances airflow*
- *Larger washable/reusable conical filter for great airflow*
- *No cutting or drilling required*
- *45 to 60 minutes to install*

Stage 2 (Si) Sealed Intake

75-10392

54-10392 5 Layer

2003-2005.5 Ford Super Duty, Power Stroke TD

- *Sealed intake system replaces stock air box & intake tube*
- *Large washable/reusable filter for great airflow*
- *Clear-coated cover enhances engine appearance*
- *No cutting or drilling required*
- *45 to 60 minute install*

Stage 2 (XP) Extreme Performance

75-11022

54-11022 5 Layer

2003-2006 Ford Super Duty, Power Stroke TD

- Largest filter possible for maximum airflow
- Washable/reusable filter so large that it may require removal of more than just the stock air box
- No cutting or drilling required
- *45 to 60 minute install*

AIRAID

PowerAid

THROTTLE BODY SPACERS

- ***Patented Helix design*** improves airflow by reducing the chaotic turbulent flow at part throttle. The result is improved ***Driveability***, increased ***Horsepower*** and ***Torque***, and ***Fuel Efficiency***.
- ***CAD designed*** and ***CNC machined T-6061 billet aluminum*** for precise fit, will not leak.
- ***Flowbench designed*** back-cut greatly reduces the annoying whistle found in other brands.
- Each application is complete with all needed mounting hardware, gaskets, o-rings, and easy to read instructions. Emission's compliant in all 50 states. ***(EO D-609 and D-609-1)***

TORQUE-CURVE MPFI SPACERS

FUEL SAVINGS SCENARIO

Vehicle owners who have installed a Torque-Curve EFI spacer report increases of 2 miles per gallon.

The following is an actual fuel usage/cost scenario from one of these customers. Due to many factors, individual results may vary.

1992 30' Fleetwood Flair (BB Chevy)
MPG increased from 7½ to 9½mpg (+2mpg)

60 gallon fuel tank x 2mpg = +120 miles per tank
+120 miles per tank÷9½ mpg = 12.63 gallons saved
12.63 gallon x $2.50/gallon = $35.58 savings per tank fill up

TBI SPACERS

Trans-Dapt Throttle Body Injection Spacers and adapters easily bolt on to improve air\fuel mixture quality, and increase volume into your intake manifold. They provide better throttle response, MPG increases of 8% or more and torque gains you will feel the first time you stomp on the "GO" pedal.

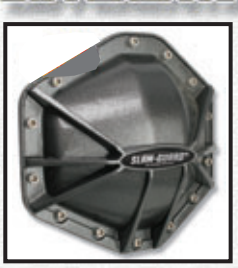
SWIRL TORQUE TBI SPACERS

Swirl-Torque TBI spacers create a vortex that provides a better air/fuel mixture for greatly improved **low-to-mid** range Torque andimproved fuel economy.

NODULAR IRON DIFFERENTIAL COVERS



SlamGuard™ Differential Covers by Trans-Dapt Performance offer the ultimate heavy duty protection for your axle's differential. Cast from, nodular iron and powder coated, SlamGuard™ Covers provide not only superior differential protection and unmatched strength, but also enhance the look of your undercarriage.

POLYCARBONATE DIFFERENTIAL COVERS

ClearGearz™ Polycarbonate differential covers are clearly a smart choice all around. The transparent cover design of ClearGearz™ not only looks extremely cool when installed, but it allows the vehicle owner to inspect the differential gear for oil levels, abnormal wear and moisture or foreign material that could ruin ring gear and shorten rear end life.

The Polycarbonate material used in the manufacture of ClearGearz™ differential covers is the same material used in bulletproof glass, and is extremely impact resistant. The powder coated steel mounting flange looks excellent, and is included with all Cleargearz™ Covers.

QUICK CHANGE™ ALUMINUM CALIPER UPGRADE KITS.

Features either Force 10® Tri-Power 3-piston or Force 10 V8 8-piston aluminum calipers and high performance pads. Calipers are a direct bolt-on replacement to stock calipers and feature stainless steel pistons for long service life. Calipers come with clear anodized finish; optional powder coating available. Tri-Power calipers in front kits have 45mm pistons (calipers for 1500HD and 2500 and 3500 models have 51mm pistons); Tri-Power calipers in rear kits have 38mm pistons. V8 calipers have 40mm pistons. All kits fit stock wheels.

- QUICKER STOPS - Multi-piston design provides more braking power and shorter stopping distances
- IMPROVED HANDLING - Lightweight aluminum construction improves ride quality
- EASY PAD REPLACEMENT - Kits use off-the-shelf pads
- STAINLESS STEEL TOUGH - Calipers are built with stainless steel pistons for longer life
- ACCURATE FIT - Engineered for specific vehicles

Quick Change kit A193-1 shown with optional red powder coating.

BIG BITE Cross Drilled Rotors™

NOW AVAILABLE -cross drilled rotors from SSBC!

- LESS CRACKING - Superior metal alloy composition for maximum durability
- GREAT LOOKS - Cross drilling combined with slotting and plating compliments any vehicle or wheel
- **CALL FOR YOUR APPLICATION!**

Install new rotors when you install new calipers and pads!

FORCE 10® TRI-POWER DISC BRAKE UPGRADE KITS.

Features Force 10 Tri-Power 3-piston aluminum calipers and either new stock size or 14" rotors (all rotors are Turbo slotted with Xtra Life plating). Kits with stock size rotors fit in stock wheels; kits with 14" rotors require 18" or larger wheels. All kits are complete with performance pads, brackets, hardware and instructions. Calipers come with clear anodized finish; optional powder coating available. Calipers in front kits have 45mm pistons; calipers in rear kits have 38mm pistons.

- QUICKER STOPS - Multi-piston design provides more braking power and shorter stopping distances
- IMPROVED HANDLING - Lightweight aluminum construction improves ride quality
- EASY PAD REPLACEMENT - Kits use off-the-shelf pads
- STAINLESS STEEL TOUGH - Calipers are built with stainless steel pistons for longer life
- ACCURATE FIT - Engineered for specific vehicles

Typical Tri-Power kit with new slotted and plated rotor. Caliper shown with optional red powder coating.

WINNER OF THE 2003 GM SEMA DESIGN AWARD FOR:

BEST HIGH PERFORMANCE PRODUCT

A126-37 shown with optional red powder coating.

14" rotors and performance calipers - A MUST HAVE when running larger wheels!

Kits with stock size rotors also available.

1250 CFM

UNIVERSAL FIT
13-1/2" x 15" x 2-5/8"
11 Amp Draw
8 Blades / 12-1/8" Dia.
Rigid Brackets
Through Core Mount
Black Shroud Color

Part #	Description
FLE111	Puller w/ Adj. Thermo & A/C Relay
FLE123	Puller Fan Only
FLE133	Pusher w/ Adj. Thermo & A/C Relay
FLE143	Pusher Fan Only

Puller & Pusher Fans
2500 CFM

UNIVERSAL FIT
15-1/2" x 26-1/4" x 2-5/8"
14-22 Amp Draw
8 Blades / Dual 12-1/8" Dia.
Rigid Brackets
Through Core Mount
Black Shroud Color

Part #	Description
FLE410	Puller w/ Adj. Thermo, A/C Relay & Variable Speed Control
FLE420	Puller Fan Only
FLE430	Pusher w/ Adj. Thermo, A/C Relay & Variable Speed Control
FLE440	Pusher Fan Only

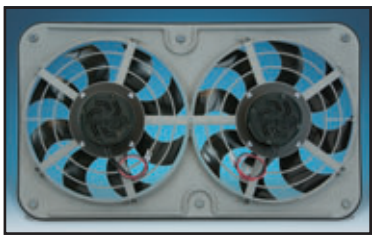
X-TREME S-blade

The new X-Treme S-Blade fans will give you 20% more airflow than our regular Low Profile S-Blade fans.

Reversible Fans
1505 CFM

UNIVERSAL FIT
13-1/2" x 15" x 2-5/8"
15 Amp Draw
8 Blades / 12-1/8" Dia.
Higher Output Motor
Only 4" Deep
Gray Shroud Color

Part #	Description
FLE115	R. Fan w/ Adj. Thermo & A/C Relay
FLE117	Reversible Fan Only



Reversible Fans
3000 CFM

UNIVERSAL FIT
15-1/2" x 26-1/4" x 2-5/8"
17.5-29 Amp Draw
8 Blades / Dual 12-1/8" Dia.
Higher Output Motor
Only 4" Deep
Gray Shroud Color

Part #	Description
FLE480	R. Fan w/ Adj. Thermo, A/C Relay & Variable Speed Control
FLE490	Reversible Fan Only

BOOST HORSEPOWER & FUEL MILEAGE

THE ORIGINAL

Black Magic S-blade

Restore horsepower and torque by replacing the OE Belt-Driven fan. Provides constant cooling, regardless of engine RPM.

Puller Fan
3000 CFM

UNIVERSAL FIT
18" x 16" x 4-1/4"
19.5 Amp Draw
8 Blades / 15" Dia.
Rigid Brackets
Through Core Mount
Black Shroud Color

Part #	Description
FLE160	Puller w/ Adj. Thermo, A/C Relay & Manual Switch Connection

Black Magic XTREME

Need Bolt-On Horsepower?

The Black Magic Extreme Fan is bigger and more powerful than any fan on the market. It provides bolt-on horsepower, improves gas mileage, and a longer life-for your water pump.

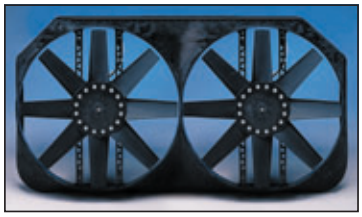
Puller Fans
3000 CFM

UNIVERSAL FIT
18" x 16" x 4-1/4"
19.5 Amp Draw
8 Blades / 15" Dia.
Black Shroud Color

Part #	Description
FLE180	Puller w/ Adj. Thermo & A/C Relay
FLE188	Puller Fan Only

Application Specific Truck & Jeep Fans

Increases the horsepower of your BIG truck or Jeep by replacing the stock, low efficiency fan. These fans extend the life of your water pump and increases fuel mileage.



BIG TRUCK STYLE FANS FEATURE:

- 5,500 CFM - Dual 15" Fan Blades with Independant Activation
- 17Hp Increase, 20-ft.lbs of Torque Increase and 2-3 MPG Increase

Description	Part #
1982-02 Chevy/GMC S10/S15 (82-02 4-cyl., 82-95 6-cyl.)	FLE60

PROVIDING THE VERY BEST IN QUALITY TOWING PRODUCTS

CURT Manufacturing offers a full line of top-quality receiver hitches.

1.) WeatherTite construction prevents rusting from the inside out by sealing the main body.
2.) Open receiver tube for easy cleaning.
3.) Precision robotic welding for superior fit and strength.
4.) Step pads are included on many applications.
5.) CURT's reputable high-gloss powder coat finish which prevents rust & corrosion.

FOLDING BALL GOOSENECK HITCH

- 3/8" top plate, 6 hole bolt pattern
- U-bolt safety chain hook-ups included
- Stainless steel safety pin
- Durable powder coat finish resists rust & corrosion
- No tools needed to fold
- T-handle for easy use
- Easy access to grease fitting
- Stainless steel pivot spring
- Mounting hardware included
- Easy-to-follow installation instructions
- Paper cutting template included
- U.S. patent #'s 5,571,270; 5,755,452; 5,435,585

- Spherical axial bearing for smooth, quiet towing
- Positive locking dual jaw system with 360° pin contact and lock indicators
- Short throw single handle operation
- Mounts to industry standard rails
- Jaw pins made of 1"alloy steel
- Self-aligning head for easy hookups
- 3 point progressive resistance limits lateral movement to 7°
- 2 pin head removal
- 3 lube points with easy access grease fitting
- Meets or exceeds industry standards

- 16K towing capacity & single handle operation
- Auto locking mechanism
- 2 pin dual pivot head removal 4 position height adjustment
- 10° lateral movement
- Anti-rattle skid plate
- Permalube pivot bushings
- Industry standard rail configuration
- Meets or exceeds industry standards

- Up to 20,000 lbs. tow rating
- Carbide black finish
- Non-binding rod-guide feature
- Self-locking
- True rolling unit with 12" of travel
- Accommodates both Q5 (16525) and E5 (16515) head units
- Call for fit information for other manufac turers head units
- Patents pending
- Rolls one foot
- 7 Year warranty

CUSTOM FIFTH WHEEL BRACKETS

- To be used in combination with 16104/16204 rails. No need for universal brackets and hardware (rail mounting hardware included)
- Cuts install time by up to 50% & reduces or eliminates drilling
- Provides a custom fit

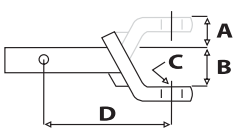
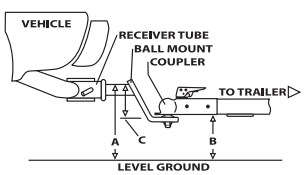
Our black and chrome ball mounts fit 2” x 2”2 receiver tubes. Available in two styles, the mounts marked with an asterisk are style 1 where the non-marked mounts are style 2.

MAGNUM V & SUPER DUTY

All CURT Magnum mounts fit 2” x 2” receiver tubes and are made of solid steel. Super Duty mounts fit 2 1/2” x 2 1/2” receiver tubes.



A: Rise
B: Drop
C: Hole Size
D: Length



How to calculate ball mount drop
To determine what size drop or rise needed for your ball mount, level your trailer and calculate the following:

A: The distance from the ground to the top ID. of the receiver tube opening.
B: The distance from the ground to the bottom of the trailer coupler.
C: The difference from both measurements will determine the size of drop or rise you need.
A - B = C

READY-TOW BALL MOUNTS

- Ball mounts come complete with ‘factory torqued’ CURT trailer ball and F-5 receiver pin
- 5/8” F-5 pin and clip included inside the ball mount

Connectors

7-Pole RV Blade Rounds

Seven-pole connectors are typically used with large trailers (RV and industrial). These connectors provide all the functions of the 6-pole with the addition of the backup/reverse function.

HOP48465
7-Pole RV Blade Round Connector Kit
Contains matched set plug and socket, mounting bracket and mounting hardware.

HOP48485 - Tow Vehicle End Socket Only (Plastic)
HOP48495 - Tow Vehicle End Socket Only (Metal)
HOP48505 - Trailer End Plug Only (Plastic)
HOP48615 - Mounting Bracket

7 RV Blade

HOP48500 - Endurance™ 7 RV Blade Trailer End
HOP48480 - Endurance™ 7 RV Blade Vehicle End

6-Pole Rounds

Six-pole rounds provide two additional functions not found in 4-poles. These fonctions are electric brakes and an auxiliary power lead. The most common use for this type of plug is for horse trailers.

HOP48405
6-Pole Round Connector Kit
Contains matched set plug and socket, mounting bracket, wire, splices and mounting hardware.

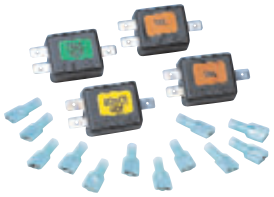
HOP48425 - Tow Vehicle End Socket Only (Plastic)
HOP48435 - Tow Vehicle End Socket Only (Metal)
HOP48445 - Trailer End Plug Only
HOP48605 - Mounting Bracket

Tail Light Converters

Electronic Tail Light Converters

Electronic tail light converters adapt an independent bulb tail light system of the tow vehicle to the common bulb tail light system of the trailer. Each unit can power 2.1 amps. per stop/turn signal.

HOP46156
Universal Kit
Complete with splices and circuit tester.



Power Tail Light Converters

These units completely isolate the tow vehicle from trailer malfunctions. Power is taken directly from the battery for isolation and brighter trailer tail lights. Each unit can power up to 2 sets of stop/turn signals (5.0 amps.) on the trailer and possesses a replaceable 4-wire flat extension.

HOP48955
Vehicle Towing Vehicle Tail light Isolating Kit
Permanently installs on towed vehicle near tail lights

HOP48925
Heavy Duty Tail Light Converter
Double-moulded weatherproof design.
Converter mounts in trunk out of harm's way.

HOP48915
Tail Light Converter
Double-moulded weatherproof design. (60°).

HOP46255
Power Tail Light Converter
Solid state electronics. For vehicles equipped with independent bulb turn signals and brake lights or common bulb systems.

Multi-Tow® Plug-In Simple® T-Connectors

Multi-Tow® Connectors give you the ability to tow trailers with different wiring connectors from the same vehicle connector! Choose 4-flat and 6 round, or 4-flat and 7 RV options. These connectors simply replace the 7-way connector that came with your vehicle.

Ford/GM

HOP40955

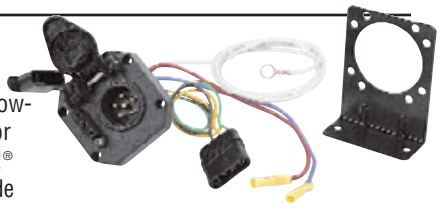
A NEW Generation of Towing Products

LED Adapters

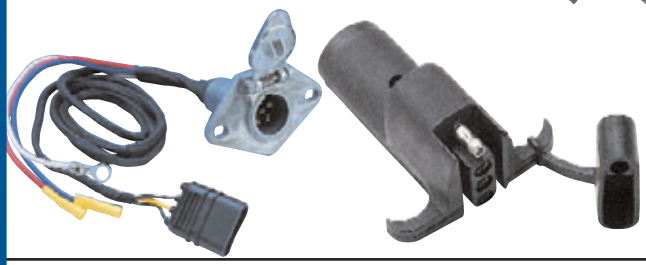
Hoppy® now offers a complete line of L.E.D. vehicle-to-trailer adapters. The new patent-pending L.E.D. Series incorporates built-in trouble-shooting. If the trailer lights are not functioning correctly, you can isolate the problem by simply looking at the adapter. If the lights on the adapter are functioning, it's a trailer-side problem. If the lights are not functioning, the problem is with the vehicle.

Multi-Tow® Adapters



Hoppy® Multi-Tow® adapters provide two towing options from one vehicle-end connector creating a true customized Plug-In Simple!® wiring system. Hoppy® Multi-Tow's® provide either a 7 RV and 4-wire flat connection or a 6-way round and 4-wire flat connection.

Plug-In Simple!® Adapters



Universal
Center pin can be switched to auxiliary or electric brake

Connectors & Extensions

4-Wire Flats

A 4-wire flat is the most commonly used trailer plug. This plug is found on small boat, utility, jet ski, snowmobile and small camper trailers where right turn/brake, left turn/brake, tall/marker lights and ground is needed. Available in SAE design.

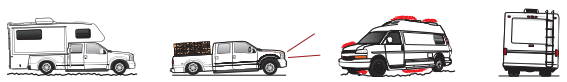
Adjustable Air Helper Spring and On Board Air Systems

America's favorite air spring

LIFETIME WARRANTY Includes Brackets

Air adjustability is the difference. Our adjustable air helper springs allow you to tune your suspension for heavy loads, towing or rough roads. A level, balanced vehicle improves ride, handling and brake performance. Air suspension is all we do — you can't buy a better air spring!

Air Lift air spring systems put an end to these common problems:



Bottoming Out | Sag & Headlight Aim | Rough Ride | Sway & Body Roll

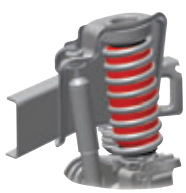
LoadLIFTER 5000™ 57000 Series

- Fits many ¾ ton and 1 ton pickups, vans and motorhomes with leaf springs
- Up to 5,000 pounds of leveling capacity*
- Air adjustable from 5 to 100 psi for maximum comfort and load support
- Lifetime warranty!

RideCONTROL™ 59500 Series

- Fits many ½ ton and mini pickups, full-size and mini vans and SUVs with leaf springs
- Up to 2,000 pounds of leveling capacity*
- Air adjustable from 5 to 100 psi for maximum comfort and load support
- Lifetime warranty!

Air Lift1000™ 60000-80000 Series



- Fits open coil springs on the front or rear
- Up to 1,000 pounds of leveling capacity*
- Air adjustable – custom tune the ride you want
- Replaces P-30/32 OEM front air springs
- Lifetime warranty!

Never exceed manufacturer's Gross Vehicle Weight Rating

Industry leaders in air spring control

For maximum convenience and leveling on-the-go, nothing beats an Air Lift on board air compressor system. Easy to install, each system comes complete with everything you need. Air Lift on board air systems are the most advanced in the industry and work with **all** brands of air springs.

WirelessAIR™ Advanced Integrated Remote

Only about the size of a garage door opener!

Revolutionary on board air control

- Easiest installation ever — no lines or wires to the cab!
- Wireless handheld unit for convenient operation in or outside the vehicle
- Two user-definedmemory buttons allow for frequently used settings
- Kit includes compressor, manifold and control box — everything you need!

P/N ARL72000

Load CONTROLLER II™

- Economically priced, popular accessory for pickups and vans
- Includes our exclusive wiring harness for faster, easier installation
- Automatically maintains safe air pressure
- Single path model features front-to-rear leveling. Dual path model controls two air springs independently for front-to-rear and side-to-side leveling

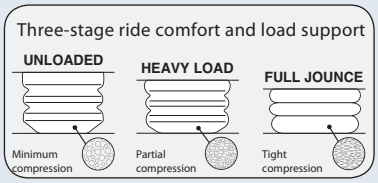
P/N ARL25592 Single Path

P/N ARL25812 Dual Path

Non-Adjustable Load Support

Air Lift introduces AirCell - a microcellular urethane spring - as a lower cost, no-maintenance product to reduce sag and improve ride in heavily loaded vehicles! AirCell is engineered especially for vehicles that maintain constant loads such as work trucks, eet, and delivery vehicles. They're great for anyone whose truck is always loaded, and wants load support and ride quality at a very affordable price!

NEW! AirCell™



- Easy to install brackets, no air lines or fittings
- Rear kits for popular late-model pick-ups, front kits for snow plow support — call for applications
- Made of long-lasting closed-cell urethane foam, the same material used in OEM suspension parts
- Urethane foam traps air to provide a cushion against sag
- Quick, easy, bolt-on installation
- Lifetime warranty

Firestone

World's Number 1 Air Spring.

FIRESTONE INDUSTRIAL PRODUCTS COMPANY

RIDE-RITE SPORT-RITE COIL-RITE™ AIR HELPER SPRINGS

Increase suspension performance with adjustable Ride-Rite™, Sport-Rite™ & Coil-Rite™ air helper springs

Firestone's air helper springs utilize a pair of convoluted or tapered style air springs capable of 3000 - 5000 lbs. of load capacity. They can be installed on most light trucks, SUVs, RVs, and vans. They are installed between the frame of the suspension providing load support through the use of air pressure

Ride-Rite™

Provides heavy duty support on pickups, SUVs, vans & motor homes

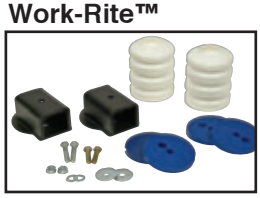
Sport-Rite™

Improves load carrying performance on pickups, SUVs and vans

Coil-Rite™

Offers additional support for cars, minivans, vans, pickups, SUVs and motorhomes with coil spring suspensions

Work-Rite™



The progressive load-deflection characteristics will smooth the ride when loaded and are fully adjustable and maintenance free

REMOVABLE ROOF RACK SYSTEM
2500 SERIES

The Rhino 2500 Series product range consists of two crossbar styles: the Aero and Heavy Duty. Designed with the everyday traveller and contractor in mind, the 2500 Series range offers quick and easy installation.

Built from light weight quality Australian materials, the 2500 range is very versatile. With the right length bars and appropriate (DK) fitting kit, a 2500 series roof rack can fit several vehicles; including fitment for a multitude of sedans, SUV's and trucks throughout North America.

Used in conjunction with Rhino-Rack's many accessories, including ski and snowboard carriers, kayak carriers, bike carriers and steel mesh baskets, the 2500 series can offer endless load carrying solutions to make your travel life easier. So if you're planning a quick getaway, or you simply need to utilize your vehicle's space more efficiently, the Rhino 2500 Custom-Fit can help you carry the load.

- Locking Hardware included with all 2500 Series systems.

2500 with optional HD crossbar

ROOF RACK SYSTEMS
SXB SERIES

The Rhino-Rack Aero rail mount Roof Rack System is the perfect working fashion accessory for cars and SUV's with factory elevated rails. Compatible with Rhino-Rack's extensive range of sporting accessories, this rack system is perfect for the avid kayaker, biker, skier, surfer or anyone who enjoys an active lifestyle.

SXB SERIES RAIL MOUNT
- Aero Crossbars available in clear anodized (silver) or black finish
- Key locking security is standard
- Modern, secure design to complement any vehicle
- Easy installation in minutes

CXB SERIES RAIL MOUNT
Universal fitting for most factory longitudinal rails. Twin bolt tightening system for maximum clamping strength and easy adjustability.
- Tested to AS1235-2000
- Supplied with stainless security hardware

LUGGAGE CARRIERS

Our new Sunseeker awning mounts easily to most roof rack systems and is easy to set up so it provides fast and convenient protection from the elements for you and your family. Fitting kits for Rhino-Rack Heavy Duty and Aero bars are supplied as standard, including other competitive crossbars.

Made from fiber dyed polyester with a UV 50 plus treatment, the Sunseeker comes with a 2 year warranty – it is designed in Australia for worldwide harsh conditions.

At 8.2 feet long and 6.6 feet wide the Sunseeker gets you out of the hot sun conditions. Also available is an extension piece that attaches to the outside edge of the Sunseeker adding another 6.6 feet in width. Stored in its own heavy duty PVC bag, the Sunseeker awning comes complete with all the gear you need – telescopic poles, guy ropes and pegs, this lets you set up the awning ready for all kinds of conditions.

SUNSEEKER
Part# 32100

SUNSEEKER AWNING EXTENSION
Part# 32101
Designed by Rhino-Rack and manufactured to our high standard of quality, the Sunseeker awning enhances our range of load carrying solutions and accessories.

RHINO-RACK
RACK SYSTEMS FOR EVERY ADVENTURE

SPECIALTY RACK LINES

CAP/TOPPER RACK LINES

Rhino-Rack offers a comprehensive range of specific rack kits for the extensive Cap/Topper industry. Offered with both HD or Aero aluminum crossbar options, there are eight different kit models covering track mount, fixed mount, sportz mount and special "no track" mount for fitment to competitive tracks. All kit styles are offered with various crossbar lengths to suit all truck cap models. Kit part numbers cover the complete rack system in one carton for ease of ordering and efficient inventory control.

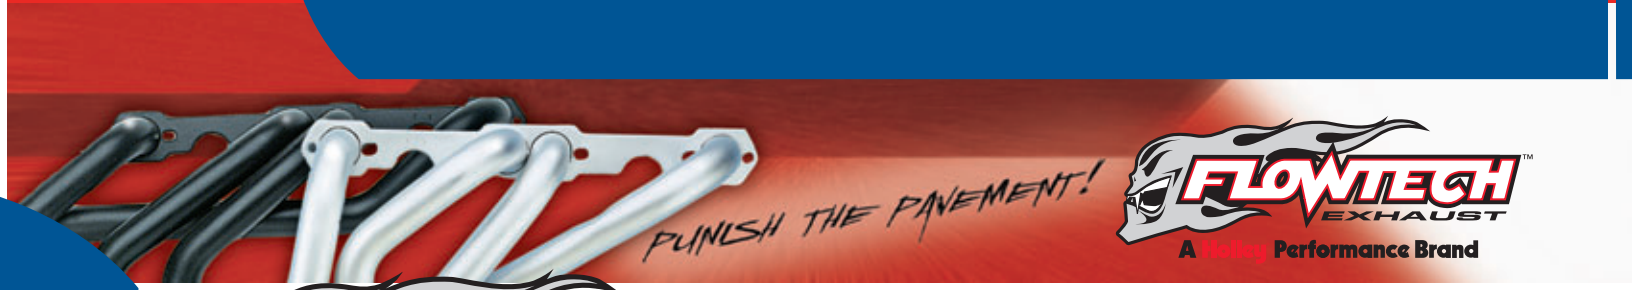
JONES HAS WHAT YOU NEED TO COMPLETE YOUR EXHAUST PROJECT.



FLOWTECH EXHAUST™

Flowtech I and II Headers

At Flowtech strict quality control is maintained at all levels of fabrication and assembly. All Flowtech headers are constructed from specially selected lengths of .049 computer controlled mandrel-bent cold roll flash-controlled tubing, precision die-cut exhaust port flanges, and the exclusive Flowtech mandrel formed Power Plenum collectors. These components are then precisely assembled and welded in specially designed fixtures to assure you of a precision fit and increased performance following assembly. Each header is water leak-tested under pressure to assure problem free performance. After passing quality control testing each set is then finished with an electrostatically applied paint.

Flowtech I headers come with the following features:

- Exclusive Power Plenum Collectors for low back pressure for more horsepower.
- Constructed of specially selected-lengths of .049 cold roll flash controlled mandrel-bent tubing.
- All ports are precisely fitted and finished with a sturdy leak proof port seal.
- All hardware and gaskets included.
- The standard finish is electrostatically applied satin black paint or optionally with Flowtech's ceramic coating.

Shorty Smog Headers

Flowtech's emissions-friendly are just the ticket for those who want the best of both worlds - top performance and a clean machine. All Shorty Smog Headers bolt on quickly and easily to the factory exhaust system, retaining all stock emissions equipment, and offering maximum horsepower gains plus increased efficiency.

Flowtech Shorty Smog Headers features the following features:

- Extra thick 3/8" flanges.
- 16-gauge tubing
- Connects to factory exhaust to head pipe.
- Complete with premium gaskets and hardware.
- Emissions Compatible (C.A.R.B. E.O. Number pending)

Truck Force Headers

Hooker Super Competition Headers are the World's Best Header! Racer's for years have relied on Hooker's quality, performance and durability. This is why Hooker is the winningest header manufacturer in automotive drag racing history.

Super Competition headers are made from "tuned length" primaries from lightweight 18 gauge mild steel tubing and are available in high heat black paint or Hooker's Metallic Ceramic Thermal Barrier Coating. Our flanges are 5/16" thick and have machined weld rings around the port for a leak free system.

With the industries most complete coverage, you can bet that Hooker has headers for your car or truck that will make your vehicle quicker, faster and lighter.

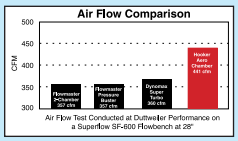
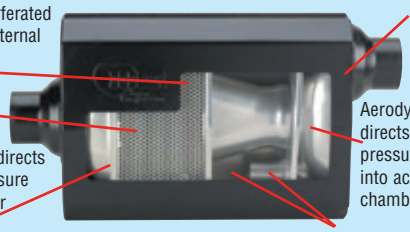
Aero Chamber Muffler

23% More Flow Than All Other Brands!





The difference:

- The Hooker Aero Chamber muffler uses step header technology and outflows the most popular high performance brand by 23%.
- Aluminized and stainless steel construction for corrosion resistance
- All popular sizes and configurations are available.
- Provides a deep, throaty, powerful sound that will not degrade or drone at highway speeds.

HOOKER HEADERS
A Holley Performance Brand

HEDMAN HEDDERS

HEDDERS THAT WORK!
HEDDERS THAT FIT!
HEDDERS THAT LAST!

Hedman Hedders are designed to fit right in to the application for which they were expertly designed. Since 1954, Hedman has been pioneering the field of automotive exhaust products, and the listing on this page is only a small sample of the many applications Hedman manufactures here in the U.S.

Hedman Hedders doesn't only manufacture the most applications, but they also offer there most popular models as Elite Heavy-Duty hedders, Tork-Step Stepped Tube Hedders, and all Hedman Hedders are available HTC Coated.

Hedman Hedders are so reliable, they're guaranteed for life.

Dear Hedman,
After three unsuccessful attempts to install three different sets of a competitor's headers, I ordered a set of yours.
Upon arrival to my door, I immediately saw that you guys had the product correctly welded. They installed quickly and easily and are performing with no problems. Needless to say, I'm happy. Plus your Hedders were $100 cheaper than the other guys.
Just wanted to say thanks for doing your homework.
Sincerely,
J. B. Thornton
Bardstown, KY

Actual customer letter.

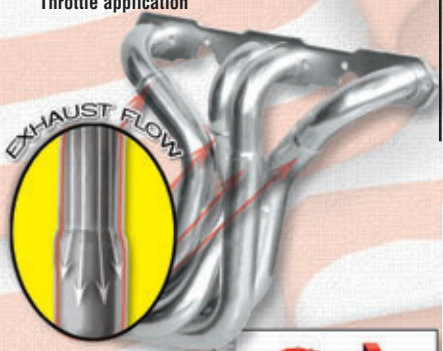
HEDMAN HEDDERS

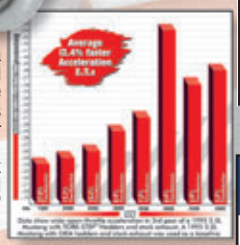
QUALITY, AMERICAN-MADE HEDDERS SINCE 1954

MORE TORQUE GAINS THAN ANY STANDARD TUBE HEDDER DESIGN

TORK STEP TECHNOLOGY

- Improves Combustion Efficiency
- Adds Torque Throughout Entire Torque Range
- Increases Horsepower Output
- Quicker Acceleration Times Improved Fuel Efficiency
- State-of-the-art in Hedder Design
- Race Exhaust Technology For the Street
- A must have for any Towing or Wide-open Throttle application





Dyno tests prove that a strategically positioned change in the primary tube broadens your engine's overall torque curve. After installing **TORK-STEP**™ Hedders, a Small Block Chevy engine will experience a "Torque Boost" in the 2800 to 3200 and 3600 to 4000 RPM ranges.

The result is a solid increase in low RPM towing and pulling power, increased RPM recovery rates upon gear shifts, and more power during downshifts for passing. All these gains with no loss of torque during the mid-RPM range.

EXTREME-DUTY HEDDERS THAT ARE DESIGNED TO TAKE THE ABUSE

HEDMAN ELITE HEDDERS

Hedman *ELITE*™ Hedders are made with ultra-thick 14 gauge tubing and bulletproof 3/8" flanges, then thermal coated to resist intense heat and adverse elements. A must for any hi-performance or towing application!

HEAVY-DUTY 3/8" FLANGES
These thick 3/8" flanges stand up to the brutal punishment and vibration and prevent warping for a leak-free seal.

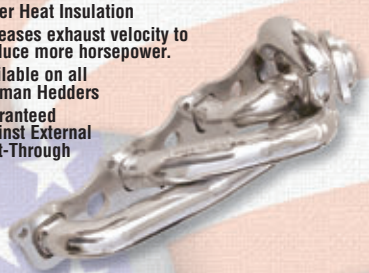
CERAMIC-METALLIC THERMAL COATING
Ceramic-Metallic coating to protect your hedder investment against the elements, and withstand temperatures up to 1300° F.

ULTRA HEAVY-DUTY 14 GAUGE TUBES
Heavy gauge tubes prevent burn-through caused by the excessive heat produced in high performance and towing applications.

FINISH GUARANTEED FOR 5 YEARS

HEDMAN HTC HEDDERS

- Protection up to 1300°
- Won't Chip or Peel
- Tougher than Chrome
- Won't "Blue" like Chrome
- Easy to Maintain
- Better Heat Insulation
- Increases exhaust velocity to produce more horsepower.
- Available on all Hedman Hedders
- Guaranteed Against External Rust-Through



AMC/JEEP

CATALYTIC CONVERTERS

- 50 State Legal
- Universal Design
- Increases Exhaust Flow for More Power
- 23% More Air Flow
- 2 or 3 Way Design
- Can be used on Either Right or Left Side

Hedman Catalytic Converters meet all the requirements to make them street legal. The stainless and aluminized steel construction can withstand everyday use, and the flexible design makes them virtually universal fit.

*49 state legal

NOTE: It is illegal to replace an original equipment catalytic converter on any vehicle before 50,000 miles.

SDT™ Mufflers

This all-new chambered design features Edelbrock's patent-pending Sound Deflection Technology to eliminate resonance for high-flow performance. The case is made from aluminized steel with no packing material to deteriorate or blow out, then coated with our exclusive Ti-TECH coating for durability with a performance sound.

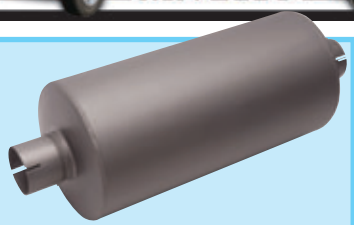
Truck/SUV Series Chambered Muffler



Completely constructed from aluminized steel and Ti-Tech coated for a tough long lasting finish, nothing sounds better than our new Truck/SUV muffler. This chambered muffler boasts a whopping 3" diameter inlet and outlet and a 9" x 19" case. Edelbrock's Truck/SUV muffler produces an aggressive tone that not only sounds great, but enhances flow characteristics. The result is improved low end torque and driveability.

Application	Part #
Truck/SUV Series 3" Round Muffler	EDL5572

Exhaust Kits & More

Complete Retro-Fit Exhaust Kit consists of headers, cat back system, and engine mounts. Conversion headers and engine mounts are made from quality 409 stainless steel tubing and fit 1968-72 A-Body Cars. The Header-Back exhaust system fit LS series A-Body Cars.

Description	Part #
Complete Retro-Fit Kit LS & Gen III, 68-72 A-Body GM	EDL6754
Conversion Headers 68-72 GM A-Body with LS Series V8	EDL65073
Engine Mount Kit 68-72 GM A-Body w/ LS Series V8	EDL6701
Header Back Exhaust System for 68-72 GM A-Body & LS1	EDL5774

Shorty Headers for Trucks/SUVs/Cars

High-quality Edelbrock Shorty Headers bolt directly to the factory crossover pipe with no cutting or welding required for installation. These new headers feature 1-5/8" diameter cold rolled mild steel tubing that is CNC mandrel-bent for superior flow. Durable flanges are 3/8" thick, laser-cut, and robotically welded. Available with new Ti-TECH coating or high quality ceramic.

This T-Tech coated header ran for 19,109 miles straight with no discoloration, flaking or peeling.

Ti-TECH™

Edelbrock Tubular Exhaust Systems and Shorty Headers have always been some of the most cost-effective performance products on the market, but now, they're an even better value with the introduction of our new Ti-TECH coating. This High Temperature/ Heat Resistant Coating features a C-105 Titanium Satin Finish for heat stability to 1600° F. At higher temperatures the Ti-TECH coating will cure, becoming harder and more abrasion resistant, unlike organic coatings that chalk and lose adhesion with extreme heat. The Ti-TECH coating provides superior protection in corrosive environments and extends the useful life of Edelbrock exhaust components by years. For 2005, all Edelbrock TES and Shorty Headers will be offered in your choice of either the Ti-TECH finish for just a few dollars more than old-fashioned painted finishes, or with our polished ceramic coating for the ultimate in looks and performance.

50 Series™ - SUV Performance™

The SUV-Performance™ muffler is a larger version of Flowmaster's 50 series™ muffler and is specially designed for trucks and SUVs. It is also designed to be installed on cars with large displacement engines. This version of the 50 Series Muffler features a special tuning chamber which reduces interior resonance and its larger 5"x10" case for improved sound control and optimum exhaust flow.

5" Thick - 10" Wide - 23" Overall Length - 17" Case Length

FLOWMASTER® EXHAUST SYSTEMS

No matter what truck you drive, Flowmaster has a system specifically for it with the tone you desire.

Looking for the famous, full-on Flowmaster tone? Look no further! American Thunder Kits will deliver the aggressive tone you want, as well as the performance you demand. Force II systems are designed to provide plenty of Flowmaster tone under acceleration but produces lower sound levels while cruising. All Flowmaster's systems will improve acceleration and passing power, as well as help improve fuel mileage. Every system is individually engineered and dyno-tested for each application and includes all required mounting hardware. All tubing is mandrel bent for superior exhaust gas flow, and is a key to the system's performance improvements. Both mufflers and tubing are fabricated from aluminized steel for corrosion resistance. Complete Flowmaster systems outperform most OEM and competitive aftermarket exhaust systems.

SUPER 44 SERIES®

The Super 44 is the most aggressive, deepest toned street and strip muffler Flowmaster has ever made! The Super 44's offer maximum performance, an improved flow path radius, and generates more torque and more power than ever before! If you really want to hear your exhaust system inside as well as outside, the Super 44 is for you!

SUPER 44 Also Available in an OFF ROAD Style made of 14-Guage Steel Diamond Plate!

4" Thick - 9.75" Wide
19" Overall Length
13" Case Length

40 Series™ - Performance Street & Strip - The "Original" Two Chamber

The 40 Series is the most aggressive sounding street and strip muffler in Flowmaster's product line. If you are looking for the original "Flowmaster Sound" then the 40 Series is the one. The performance street and strip muffler will generate interior resonance within the vehicle. So if you want to really hear your exhaust system inside as well as outside the vehicle the 40 Series is for you.

4" Thick - 9.75" Wide - 19" Overall Length - 13" Case Length

SUPER 40® with Delta Flow - Performance Street & Strip

The Super 40 5x10-inch case design, modeled after our Top Ten race mufflers gives you a deeper tone that retains our famous 40 Series sound and feel. Our Super 40 is the most aggressive, deepest sounding street 2-chamber muffler. The classic black case maintains that original Flowmaster case.

5" Thick - 10" Wide - 19" Overall Length - 13" Case Length

40 Series™ with Delta Flow - Performance Street & Strip (Some Available in 409 Stainless Steel)

The 40 Series Delta Flow is a milder sounding street and strip muffler that generates a powerful, aggressive sound outside the vehicle, a lower interior resonance while improving your torque and horsepower.

50 Series™ with Delta Flow - Performance Street & Strip (Some Available in 409 Stainless Steel)

The Flowmaster 50 Series Delta Flow muffler is designed to produce a mellow, deep sound in most vehicle and truck applications. It is milder than the 40 Series mufflers on the outside of the vehicle, and is significantly quieter inside the vehicle, yet it still has the right performance sound and feel which is achieved with the use of a special Resonant Tuning Chamber within the muffler. Performance is comparable to the 40 Series.

- Lifetime Warranty

BENEFITS

Turn down before the axle design provides an aggressive exhaust note and allows for use on vehicles with highly modified suspension systems. Lifted, lowered, air bagged or long travel, the OFF ROAD Pro-series provides the most versatility to accommodate nearly every configuration. Engineered for maximum power and minimal weight using the same state-of-the-art manufacturing needed for lifetime warranty quality, these systems eliminate the need for custom fabrication with true bolt-on fitment.

GROUND FORCE®

LOWERING SUSPENSION SYSTEMS

2011

DROP WHAT YOU'RE DRIVING AND GET YOUR ROLL ON!

For nearly three decades,Ground Force company founders have been fiercely committed to developing the finest suspension kits and components available. The current product line is the result of those years of dedication and intensive efforts.

Use an inferior-quality lowering kit and you could turn your best ride into your worst nightmare. Driveline alignment, tracking, handling and ride quality could be severely compromised.

Small bumps could send shock waves up your spine. And chassis vibration could become the new soundtrack to your life. But do it right, and the results will astound you.

Authentic Ground Force Lowering Suspension Systems are engineered to enhance ride quality while radically improving handling and performance. The entire system is precision tuned and load tested to eliminate vibration and harshness, and optimize sporting characteristics. And to keep it simple, our single-part-number box contains everything needed to complete your drop, without cutting or welding.

Any lowering kit can make your truck look good. But after the pictures, you have to live with the choice you make.

It's your ride. Lower it right.

NEW SPINDLE COOLING TECHNOLOGY

GROUND FORCE REVOLUTIONARY DESIGN

Designed. Engineered.
Manufactured in the USA.

Part #	Description	Front	Rear
Chevy/GMC Silverado/Sierra			
GRD9857	07-09 Silverdo/Sierra Crew Cab 2WD/4WD/AWD (Kit includes front spindles, rear leafs, rear shocks & wedges)	2"	4"
GRD9910	99-06C-1500 Reg Cab Short Bed (Non-carrier bearing vehicles) (Kit includes coils, hangers/shackles & shocks)	2"	4"
GRD9906	99-06C-1500 Reg Cab Short/Long Bed (Non-carrier bearing vehicles) (Kit includes coils, multi leafs & shocks)	2"	4"
GRD9907	99-06C-1500 Ext Cab Short Bed (Vehicles with carrier bearing) (Kit includes coils, hangers/shackles & shocks)	2"	4"
GRD9908	99-06C-1500 Ext Cab Short Bed (Vehicles with carrier bearing) (Kit includes coils, hangers/shackles & shocks)	3"	4"
GRD9900	99-06C-1500 Ext Cab Short Bed (No Shocks) (Price Buster) (Vehicles with carrier bearing) (Kit includes coils & hangers/shackles)	2"	4"
GRD9943	99-06C-1500 Ext Cab Short Bed (coils,shackles,hangers,shocks,bump stops & carrier bearing support)	2"	3"
GRD9939	04-06C-1500 Ext Cab 2WD 5.3/6.0 Eng. W/ Torsion Ft. Susp. (Kit contains front torsion bar keys,rear shackles, bump stops, Wedges,4 shocks)	2"	2"
GRD9993	07-09GM Silverado/Sierra Crew Cab Short bed 2WD Z83-Z85 (Kit inicludes front coils,rear leafs,rear shocks,bump stops)	2"	4"
GRD9994	07-09Chevrolet V8 C-1500(New Body Style) Regular Cab 2WD Z83/Z85 Frt. Coils, Rear Leafs, Rear Shocks, Bump Stops, Wedges	2"	4.5"
GRD9996	07-09 Silverado/Sierra Crew Cab 2WD (Kit includes front spindles, front coils, rear leafs, rear shocks, wedges, rear shackles)	3"	5"
GRD9997	07-09 Silverado/Sierra Reg Cab 2WD (Kit includes front spindles, rear leafs, rear shocks, wedges)	2"	4"
GRD9999	07-09 C-1500 Silverado/Sierra (New Body) Reg Cab Short Bed 2WD Z83-Z85 (Kit includes front spindles, front coils, rear kit, rear shocks, wedges, bump stops) (Not recommended for hauling or towing)	3"	5"
All 2006 kits will fit 2007 Classic body style not new body style.			
Chevy/GMC Colorado/Canyon & Isuzu I-350/280			
GRD9942	04-09Colorado Crew Cab/Ext Cab Z-Q8Sport 1"-2"Drop Kit (Kit includes,coils,blocks,bump stops,u-bolts,spring plates,rear shocks)	1"	2"
GRD9945	04-09Colorado/Canyon Crew cab/Ext cab Z85 5 Cyl. (Kit includes front coils,rear blocks,rear spring plates & rear shocks	2"	3"
GRD9932	04-09Colorado/Canyon Crew Cab/Ext Cab 5 Cyl. Z-85 (Kit includes front coils, rear blocks & Rear Spring Plates,No Shocks	2"	3"
GRD9938	04-09Colorado/Canyon Reg Cab 5 Cyl. Z-85(Kit includes front coils, rear blocks & Rear Spring Plates,No Shocks)	2"	2"
Chevy/GMC S-10/S-15/Jimmy/Blazer			
GRD9222	82-04S-10PU Reg & Ext Cab, 82-97Jim/Blazer (Kit includes spindles, blocks & shocks)(Fits Extreme Pick-up)	2"	2"
GRD9223	82-04S-10PU Reg & Ext Cab, 82-97Jim/Blazer (Kit Includes spindles, blocks & shocks)	2"	3"
GRD9233	82-04S-10PU Reg & Ext Cab, 82-97Jim/Blazer 4 Cyl (Kit includes spindles, coils, blocks & shocks)	3"	3"
GRD9920	82-04S-104 Cyl (No Shocks) (Price Buster) (Kit inlcudes coils & blocks only)	3"	3"
GRD9921	82-04S-106 Cyl / 2 Door Blzr (No Shocks) (Price Buster) (Kit includes coils & blocks only)	3"	3"
NOTE: Price Buster Kits use shocks 70028 for front and 70002 pass rear-70018 drivers rear for 4"drop or 70018 L&R rear for 5 to 6" drop			
Chevy/GMC Suburban/Tahoe/Yukon/XL/Trailblazer & Cadillac Escalade			
GRD9917	00-06Suburban/Tahoe & Yukon/Yukon XL & Avalanche 2WD Only (Kit includes front torsion bar keys, rear coils & 4 shocks)	2"	3"
GRD1080	00-06Suburban/Tahoe/Yukon/Avalanche 2WD/4WD 2.5" Rear Drop Kit Non Air (Kit includes,rear coils,rear shocks, sway bar spacers)		2.5"
GRD9956	00-06Sub, Tahoe, Yukon, XL, Avalanche Non Z71 4WD (Kit includes front torsion bar keys, rear coils & 4 shocks)	2"	3"
GRD9957	01-06Tahoe/Suburban Z-71Models Only 4WD (Kit includes front torsion bar keys, rear coils & 4 shocks)	2"	3"
GRD9972	01-06GM Avalanche,Tahoe,Yukon,Sub, Yuk XL ALL 2WD/4WD Non Air (Kit includes front torsion bar keys, rear coils & 4 shocks)	2"	2.5"
GRD9977	07-09GM Tahoe/Yukon/Avalanche 4wd non-air (Kit includes front & rear coils, rear shocks,sway bar spacers)	1.5"	2.75"
GRD9991	07-09GM Tahoe/Yukon/Avalanche 2wd non-air (Kit includes,front & rear coils,rear shocks,sway bar spacers)	1.5"	2.5"
GRD9953	01-06Trailblazer 6cyl, (non SS) 2WD/ 4WD Non Air (Kit includes 4 coils only,no shocks)	1.3"	3"
GRD1085	02-06Trailblazer 6cyl, 2WD/ 4WD 2"" Rear Coil Kit 4WD (Kit includes rear coils only,no shocks)		2"
GRD9855	07-09 Escalade/Denali/Tahoe/Avalanche/Suburban 2WD/AWD/autoride (Kit includes front spindles, rear coils, rear air brackets, swar bar spacers) No Shocks -must use stock air shocks	2"	2.75"
GRD9856	07-09 GM Tahoe/Yukon/Avalanche/Suburban 2WD/4WD non-air (Kit includes front spindles, rear coils, rear shocks, sway bar spacers, & rear bump stops)	2"	2.75"
GRD9958	01-06Cadillac Escalade / EXT / ESV / XL / Tahoe / Yukon / Denali 2WD/ 4WD Auto-Ride Apps (Kit includes front torsion bar keys, rear coils & air brackets) (NO SHOCKS -MUST USE STOCK AIR SHOCKS)	2"	3"
GRD9979	07-09Escalade/Denali/Tahoe/Avalanche AWD W/Auto ride (Kit includes,front & rear coils,rear air brackets,sway bar spacers)	1.5"	2.5"
Dodge Ram			
GRD9929	02-05Dodge Ram 1500 Reg Cab / Short Bed (Works with Hemi) (Kit includes front coils, rear flip kit, bump stops & shocks)	1.5"	4.3"
GRD9930	02-05Dodge Ram 1500 Quad Cab (Works with Hemi) (Kit includes front coils, rear flip kit, bump stops & shocks)	1.5"	4.3"
GRD9992	2006 Dodge Ram 1500 Reg Cab (Kit includes front coils,rear flip kit,rear shocks,bump stops)	2.5"	4.3"
GRD9947	04-06Dodge Ram SRT-10Viper Reg. Cab Only (Kit includes coils, rear blocks, bump stops, rear shocks, hardware)	1"	2"
GRD9948	04-06Dodge Ram SRT-10Viper Quad. Cab Only (Kit includes front coils,rear flip kit rear shocks)	1.5"	4"
GRD9970	02-05Dodge Ram 1500 Reg./Quad Cab 4WD (Kit includes front torsion bar keys, rear flip kit, 4 shocks)	2"	4"
GRD9863	09-10Dodge Ram 2WD Quad Cab Front and Rear Coils, new cell foam bumpstops, transmission and drive-line hardware	2"	4"
Dodge Dakota			
GRD9353	97-03Dakota V8 (with 3.0"" OD rear axle) (Kit includes coils, blocks and shocks)	2"	2"
GRD9354	97-03Dakota V8 (with 3.0"" OD rear axle) (17"" wheels only) (Kit includes coils, blocks, shackles and shocks)	2"	3.5"
Dodge Magnum/Charger & Chrysler 300C			
GRD5001	05-06Dodge Magnum -Hemi V8-AWD (No Shocks) (Kit contains front & rear coils)	1.2"	1.3"
GRD5004	05-06Dodge Charger V6 (Kit contains front & rear coils)	1.2"	1.4"
GRD5002	04-06Chrysler 300C (No Shocks) (Kit contains front & rear coils)	1.3"	1.5"
Ford Trucks & SUVs			
GRD9861	09-10F-1502WD Super Cab/Super Crew	2"	4"
GRD9944	04-08F-1502WD/Lincoln Mark LT-New Body ALL (Kit includes front coils, front performance struts, rear leafs, bump stops & rear shocks)	2"	4"
GRD9966	04-08F-150/Lincoln Mark LT-4WD New Body ALL (Kit includes coils,bump stops,shackels,u-bolts,bump stop extentions,rear shocks)	2"	3"

Eibach SPRINGS® THE WILL TO WIN

Performance Suspension Systems

The Will to Win. It's much more than a slogan. It's our - and, we suspect, your - way of life. It's the drive in all of us that makes us work better, stay up later and drive harder. It's what compels us to do our best today - and to do even better tomorrow. It's what makes us build the world's best springs, dampers, coil-overs, anti-roll bars and other suspension components. It's why every Eibach product is more than a component. It's a symbol of a special part of all of us. The undeniable, irresistible force we call: the Will to Win.

Pro-Truck Kit

Eibach Truck and SUV lowering kits are carefully designed to lower the center of mass of today's most popular trucks and SUVs, improving handling, increasing safety & enhancing appearance all at the same time. Like every Eibach Performance Spring Package, our Pro-Truck lowering kits are the perfect complement to the popular large-diameter wheel-&-tire packages. Precisely engineered and manufactured Eibach springs and rear-spring lowering components deliver superior handling while maintaining a smooth ride.

- High-Performance Handling
- Lower Center of Gravity
- Increased Resistance to Rollover
- Excellent Ride Quality
- Million Mile Warranty

Front-Only Pro-Truck Kits

increase the forward rake of your truck or SUV, giving it an aggressive look while improving its overall handling characteristics.

Pro-Kit

The Eibach Pro-Kit is the perfect answer for most frequently-driven street cars. It's our legendary spring system that dramatically improves both a vehicle's performance and appearance.

- Lowers vehicle 1.0"-1.5"
- Progressive Spring Design
- Excellent Ride Quality
- Million Mile Warranty

Sportline

Eibach Sportline is the extreme-performance spring set created for the extreme enthusiast—the one who craves a race-car attitude for maximum street performance—with the lowest possible drop, but with the exceptional ride quality you expect.

- Race-Car Like Handling
- Lowers Vehicle 1.7" - 2.3"
- Progressive Spring Design
- Excellent Ride Quality
- Million Mile Warranty

Rear-Only Pro-Truck Kits

contain all the parts you need to properly lower your rear ride height, leveling out your truck or SUV for a more balanced, integrated look and feel.

Pro-Damper

Eibach developed Pro-Dampers specifically to complement the Pro-Kit and Sportline springs, taking full advantage of the increased spring rate and lower center of gravity.

Anti-Roll Kit

Complete your suspension upgrade with an Eibach Anti-Roll-Kit. The Eibach Anti-Roll-Kit allows critical fine-tuning of your car's handling.

Belltech Drop Spindle

Belltech's Dropped Spindles offer a 2 and 3 inch drop, while improving handling and retaining factory ride quality. Our spindles maintain critical suspension geometry and eliminate the possibility of suspension misalignment. Each spindle is built from high strength ductile iron, providing the structural integrity to meet and exceed all factory specifications.

- **Retains critical front end geometry during lowering**
- **Exceeds OEM quality and strength standards**
- **Manufactured with high quality materials**
- **Award winning design**

#2351 The only lowering spindle on the market for 2004 to 2008 Ford F150

#2509, Engineered for 07+ Chevrolet trucks and SUV´s

Belltech Complete Lowering Kits

Belltech has reviewed their most popular tuck applications and has developed the Belltech Complete Kit Line to simplify your purchase. These complete lowering kits are your all in one box solution providing you with all the necessary parts to lower your truck. The kits are made up of a variety of combinations of our individual lowering parts. You are provided the options to choose our complete lowering kits without shocks, with Nitro Drop 2 Shocks or Street Performance Shocks.

Kit #192 – Chevrolet Tahoe/Yukon (2007) - Complete Lowering Kit with front & rear Street Performance Shocks

Kit #311 – Dodge Ram 1500 (02-05) - Complete Lowering Kit with front & rear Nitro Drop 2 Shocks

Kit #1115 – Chevrolet S10/S15 (94-03, 4 Cyl.) - Complete Lowering Kit without Shocks

Lowering/Level/Lifting Strut'

Specifically designed McPherson type front struts with relocated spring seat mounts allow for different spring seat positions. Depending on spacer configurations, the shock produces varying ride heights in 1" increments within a 0-2" range. Our newly designed "street performance" shock technology empowers you with the perfect balance of performance, comfort and ride height flexibility.

- **Customize and increase performance with just one purchase**
- **Retain the use of stock springs**
- **Designed for stock ride height replacement, lowering or lifting in 1" increments, up to 2"**
- **New "Street Performance" dampening technology**

Street Performance

Our engineers focused their attention on tuning the low speed compression characteristics of this shock absorber, which is responsible for controlling your trucks pitch and roll. The "Progressive" rebound tuning will complement large aftermarket wheels, keeping the ride smooth and firm.

- **The ultimate street performance solution**
- **Vehicle specific applications.**
- **Oversized Construction provides additional damping control**
- **15mm piston rod, 35 mm piston and a 55 mm shock body**
- **Teflon coated bushings and piston seals avoid metal to metal contact, provides lowest possible friction**
- **Increase handling and performance at maximum comfort**

Note „spindles" = these shocks are designed for **OEM** replacement, 1" spring or **spindle only** lowerings
Note „springs" = for any 2-3" **spring** or 2-5" **spring/spindle** lowering we recommend **shorter shocks**

Edelbrock

A Complete Line of Shocks for the Ultimate in Suspension Performance

Made in the USA

Edelbrock IAS shocks deliver incredibly responsive handling around tight turns and dramatically reduce body roll with a comfortable ride for outstanding vehicle control. Manufactured by Edelbrock in the U.S.A., these are the only automotive shocks that incorporate the patented Ricor Inertia Active System. This unique valve design senses changes in terrain and adjusts instantly for a better ride than you ever thought possible. Now available for hundreds of trucks & SUVs, there are several brands of Edelbrock shocks with the Inertia Active System (IAS). All Edelbrock IAS Shocks feature:

- Patented Inertia Active System for the best of both worlds... smooth ride and superior handling
- NitroSteel piston rod won't chip or flake like chrome
- High-pressure gas mono tube construction that dissipates heat more effectively for increased seal life and durability
- Durable powder coated finish for corrosion resistance
- Polyurethane bushings are more responsive
- Welds done with robotic projection welder for accuracy
- Large, 46mm piston for more consistent damping

Street Rod Adjustable Aluminum Shocks use a sintered metal velocity sensitive piston & offer performance of high-pressure gas mono-tube shocks.

Performer IAS were the first shocks to include Inertia Active System. They have a distinctive red powder coated finish

Xtreme IAS shocks are for lifted trucks and SUVs with the same durable zinc plated finish and 5/8" rod as our Xtreme Travel Remote Resevoir

Xtreme Travel Remote Resevoir shocks deliver extra travel and have more oil capacity for demanding off-road conditions.

Edelbrock Street Rod Adjustable Aluminum Shocks with velocitry-sensitive piston are designed for popular street rod applications. They can be mounted piston rod up or down for those who prefer the traditional look. The increased stroke works in a variety of applications.

- Constructed from all aluminum for light weight and optimum cooling
- Hard annodized inside for improved wear resistance
- Designed with an externally adjustable valve valve for tuning of your ride
- Springs sold aseperately for for use with IAS street rod shocks
  Call your salesman for more details

HUBS

Premium Manual Hubs

BEST SELLING HUBS IN THE WORLD. MADE IN THE U.S.A.

- Made of new ZA27 super alloy body and durable, all metal components.
- First choice for most 4WD's manufactured today.
- Longer clutch-ring spline teeth & body spline area for better handling.
- Larger body wall thickness to optimize clutching strength.
- Corrosion resistant, chrome-plated finish for long-lasting performance.

Standard Manual Hubs

OUR REPUTATION FOR QUALITY & INNOVATION IS UNMATCHED.

- Designed to fit most 1/2, 3/4 and 1 ton 4WD vehicles. Same quality as original equipment hubs.
- Features chrome-plated or painted housings and sure-turn dials for easy engagement.
- Installation time is less than 1 hour per set. Guaranteed for life.

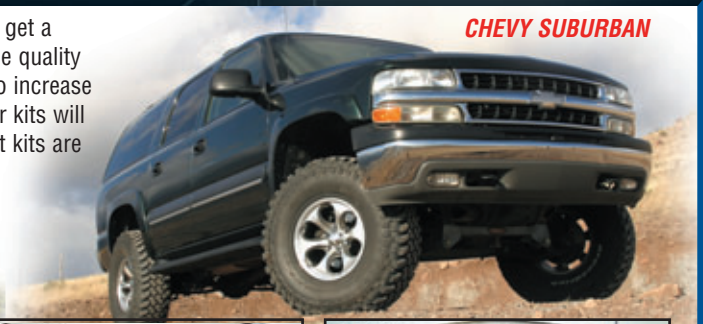
BODY LIFT KITS

PERFORMANCE ACCESSORIES™

Performance Accessories body lift kits are an affordable method to get a moderate lift for your vehicle. Body lift kits will not compromise the quality factory ride while allowing for larger tires and wheels. Our kits also increase body clearance for improved off-road ability, and in many cases our kits will fit both 2WD and 4WD vehicles. Performance Accessories body lift kits are the most complete in the industry.



CHEVY SUBURBAN

CHEVY 2500HD

URETHANE GAP GUARDS

They're the finishing touch for a body lifted truck. Do you hate the gap between frame and body after your vehicle is lifted? Tired of a muddy engine compartment? Are you ready to fix these problems? No problem. Performance Accessories Gap Guards are what you need. These urethane gap guards are thicker, heavier, fit better and will last far longer than similar rubber-based products on the market. Kits include all necessary hardware and installation instructions.

AFFORDABLE:
Performance Accessories body lift kits are a very affordable option when considering lifting a vehicle; in some cases a Performance Accessories body lift can be as much as 3 times less than a comparable suspension system

RIDE:
Since body lift systems do not alter or change suspension components there is no deterioration of the quality factory ride

WARRANTY:
Since Performance Accessories body lift systems do not change or alter factory parts the factory warranty is not affected

LARGER TIRES:
The primary reason to lift a vehicle is to install larger tires and wheels. A body lift from Performance Accessories allows you to increase two to three tire sizes

2WD & 4WD:
Most Performance Accessories body lift systems fit both 2WD and 4WD vehicles.

VALUE:
When you combine all the reasons listed above, body lift systems from Performance Accessories are by far the best value when lifting a vehicle.

SHACKLE SETS

Are you looking for a little lift for your truck, Jeep or SUV? A spring shackle lift may be just what you need. To ensure years of dependable service our lift shackles are constructed of 3/8" thick steel with fully welded center supports. All corners are rounded to avoid interference problems. New grade 5 zinc plated hardware is included with each shackle lift kit, along with a detailed instructions and full technical support. All shackles are clad in a durable gold zinc finish.

DODGE/FORD

2010 Dodge Ram 1500 4WD

 # TRLD4610SSV - 4" Lift Kit with SSV Shocks

2006-08 Dodge Ram 1500 4WD

 # TRLD4609SSV - 6" Lift Kit with SSV Shocks

2003-08 Dodge Ram 2500/3500 4WD

- Full 4.5" lift for diesel engines
- New front coil springs deliver quality ride performance.
- Poly-Urethane bushings.

 # TRLD4501SSV - 4.5" Lift Kit Diesel with SSV Shocks
 # TRLD4502SSV - 4.5" Lift Kit Gas Engine with SSV Shocks

1994-01 Ram 1500 4WD

- System utilizes new lower 4 link arms and replacement coil springs
- Includes newly redesigned lower link frame brackets

 # TRLDT22SSV - 2" Lift Kit with SSV Shocks
 # TRLDT60SSV - 4" Lift Kit with SSV Shocks (94-99 Only)

2008-11 Superduty Powerstroke F250/350 4WD

- Rugged open-tubular design, replacement radius arms for improved performance
- Exclusive braided steel Kevlar lined front brake lines included
- Fits 35" tall tires
- Pitman arm included
- New front coil springs - NO SPACER!

 # TRLF4734SSV - 6" Lift Kit with SSV Shocks

2004-08 F150 4WD

- 6" system featuring CNC machined ductile iron steering knuckles
- Exclusive design replaces front driveline for vibration free performance
- Fits 35" tall tires
- Front double cardan constant velocity drive line is included in the kit
- Exclusive braided steel Kevlar lined front brake lines included
- Rear is lifted with blocks to maintain ride quality
- New CNC machined rear driveline spacer

 # TRLF4405SSV - 6" Lift Kit with SSV Shocks

2005-07 F250/F350 4WD

- Race inspired replacement radius arm
- Fits 35" tall tires
- Brackets are engineered to eliminate bump steer
- Replacement pitman arm is standard in the kit
- Braided steel Kevlar lined front brake lines
- SSV shocks for the ultimate in ride performance
- Rear is lifted with blocks to maintain ride quality

 # TRLF4531SSV - 6" Lift Kit with SSV Shocks
 # TRLF4533SSV - 6" Long Arm Lift Kit with SSV Shocks

1999-04 F250/F350 4WD

 # TRLF4521- 6" Lift Kit for Gas Engines with Square Front U-bolts
 # TRLF4523- 6" Lift Kit for Diesel Engines and Square Front U-bolts
 # TRLF4525SSV - 6" Lift Kit for Gas Engines with Large Radius Front U-Bolts
 # TRLF4527SSV - 6" Lift Kit for Diesel Engines with Large Radius Front U-Bolts
 # TRLF4525- 6" Lift Kit for Gas Engines with Large Radius Dront U-bolts
 # TRLF4527- 6" Lift Kit for Diesel Engines with Large Radius Dront U-bolts

SUSPENSION LIFTS

TOYOTA

07-09 Toyota Tundra (2.5" + 3")

This exclusive system combines Trailmaster's 2.5" suspension spacer kit with a 3" Performance Accessories body lift kit for a total of 5.5" of lift.

- Gap Guards Included
- Rear shocks are relocated, parts included

 # TRLT4607 - 5.5" Combo Lift Kit
 # TRLT4502 - 2.5" Spacer Lift Kit Only

07-08 Toyota FJ Cruiser

- Polyurethane coil spacer designed to retain quality factory ride
- Exclusive Billet strut spacer
- Compatible with 2WD & 4WD

 # TRLT4620 - 3" Lift Kit

2005-09 Tacoma 2/4WD (3" + 3")

This exclusive system combines Trailmaster's 3" suspension spacer kit with a 3" Performance Accessories body lift kit for a total of 6" of lift

- Gap Guards and Front Skid Plate included

 # TRLT4606 - 6" Combo Lift Kit
 # TRLT4501 - 3" Spacer Lift Kit Kit

86-95 Toyota PU 90-95 4Runner

 # TRLTP855V - 4" Lift Kit

NISSAN

2005-08 Nissan Titan

- Laser cut components for tight tolerance and easy fit/install
- CNC machined fductile iron steering knuckles
- Retain OE steering geometry
- 1/8" thich skidplate included to protect differential
- Center and aft braces included adding strength and rigidity
- Sold with replacement new SSV rear shocks tuned to work in compliance with the OE front shocks for a matched system
- Maximum Tire Size: 35x12.5x17

 # TRLN4501SSV - 6" Lift Kit

LEVELING KITS & STEERING STABILIZERS

Leveling Kits

Trailmaster front coil spring leveling suspension systems provide 2, 2-1/2, or 3 inches of front end lift (depending on application) removing the OE factory rake. New urethane bushings replace the stock rubber spring bushing on top of the OE coil and include a built in recess to accept factory coil, insuring a snug fit. Complete with machined aluminum spacers (where application requires), new grade 8 bolts, and installation instructions.

MANY MORE PRODUCTS & APPLICATIONS AVAILABLE. CALL OR STOP BY TODAY FOR PRICING AND AVAILABILITY.

SHOCK ABSORBERS

- "On-the-fly" ride adjustability no buttons or dials to adjust, or lines that leak
- SSV Speed Smart Valve adjusts to road surfaces automatically
- Applications for stock height or lifted vehicles
- Tough, platinum-grey outer finish
- Black urethane bushings and dust boots
- Low pressure nitrogen gas charging reduces oil foaming and outperforms foam cell shocks
- Large 2-3/8" diameter cylinders

Invader SS Shocks

- Our lowest priced performance shock
- Heavy duty twin-tube construction protects inner shock from damage
- Tough white enamel finish withstands rust
- Multi stage compression valving
- Large, sintered-iron 35mm piston head
- Includes urethane bushings.

SSVR & SSVX Reservoir Shocks

- High-pressure gas mono-tube construction dissipates heat more effectively for longer life
- Durable powder coated clear coat on top of brushed zinc finish
- Robotic welds for strength
- Polyurethane EXR piggyback kit available as an accessory #TRLSA10

FABTECH ADVANTAGE

IFS SYSTEMS

- No driveshaft change required on IFS systems
- No exhaust modification required on most 6" systems
- Includes front and rear bumpstop brackets
- impact Includes struts
- Includes differential skid plate
- Increased caster for more control
- Compatible with SUV Autoride shocks

SOLID AXLE SYSTEMS

- Basic System - drop bracket system uses stock radius arms
- Radius Arm System - full tubular structure w/dimple die side plates
- 4 Link System- bolton system, 2" diameter heavy wall and links, race style 1" uniballs.
- All systems include Performance or Dirt Logic Shocks

3" Performance Strut System (Shocks Ordered Separately)	SKYTC530STKS
3" Performance Strut Kit for '95.5-'04 Tundra w/ Add-A-Leafs (Shocks Ordered Separately	SKYTTU30STK

2-6" Suspension For The '07-'10 Toyota Tundra 4WD

Skyjacker® has developed two new 3" Suspension lifts for the NEW '07-'10 Tundra, along with the 2" leveling spacer and 6" kit and system. The 3" coil-over conversion lift features performance series front coil-over shocks with 2" outside diameter and all the necessary mounting hardware. The 3" Performance Strut lift features new performance series struts and the factory coil is maintained. The rear lift on both kits is achieved using Skyjacker® blocks and u-bolts. These are high performance Skyjacker® Suspensions complete with all the options and the ease of a simple bolt-on installation.

LIFT YOUR RIDE WITH RANCHO®

Dodge Suspension

2010-09 2500/3500 4WD
Part No. RANRS6585B

2011-09 Power Wagon 4WD
Part No. RS6584B

4-in. SUSPENSION SYSTEM
- **Fits 37-in. tires**
- Maintains proper driveshaft angles
- New forged pitman arm
- New heavy-duty tubular-style front links
- Front track bar relocation bracket
- One piece cast rear blocks
- Allows for reuse of the stock wheels

Coil spings sold separately. This suspension system was developed using a 37x12.5xR17 tire on a 17x8-in. wheel w/ 6.3-in. B.S.

2011-09 RAM 1500 4WD
Part No. RANRS6587B

4-in. SUSPENSION SYSTEM
- **Fits up to 34.5-in. tires**
- Will not affect the Electronic Stability Control system
- One-piece reinforced subframe, made from high-strength, low-alloy steel
- Maintains factory location of rack and pinion
- No exhaust modifications required
- CNC machined extended steering knuckles
- Progressive rate rear coil springs

This suspension system was developed using a 315/70/R17 tire on a 17x8-in. wheel w/ 4.5-in. B.S.

2011-10 RAM 2500 4WD GAS AND DIESEL
Part No. RANRS6578B

NEW FOR 2011

4-in. SUSPENSION SYSTEM
- **Fits up to 37-in. tires**
- New heavy-duty tubular-style front links
- Aligns to OE specifications all alignment hardware provided
- Rear leaf spring blocks
- CAD designed components ensure a precise fit
- New forged pitman arm
- Front track bar relocation bracket
- Allows for reuse of the stock wheels

Coil springs and rear kit sold separately. This suspension system was developed using a 37x12.5xR17 tire w/ 6-in. B.S.

Jeep Suspension

Shown with Rancho® RockGEAR™

2011-07 JEEP JK WRANGLER
Part No. RANRS6514/B

4-in. SHORT ARM SUSPENSION SYSTEM
- **Fits up to 37-in. tires**
- High-articulation short arm design
- Utilizes stock frame mounts
- Adjustable upper arms, front & rear
- Lower 2.0-in. DOM tube arms, front & rear
- Limited Lifetime Warranty

Available in black or red finish. This suspension system was developed using a 37x12.5xR18 tire on a 18x9-in. wheel w/ 4.5-in. B.S.

2011-07 JEEP JK WRANGLER
Part No. RANRS6509/B

4-in. LONG ARM SUSPENSION SYSTEM 2/4 DOOR
- **Fits up to 37-in. tires**
- High-articulation long arm design
- Reverse rear tri-link track bar eliminator design
- Heavy-duty tubular-style front radius arm design
- Exhaust modification required
- Limited Lifetime Warranty

Available in black or red finish. Rancho performance exhaust system available. This suspension system was developed using a 37x12.5xR18 tire on a 18x9-in. wheel w/ 4.5-in. B.S.

2011-07 JEEP JK WRANGLER
Part No. RANRS6507/B

4-in. SPORT SUSPENSION SYSTEM
- **Fits up to 37-in. tires**
- Easy to install high-clearance drop bracket design
- Utilizes stock frame mounts
- Installs in about 4 hours
- Limited Lifetime Warranty

Available in black or red finish. This suspension system was developed using a 35x12.5xR18 tire on a 18x9-in. wheel w/ 4.5-in. B.S.

Trimming or modification may be required to provide proper tire clearance.Shocks sold separately (RS5000™ or RS9000XL™)

Rancho® High Clearance Performance JK Exhaust Systems
Part No. RANRS720001-4DR : RANRS720002 -2DR

- Rancho's high-clearance 2.5-in JK exhaust system routes the muffler inside the frame rail just before the axle for maximum clearance

Part No. RANRS6514/B

2007-05 F250/350 Super Duty 4WD
Part No. RANRS6511/B

4-in. SUSPENSION SYSTEM
- **Fits up to 35-in. tires**
- No drivetrain modification required
- Allows for reuse of the stock wheels
- New forged pitman arm
- Competition-style tubular radius arm design
- Front track bar relocation bracket
- Limited Lifetime Warranty

2010-09 F150 4WD
Part No. RANRS6518B/RANRS6519B

4-in. SUSPENSION SYSTEM
- **Fits up to 35-in. tires**
- Will not affect the AdvanceTrac® with RSC® (Roll Stability Control) system
- Allows for reuse of the stock 18-in. or 20-in. wheel
- One-piece reinforced subframe, made from high-strength, low-alloy steel
- Maintains factory location of rack & pinion and uses OE tie rod ends
- CNC machined extended steering knuckles
- Limited Lifetime Warranty

This suspension system was developed using a 35x12.5xR18 tire on a 18x9-in. wheel w/ 4.5-in. B.S.

2011 F250/F350 4WD
Part No. RANRS6524B

4-in. SUSPENSION SYSTEM
- **Fits up to 37-in. tires**
- Competition-style tubular radius arm design
- New forged pitman arm
- Maintains factory location of rack & pinion
- Uses OE tire rod ends
- Aligns to OE specifications
- Rear leaf spring blocks
- CAD designed components ensure precise fit
- Limited Lifetime Warranty

Coil springs and rear kit sold separately. This suspension system was developed using a 37x12.5xR20 tire with 6.25-in. of B.S.

2011 F250/F350 4WD
Part No. RANRS6525B

NEW FOR 2011

2.5-in. LEVELING KIT
- **Fits up to 35-in. tires**
- Competition-style tubular radius arm design
- Maintains factory location of rack & pinion
- Uses OE tire rod ends
- Aligns to OE specifications
- CAD designed components ensure a precise fit
- Limited Lifetime Warranty

Coil springs sold separately. This suspension system was developed using a 35x12.5xR17 tire w/ 6.25-in. of B.S.

Available in black or red finish. This suspension system was developed using a 325x60xR20 tire on a 20x9-in. wheel w/ 6.3-in. B.S.

GM Suspension

2010-04 COLORADO/CANYON
Part No. RANRS6569B

4-in. SUSPENSION SYSTEM
- **Fits up to 285/70/R17 tires**
- Will not affect the StabiliTrak electronic stability control system
- Two piece cross-member - made from high-strength low-alloy steel
- Maintains factory location of rack & pinion and uses OE tire rod ends

This suspension system was developed using a 285x70xR17 tire on a 17x9-in. wheel w/ 4.5-in. B.S.

2011-07 Silverado/Sierra 1500
Part No. RANRS6583B

4-in. SUSPENSION SYSTEM
- **Fits up to 35-in. tires**
- Will not affect the StabiliTrak control system
- One-piece reinforced subframe, made from high-strength, low-alloy steel
- Maintains factory location of rack and pinion
- No exhaust modification required
- Allows for reuse of the stock wheels

This suspension system was developed using a 35x12.5xR20 tire on a 18x9-in. wheel w/ 4.5-in. B.S.

2011 GM 2500 HD

The new 2011 GM 2500 HD truck has raised the bar for what a real heavy duty light truck is. Every aspect of the truck is enhanced to make it stronger and better than ever before. With all of the improvements made to the HD, the engineering team at Pro Comp set out to build the best suspension system possible to keep pace with the new truck. The result is a 6in suspension system that will set the standard for what a suspension lift system should be.

Features
- CNC laser cut cross members
- Nitro-charged gas shocks included
- Precision CNC machined steering knuckles
- Integrated ¼" steel skid plate
- Clears 35 x 13.50 tires on 18" and 20" wheels
- 100% compatible with Stabilitrak electronic stability control system
- Estimated install time 3.5 hours
- No drilling
- No cutting of front differential
- Allows use of factory 18" and 20" wheels

99-10 GM 2500HD

New 6" Knuckle systems for 99-10 Sierra / Silverado 2500HD 4WD. Clear's 35" tires. 100% Compatible with factory stability control systems. Option double shock hoop upgrade available.

07- 11 SIERRA /SILVERADO 1500

6" systems for 07-11 Sierra / Silverado 1500 2/4WD. Compatible with Electronic Stability Program (ESP). Stage II systems feature MX2.75c Series coil over front shocks and MX-6 way adjustable rear shocks for outstanding ride comfort and handling. Stage I systems are available with front strut spacer and ES9000 rear shock absorbers to deliver factory ride quality. Clear's 35" tires

09-10 DODGE RAM 1500

6" systems for 09-10 Dodge Ram 1500 4WD with multi-link rear coil suspension. Compatible with Electronic Stability Program (ESP). Stage II systems feature MX2.75c Series coil over front shocks and MX-6 way adjustable rear shocks for outstanding ride comfort and handling. Stage I systems are available with front strut spacer and ES9000 rear shock absorbers to deliver factory ride quality. Clear's 35" tires

07- 11 DODGE RAM 2500

All new 6" Long Arm suspension system for the 2007-2011 Dodge Ram 2500/ 3500 Diesel 4WD. This Long Arm system is available with your choice of ES9000, MX6, MX2.75R or FOX series shocks. 6" of lift allows use of 37" x 13.50" tires, on wheels up to 9" wide with up to 4.625" of backspacing.

2011 FORD SUPERDUTY F250 /F350

These new ystems feature laser cut brackets and a drop pitman arm to maintain proper suspension and steering control. Specific rate coils increase ride height and improves ride quality. Stage II systems include radius arms with OE type pivot bushings Stage I systems feature radius arm drop down brackets. Shock options for Stage I and Stage II kits are: MX6 adjustable shocks with reservoirs, MX6 adjustable shocks without reservoirs or ES9000 gas pressurized non adjustable shocks.

NEW

05-10 Super Duty 2/4WD

Systems feature laser cut brackets and a drop pitman arm to maintain proper suspension and steering control. Specific rate coils increase ride height and improves ride quality. Stage II systems include radius arms with OE type pivot bushings Stage I systems feature radius arm drop down brackets. Shock options for Stage I and Stage II kits are: MX6 adjustable shocks with reservoirs, MX6 adjustable shocks without reservoirs or ES9000 gas pressurized non adjustable shocks.

09 -11 FORD F-150

New 6" suspension system 09-11 Ford F-150 2wd and 4wd. Compatible with Advanctrak with Roll Stability Control (RSC). Stage II systems feature MX2.75c Series coil over front shocks and MX6 adjustable rear shocks for outstanding ride comfort and handling. Stage I systems feature spacers for the factory front struts and ES9000 rear shock absorbers to deliver factory ride quality.

04 -08 FORD F-150

Pro Comp's 6" suspension system 04-08 Ford F-150 2wd and 4wd. Stage II systems feature MX2.75c Series coil over front shocks and MX6 adjustable rear shocks for outstanding ride comfort and handling. Stage I systems feature spacers for the factory front struts and ES9000 rear shock absorbers to deliver factory ride quality.

LEVEL LIFT SYSTEMS

Leveling the front of your vehicle is now easy and affordable. Pro Comp's new Level Lift kits raise the front of the vehicle 1.5" to 2.5" inches giving your vehicle a proper stance and improved appearance. This increases vehicle ground clearance and allows for the use of larger diameter wheel and tire combinations.* Best of all, the Level Lift kit does not change the overall suspension or steering geometry which will allow the vehicle to retain its OEM ride quality.

2011 Application Available Now!

New Kits Available For 2011

LEVELING

GUARANTEED TO MAINTAIN YOUR FACTORY RIDE

ReadyLift® Suspension Inc has the most complete line of industry leading Leveling Kits. Most major suspension retailers carry the ReadyLift® Leveling Product line because their customers demand the Best. ReadyLift® has a full line of leveling components ranging from the industry leading forged leveling torsion key complete with shock extension brackets, to strong steel strut spacers and machined billet aluminum strut spacers, including adjustable versions for late model GM and Jeep vehicles. Included in the ReadyLift® Leveling line up are popular coil spacers for applications such as the Ford Super Duty and Dodge Ram trucks. Toyota application leveling kits also includes differential drop spacers as well as skid plate spacers. Every ReadyLift® Leveling Kit system is specifically engineered to each vehicle platform. ReadyLift® GUARANTEES that our products will maintain your OEM ride! All products include a Limited Lifetime Warranty.

ReadyLift SST Strut Extensions

ReadyLift® is the leader in engineering and manufacturing high-quality Strut Extensions for most makes of strut-equipped trucks and SUVs. Our SST Strut Extensions come in numerous vehicle make-specific designs. The steel SST Strut Extension is a welded spacer that bolts to the top of the existing strut and provides up to 3" of front lift. Our CNC-machined billet aluminum strut extensions are engineered for vehicles such as the late model GM 1500 series trucks and new 2009 Dodge Ram 1500. These static height spacers provide mild leveling from 1.5-2.0" while our high-tech adjustable aluminum spacers for GM SUVs and Jeep Wranglers provide three different leveling height positions. Our Toyota Leveling systems include differential drop and skid plate spacers while our popular 66-3085 GM 2.25" leveling kit includes lower strut spacers. As with every one of our leveling kit systems, our leveling products are a direct bolt on installation that requires no cutting or drilling.

New 66-3011 Shown

ReadyLift SST Forged Torsion Keys

The ReadyLift® torsion leveling key kits consist of a set of re-engineered forged torsion adjustment keys along with shorter bolts to prevent over-rotation of the torsion bars on GM vehicle kits. Some vehicle specific kits also feature front shock extension brackets so you don't have to replace your quality factory shocks. This design levels out the front of all torsion bar-equipped 2wd and 4wd trucks and SUVs without compromising the OEM Factory Ride and allows for up to 33" tall tires with wheel combinations up to 9-inches wide. The ReadyLift® Forged Torsion Keys are the strongest on the market and exceed manufacturer strength standards. Every ReadyLift kit is Guaranteed for life. Unlike others cheap key that can be found, the ReadyLift® brand of torsion keys have been engineered to provide the Right amount of torsional lift without sacrificing your factory ride!
New 66-3011 2011 GM 2500HD/3500HD leveling kit now available!

ReadyLift SST Coil Spacers

The ReadyLift® Coil Spacer kits consists of a precision built coil spacer that bolts into the top of the existing factory spring bucket. This design adds up to 2" of lift to the front of these vehicles while leveling out the rake of the factory stance without compromising the OEM Factory Ride and allows for 35" to 37" tall tires. What separates ReadyLift® coil spacers from some others is that our spacers are made from strong steel or billet aluminum. Our GM and Dodge Ram 2WD coil spacers feature both steel and billet aluminum impregnated coil cup that will not deform, split or separate from the polyurethane spacer which doubles as a sound isolator.

T6 BILLET BY READYLIFT SUSPENSION — NEW LINE!

ReadyLIFT® T6 Billet Suspension leveling kits are Made in the USA using only premium 6061 T6 aircraft billet aluminum and includes 10.9 rated mounting hardware and associated kit parts to get the leveling lift job done right with super cool looks! ReadyLIFT® leveling kits are direct bolt-on applications maintaining the factory ride and factory alignment specifications. No cutting or drilling is required when installing our new T6 Billet kits. The ReadyLIFT® line of stylish leveling kits are now available in a tough anodized Black, Silver, Blue and Red finish and are laser etched with our ReadyLIFT® Suspension logo.

SST HYBRID MILD LIFT KITS THAT MAINTAIN YOUR FACTORY RIDE

ReadyLift® Suspension Inc now offers an exciting new line of mild lift kits. The new 69 Series kits are called Smart Suspension Technology (SST) Hybrid Lift Kits and are designed to provide a lifted stance with a slight OEM rake along with clearance for maximum wheel/tire sizes, all while maintaining your factory ride. ReadyLift® SST Lift Kits are the perfect combination of front and rear lift components blended together in one unique "hybrid" mild lift system. In addition, SST Lift Kits install in one-third the time of a more expensive conventional lift kit and none of our SST Lift Kits require any permanent modification to your Truck or SUV, making it easy and cost effective to return the vehicle to stock. Each ReadyLift® SST Lift Kit comes complete with all necessary hardware and instructions and a limited lifetime warranty. ReadyLift SST Hybrid Lift Kits are available for Ford, Dodge, Toyota, Jeep, Nissan and Honda vehicles.

1st to Market

GT GAS & DIESEL

All in one: tuner, safety monitor, Driving Coach and performance gauges.

The Triple Dog® Gauge Tuner is an engine tuner and vehicle monitoring device. Much like the PMT but a compact version, the GT has a 2.4" screen.

Through Bully Dog's advanced engine tuning techniques, the GT will add more horsepower and torque to many late model diesel & gas applications.

The GT also gives you horsepower that is adjustable on-thb*«v) ^ii l wing you to change power output for towing or changing driving conditions at the press of a button. Fuel economy also improves as a result of better engine tuning. Substantial improvements in fuel economy can be realized with the improved tuning coupled with a conservative driving style.

The GT is designed to remain plugged into the vehicle's OBDll port during vehicle operation so it can monitor and display critical vehicle information such as exhaust gas temperature and transmission temperature. The GT can also modify certain vehicle characteristics such as speed limiters, transmission tuning and many others. For detailed vehicle spe`fª` fkclo j ^qflk check our website, there you can see exactly what the GT does for each vehicib pmb`fª` application.

WatchDog™

Optimizing the performance of your vehicle starts with understanding what it is doing and how it is performing.

As you modify your vehicle in any way it is important ql hklt ^ka rkabopq^ka te^q qelpb j lafª`^qflkp are doing to your vehicles performance, it is also important to understand these things when altering your chassis set-up and/or your driving style. Keeping an eye on vehicle parameters such as temperatures and speeds is also very important to any performance vehicle owner.

The WatchDog is also a very useful general purpose gauge unit for towing and everyday driving. It will support our aftermarket pyrometer kit to monitor EGTs and will provide automated safety warnings based on a number of different vehicle parameters. For the fuel economy minded motorist, the WatchDog has the Driving Coach which will help just about anyone achieve better fuel economy.

Works on most vehicles 1996 & newer with OBDII

EVOLUTION PROGRAMMER

The Evolution re-tunes your truck to maximize performance, fuel economy and monitoring capabilities. And for diesel trucks, it is the first standalone programmer to include an EGT probe. The Evolution comes with a custom-designed mounting pod to give it that "factory" look. The Evolution can also display up to four different parameters at a time to monitor vital engine data while you drive, perform 0-60 and quarter-mile performance tests and acts as a complete scan tool that reads and clears trouble codes.

ItemNo.	Year	Description

INSIGHT DIGITAL GAUGE DISPLAY

The Insight is Edge's first standalone multi-gauge display. With one simple connection to the OBDII port, the Insight taps into a wealth of information about the vehicle — anything from performance testing to fuel efficiency. It functions as a scan tool by displaying and clearing diagnostic trouble codes with full text description. With built-in safety features, an additional sensor port and its scan-tool and data-logging capabilities, the Insight is the most comprehensive automotive electronic tool on the market.

TRAIL JAMMER PLUG-IN MODULE/INTAKE/THROTTLE BODY

The Edge Trail Jammer performance kit delivers ideal air/fuel enhancements for 4.0-liter Wranglers, Rubicons or Cherokees. The full kit includes an electronic module for performance tuning, a machined throttle body to improve driveability and a cold air Intake system to maximize air flow. Improves power and throttle response both on and off the road and adds up to 20% more HP.

HORSEPOWER AND MILEAGE
THE ULTIMATE HYBRID

JUICE ATTITUDE

PLUG-IN MODULE/IN-CAB CONTROLLER

Edge's most advanced product line. The Juice controls timing and duration of injector firing for GM, Ford, and Dodge models to deliver maximum performance (up to 125 additional HP) and improved driveability. With the Attitude, the unit also monitors the transmission, fuel pressure, turbo boost and EGTs to help maintain safe operating parameters.Other features include cold engine protection, shift point defueling for improved driveability and optimized power levels for towing, mileage and performance. "Hot" race versions also available for up to 180 additional HP.

Max Energy
POWER PROGRAMMER

Maximum Power & Performance, Improved MPG & Better Driveability in Less Than 15 Minutes

Only the best will do for your vehicle and Hypertech's Max Energy™ Power Programmer is the "no compromise" performance tuner. Hypertech delivers maximum power and performance and fuel efficiency for diesel vehicles and offers other adjustable features to customize your vehicle the way you want at the push of a button in less than 15 minutes. Plus...The Max Energy reads, displays, and clears diagnostic trouble codes (DTCs).

The Most Powerful Tuning Available For Towing

Diesel vehicles get 3 optimized fuel tuning programs to choose. And only Hypertech's tuning can be used at the maximum power setting when towing up to the maximum weight rating specified by the vehicle manufacturer. We develop all of our Power Tuning under real-world conditions of maximum load and steep grades, while maintaining safe exhaust gas temperatures (EGTs).

Dodge

6.7 Cummins: **+85 hp/+181 tq**
5.9 Cummins: **+176 hp/+289 tq**

Ford

6.4 Power Stroke: **+114 hp/+188 tq**
6.0 Power Stroke: **+115 hp/+200 tq**
7.3 Power Stroke: **+100 hp/+164 tq**

GM

6.6 Duramax LMM: **+91 hp/+164 tq**
6.6 Duramax LB7: **+113 hp/+185 tq**

+3 MPG Increase

"I gained an honest 3 mpg in my F250 with Hypertech's Tuning. The increased power to pass on the highway is a great improvement that I enjoy having. Spool it up and hold on!"

Rob Bonnet
2008 Ford F250 6.4 Power Stroke

+5 MPG Increase

"The power increase is nothing short of 'unbelievable'! Mileage has improved from 13 to 18 mpg, towing my 21' bass boat or not! I would recommend Hypertech to anyone."

Terry McWhirter
2007 Chevy 6.6 Duramax

Application-Specific Performance Features

Note: All features described below are not available in all applications. The year, make, and model of the vehicle will determine the feature set for that application.

Speedometer Calibrator

Recalibrate speedometer for non-stock tire sizes and/or rear gear ratios

Firmer Automatic Transmission Shifting

Firmer shifting reduces clutch slippage and trans oil temps for longer transmission life

Top-Speed Limiter

Raise the top-speed limiter to match the speed rating of high-performance tires

More Efficient, Less Throttle=Better Fuel Economy Hypertech Users are Reporting 2 to 6 MPG Gains

We put our tuning methods to the test at a CARB-recognized lab – Automotive Testing Laboratories in Mesa, Arizona. The results from their EPA drive cycle test used for calculating O.E.M fuel economy proved a 13.67% MPG increase on a gas vehicle! A similar test for diesels proved a 9.73% increase in fuel efficiency.

How Much Will You Save Per Gallon? Savings calculated at $4.00 per gallon.

Stock mpg	+1 mpg	+2 mpg	+3 mpg	+4 mpg	+5 mpg	+6 mpg
12	31¢	57¢	80¢	$1.00	$1.18	$1.33
14	27¢	50¢	71¢	89¢	$1.05	$1.20
16	24¢	44¢	63¢	80¢	95¢	$1.09
18	21¢	40¢	57¢	73¢	87¢	$1.00
20	19¢	36¢	52¢	67¢	80¢	92¢
22	17¢	33¢	48¢	62¢	74¢	86¢

NOTE: Actual savings may vary slightly from those shown.

Easy Plug-Push-Go Installation

Plug the small connector on the communications cable into the Max Energy and then plug the other end into the vehicle's diagnostic connector, located on the driver's side under the dash.

Follow the on-screen prompts and answer just a few simple "yes/no" questions to select the tuning options for your vehicle.

When programming is complete, the Max Energy screen will instruct you to disconnect the cable. Now your ready enjoy more power and performance, plus better fuel economy!

T1000 FEATURES

- Tune multiple supported vehicles (only 1 at a time)
- Includes multi - level tuning for various power levels
- The most end user adjustable parameters on the market
- Supports custom tuning using Diablosport's CMR custom tuning software.
- Set up your own virtual gauge alarm / shift lights using the Trinity's LEDS
- Hours of live data logging with over 100 MB of onboard memory / Individual user customization
- Build your own gauge layouts or use a preloaded layout
- Infinite number of combinations and/or customization of gauges
- Supports third party devices such as EGT, Wide band, Boost, and much more
- Accurately compute multiple "track times" from your Trinity
- 1/4 mile time : 1/8 mile time
- 0-60 time trial : 0-100 time trial
- Start from a reaction tree (just like the track)or from a stop [Once accelerator is engaged].
- Test your reaction time.

T1000 BUG FIXES

Inclusion of all incremental CROM files released since 1R06
Added support for the latest 03-07 6.0L Ford Powerstroke CAL IDs
Added support for new GM Gas CAL IDs

5 STAR RATED | FREE TECH SUPPORT | FREE UPDATES FOR LIFE | USB

DIAT1010 Trinity EGT Module:

The DiabloSport Exhaust Gas Temperature Sensor Module accurately measures the exhaust gas temperature of any internal combustion engine. The DiabloSport EGT module is manufactured specifically to interface with the DiabloSport Trinity. Once connected and set up properly, the DiabloSport Trinity will be able to display your vehicle's EGT info right on the high resolution color touch screen in a digital gauge of your choice.

DIAT1020 Trinity 2/16th Gauge Pod Mount:

The DiabloSport Trinity Gauge Pod Mount is a universal mount specifically designed to fit any 2 1/16th gauge pod. The Gauge Pod Mount locks into the back of the Trinity and allows a full 360 degree adjustment.

DIAT1025 Trinity Right Angle Connector:

Does your Trinity cable interfere with your driving? If so the DiabloSport Trinity Right Angle OBD2 Cable is what you need. This cable provides a 90 degree OBD2 end to give you some freedom under your vehicle's dash. Please check the configuration of your OBD2 port because this cable might not fit all applications.

PRO-COMP

The most rugged gauges available, these tough liquid filled mechanical gauges have more than 20 years of race proven heritage in the most extreme conditions. Gauges illuminate via incandescent bulbs and "around the dial" lighting.

See the Performance Section of this Catalog for Additional Listings of Auto Meter Gauge Styles.

Auto Meter GAUGE WORKS

Give your gauges a factory installed look with a GAUGE POD or Pillar Mount set from Auto Meter. These customized accessories attach easily to many different locatons inside your cab and are available in 1, 2, or 3 gauge models. Made in the USA, these products are constructed of tough plastic that resist warping or cracking for the ultimate performance look.

Give Your Diesel Engine a Boost

AIRAID Intake Systems use cold air dam technology to improve air flow and provide a cool, dense air charge to the engine, supplying clean air needed to feed turbochargers found in today's high-performance diesel powerplants. The result is improved horsepower and torque with uncompromised filtration supplied exclusively by Airaid.

DIESEL HORSEPOWER

High-Flow Diesel Air Filters

- Designed to Increase Horsepower
- Washable and Reusable
- 6 Layers of Extra Fine Weave Cotton

High-Flow Diesel Intake Systems

- Huge Power Gains and Better Engine Sound
- Easy to Install with No Cutting or Drilling
- Washable and Reusable
- Won't Void Factory Warranty

Universal Fit for Custom Jobs

Universal Converters

Easily adaptable for custom applications.

Walker® Universal-Fit Converters are the clear choice for installers with custom jobs that require fabrication and welding.

- Increased catalyst loading for problematic applications.
- OBDII-compatible (49 states – excludes California)
- Robust stainless steel body, aluminized heat shield for excellent strength.
- Aluminized expandable bushings.
- Aluminized heat shield.
- Stainless steel body.Aluminized heat shield.

DYNOMAX TRUCK STAXX™ UNIVERSAL SYSTEM

DynoMax has taken the guesswork out of fabricating and converting a heavy-duty truck exhaust sytem.

The DynoMax Truck Staxx kit enables light-truck owners to convert their existing exhaust outlet using two upright stacks located behind the passenger compartment. Available with either a 4" straight or angled outlet.

Each DynoMax Truck Staxx kit includes stacks reducers, elbows and hardware for a complete installation. A 4" splitter tee is available separately to adapt dual stacks to single exhaust applications. Rain caps are available separately for straight stacks.

Diesel & Turbo Diesel Exhaust Systems

40 SERIES with DELTA FLOW

No matter what truck you drive, Flowmaster has a system specifically for it with the tone you desire!

Looking for the famous, full-on Flowmaster tone? Look no further! American Thunder Kits will deliver the aggressive tone you want, as well as the performance you demand. Force II systems are designed to provide plenty of Flowmaster tone under acceleration but produces lower sound levels while cruising. All Flowmaster's systems will improve acceleration and passing power, as well as help improve fuel mileage. Every system is individually engineered and dyno-tested for each application and includes all required mounting hardware. All tubing is mandrel bent for superior exhaust gas flow, and is a key to the system's performance improvements. Both mufflers and tubing are fabricated from aluminized steel for corrosion resistance. Complete Flowmaster systems outperform most OEM and competitive aftermarket exhaust systems.

FLOWMASTER DELTA•FLOW TECHNOLOGY

Most Systems Include:

- *Flowmaster Performance 40 & 50 Series Mufflers*
- *All pipes with hangers already attached*
- *Clamps and mounting hardware*
- *Detailed installation instructions*

PERFORMANCE EXHAUST

Performance Single Exhaust Systems

These systems are available in both 4" and 5" configurations in both stainless and aluminized materials. Massive mandrel bent tubing and high flow mufflers provide improved performance and fuel economy. These systems utilize all the factory hangers and mounting locations to provide an OE fit every time. Available in Pro, XP, Installer, Black, P-Series, and PLM configurations.

Cool Duals Exhaust System

Performance dual exhaust systems for late model diesel pick up trucks. Available in stainless steel and aluminized steel for every style and budget. Massive mandrel bent tail pipes and a high flow muffler provide the ulitmate in style and performance. Available for Ford, Chevy, and Dodge diesel pickup trucks.

Black Series Systems

Our new Black Series is one of the latest innovations to roll off the production line here at MBRP. This series is available for some of our best selling 4" & 5" diameter exhaust systems for Ford, Chevy, and Dodge diesel powered pickups. Utilizing a unique high heat coating these systems provide a look all their own with the durability to look good for years to come. Manufactured from 100% heavy gauge aluminized steel these systems are as tough as your truck.

Performance and PLM Series

Exhaust at an amazing price point. Designed to compete with the cheapest imported products from overseas but with the North American made quality you're used to from MBRP. Featuring a two piece tail pipe to cut down on product costs and bolt on hangers to ease installation, these no nonsense systems provide you maximum performance at a minimal budget. Available with and without a muffler for every performance need and price point.

BD Diesel Performance has the most comprehensive line of diesel performance products, ranging from electronic controls to turbochargers, exhaust brakes and complete transmission assemblies. For Performance to Economy, choose the leader in diesel innovation. Choose BD!

Turbo Upgrades

A bigger turbocharger not only increases power, but also lowers EGT, reduces exhaust emissions and improves fuel economy. BD turbos are specifically designed for diesel applications for optimum performance.

YEAR	APPLICATION	PART NO.
94-02	Dodge Single Turbo 250-425HP	BDD1045220
03-04	Dodge Single Turbo 250-425HP	BDD1045230

BDD

Dodge Steering Box Stabilizer

Eliminates steering wander and wobble caused by excessive shaft play in the steering box of late-model Dodge trucks - virtually eliminates frame flex at the steering box mounting point, resulting in more positive steering feel.

YEAR	APPLICATION	PART NO.
94-02	Dodge 2wd	BDD1032002
94-02	Dodge 4wd	BDD1032004
03-07	Dodge 4wd	BDD1032005

Dodge Track Bars

Powder coated, adjustable track bar is built from rigid 1 3/8" seamless heavy wall tubing with formed & precision welded collars and comes with heavy duty Poly bushings. Prevents side-to-side movement of the front axle which can cause wear, hammering, wandering and the dreaded "Death Wobble". Adjustable to accommodate up to 4" lifts.

YEAR	APPLICATION	PART NO.

Flex-a-lite®

Increase your DIESEL's fuel mileage, horsepower & torque!

IT'S EASIER THAN YOU THINK

2003-2009 Dodge Cummins Diesel Fan

Boost mileage and horsepower by eliminating your stock clutch fan. **Part #FLE264** includes variable speed control and custom brackets.

#FLE264

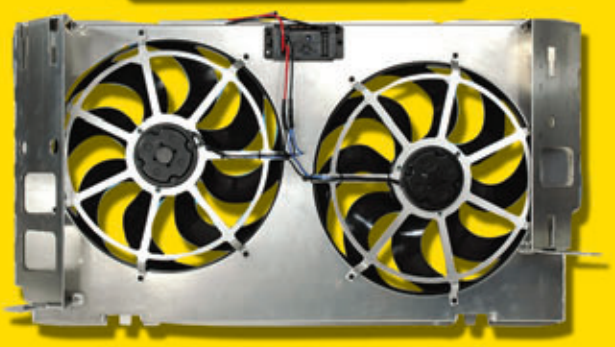
- Mounting surface required 29" x 27" x 4-1/4"
- Fits Cummins Diesel w/o Electric Clutch
- 8/Dual 15" Blades
- CFM 3300-5500
- Amp draw: 28-36

1994-2002 Dodge Cummins Diesel Fan

Boost mileage and horsepower by eliminating your stock clutch fan. **Part #FLE262** includes variable speed control and custom brackets.

#FLE262

- Mounting surface required 20" x 37" x 4"
- 28-36 Amp draw
- Brushed aluminum
- 8/Dual 15" Blades
- CMF 3300-5500



1998-2003 Ford F-250/F-350 7.3L Powerstroke Diesel Fan (4WD Only)

Increase your powerstroke's fuel mileage, horsepower and torque. **Part #FLE278** includes variable speed control and custom brackets.

#FLE278

- Mounting Surface is 30" x 26-1/2" x 4-1/4"
- Diamond plate shroud
- Dual 15" Blades
- CFM 6200
- Amp Draw is 28-36

2001-2005 Chevy/GMC Duramax Diesel Fan

Boost mileage and horsepower by eliminating your stock clutch fan. **Part #FLE284** includes variable speed control and custom brackets.

#FLE284

- Mounting Surface is 30" x 26-1/2" x 4-1/4"
- Glass reinforced nylon shroud
- Dual 15" Blades
- CFM 6000
- Amp Draw is 28-36

Note: Electric fans are not recommended for primary diesel engine cooling when the GVCW exceeds 18,000 pounds (truck, trailer and load)

DIESEL & TRUCK COMPONENTS

Single & Multi-Disc Billet Cover Converters

For 2003-05 GM Duramax Diesel Applications

TruckMaster converters improve fuel mileage, performance and durability

When you buy a heavy-duty diesel truck, such as the GM Duramax Turbo Diesel, you buy it for strength and performance. Since most of these trucks are used in "work horse" towing and hauling applications, the popularity of bolt-on diesel performance upgrades has skyrocketed.
Unfortunately, most owners don't realize, until it's too late, that the additional performance from programmers, exhaust upgrades, etc. only highlights the design compromises and weaknesses of the factory torque converter.

Now, thanks to the drivetrain engineers at TCI, ther is a new TruckMaster torque converter that yields increased performance, fuel mileage and durability for your GM turbo-diesel truck. Designed as a simple bolt-in upgrade to the factory Allison 1000 transmission, the TruckMaster converters are available in both single and multi-disc configurations to fit the demands of your specific applications. Additionally, the TruckMaster converters are designed to yield a lower-than-factory stall speed, allowing you to fully utilize the tremendous low-end torque of the GM turbo diesel engine.

- Billet cover eliminates common failure point of OEM converter
- Lower stall speed provides increased fuel mileage, acceleration and towing muscle
- New composite "lock-up piston" clutch material developed to handle heat associated with demanding towing applications

Description	Part #
TCI27220	2003-05 Allison 1000 Single-Disc Torque Converter
TCI27221	2003-05 Allison 1000 Multi-Disc Torque Converter

Dodge Hemi Truck Torque Converter

Improved internal components are keys to improved power, durability and mileage
TCI is making quite a name for itself these days, with great performance truck torque converters that increase power, efficiency and mileage. More durable than OE converters equipped with plastic stators, the new TCI Dodge Hemi Truck Torque Converters for 5-45RFE transmissions feature an aluminum stator for increased torque multiplications and heavy-duty furnace-brazed components. With a higher-than-stock stall speed and stronger thrust bearings, this torque converter delivers better power throughout the entire rpm range.

- Improved power, efficiency and mileage
- More durable than OE transmissions equipped with the stock plastic stators
- Features an aluminum stator for incrased torque multiplication
- Heavy-duty, furnace-brazed components
- Stronger thrust bearings

Description	Part #
TCI141600	Dodge Hemi Truck with 45RFG Transmission Torque Converter

Diesel Truckmaster Torque Converters

Diesel truck owners can benefit from the same performance and drivability improvements racers and enthusiasts have known for years by installing one of TCI's many diesel truck transmission torque converters. Available for Ford Powerstroke, Cummins Turbo Diesel and GM Turbo Diesel engine applications, TCI's Truckmaster Series of torque converters will improve performance, fuel mileage, reduce transmission temperature, and increase low-end power and top-end acceleration of these popular trucks.

TCI diesel-specific torque converters are tuned to these engine applications lowering the stall speed of the converter to take advantage of their low rpm engine torque. In addition, TCI Truckmaster torque converters utilize Torrington bearings and furnace-brazed internal components (as opposed to the spot welding found with most factory converters) to ensure lon life with these highly stresses torque converters. Most Truck Master models are also available with upgraded steel billet front covers for applications where computer modifications have been performed.

Max-Cool Aluminum Fluid Pans

Provides increased diesel transmission protection
It's a deep subject, but one which every owner of a diesel truck should be thinking about: keeping things cool. The TCI new line of high quality, diesel fluid pans do just that by increasing the fluid capacity of the transmission pan. The larger fluid supply and black powder-coated finish increase the heat dissipation, therefore dropping internal transmission temperatures 20 to 30 degrees and increasing transmission life. Additionally, these "trick" looking pans are built from aircraft-quality aluminum and feature added cooling fins to further improve cooling.

Every TCI diesel transmission pan comes complete with everything you need to install it yourself. The included magnetic drain plug helps keep loose metal from being circulated through the transmission, and the o-ringed (when applicable) sealing surface endures against leaks. Pans are available for most common diesel engine applications.

- Increased fluid capacity for maximum cooling
- Magnetic drain plug
- Stainless steel installation hardware
- 1/8" NPT temperature sender port
- Finned aircraft aluminum construction
- Allen wrenches included for installation and service

RBP™
ROLLING BIG POWER™

The Diesel Performance Accessories Line

RBP has contracted with several hand-picked manufactures who are producing a variety of products built to RBP's exclusive design. The ever-growing list of products manufactured and marketed by RBP includes diesel performance exhaust systems; grilles for diesel and gas pickups; a variety of custom bright-work, also for diesel pickups; exhaust tips for both diesel and gasoline-powered vehicles and a complete line of custom wheels. RBP also markets several diesel performance products produced by recognized manufactures, products that have passed the company's stringent in-house testing and meet the RBP criteria of excellence. RBP continues to redefine the world of custom trucks with innovative new products.

- Grilles
- Tail Pipe tips
- Programmers
- Wheels

Premium Manual Hubs

BEST SELLING HUBS IN THE WORLD. MADE IN THE U.S.A.

- Made of new ZA27 super alloy body and durable, all metal components.
- First choice for most 4WD's manufactured today.
- Longer clutch-ring spline teeth & body spline area for better handling.
- Larger body wall thickness to optimize clutching strength.
- Corrosion resistant, chrome-plated finish for long-lasting performance.

Standard Manual Hubs

OUR REPUTATION FOR QUALITY & INNOVATION IS UNMATCHED.

- Designed to fit most 1/2, 3/4 and 1 ton 4WD vehicles. Same quality as original equipment hubs.
- Features chrome-plated or painted housings and sure-turn dials for easy engagement.
- Installation time is less than 1 hour per set. Guaranteed for life.

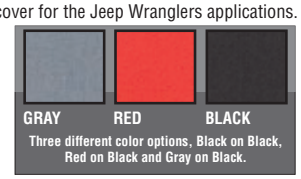
76-11 JEEP XRC PERFORMANCE SEATING

Billet tumble release handle offers a modern stylish look

These seats are designed to mount up to CJ and YJ applications directly to the factory sliders and will require additional brackets (sold separately) for the TJ/JK applications. With its fixed headrest design and fully adjustable reclining system the XRC Seat gives the look and performance needed for every situation. Also being introduced is a matching rear seat cover for the Jeep Wranglers applications.



Three different color options, Black on Black, Red on Black and Gray on Black.

Billet Jeep Accessories

Nose Jack Extender

Increased length and width lifting nose for more grip while lifting.

Part #
TAY700110

Hood Mount

Heavy-duty billet mount for utility jacks. Bolts on top of factory hinges and allows the hood to open normally. Keeps the jack out of the way for off-roading, but easy to grab when needed.

Part #
TAY789706

Combo Mount

Same as the 789706 Jack Mount, but adds a spot to mount most popular off-road lights.

Part #
TAY789716

Light Mount

Heavy-duty light mounts that bolt on the factory hood hinges to keep your lights out of harms way when off-roading.

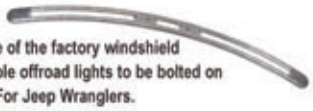
Part #
TAY789726

Bumper Surrounds

Billet trim rings that work with the factory bumper on the hood. Add some looks without much effort. For Jeep Wrangler.

Part #
TAY700140

Hood Light Bar



Curved billet piece that bolts on in place of the factory windshield tie down and bumpers. Allows for multiple offroad lights to be bolted on and keeps the lights out of harms way. For Jeep Wranglers.

Part #
TAY700400

Jack Hook

Heavy-duty bolts to the beam of most utility jacks to allow for spreading or clamping with popular utility jacks.

Part #
TAY700100

Base

Billet base with tread pattern to spread the footprint of the jack and help it stay in place on rougher terrain.

Part #
TAY700120

Hood Tie Down

Billet windshield tie bar. Replaces the factory tie down with a better looking billet unit. For Jeep Wrangler.

Part #
TAY700130

Tailgate Hinges

Large, heavy-duty tailgate hinges for Wranglers. These billet pieces make the factory hinges just look weak in comparison.

Part #
TAY700200

Rear Bumper

Large, heavy-duty rear bumper made of billet aluminum for Wranglers. 6" x 60-1/2" thick. Call for pricing and text options.

Part #
TAY700300

3rd Light Cover

Bolts onto the 3rd brake light with logos or text shining though when the brakes are used. Call for pricing and text options.

Heat Protection

Premium Exhaust Insulation Wrap

Exhaust wraps help to retain heat in your exhaust system, WHICH INCREASES HORSEPOWER while reducing radiant heat damage, especially to spark plug wires in header applications. Special Heat Coating allows wrap to withstand up to 1200° F continuous heat source.

Description	Size	Part #
Black	2"x15'	TAY2599
Red	2"x15'	TAY2601
Blue	2"x15'	TAY2605

'50' also available

Description	Size	Part #
Natural	1"x50'	TAY2534
Natural	2"x15'	TAY2607

Reflective Heat Tape

This tape reflects heat away from wires, cables, fuel lines and more! Durable cloth construction makes it last longer and is more rugged than similar products. This tape withstands 1100° F continuous radiant heat and 500° F of direct contact. Easy to cut and a cinch to install with its high temperature self adhesive backing.

Don't Settle for an Immitation - The Difference is Quality

With over 100 years of quality, the Hi-Lift Jack is a rugged, highly versatile jack that puts you in command of situations requiring lifting, pushing, pulling, winching, and clamping. Although light in weight and easy to maneuver, the Hi-Lift Jack offers a rated capacity of 4,660 lbs and a tested capacity of 7,000 lbs.

Hi-Lift Jack Features

- Every Jack comes with an adjustable top clamp/clevis for use in clamping & winching.
- Safety bolt is designed to shear at 7,000 lbs. (3175 kg)
- For speedy disengaging, lifting unit automatically drops away when load is removed.
- 4 1/2" (11cm) long lifting nose for positive contact with load.
- Steel bar can be reversed for extra long life.
- Low pickup of 4 1/2" (11cm).
- 28 square inch base plate.

Hi-Lift X-TREME Jack

The Hi-Lift® X-TREME is for the serious Hi-Lift® user, offering the "top of the line" all-cast version (48" or 60" sizes) with special features that include, charcoal metallic powder-coat finish, gold zinc-coated hardware and handle, and a special top winch-clamp-spreader attachment.

- Charcoal Metallic Powder-Coat Finish provides a truly unique look that separates it from the stan dard Hi-Lift.
- Gold Zinc-Coat Hardware ensures the greatest rust resistance from extreme use for all the hard ware, the unique winch-clamp-spreader attach ment, and the handle.
- Unique Winch-Clamp-Spreader Attachment replaces the clamp-clevis of standard Hi-Lift®
- Winch, clamp, or spread up to 5,000 lbs.
- One position for all winching, clamping, and spreading positions.

#HLJXT-485 (48"/122cm)
#HLJXT-605 (60"/152cm)

Hi-Lift Cast/Steel Jack

The cast and steel jack is exactly the same as the all-cast jack except that it has 4 stamped high-strength steel parts. We stamp and form the parts in-house; that allows us to offer the jack at a lower price, yet we still maintain the rigid quality standards that every Hi-Lift product must meet.

- Made of Cast & Stamped Steel Parts.
- 7000lb (3175.14kg) Tested Capacity.
- Available in 36", 42", 48", & 60" Heights. (91, 107, 122, & 152cm)
- Lifts, Winches, Clamps, & More.

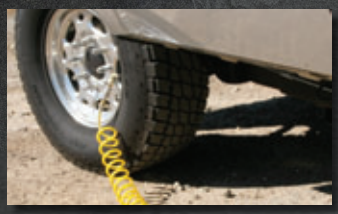
Your Vital Air Source



Onboard Air Systems

Enjoy the convenience of onboard air anywhere you travel with an VIAIR Onboard Air System (OBA) installed on your truck, SUV or Jeep. VIAIR offers more than six OBAs, based on tire size, that can be adapted to your vehicle. All OBAs come complete with thorough installation instructions that will make installation simple and straightforward. Many of the available OBAs can even operate air tools – turning your vehicle into a mobile repair shop.

Quarter Duty
Onboard Air System

Uses:
Air Locking Differential
Air Horns

Ultra Duty
Onboard Air System

Uses:
Air Up Tires
Air Locking Differential
Air Horns
Air Tools

HushMat®

Cool, Quiet, Comfortable

HushMat Ultra

Silencer Megabond Foam

Quiet Tape

H20 Seam Sealer

HushMat Ultra™ is the Installers Choice!

- Reduces thermal transfer by over 40% AND eliminates noise.
- Makes your "old rod" ride like new.
- Rated up to 500°F.
- Requires no heat guns or messy glue to apply.
- One step application—simply peel & stick and apply to:
  Door skin, frame and trim panel | Trunk floor and lid
  Floor—from fire wall to rear deck | Inside of roof skin.

HushMat Silencer Megabond™

Thermal Insulating, Sound Absorbing Foam

- Provides thermal insulation proven to perform up to 300°F.
- Absorbs higher frequency airborne noise (600-4000 Hz).
- Absorbs engine noise coming through the fire wall.
- Absorbs wind noise behind trim panels and headliner.
- Absorbs road noise coming up through the floor.
- Absorbs exhaust noise coming through the trunk.
- Aggressive pressure-sensitive adhesive for easy application.
- Apply directly on top of HushMat Ultra for Ultimate Control!

HushMat Quiet Tape™

- Secures wire harnesses and cables.
- Prevents nuisance rattles caused by loose wires and cables.
- Simply peel & stick—wrapping the wire or bridge over the top.

HushMat Ultra H 20™ Seam Sealer

- Non-solvent, water-based and self-adhesive.
- Paintable and sandable when cured.
- Air drys in 3 hours, maintains flexibility when cured.
- Seal seams on Street Rod/Hot Rod bodies
- Great for damping difficult to reach areas
- Apply with standard caulking gun using included nozzle.

Banjo Style Wheels

This modern day classic is an updated version of the classic "Banjo" steering wheel. Featuring stainless steel construction, sculptured stainless steel hardware and components, these wheels are designed to be the perfect finishing touch to any vintage street car or truck. The rims are available in rich, soft, hand-stitched leather or mahogany wood.

Black leather Banjo Wheel
14.75" Diameter, 3.5" Dish GRT1050

Mahogany Banjo Wheel
14.75" Diameter, 3.5" Dish GRT1057

Classic Chain Wheels

The Classic chain wheels feature a welded chain grip in three and four spoke designs.

Brilliant Chrome Finish
11" Diameter, 3.5" Dish GRT740

Le Mans Wheels

These Timeless European design wheels feature performance driven components such as stainless steel button head hardware, slotted aluminum spokes and hand-stitched leather-grained vinyl or hand polished mahogany grips.

Black leather Model
13.5" Diameter, 3" Dish GRT1072

Classic Foam Wheels

The most complete assortment of sizes and finishes for that "timeless" hi-performance look. This design features GRANT's exclusive extra thick foam cushion grip. The spokes are constructed from CRS steel in brilliant chrome or matte black finishes.

Matte Black Spoke Models
13.5" Diameter, 3.5" Dish GRT338
11.5" Diameter, 3.75" Dish GRT334

Brilliant Chrome Spokes
13.5" Diameter, 3.5" Dish GRT838
11.5" Diameter, 3.5" Dish GRT834
10" Diameter, 5.5" Dish GRT833

Genuine Mahogany Steering Wheels

The enduring beauty of hand-crafted mahogany wood makes an elegant steering wheel that will transform the interior of any car or truck. Made from the finest of hand-rubbed woods, these designs feature contoured hand-grips for driving comfort. These wheels feature GRANT's 5-bolt pattern and can be used with the optional Billet Style Installation Kit.

Polished Spoke Design
14" Diameter, 3" Dish GRT704

Sculptured Center Cover
14" Diameter, 3.5" Dish GRT1169

Satin Silver Spoke Design
14" Diameter, 3" Dish GRT714

Light Stain w/ Rivets
14" Diameter, 3.5" Dish GRT1175

Heritage Collection Steering Wheels

The Heritage Collection features larger diameter steering wheels. The spokes are machined aluminum with a polished mirror finish or paintable black. The rims are genuine leather, hand rubbed mahogany wood.

Black Spoke, Black Leather
14.75" Diameter, 2.5 Dish GRT15861
Same with Mahogany GRT15862

Chrome Spoke, Black Leather
14.75" Diameter, 2.5 Dish GRT15871

Chrome GRT1338

Vehicle Security System

Remove your steering wheel when you park your vehicle with Grant's Vehicle Security System. Take your wheel into the office, home, gym or keep the steering wheel locked out of sight in vehicle's trunk. First use the flagged security key to unlock steering wheel. Simply trigger the release knob, turn wheel to left, and remove wheel. Snap on security lock out cap and remove key.

Part # GRT2001

The Airbag Steering Wheel Solution!

1996-00 Honda Civic GRT84164

How do you customize an airbag equipped factory steering wheel? GRANT's Custom StylingRing is the solution! Each is a specially designed cover that exactly matches the contours and spokes of the steering wheelgrip and spoke areas. Molded from high strength composite material and held securely in place with 3M tape, it installs easily to instantly transform the ordinary appearance of the steering wheel into a highly stylized custom wheel.

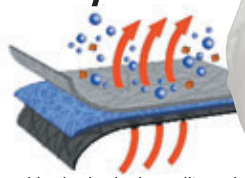
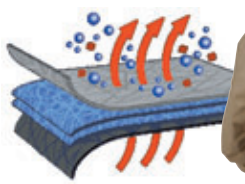
Block-It™ Fabric
by Kimberly-Clark



Block-It Fabric 200-Series Ready-Fit® Covers

The material was developed by Kimberly-Clark to be a mid-price leader in quality and performance. It uses 3-layer polypropylene construction for moisture and dust resistance, and the fibers are treated for extra UV resistance. This U.S. made fabric offers good, basic protection and is an excellent value. Easy to use, and less bulky for compact storage and this cover is so soft that it will not scratch the paint. While the cover is resistant to moisture, it will saturate after long periods of exposure to moisture. What makes this cover better than the competition is that is breaths, letting the moisture dry up and eliminated mold and mildew between the cover and your vehicle.



Block-It Fabric 400-Series Ready-Fit® Covers

Block-It 400 Series, (formerly know as Evolution®4) uses 4-layer polypropylene construction for maximum protection in all weather conditions. Often imitated but never equaled, this U.S. made fabric is used by millions of satisfied enthusiasts around the world. The 4-layer thickness helps absorb impacts to help protect the finish from nicks, dings, dents and scratches. The soft inner layer will not scratch, mar or dull paint or delicate clearcoat finishes. This cover, like all Block-it Fabrics, does a outstanding job of resisting moisture, while allowing air to circulate through the fabric. This eliminate mold and mildew between the cover and your vehicle.

Universal Cover Locking Cable	COVZCBL

Who should use a Car Cover?

The answer to that question is anyone who wants to keep their car or truck cleaner, newer looking and shinier. Anyone who wants to protect their vehicle from damaging UV exposure, acid rain, bird droppings and pollutants.

The best kind of car or truck covers are American Made, breathable, water resistant and sun-proof. If you are thinking about buying a car cover and t does not have these characteristics, do yourself a favor, don't buy it! All Covercraft covers have these desirable qualities.

Covercraft offer a wide selection of fabrics, to allow you to select the one that will meet your vehicle's protection needs and budget. Different fabrics offer different levels of protection performance, and some focus on protecting from a specific element, like intense sun exposure or dust.

Billet Aluminum Grilles for Cars

BILLET CARRIAGE WORKS ACCESSORIES

The "ORIGINAL" Billet Grille & STILL the BEST!

- Made of 6061-T6 "Solid-Stock" billet aluminum.
- All grilles are TIG-welded by hand or "Robotically" MIG-welded in CAD-designed, CNC-milled fixtures.
- Processes utilize "Aerospace" tolerances to insure a precise fit everytime.
- Bolt-Over Series - the easiest installation... bolts over the OEM grille... NO Cutting, NO Drilling!
  Original Series - offers the best appearance enhancement option for a custom look and OEM fit.
- "No-Cut" Replacement design replaces the OEM shell WITHOUT CUTTING! - "Cut-Out' Replacement design requires Cutting/Sanding and/or Drilling for the greatest eye appeal.

Many earlier model applications are available, this is a representation of the applications offered. You can find all the applications offered from the website (www.carriageworksinc.com), catalog or through your favorite dealer.

PRECISION GRILLES

Classic™ Billet GRILLES

VERTICAL BILLET™

In an industry where the only products used to dress out a vehicle, are the hottest new products, the billet grilles 14 year appeal stands out as a timeless upgrade. For over 11 years, the Precision Classic Billet Grille line has established itself as one of the finest grille lines available. Each application is made of the finest materials and crafted to enhance the vehicle with precision fitting products. As with all products that are engineered for a custom look, these grilles often require a more professional installation. The Vertical Billet line is made to the same standards as our Classic Billet line, however, the crossbars point skyward for a unique look.

EZBillet™ GRILLES

EZSolid™ GRILLES

EZStainless™ GRILLES

Made to the same high standard as their Classic Billet Grille line, the EZ grilles install with little or no drilling or cutting. This has created an entirely new market for the Do-It-Yourself enthusiast. EZsolid grilles are made from a solid plate of 6061-T6 aircraft aluminum and is CNC machined on both sides for crisp and clean lines. EZstainless grilles start with the highest quality 16 gauge stainless steel to produce a breathtakingly beautiful bolt-over grille.

ONETWENTY STAINLESS WIRE MESH

XSIXTY STAINLESS WIRE MESH

In an industry where style is a must we have developed a product line that will satisfy just that. Each grille starts off with a pristine laser cut trim ring made of a 304 stainless steel, with a mirror bright finish for a brilliant lasting shine, added to this is our triple chrome plated stainless steel wire mesh. So if you're looking for a sleek stylish design to dress up the front of your vehicle.... Get Wired.

Maximum Performance Chassis Components

Frame Connectors

Bolt-On Frame Connectors

Designed to add stiffness to factory unibody cars used in high performance applications. Every application has been designed and engineered to fit properly to each vehicle without the need for major modifications. This allows for easy installation in an afternoon with basic hand tools. Constructed of 2" x 1½" x .083 wall mild steel tubing.

Part #	Description
CENC3112	'67-69 Camaro/Firebird
CENC3113	'70-75 Camaro/Firebird
CENC3114	'76-81 Camaro/Firebird
CENC3116	'68-76 Nova, Apollo, Tempest, ect.
CENC3140	'65-70 Mustang
CENC3141	'79-93 Mustang

Weld-In Frame Connectors

Engineered to provide a solid connection between the front and rear subframes on unibody vehicles. Similar to their bolt-on counterparts, these connectors offer a solid foundation for traction control crossmembers as well as eliminating twisting in chassis. Constructed of 2" x 2" x .083 wall mild steel tubing.

Part #	Description
CENC3012	'67-69 Camaro/Firebird
CENC3013	'70-81 Camaro/Firebird
CENC3014	'62-67 Chevy II
CENC3016	'68-76 Nova/Ventura II
CENC3040	'65-73 Mustang
CENC3045	'79-93 Mustang, Modification Required
CENC3047	'68-74 Chrysler "B" Body

Ladder Bar Crossmember

Designed to provide a sturdy mounting point for the front ladder bar rod ends. Manufactured from 1¾" x .120 wall mandrel bent steel tubing this crossmember is capable of withstanding the abuse of a racing suspension while also adding strength to the chassis. Each kit includes 3/16" stamped steel brackets with 360° thru-mounted holes for increased strength.

Part #	Description
CENC2019	Ladder Bar Crossmember

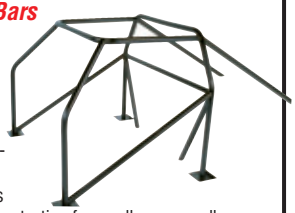
Roll Bar & Cages

8-Point Roll Bars

Manufactured from 1¾" x .134" wall mild steel tubing, The main hoop consists of a mandrel formed model specific main hoop. The strut kit consists of two rear struts, two front door bars, main hoop crossbrace, two diagonal hoop supports, six weld joint gussets and six 6" x 6" x 1/8" steel mounting pads to provide a solid mount for the bars. Complete instructions are included to ensure a hassle free installation. 2 #'s required for kit.

Part #	Description
CENC3000	8-Point Strut Kit
CENC3121A	'70-81 Camaro/Firebird-Main Hoop
CENC3124A	'64-72 Chevelle, GTO, Tempest, Cutlass & '68-72 Fairlane, Torino, Montego Main Hoop
CENC3122A	'78-87Malibu, Monte Carlo, Grand Prix, Regal, Cutlass, 442 Main Hoop

10-Point Roll Bars



Mandatory in all cars running "10.99 or quicker" with modified firewalls and/or floorboards. When properly installed the 10-Point Roll Cages will provide added protection from rollover as well as add increased chassis stiffness for better reaction times. The hoop kit consists of hoop supports designed specifically for your vehicle. The strut kit consists of two door bars, two rear struts, six 6" x 6" x 1/8" steel mounting pads and twelve weld joint gussets. Complete instructions are included to ensure hassle free installation. 2 #'s required for kit.

Part #	Description
CENC3310	10-Point Strut Kit
CENC3222A	'70-81 Camaro/Firebird Hoop Kit
CENC3225A	'79-83 Mustang Hoop Kit

Rear Shock Mounts

Upper Coil Over Mount

Designed to mount between the rear frame rails on any rod. Includes 40" long 1.625" x .188" thick all tubing, brackets and Grade 8 hardware. Welding required.

Part #	Description
CENC2046	Upper Coil-Over Mount Kit

Lower Shock Mount

Can be used by itself or in conjunction with #C2046. Provides a solid, adjustable mounting point for racing coil-over shocks.

Part #	Description
CENC2047	Lower Shock Mount

Shocks

Adjustable Drag Shocks

AllowS the front end of the race car to rise rapidly upon initial launch,As the car travels down the track, the front end will gradually descend to it's ride height without unloading the rear tires which is a major cause of wheel spin. Our rear shocks work in conjunction with our front shocks making the transition from initial launch to top end charge as smooth as possible.

Rear Suspension

Rear Coil-Over Shock Kit

Fits a variety of applications including Drag Race, Pro Street, Street Rods and Kit Cars. Complete with 3-way adjustable shocks, upper mounts and adjustable lower mounts with six inches of ride height adjustment. Zinc finished for great looks and corrosion resistance. Spring sold separately.

Part #	Description
CENC2051	Rear Coil-Over Kit

Professional Wheel-E-Bars

Spring adjusters made from 7075 T6 aluminum to allow for ease in adjustment. Contains all fasteners as & quick release pins to allow access to rear end housing.

Part #	Description
CENC2016	Chrome Plated w/Natural Finish Alum

Magnum Series,Double Adjustable Ladder Bars

Universal Series Ladder Bars

- 33 1/2" overall length
- Rod end safety brackets installed
- 3/16" hot rolled steel mounting plates
- Mounting bracket gussets included

Part #	Description
C2008	Magnum Double Adj Ladder Bar Universal

Magnum Series Chrome Moly Rod Ends

These self lubricating/sealing Rod Ends use increased cross sectional thickness for greater tensile strength, for demanding applications. When loaded this unique design creates metal to metal contact for unsurpassed strength, yet when unloaded the Teflon/Kevlar injected liner will not rattle or squeak. Jam nut is included.

Sportsman S/T RADIAL

Popular Sizes for Muscle Cars

The All New Sportsman S/T Radial is designed for Muscle Car owners demanding Performance, Quality & Styling. Raised White Letters or Black Sidewall out t his All Season Performance tire will give your Muscle Car a wide low profile look along with the great handling and performance that your car deserves.

- Raised White Letters / Stylized Blackwall
- Radial Construction for High Mileage & Smooth Ride
- M&S Rated All-Season Performance Tread Design
- T Speed Rated 118 MPH

ET Street RADIAL

Polyester Ply/Steel Belted, Black, Tubeless

Years of drag racing experience & compound development come together in this D.O.T. approved street legal drag radial will get you down the track in record time & drive you home with sure handling and an excellent ride.

- Soft Compound for Superior Traction at the Strip
- Radial Construction for Excellent Ride on the Street
- D.O.T. Approved, Street Legal
- Low Void Tread Pattern Eliminates Feathering
- Special Sidewall Construction for Quick Launches

Engineered to greatly increase performance and efficiency, Edelbrock E-Tec heads fit 302, 327, 350 and 400 c.i.d. small-block Chevys with "Vortec-Style" intake manifolds. These heads incorporate Edelbrock's new high-quench combustion chamber which promotes a more uniform atomization of the air/fuel mixture for more power. Spark plugs have been positioned closer to the center of the cylinder for more efficient combustion. Both versions for the Edelbrock E-Tec heads come with one-piece stainless steel valves that are swirl-polished and have undercut stems for maximum flow. They accept center-bolt or standard valve covers, work with most stock exhaust manifolds and have intake ports that are .200" higher than standard heads. For maximum performance, match with an Edelbrock Vortec manifold.

Edelbrock LS1 Cylinder Heads

PERFORMER RPM LS/LT1
CNC HEADS

For GM Gen III Engines

Featuring CNC-ported 65cc chambers with ports blended to match intake inlets and exhaust outlets, these cylinder heads fit all 1997 and later Gen III LS Series engines including 4.8L, 5.3L, 5.7L and 6.0L. Complete heads come with 2.02" intake and 1.57" exhaust valves, reinforced rocker bosses as well as Heli-Coiled™ rocker stud and exhaust bolt holes. Flow figures are 275 cfm intake and 200 cfm exhaust, both at 0.550" valve lift with a stock bore 3.90" at 28" of water.

Performer RPM LSx Semi-CNC Cylinder Head.....Complete #EDL61949
Performer RPM LT1 Fully-CNC Cylinder Head.....Complete #EDL61939

EDELBROCK/LIGENFELTER
LS1 CNC HEADS

Match with RPM AIR-GAP or Victor Jr. Manifolds

This new head fits 1997 and later GM LS1 and other Gen III engines including 4.8L, 5.3L and 6.0L V8s. The head is CNC-ported by Lingenfelter Performance Engineering, benefiting from their years of experience in Gen III performance modifications. Like all Edelbrock heads, it features accesory mounting bosses, heli-coiled rocker studs and exhaust bolt holes, and reinforced rocker bosses. The Performer RPM LS1 head is available bare or fully assembled and ready to bolt-on with high quality stainles steel 2.02" intake and 1.57" exhaust valves.

Performer RPM LS1.....Bare #EDL61979.....Complete #EDL61969

LS1 PRO-PORT HEADS

For Professional Head Porters ONLY!

Designed, engineered and cast with porting in mind, the Edelbrock LS1 Pro-Port™ cylinder head is the perfect casting for any custom cylinder head porter.

Cylinder head porters and engine builders alike now have an affordable LS1 casting that will enable them to create new port configurations, never before possible with the thin, lightweight factory castings. The LS1 Pro-Port™ cylinder head casting is the same high-quality casting that Edelbrock has designed for use in our Edelbrock/Lingenfelter CNC ported LS1 cylinder head.

The LS1 Pro-Port is been beefed-up with extra material in all critical areas for unmatched durability in purpose built applications. The Edelbrock #61989 Pro-Port™ casting opens the door to creating small-to-large port configurations ensuring 100% clean-up in the porting process, producing high flowing, and high velocity air-flow numbers. Every LS1 cylinder head specialist will find this high-quality, robust casting the casting of choice when it comes to carving out their own custom ports. Requires professional cylinder head preparation.

- Machined to OE dimensions to allow for use with existing CNC programs
- Tall intake short turn and small intake cross-section for modern, high velocity port designs
- Exhaust features extra bowl and short turn material to accommodate all exhaust port shapes philosophies.
- Extra metal and merged rocker boss pairs for improved valve train stability
- Extra material in the spring pockets to allow for larger spring diameters
- Heavy deck thickness ensures optimum gasket retention and material for milling of the deck for smaller combustion chamber sizes
- Newly designed internal water jacket allows for highly efficient cooling with out sacrificing extra material and overall strength
- Versatile combustion chamber can be machined from sizes ranging 40cc to 80cc without fear of thin material
- OE quality powdered metal valve seats and valve guides installed
- Heli-coiled rocker stands and exhaust flange bolts holes

LS1 Pro-Port head is machined to stock dimensions and will accomodate any CNC program!

Performer & Performer RPM

- Out-of-the-Box, Bolt On Performance
- Hand-Blended Intake & Exhaust Bowls
- Hardened Tip, Stainless Steel Swirl-Polished Valves
- CNC-Matched Intake & Exhaust Ports
- Proven Performance from a Name You Can Trust
- Thicker Deck Surfaces than other brands

Cast at the ultramodern Edelbrock Aluminum Foundry, Edelbrock heads are made from A356 aluminum and heat treated to T-6 specs. Our state-of-the-art manufacturing facility uses the latest CNC programmable machining centers for high-degree of accuracy and quality is assured through the use of a Coordinate Measuring Machines (CMM) in our Quality Control Department.

Features for all Edelbrock heads include: threaded inserts in rocker studs and exhaust manifold bolt holes for superior strength and durability; hardened seats and maganese bronze valve guides; minimum 9/16" deck thickness; fully machined valve cover rails for a more consistent gasket seal and all Edelbrock heads are designed to accept high-lift cams.

50 state legal

Performer and Performer RPM heads... Out-of-the-Box, Bolt-on Performance

These street high-performance heads provide out-of-the-box, bolt-on performance with no additional porting required. They offer improved power throughout the rpm range for great throttle response and top-end horsepower. The intake and exhaust runners are CNC-profiled for superior flow and performance. Standard port location allows the use of Edelbrock Performer, Performer RPM, Torker II and Victor Jr. intakes and others. Stock location of the exhaust flange allows the use of stock exhaust or headers. Hardened interlocking valve seats are compatible with any fuel. All Performer and Performer RPM heads are assembled with high-quality components: stainless steel, 1-piece swirl-polished intake and exhaust valves with under-cut stems; 2-ring positive oil control seals; rocker studs; hardened steel guide plates; valve springs, retainers and keepers. In most cases, these heads are directly interchangeable with the factory heads. Performer heads have provisions for all exhaust emissions related components and are street legal, while the Performer RPM heads are for non-emission vehicles. Match Performer heads with Performer intakes and Performer RPM heads with Performer RPM manifolds for an outstanding combination. Edelbrock carbs and cams complete the "no guesswork" Power Package.

POWER PACKAGE Top End Kits for Chevy & Ford Engines

You supply the block and let Edelbrock supply the technology…

Our Power Package concept is second to none. To make things easier in parts selection, we have taken the next step in providing "no guesswork" by actually placing the power package components together under a single part number. The Small Block kits include almost everything you need to duplicate our performance proven Performer RPM 410 hp or 435 hp E-Tec Crate Engines; intake, heads, cam & lifters (except roller lifters), head & intake bolt kits as well as a complete gasket set. Push rods and rocker arms not included. The **Big Block 502 Kit** is designed specifically for GM's ZZ502 HO Gen V & VI short block and comes complete with Victor Jr. 454-R manifold, Victor Jr. 24° rect. port cylinder heads, Performer RPM Hydraulic Roller Cam, timing chain and gear set, intake bolts, head bolts, and Edelbrock high-quality gaskets. Dyno tests on a GM 502 short block with flat top pistons and an Edelbrock Thunder Series AVS 800cfm carburetor resulted in power readings of **611 horsepower @ 6,000 rpm and 579ft/lbs of torque at 4500 rpm with pump gas!**

Fully Assembled Crate Engines

Chevy Small Blocks

Now you can order a brand new fully-assembled engine that's virtually ready to run and delivers classic Edelbrock performance right out-of-the-box. Best of all, these engines include high-quality Edelbrock intake manifolds, carburetors, cylinder heads, water pumps and camshafts.

Available in many power levels to fit many applications…

RPM Air-Gap Dual-Quad Engine with Endura Shine #EDL45004

Precision Assembly that is Truly "Made in the U.S.A."

Only the best components such as MSD and ARP are utilized for the assembly of Edelbrock Crate Engines. Edelbrock heads, camshaft, water pump and Thunder Series carburetor top off the GM short block for great out-of-the-box performance. Quality and care are used for each Edelbrock Crate Engine as they are hand built here in america by dedicated team members.

ENDURA SHINE™

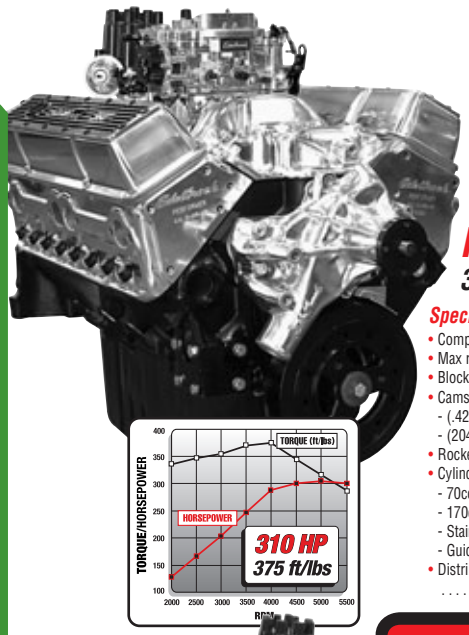
WARRANTY 2YR UNLIMITED MILEAGE #1 CUSTOMER SERVICE

Available with As-Cast, Polished and EnduraShine Aluminum Edelbrock Components

Edelbrock understands that every customer wants choices. This is why Edelbrock offers our customers the option of having their crate engine built with our aluminum products in the traditional as-cast finish, with a show-quality polished finish or with our new EnduraShine finish. Order the "Polished Package" and you'll get an engine with polished heads, intake manifold and water pump if applicable. EnduraShine only available on selected models.

Two Year/Unlimited Mileage Warranty…

All Edelbrock crate engines come with a 24 month, unlimited mileage insured warranty that includes rental car and towing reimbursement if needed. With this exclusive crate engine warranty, you get classic Edelbrock proven performance backed by a proven warranty for complete peace of mind. Since the days of Vic Sr. racing on the dry lakes, we've believed in customer service and this warranty is an excellent example. Edelbrock's crate engine warranty program is administered through Charter Financial LLC, an authorized insurance provider who handles many other automotive programs as well. One of the great features of this warranty is your right to choose a service facility. Upon Charter's approval, you have the flexibility of choosing any ASE-certified facility nationwide to take care of your warranty claims. Whether you're close to home or on a cross country cruise, we've got you covered. **NOTE:** To activate warranty service, the warranty card included with the engine must be completed and submitted to Charter Financial within thirty days of purchase.

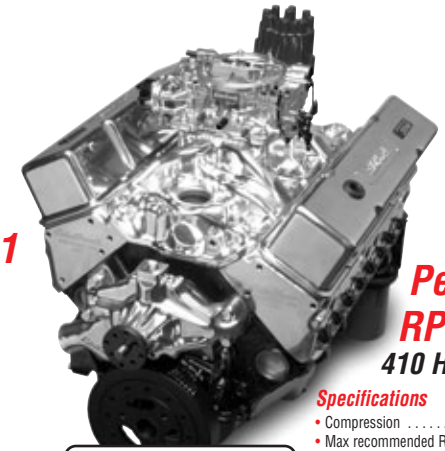


Most Performer crate engines include Elite Series aluminum valve covers with badge.

Performer 8.5:1
310 HP / 375 Torque

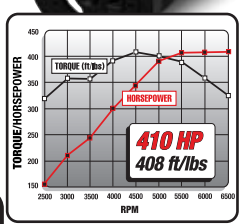
Specifications

- Compression 8.5:1
- Max recommended RPM ..5500
- Block .....New GM 4-bolt
- Camshaft .....Performer #2102
  - (.420" / .442" lift)
  - (204° / 214° duration @.050)
- Rocker arms .....Stamped steel 1.5:1
- Cylinder Heads .....Performer #60759
  - 70cc Combustion chamber
  - 170cc intake runner / 60cc exhaust runner
  - Stainless steel 2.02" intake / 1.60" exhaust valves
  - Guide plates included
- Distributor .....MSD Pro Billet with .....Blaster 2 coil



Made in the USA

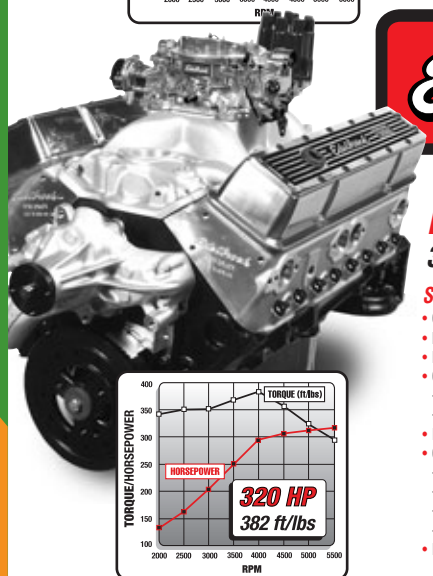
Performer RPM 9.5:1
410 HP / 408 Torque



Specifications

- Compression 9.5:1
- Max recommended RPM ..6500
- Block .....New "ZZ" 4-bolt main
- Camshaft .....Performer RPM #7102
  - (.488" / .510" lift)
  - (234° / 244° duration @.050)
- Rocker arms .....Aluminum Roller 1.5:1
- Cylinder Heads .....Performer RPM #60899
  - 64cc Combustion chamber
  - 170cc intake runner / 80cc exhaust runner
  - Stainless steel 2.02" intake / 1.60" exhaust valves
  - Guide plates included
- Distributor .....MSD Pro Billet with .....Blaster 2 coil
- Oil Pan .....Milodon

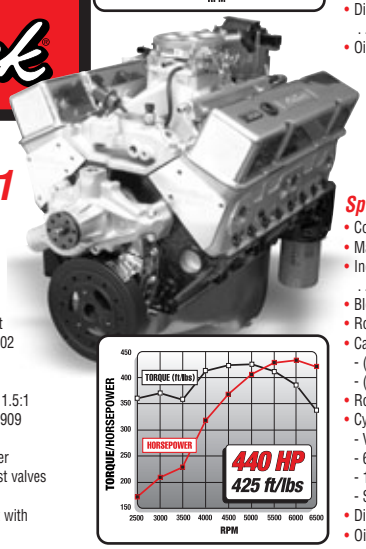
Edelbrock®



Performer 9.0:1
320 HP / 382 Torque

Specifications

- Compression 9.0:1
- Max recommended RPM ..5500
- Block .....New GM 4-bolt
- Camshaft .....Performer #2102
  - (.420" / .442" lift)
  - (204° / 214° duration @.050)
- Rocker arms .....Stamped steel 1.5:1
- Cylinder Heads .....Performer #60909
  - 64cc Combustion chamber
  - 170cc intake runner / 60cc exhaust runner
  - Stainless steel 2.02" intake / 1.60" exhaust valves
  - Guide plates included
- Distributor .....MSD Pro Billet with .....Blaster 2 Coil



Performer RPM E-Tec EFI 9.5:1
440 HP / 425 Torque

Specifications

- Compression 9.5:1
- Max recommended RPM ..6500
- Induction .....Performer RPM Pro-Flo .....Multi Point EFI #3507
- Block .....New "ZZ" 4-bolt main
- Rods .....Powdered metal
- Camshaft .....RPM hyd. roller #2204
  - (.539" / .548" lift)
  - (234° / 238° duration @.050)
- Rocker arms .....Aluminum roller 1.5:1
- Cylinder Heads .....RPM E-Tec #60979
  - Vortec-style intake port
  - 64cc Combustion chamber
  - 170cc intake runner / 80cc raised exhaust runner
  - Stainless steel 1.94" intake / 1.55" exhaust valves
- Distributor .....MSD Pro Billet HEI
- Oil Pan .....Milodon

Hex A Just®

All Hex-A-Just chain sets are infinitely adjustable to plus or minus 6°. The accuracy and simplicity of this system is unmatched. These sets feature billet steel camshaft sprockets and all the features of the TRUE roller sets. SB/BB-Chevy and BB-Chrysler sets include needle thrust bearing.

Original TRUE®

TRUE Roller sets are made from high strength steel which is rolled and hardened to exacting standards. The cam sprocket is made from high quality heat-treated cast iron or ductile iron. The crankshaft sprockets have 3 patented keyways and are made from high quality carbon steel.

Billet TRUE® with 9 Keyway

- Billet Steel, Induction Heat Treated Sprockets
- Seamless, True Roller Chain, with .250 Rollers
- 9 Keyway Crank Sprocket

Street TRUE®

These timing chain sets feature full roller action on .250'' diameter solid rollers with carburized pins for excellent wear resistance. Precision machined cast-iron cam sprocket, billet steel crank sprocket with 3 keyways.

Heavy Duty

This is a high-performance roller set for street use. Includes cast iron cam sprocket with a heat treated crank sprocket. A big step up from factory timing sets.

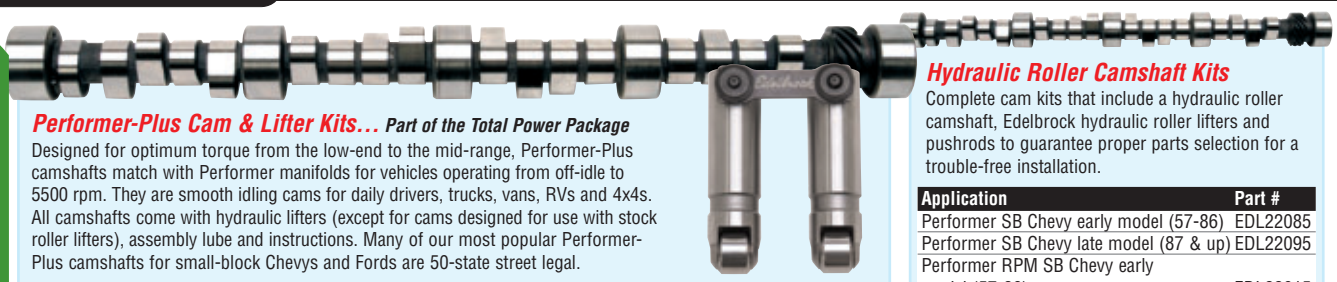
Camshaft & Lifter Kits



Performer-Plus Cam & Lifter Kits... *Part of the Total Power Package*

Designed for optimum torque from the low-end to the mid-range, Performer-Plus camshafts match with Performer manifolds for vehicles operating from off-idle to 5500 rpm. They are smooth idling cams for daily drivers, trucks, vans, RVs and 4x4s. All camshafts come with hydraulic lifters (except for cams designed for use with stock roller lifters), assembly lube and instructions. Many of our most popular Performer-Plus camshafts for small-block Chevys and Fords are 50-state street legal.

Performer RPM Camshaft Kits

Designed for street high-performance applications, Performer RPM cams provide power from 1500 to 6500 rpm. These hydraulic lifter camshafts are dyno-matched to Performer RPM manifolds for high-rpm horsepower while maintaining acceptable low-end torque. With 10 to 12 inches of manifold vacuum at idle, Performer RPM cams have more lift and duration than most street camshafts. In the manifold section you'll find horsepower graphs showing the power levels obtainable when the Performer RPM package is used with the right combination of engine components.

Performer RPM Hydraulic Roller Cams

Edelbrock Performer RPM Hydraulic Roller Cams are dyno-matched to Performer RPM Power Packages. Roller tappats reduce friction, virtually eliminate break-in problems, and permit higher valve velocities for increased performance. Intended for use with OEM or Edelbrock hydraulic roller tappats.

* Equipped with Ever-Wear Gear and is compatible with the stock distributor gear.

Hydraulic Roller Camshaft Kits

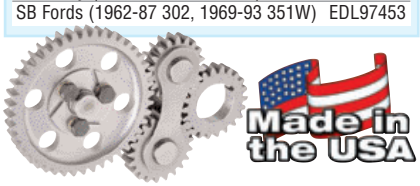
Complete cam kits that include a hydraulic roller camshaft, Edelbrock hydraulic roller lifters and pushrods to guarantee proper parts selection for a trouble-free installation.

Application	Part #
Performer SB Chevy early model (57-86)	EDL22085
Performer SB Chevy late model (87 & up)	EDL22095
Performer RPM SB Chevy early model (57-86)	EDL22015
Performer RPM for SB Chevy late model (87 & later)	EDL22045
Performer RPM for SB Chevy 383	EDL22075
Performer RPM for SB Ford 351W	EDL22815

Hydraulic Roller Lifter Kits

These precision self-aligning hydraulic roller lifter kits are the perfect match for Edelbrock Performer RPM hydraulic roller lifter camshafts. These retro-fit lifters are designed for use with hydraulic roller lifter cams in non-roller engine blocks originally equipped with the conventional lifters.

Application	Part #
SB Chevy (1986 & back)	EDL97383
BB Chevy (1990 & back Mark IV)	EDL97443
SB Fords (1962-87 302, 1969-93 351W)	EDL97453



Accu-Drive® Camshaft Gear Drives

The Accu-Drive® camshaft gear drive kit replaces a stock timing chain with a precision gear drive system. The unique feature of the Edelbrock Accu-Drive® system is the ability of the main idler gear to float to an optimum position between the crankshaft and camshaft gears assuring absolutely equal load sharing between the crankshaft and the camshaft gears.

Application	Part #
CHEVY	
262-400 V8 (1957-95)	EDL7890
396-454 V8 (1965-90)	EDL7891
FORD	
Ford 289-302 V8, 351-W (62-85)	EDL7892
Ford 351-C V8 (not for 351M/400)	EDL7896
Ford 429-460 V8 (1968-87)	EDL7894
PONTIAC	
Pontiac 326-455 V8	EDL7895

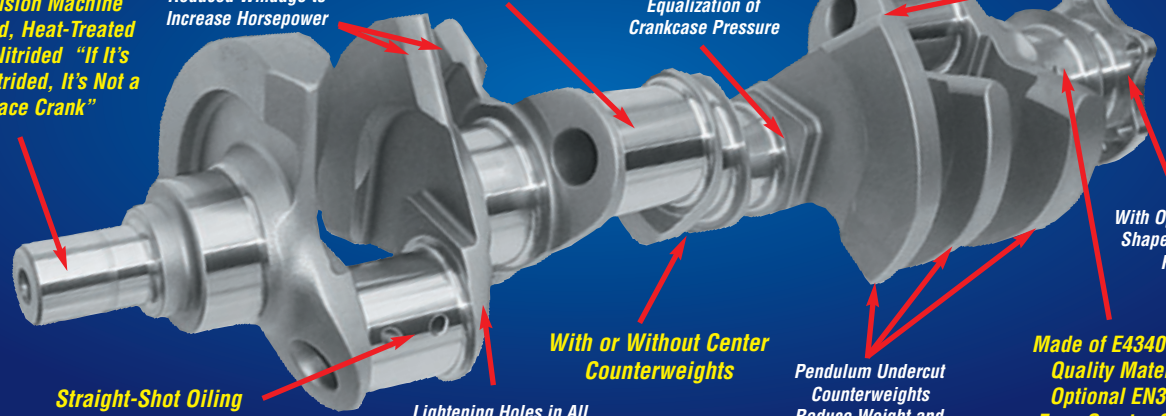
OVER 40YEARS OF ULTIMATEHIGH PERFORMANCE!

The Anatomy of a SCAT Crankshaft

SCAT's cranks are available in billet, forged or cast designs, and are available for small and big-block Chevy, small- and big-block Ford, Ford FE, Ford Flathead, Pontiac, Chrysler and Sport Compact. We offer cranks to suit your specific engine specs from standard weight to the Q-Light design. All SCAT cranks are made with quality at the forefront, starting with only the best materials. View our Anatomy of a SCAT Crankshaft diagram below.



Series 9000 Cast Pro-Stock Crankshafts

Designed to replace stock crankshafts that have seen better days. For stock to mildly- built street engines.

- One- or two-piece rear main seal
- Precision ground and micropolished
- No more hassles with poor quality cores
- Balanced and ready to install out-of-the-box

Series 9000 Cast Pro-Comp Lightweight Crankshafts

A perfect way to increase cubic inches on mild/moderate street/race engines.

- Aero-wing counterweights increase horsepower by reducing windage
- Straight shot oil holes
- Lightning holes in all rod throws
- Precision ground and micropolished
- Available with many different rod, main and stroke combinations
- Exclusive space-age 9000 material that is stronger than OEM cast

Forged 4340 Standard Weight Crankshafts

This is our standard weight forged crankshaft. Designed for street or race engines with sustantial increased horsepower.

- Straight shot oil holes
- Nitride hardened for superior wear resistance
- Lightning holes in all rod throws
- .125" radius on all journals
- Precision ground, heat treated, shot peened, and inspected in U.S.A.

Forged 4340 Series LS-1 Crankshafts

All Forged 4340 Series crankshafts are made from the same super strong aircraft quality forging material. These crankshafts are perfect for increasing your LS1's rpm range.

Part #	Description
4340 Series Forged Standard Weight Crankshaft	
SCA4LS140024	LS1 Engine, 4.000" Stroke, 6.125 L, 2.100 Rod Pin 24 Tooth Reluctor Wheel
SCA4LS140058	LS1 Engine, 4.000" Stroke, 6.125 L, 2.100 Rod Pin 58 Tooth Reluctor Wheel
4340 Series Forged Lightweight Pro-Comp Crankshaft	
SCA4LS140024-2	LS1 Engine, 4.000" Stroke, 6.125 L, 2.100 Rod Pin 24 Tooth Reluctor Wheel
SCA4LS140058-2	LS1 Engine, 4.000" Stroke, 6.125 L, 2.100 Rod Pin 58 Tooth Reluctor Wheel
4340 Series Forged Superlight Crankshaft	
SCA4LS140024-3	LS1 Engine, 4.000" Stroke, 6.125 L, 2.100 Rod Pin 24 Tooth Reluctor Wheel
SCA4LS140058-3	LS1 Engine, 4.000" Stroke, 6.125 L, 2.100 Rod Pin 58 Tooth Reluctor Wheel

The Rattler Torsional Vibration Absorber

The Rattler by TCI is a patented, pendulum absorber developed to control amplitudes of vibration and angle of crankshaft twist like no other design. Its ability to absorb rather than dampen is the key to its success. The Rattler is effective for the entire RPM range, and extends crankshaft and bearing life. The Rattler also has the ability to allow the engine to run smoother during operation, which can potentially increase valve-train stability and life. The design does not utilize viscous fluids, and requires virtually no maintenance. You can always depend on the Rattler's timing marks to be correct because they are etched onto the body and cannot move relative to crankshaft centerline. The Rattler is also lighter in weight than most units of the same size and material construction.

- Available in 6.25" and 7.25" diameters (external balance Chevrolet are 8" diameter)
- Integral timing marks cannot move relative to the crankshaft
- No fluids, elastomers or friction materials
- Maintains maximum effectiveness at all engine speeds
- CNC machined to exacting tolerances
- No pulley or crank trigger shims required

Part #	Application	Weight	Pulley Pattern	Dia.	Balanced

Rattler® Timing Pointers

The new TCI timing pointers are CNC-machined from premium billet aluminum and handsomely finished in black anodization, with a laser etched logo. In addition, the TCI pointers contain an innovative design that provides up to four (4) degrees of adjustability. TCI's new timing pointers work with 6.25, 7.25 or 8-inch diameter Rattler engine vibration absorbers on both small and big block Chevy and Ford engines and come complete with stainless steel mounting fasteners. Rattler Timing Pointers will also work with other comparably sized balancers on the market.

Billet Steel Elastomer Balancer

The TCI® Elastomer Balancer incorporates a super strong billet steel inertia ring for longer life and better performance. The high quality bonded rubber eliminates outer ring movement, eliminating a traditional weakness of previous elastomer balancers.

For anyone needing an SFI tested and approved balancer, the TCI® Elastomer Balancer, capable of handling 12,000 rpm, is the answer. And for optimum control and vibration absorption in hardcore racing applications, don't forget the legendary TCI® Rattler™ Torsional Vibration Absorber, which uses a patented system of internal rollers to eliminate crankshaft harmonics.

- Incorporates a strong billet steel inertia ring for longer life and better performance
- High quality bonded rubber eliminates outer ring movement
- SFI tested and approved elastomer balancer capable of 12,000 rpm

POWERFORCE™ Street Dampers

Our iron street dampers are great for racing applications. These Dampers are designed to be safely revved to as high as 6,500 rpm. Our dampers are of the highest quality and are precision machined to tolerance tighter than OEM.

Description	Part #
6.25" - 350 Chevy V8 (Internal)	AAM80000
6.25" - 400 Chevy V8 (External)	AAM80001
8" - 350 Chevy V8 (Internal)	AAM80002

Counterweight for late SB Ford (50 oz. in)	AAM91007

POWERFORCE+PLUS™ Race Dampers

Our Race Dampers are made from bullet proof 1045 steel. These dampers are designed to be installed on race engines that may rev over 10,000 rpm. Optimum damping occurs in the 6500 to 7500 rpm range.

All 90000 Series Dampers meet SFI Specification #18-1

CLEVITE 77®
Engine Bearings

Clevite 77 engine bearings have an extensive, long-standing history with racing. Our Clevite 77 product has been winning NASCAR sanctioned races since 1948, and is the exclusive bearing of NASCAR Performance.

We offer the most extensive line of performance engine bearings in the market. Our range of performance engine bearings is designed to provide winning results even in the most demanding applications. Our involvement in INDY, NASCAR, ARCA, NHRA and IHRA racing as well as other forms of motorsports have proven Clevite to be the leaders in engine bearing technology both on the track and off.

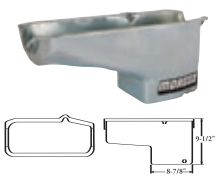
Performance Oil Pans

Street/Strip Oil Pans

Moroso Street/Strip Pans are wet sump pans intended for street performance machines that see some track time. They are modified with either a deep sump or a kick-out sump for increased capacity to improve oil control under hard acceleration and to help the engine run cooler.

Small Block Chevy Deep Sump



Deep sump accepts up to a 3.800" stroke, increases capacity up to 7 quarts. Trap-door baffling allows oil to flow one way into the pickup area.

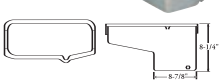
Part #	Description
MOR19500	pre-80 w/Driver Side Dipstick, chrome
MOR20160	pre-80 w/Driver Side Dipstick, clear zinc
MOR20165	80-85 w/Pass. Side Dipstick, clear zinc
MOR24150	Pickup, Stock Style/Standard Vol. Pump
MOR24340	Pickup, High Volume/55HV Style Pump

Small Block Chevy Extra-Deep Sump

Extra deep sump accepts up to a 3.800" stroke, increases capacity to 8 quarts, which reduces oil temperatures in vehicles where ground clearance is not a problem. Trap-door baffling allows oil to flow one way into the pickup area.

Part #	Description
MOR20110	pre-80 w/Driver Side Dipstick, clear zinc
MOR24100	Pickup, Stock Style/Standard Vol. Pump
MOR24330	Pickup, High Volume/55HV Style Pump

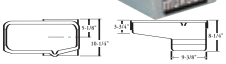
'82-92 Camaro/Firebird, '78-88 G-Body Small Block Chevy with Deep Sump



Deep sump accepts up to 3.800" stroke, increases capacity to 6 quarts to reduce oil temperature. Trap-door baffling allows oil to flow one way into the pickup area.

Part #	Description
MOR19180	pre-80 w/Driver Side Dipstick, orange
MOR20180	pre-80 w/Driver Side Dipstick, clear zinc
MOR20181	80-85 w/Pass. Side Dipstick, clear zinc
MOR20182	86-up w/1-Piece rear main seal, clear zinc
MOR24170	Pickup, Stock Style/Standard Vol. Pump
MOR24350	Pickup, High Volume/55HV Style Pump

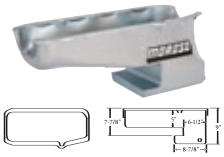
Small Block Chevy Kick-out Sump



Kick-out sump accepts up to a 3.800" stroke, moves oil level away from rotating assembly, increases capacity to 7 quarts to reduce oil temperatures. Trap-door baffling allows oil to flow one way into the pickup area. Avail. in clear zinc & powdercoat finishes.

Part #	Description
MOR19190	pre-80 w/Driver Side Dipstick, orange PC
MOR20190	pre-80 w/Driver Side Dipstick, clear zinc
MOR20200	80-85 w/Passenger Side Dipstick, clear zinc
MOR20205	86-up w/1-Piece Rear Main Seal, clear zinc
MOR24170	Pickup, Stock Style/Standard Vol. Pump
MOR24350	Pickup, High Volume/55HV Style Pump

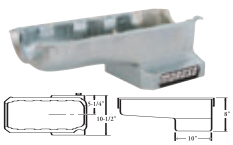
Small Block Chevy



The deep sump accepts up to a 3.800" stroke, has been relocated to the rear of these 7 quart capacity oil pans. For Chevy II without power steering.

Part #	Description
MOR20211	pre 80 w/Driver Side Dipstick, clear zinc
MOR20212	86-up w/1-Piece Rear main Seal, clear zinc
MOR24120	Pickup, Stock Style/Standard Vol. Pump
MOR24122	Pickup, High Volume/55HV Style Pump

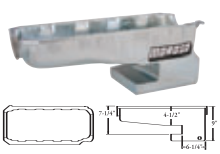
Big Block Chevy Kick-out Sump



Kick-out sump accepts stroke up to 4.250" with steel rods, moves oil level away from rotating assembly, increases capacity to 6 quarts and provides additional ground clearance. Trap-door baffling allows oil to flow one way into pickup area. Avail. in clear zinc & powdercoat finishes.

Part #	Description
MOR19400	Mark IV Style, Kicked-Out Sump, chrome
MOR19401	Mark IV Style, Kicked-Out Sump, orange PC
MOR20401	Mark IV Style, Kick-Out Sump, clear zinc
MOR20411	Gen V & Gen VI, Kicked-Out Sump, clear zinc
MOR20403	Mark IV, K-O Sump w/ scraper & screen, clear zinc
MOR24441	Pickup, Stock Style/High Volume Pump

'62-67 Chevy II, '55-57 Chevy, Big Block Chevy

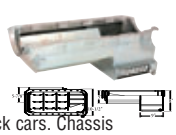


The deep sump accepts up to a 4.250" stroke, has been relocated to the rear of these 7 quart capacity oil pans. For Chevy II withour power steering.

Part #	Description
MOR20431	Mark IV Style, Chevy II, 55-57 Chevy, clear zinc
MOR20433	Gen V & VI, Chevy II, 55-57 Chevy, clear zinc
MOR24430	Pickup, Stock Style/High Volume Pump

Drag Racing Oil Pans

Small & Big Block Chevy w/ Power Kick-out



Fits bracket and budget super stock cars. Chassis crossmember modifications required for front sump clearance. Accepts a 4.0" stroke SBC and 4.50" stroke BBC. Features a power kick-out, partitioned and louvered windage tray with main cap dividers to separate oil quickly for ultimate control & max. horsepower.

Part #	Description
MOR21017	SBC, pre-80 w/Driver Side Dipstick, clear zinc
MOR24170	SBC Pickup, Stock Style/Standard Vol. Pump
MOR24350	SBC Pickup, High Volume/55HV Style Pump
MOR24360	SBC Pickup, 155HV Style Pump
MOR21047	BBC, Mark IV Style, clear zinc
MOR24440	BBC Pickup, Stock Style/High Volume Pump

Circle Track Oil Pans

Small Block Chevy

Cost-effective pans fit GM '77-87 Metric chassis, aftermarket and Camaro front ends. Accepts up to a 3.800" stroke. The "L" shaped extra sump holds 7 quarts, with trap-door baffling, windage tray & crank scraper to contain oil in the pickup area for control and horsepower savings. Black painted steel.

Part #	Description
MOR21316	pre-80 w/Driver Side Dipstick, black
MOR21315	80-85 w/Passenger Side Dipstick, black
MOR21320	86-up w/1-Piece Rear Main Seal, black

Street/Strip Pans

Fits '79-up Mustang, '81-88 Thunderbird, Cougar, '79-86 Capri and other Ford rear sump applications except Mustang II. These 7 quart, extra capacity pans feature an oil sump retaining system.

Part #	Description
MOR20506	For 302, "T" Shaped Rear Sump, clears center 4 bolt main caps, clear zinc
MOR20511	Ford 302, Deep Rear Sump, clears all 4 bolt main caps, clear zinc
MOR20523	Ford 351W, Deep Rear Sump, clears center 4 bolt main caps, clear zinc
MOR20520	Ford 351W, Deep Rear Sump, clears all 4 bolt main caps, clear zinc

Oil Pump Shaft

High quality steel for extended reliability. Steel sleeve is pinned to maintain correct alignment between oil pump and shaft. Heavy duty stock replacement.

Part #	Description
MOR22070	Small Block Chevy & 90˚ V6
MOR22080	Big Block Chevy (exc Gen V/VI)
MOR22082	Merlin Big Block Chevy +.400"
MOR22090	Small Block Chevy w/BBC Pump
MOR22071	BBC 1.00" Raised Cam Hex
MOR22072	BBC DART Block 6.00" Raised Cam Blade
MOR22073	BBC DART 6.00" Raised Cam Hex
MOR22074	BBC 4.00" Raised Cam Hex Drive

New Pump & Pick-Up Packages

Part #	Description
MOR22136	Hi Vol SBC 3/4" Inlet/ 8-1/4"Pan Pick-Up
MOR22137	Hi Vol SBC 3/4" Inlet/ 7-1/8"Pan Pick-Up
MOR22138	Hi Vol SBC Heavy Duty Housing
MOR22139	Hi Vol SBC Hvy Dty w/Anti-Cavitation Grooves

Oil Control Accessories

Oil Restrictors

Part #	Description
MOR22000	Small and Big Block Chevy, machining req.
MOR22010	Small and Big Block Chevy
MOR22016	New GM Block (inc. Gen V & VI)
MOR22050	Ford 351C

Main Cap Baffles

Designed primarily for racing to prevent sump oil from reaching the crankshaft during hard acceleration.

Part #	Description
MOR23000	Small Block Chevy & 90˚ V6
MOR23010	Big Block Chevy

Chrome & Racing Oil Filters

Moroso **Chrome Oil Filters** are hand polished for the highest luster possible and have filter elements that exceed OEM specs. **Racing Oil Filters** have increased filter area, filtering down to 27 microns, which produces a maximum initial restriction of only 2.5 psi.

Hamburger's Performance Products — ECONO-SERIES™ RACING OIL PANS

Mopar, Dry Sump & other race pan and accessories also available.

Every Hamburger's Oil Pan keeps oil at the pickup for uninterrupted oil flow to your engine...even under the most severe conditions. Windage screens and crankshaft scrapers remove excess oil from the crankshaft, and reduces air bubbles in your engine oil to improve lubricating properties. Oil pans don't make horsepower, they reduce the amount of horsepower that "uncontrolled oil" robs from your engine. As much as 7% of an engine's power output can be given up this way. That would be 42 h.p. lost on a 600 h.p. engine.

SB FORD WET SUMP ROAD RACE OIL PAN

TSD3080

Fits: 289-302W blocks 79-up Mustang's, 80-up T-Bird chassis (Fox Body)
Depth: Front 5 3/4" Rear 9" Deep sump.
Capacity: 7 Quarts including filter.
Pumps: Use #M68 or #M68HV.
Features: *Slosh Baffle, magnetic drain plug, provision for pan mounted dipstick. Works w/ long tube headers. (w/o crankscraper)*

INCLUDES OIL PICK-UP!

1979-Up SB Ford 289-302W	TSD3080

SB CHEVY WET SUMP DRAG RACE & MARINE OIL PAN

TSD1088

This Fits: 55-79 SBC engines w/driver's side dipstick, most chassis & boats.
Depth: 4" to 6" Tapered Front, 8" Rear Sump
Capacity: 7 Quarts including filter.

MULTI-POSITION REMOTE OIL FILTER BASE

- High-Flow AN-12 ports
- Oil Line Ports Rotate 180° for Maximum Design Flexibility
- Race, Marine, or Diesel Use
- Lifetime Warranty
- Made in the USA.

Hamburgers' ingenious, two piece filter base design mounts to your fenderwell or firewall, then the dial design filter base can be turned a full 180 °, then locked into position. This allows the oil hose ports to be angled in virtually any position, fitting around other engine components and accessories. A must have for custom engine builds and racing applications.

Die Cast Aluminum

Moroso die casts our valve covers using the finest workmanship and materials available. Unlike sand castings, Moroso's die casting process is far more precise and results in a blemish-free surface without porosity. Best of all, these thin-wall die cast covers are about half the weight of cast versions. They're available in black or polished finned styles or with a brilliant hand polished finish. Includes grommets for oil filler cap and PCV valve.

Die Cast Centerbolt Valve Covers

Centerbolt valve covers are designed especially for 87-later small block Chevy engines with centerbolt style heads. Universal "drill-your-own" version as well as factory replacement set available. Quality die cast aluminum provides a blemish-free finish without the porosity often found in other castings. Includes hardware, 8 stainless steel button head fasteners and nylon washers.

Part #	Description
MOR68030	"Drill-your-own" Breather Version
MOR68036	88-92 Camaro/Firebird

Die Cast Racing Valve Covers

These die cast racing valve covers are especially designed for Circle Track racing. Baffled tubes welded on the left side for proper ventilation in high rpm engines. Includes filter breathers with 180˚ chrome hoods.

Fabricated Aluminum

Fabricated entirely from aluminum, ultra lightweight at only 1.95 pounds each. One piece billet aluminum gasket rail provides a precision-flat surface for superior sealing. Air-tight sealing allows the engine to pull greater vacuum for improved ring seal and power. Notched at each mounting location with socket-sized clearances for quick installation and removal.

Air Cleaners

Low Profile Racing Air Cleaners

Moroso's unique radiused air inlet design equalizes air pressure past the boosters for uniform air flow. Back to back dyno testing proves a gain of over nearly 10 horsepower over running no air cleaner at all. Fits standard 5-1/8" carburetor necks.

Size	Color	Part #
14" x 3", 5-1/8" Neck	Black Powder Coat	MOR65904
14" x 3", 5-1/8" Neck	Red Powder Coat	MOR65905
14" x 3", 5-1/8" Neck	Blue Bowder Coat	MOR65906
14" x 3", 5-1/8" Neck	Clear Powder Coat	MOR65907
14" x 3", 5-1/8" Neck	Chrome	MOR65910

Flat Bottom Racing Air Cleaners

Flat bottom design raises installed height of air cleaner for additional sheet metal clearance in race cars like NASCAR Modifieds. Hand polished triple process chrome plated steel and available for Holley, Carter, Edelbrock and Rochester carburetors.

Size	Color	Part #
14" x 3", 5-1/8" Neck	Chrome	MOR65911
14" x 3", 7-5/16" Neck	Chrome	MOR65945
14" x 5", 7-5/16" Neck	Chrome	MOR65946

Offset Air Cleaners

Owners of HEI equipped Chevy's will not have to cut up their air cleaners to make room for their HEI distributor. Offset 1-1/2" to the front of the engine. 14" x 4" element with special offset stud and wing nut. Powder coat clear finish.

Racing Air Cleaners	Color	Part #
Drop Base, 2 bbl. Holley only	Clear PC	MOR65927
Raised Base, 2/4 bbl. Holley	Clear PC	MOR65928

Race/Street Air Cleaners

The same Moroso quality is incorporated into the small version of the Racing Air Cleaners. Fits 5-1/8" neck on most 4 bbl carburetors. Includes PCV valve adapter and wing nut. Available in chrome and powder coat finishes.

Racing Air Cleaners	Color	Part #
11-1/2" x 2-3/8", 5-1/8" Neck	Chrome	MOR66210
8-1/2" x 2-3/8", 5-1/8" Neck	Black PC	MOR66303
8-1/2" x 2-3/8", 5-1/8" Neck	Red PC	MOR66304
8-1/2" x 2-3/8", 5-1/8" Neck	Blue PC	MOR66305
8-1/2" x 2-3/8", 5-1/8" Neck	Chrome	MOR66310

Air Cleaner Reusable Foam Filter Shield

When dirt and clay oval tracks turn into dust bowls, even the best air cleaners can become clogged w/ dirt & dust. Fits snugly around 14" x 5" air filters.

Part #	Description
MOR65947	Reusable Foam Filter Shield

Race Write Marker

- Use on windows to mark dial-in/class
- Use on tires to check slippage & sidewall deflection
- Use on Wheel-E-Bars™ to aid in chassis tuning
- Easy to apply applicator, safe on glass and Lexan
- Wipes clean with a dry rag

Part #	Description
MOR35581	3 oz. single bottle w/ applicator

The Signature Series by Edelbrock

Signature Series Valve Covers

Engineered for function and styled for good looks, triple chrome-plated Signature Series valve covers carry the famous Edelbrock name. Rubber grommets for the breather and PCV valve holes included. Matching breathers sold separately. NOTE: Our Tall Profile are 1-1/4" taller than stock, and clear most roller rockers and valve-train components. Our Low Profile valve covers clear all air-conditioning, alternator brackets. Tall profile valve covers will not clear stud girdles. Signature Series valve covers clear most aluminum rocker arms and moderate lift cams. Check clearance prior to purchase.

Billet Aluminum Oil Fill Caps

Push-in style oil fill caps machined from 6061 T6 billet aluminum.

Description	Part #
Dome-piston 1.25” holes	EDL4406
Flat top-piston 1.25” holes	EDL4407

The Elite Series by Edelbrock

Made in the USA

Elite Series Aluminum Valve Covers

These heavy-gauge, die-cast aluminum valve covers come with a handsome, polished finish for a custom look. The raised fins are accented by a black matte background, then detailed with Allen hex heads that create a two-piece look from a one-piece construction. We have two styles, one with the Edelbrock name and one without. The “No Name” valve covers offer the distinctive look of the original Elite line, but with no Edelbrock name. Our Tall Profile are 2" taller than stock, and clear most roller rockers and valve-train components. Our Low Profile valve covers clear all air-conditioning, alternator brackets and aluminum rockers. The number in parentheses is the dimension from the gasket flange edge to the top plane of the valve cover. Dimensions accurate within 1/8".

Application	With Name	No Name
Chevy 262-400 V8 59-up, low (3")	EDL4248(B)	EDL4244(B)
Chevy 262-400 V8 59-up, tall (4-5/8") (A)	EDL4249(B)	EDL4245(B)
Chevy 396-454 V8 65-up, tall (4-15/16") (A)	EDL4280	EDL4281
Chrysler 318-360 V8, tall (3-13/16") (A)	EDL4295	
Ford 289/302/351 W (not Boss) tall (4-1/4") (A)	EDL4260(C)	EDL4261(C)
Pontiac V8 62-up, stock (2-11/16")	EDL4256	

(A) Some Tall Profile valve covers will cause interference with air-conditioning compressors, EGR valves and power brake boosters. (B) #4244, #4245, #4248 & #4249 will not fit 1986 & later Vette aluminum heads or 1987 and later S/B Chevy cast iron heads. See Centerbolt valve covers. (C) #4260 and #4261 will not fit ‘86 and later 5.0 litre engines with EFI.

Elite Series Centerbolt Valve Covers

Elite valve covers for late model (1987 & newer) small-block Chevy heads. Low profile to fit stock engine compartments. #4246 with left side breather hole fits 1987-92 Chevy, passenger cars and 1986-91 Vette with aluminum heads. #4247 with right side hole fits 1990 TPI Camaro, TPI Firebird and 1987-95 TBI trucks. Can be used with stock or Elite Series breathers. Uses stock grommet and bolts. Not for LT1 or LT4.

Application	Part #
1987-93 Chevy 4.3L V6 (2-7/16"; not for Vortec V6)	EDL4252
1986 & later Chevy 262-400 V8 with left breather hole (2-5/16")	EDL4246
1987 & later Chevy 262-400 V8 with right breather hole (2-5/16")	EDL4247

Elite Series Air Cleaners

Designed to match Elite Series valve covers and breathers, all Edelbrock Elite Series air cleaners have polished aluminum finned tops with a black matte background. There are two styles, one with the Edelbrock name and one without. Number in parenthesis is height of air cleaner.

Description	With Name #	No Name #

The Victor Series

Our victor series accessories have a black powder coated finish that feature a finely textured surface for a pleasing and unique appearance. This is the same finish you'll find on our top-of-the-line Edelbrock/Musi 555 Crate Engine. these accessories are manufactured from die-cast aluminum. The valve covers feature a machined 1-1/4" breather hole. The air cleaners work with all popular 5-1/8" carburetors or 4 bbl. throttle bodies and includes a knock-out in the base along with an adapter for crankcase ventilation.

87-97 SB Flamed Top* (Short)	MRG6868G

*One hole on one side and Two holes on the other.

Valve Cover Clamps

These chrome plated steel valve cover clamps help distribute bolt pressure more evenly for better sealing. The longer, competition style clamps are ideal for use on valve covers using only 4 hold-down bolts. Both styles will accommodate up to a 5/16" diameter hold-down bolt.

Description	Part #
Competition, long style, 4/set	MRG9817
Custom, short style, 8/set	MRG9899
1/4-20x3/4" Chrome Hex Hd w. Tabs, 8/set	MRG9887
Spreader Bar Set, Ford 260-351W, 6/set	MRG9725

Valve Cover Hold Down Bolts

Standard "Y" top, chrome plated steel wing bolts. "Y" bolts feature a removable top for perfect alignment after torquing. Available in two stud lengths. Packaged 4 per kit.

Description	Part #
Y-Bar Style w/ Removable Top	
1/4"-20 x 5/8" for stock Chevy V8	MRG9824
1/4"-20 x 1" for custom stock Chevy V8	MRG9826
5/16"-18 x 1", for cast Ford/Pontiac V8	MRG9829

Breathers

These custom, chrome-plated breeathers will give your engine compartment a whole new look.

Description	Part #
Breather/Oil Filler Caps - Chrome Plated	
Push-on style dome breather w/o Logo	MRG2060
Twist-in style w/ Mr. Gasket Logo 2-3/4" diameter x 2-1/8"	MRG2069
Twist-in style dome breather w/o Logo 2-3/8" diameter x 1-3/4"	MRG2061
Valve Cover Breathers - Chrome Plated	
Twist-in w/ PCV hook up on top of cap	MRG2065
Push-on rectangular breather	MRG9756
Push-on style breather w/ Mr. Gasket Logo 2-1/2" diameter x 2-1/8"	MRG2068
Push-on style breather w/o Logo 2-1/2" diameter x 2-1/8"	MRG9810
Push-on style breather w/ Mr. Gasket Logo w/ side PCV hook up 2-1/2" dia. x 2-1/8"	MRG2054

Aluminum Push-In Breathers

Available in several styles.

Description	Part #
Push-In Breather	
Plain	MRG9115G
Ball Milled	MRG9116G
Flamed	MRG9117G
PCV Push-In Breather	
Plain	MRG9118G
Ball Milled	MRG9119G
Flamed	MRG9120G

Open Element Breather

Open element breather measures 3-1/8" tall, and feature a chrome plated 3" O.D. top and a molded bottom base Also available is a hooded version which has a chrome plated shroud around half of the filter element making it ideal for serious off-road racing and show circuit vehicles.

Description	Part #
Push-on Style Hooded	MRG2048
Push-on Style Open Element	MRG2049

Baffled Breather Grommets

A simple rubber baffle that pushes into the breather hole and in turn accepts the breather or PCV valve. Designed to virtually eliminate "oil breather blow by" encountered on non-baffled valve covers. Fits in covers that use 1-1/4" O.D. x 1" I.D. grommets 2/set.

Description	Part #
Baffles Breather Grommets	MRG5425

Valve Cover Grommet Sets

Includes one PCV grommet (1-1/4" OD x 3/4" ID) and one breather grommet (1-1/4" OD x 1" ID).

Description	Part #
Valve Cover Grommets	MRG6376

Chrome Plated Oil Pans

Beautifully chrome plated steel oil pans, complete with drain plug, washer and mounting bolts (stock depth and capacity). Chrome plated oil dipstick sold seperately.

Description	Part #
CHEVY	
65-79 Small Block 283-350	MRG9781
80-85 Small Block 305-350	MRG9782

352-390-406-427-428	MRG9432

Note: For passenger cars only. Not for vans or trucks.

Chrome Dipsticks & Tubes

Dress up your engine compartment with a chrome plated engine oil dipstick and tube. Similar in design to stock, OEM units, simple hand tools required for installation.

Description	Part #
Chevy Small Block, 65-79 (block mounted)	MRG6235
Chevy Small Block, 80-82 (passenger side)	MRG6237
Chevy Small Block, 82-91 Camaro/Firebird	MRG6238
Chevy Big Block	MRG6236
GM V8 350 LS1, 97-up Camaro/Firebird	MRG6239
Ford Small Block, 62-78	MRG6920
Oldsmobile V8 350-455	MRG6925

Billet Style Aluminum Pulley's

These machined aluminum pulley's are designed to fit most Chevy small block engines. Available for one, two, or three groove applications for both the water pump and crankshaft. All pulleys are heat treated and have an attractive satin finish. Also available is a matching water pump nose cover which conceals the end of the pump shaft for that hi-tech look, and an aluminum alternator pulley for GM applications. All pulleys and nose covers are sold separately.

Description	Style	Year	Part #
Small Block CHEVY			
Water Pump Pulley, Short			
Single Groove	SWP	55 to 68	MRG5310
Double Groove	SWP	55 to 68	MRG5311
Crankshaft Pulley, Short			
Single Groove	SWP	55 to 68	MRG5312
Double Groove	SWP	55 to 68	MRG5313
Water Pump Pulley, Long			
Single Groove	SWP	69 to 85	MRG5314
Double Groove	SWP	76 to 85	MRG5315*
Crankshaft Pulley, Long			
Single Groove	SWP	69 to 85	MRG5316
Double Groove	SWP	76 to 85	MRG5317
Triple Groove	SWP	69 to 85	MRG5318
Water Pump Pulley Nose			MRG5319
Alternator Single Groove with nose piece			MRG5320

SWP-Short Water Pump, LWP-Long Water Pump

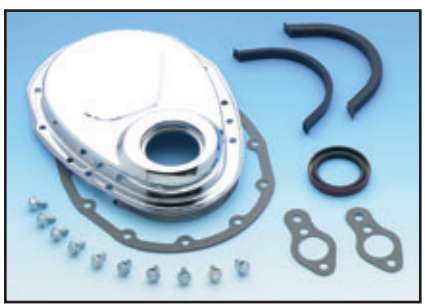
*Will not fit 69 to 75. Use MRG5321 bolt kit if not using a conventional fan.

Dress It Up With Style...

Chrome Aluminum Timing Cover

Includes seal, gaskets and bolts.

Description	Part #
Chevrolet Small Block 55-87	MRG9105G



Timing Chain Covers & Tabs

Dress up the front of your engine with one of Mr. Gasket's timing covers. Chrome plated, these covers are available with or without gaskets, seals and bolts. Also available are timing indicator tabs.

Description	Part #
Timing Covers Complete Kit	
Chevrolet Small Block 55-87	MRG4590
Chevrolet Small Block 65-90	MRG4591
Timing Tabs Only	
Chevy Small Block - 7" Balancer	MRG4592
Chevy Small Block - 7" Balancer, 77-up	MRG4592

For GM-Delco OEM

Description	Part #
Fan	MRG5602G
Pulley	MRG5599

Alternator Brackets

Dress up your engine compartment with a beautiful chrome plated alternator bracket. Similar in design to OEM unites, these brackets are made from heavy gauge steel, polished to a high luster, then chrome plated for lasting beauty.

Description	Part #
Chevrolet Small Block	
76-86 OEM Style, Long Water Pump	MRG5170
69-75 OEM Style, Long Water Pump	MRG5171
65-68 OEM Style, Short Water Pump	MRG5172
69-86 Lower Bracket	MRG4954
Chevrolet Big Block	
65-68 OEM Style, Short Water Pump	MRG4957G
65-68 Lower Bracket	MRG4957G
69-up OEM Style	MRG5173
69-up Lower Bracket	MRG4955
Universal Chrome Plated Alternator/Generator Arm	
Chrome Plated Arm - 14" long	MRG9851

Low Mount Alternator Brackets

Designed to mount the alternator on the lower front drivers side of a Small Block Chevy. Made from heavy gauge steel to eliminate flex, the brackets are highly polished then chrome plated. Kit must be used with the short water pump for proper pulley alignment.

Description	Part #
Low Mount Alternator Bracket Kit	MRG5170

Chrome Plated Water Pump

These water pumps are made from new aluminum casting with high quality components. They utilize heavy duty shafts and bearings and have an impeller designed to produce 45% more water flow.

Description	Part #
55-72 Short Style - Chrome	MRG7011
55-72 Short Style - Aluminum	MRG7014
69-76 Long Style - Chrome	MRG7012
69-76 Long Style - Aluminum	MRG7013

Water Necks

These O-ring style water necks feature a swivel top that allows you to place your coolant hose where you want it to be, not just in one fixed position. For Chevy only.

Description	Part #
55-65 Early Water Neck Straight	MRG9140G
67-75 Late Water Neck 45 Degree Swivel	MRG9141G
67-75 Late Water Neck 90 Degree Swivel	MRG9142G

Coolant Overflow Tanks

Made from Stainless Steel, these coolant tanks look great, resist stains and perform even better. It will fit just about anywhere inside the engine compartment.

Description	Part #
2" dia. x 13" tall Overflow Tank	MRG9130G
2" dia. x 17" tall Overflow Tank	MRG9131G
2" dia. x 19" tall Overflow Tank	MRG9132G

Radiator Overflow Can

This catch can is molded from heat resistant black plastic with an embossed Mr. Gasket logo

Description	Part #
4-1/8" dia. x 7" tall Overflow Can	MRG5129

ThermoCap

The Ultimate Radiator Cap

Knowing your coolant termperature can help to prevent burn injuries. ThermoCap, with it's built-in calibrated thermometer, indicates the coolant temperature. This is useful information prior to cap removal. Never attempt to remove ThermoCap when the coolant temperature is very hot. The escaping hot coolant and steam may burn you. Check the ThermoCap temperature indicator to determine if the coolant is cool enough to make removing ThermoCap safe. If the coolant is very hot, then thoroughly rinse the radiator with cool water, until the coolant temperature drops into a cooler safe zone ThermoCap's Integrated coolant reclamation valve works great with your coolant recovery system. Your radiator can reclaim coolant from your overflow bottle.

High Quality Components for Life

- 30 to 270˚ temperature range
- Offers centigrade and fahrenheit
- Color coded temperature ranges
- Chromed crown and colored ring

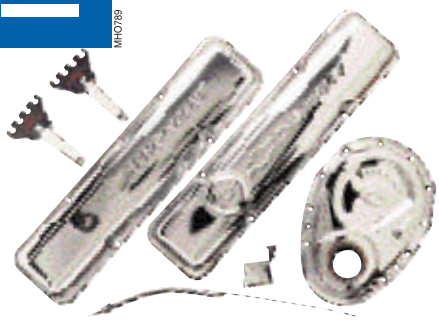
Factory Performance™ Parts & Tools



Dress-Up Kits

For Chevrolet Small-Block V8, 1958-86.

Part #	Description
ACD141-001	Kit w/ Timing Cover
ACD141-002	Kit w/ Wing Nut
ACD141-755	Kit w/ Timing Cover, Black Crinkle
ACD141-360	Kit w/ Timing Cover, Hi-Tech Gray

High Tech Collector's Series

Call for applications and availability

Air Cleaner Nuts

The large size is recommended for 14" and 10" air cleaner kits, and the small for 6-3/4" and 4-7/16" air cleaner kits. They fit both 1/4"-20 and 5/16"-18 studs.

Part #	Description
ACD141-333	Bow Tie, Large
ACD141-322	Bow Tie, Small

Die Cast Valve Covers

These premium valve covers are die-cast aluminum, manufactured to GM specifications, equipped with internal oil drippers and GM-designed baffles. They have recessed Bow Tie and CHEVROLET emblems, inlaid with classic Chevrolet red. All valve covers sold in pairs.

For Chevy small-block V8, 1958-86.

Part #	Description
ACD141-108	Polished
ACD141-116	Black Crinkle
ACD141-117	Chrome Plated

Center hold-down. Tall. Supplied with mounting bolts, stainless steel & rubber washers (also available separately below as 141-133). All valve covers sold in pairs.

For Chevy small-block V8, 1987 - later.

Part #	Description
ACD141-130	Polished
ACD141-131	Black Crinkle
ACD141-132	Chrome Plate
ACD141-133	Bolt & Washer Kit (8)

Valve Cover Hold-Down Clamps

Fits Chevrolet small-block V8 and V6/90º engines through 1986. 4 per package.

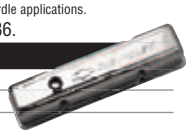
Part #	Description
ACD141-610	Hold-Down Clamps
ACD141-757	Chevy Valve Cover Chrome Hold-Down Clamps, Black Crinkle
ACD141-366	Hold-Down Clamps, Hi-Tech Gray

Stamped Valve Covers

These CHEVROLET Bow Tie valve covers are made of heavy-gauge steel, 20% thicker than typical aftermarket valve covers, greatly reducing the likelihood of leakage around the valve cover flange area caused by fasteners being over-torqued. The chrome plating meets GM quality specifications. All valve covers bear the powerful Bow Tie and CHEVROLET emblems.

Technical Note: Production height Chevy small-block valve covers and valve covers with baffles will not clear most stud girdle applications.

For Chevy small-block V8,1958-86.



Part #	Description
ACD141-102	Short, with baffle
ACD141-103	Tall, with baffle
ACD141-101	Tall, no baffle
ACD141-750	Short, with baffle, Black Crinkle
ACD141-751	Tall, with baffle, Black Crinkle

For Chevy small-block V8, 1987 - later.

Part #	Description
ACD141-107	Center hold-down

For Chevy big-block, 1965 - later.

Part #	Description
ACD141-114	Short, with baffle
ACD141-115	Tall, with baffle

Timing Chain Covers

Part #	Description
ACD141-215	S/B, '69-91
ACD141-753	S/B, '69-91, Black Crinkle
ACD141-217	S/B, '65-90, Polished
ACD141-218	S/B, '65-90, Chrome Plated

Air Cleaners

The 14" air cleaner kits are supplied with 3" tall filter GM P/N 6421746 (AC P/N A212CW). For buyers wishing a taller (4-1/32") filter, purchase GM P/N 8997189 (AC P/N A697C). This filter is available with a black foam rubber outer wrap as GM P/N 8996118 (AC P/N A644C). The bases of the 14" air cleaner kits are recessed for a low profile appearance, maximum performance and hood clearance.

Part #	Description
ACD141-302	14" Classic w/Bow Tie Center Nut
ACD141-307	14" High-Performance
ACD141-752	14" Classic, Black Crinkle

SAVE over 2 lbs! Sturdy carbon fiber air cleaner kit, manufactured with a genuine carbon fiber top and a lightweight aluminum base, and sporting a large inlaid Bow Tie emblem. The ultimate in race day appearance with front-end weight savings! Deeply recessed base for maximum hood clearance and tall filter usage.

Part #	Description
ACD141-790	Chevy 14" Classic, Carbon-Fiber, Air Cleaner

Valve Cover Wing Nuts

Part #	Description
ACD141-600	Wing Nuts
ACD141-756	Wing Nuts, Black Crinkle
ACD141-364	Wing Nuts, Hi-Tech Gray

Air Breather Caps

3" diameter. Fits valve covers with 1.22" holes.

Part #	Description
ACD141-616	Push-in, 3" dia., Chrome
ACD141-754	Push-in, 3" dia., Black Crinkle

Part #	Description
ACD141-621	Push-in, filter, Chrome, with hood
ACD141-622	Push-in, filter, Chrome, without hood

Ignition Wire Looms

Fits Chevrolet small-block V8, 1959-'86 and Chevrolet big-block V8 1965-'91. 4-wire looms, 2 per package.

Part #	Description
ACD141-636	Wire Looms

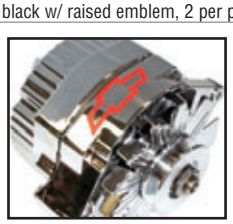
Harmonic Balancer Covers

Part #	Description
6-3/4" Chevy™ small block	
ACD141-727	Black
ACD141-725	Chrome
8" Chevy™ small block	
ACD141-728	Black
ACD141-726	Chrome
Chevy™ big block	
ACD141-730	Black
ACD141-729	Chrome

Bowtie Freeze Plug Inserts

Give your engine block the ultimate trick look with Proforms machined billet aluminum Bowtie emblem freeze plug inserts.

Part #	Description
ACD141- 233	Bowtie emblem freeze plug inserts red w/ recessed emblem, 2 per package
ACD141-232	Bowtie emblem freeze plug inserts black w/ raised emblem, 2 per package



100% New Chrome Alternators

100% NEw with no rebuilt components. Assured quality with over-spec amperage, a machined pulley and a Chevy emblem in red.

Part #	Description
ACD141- 656	GM Bowtie emblem '73-'86 int. regulator
ACD141-657	GM Bowtie emblem 100 amp, 1 - wire
ACD141-658	GM Bowtie emblem 60 amp, 1 - wire
ACD141-659	GM Bowtie emblem 80 amp, 1 - wire
ACD141-660	GM Bowtie emblem 120 amp, 1 - wire

Sealed Power E-Series Rings are the Rebuilders Choice for Quality and Performance

SPEED PRO™

Plasma-Moly File Fit Ring Sets

SPEED-PRO's engineering expertise delivers superior quality piston ring sets with numerous advantages. The face of the top rings are filled with the lastest generation Plasma Moly. Improved bond strength of this applied coating provides excellent resistance to flaking. The controlled porosity of the coating results in improved top ring lubrication. Due to the high melting point of moly, this ring set is highly resistant to scuffing. Recommended use for all racing applications, where file fitting the ring end gap will deliver maximum power.

ROYAL PURPLE® SYNTHETIC OIL

the performance oil that outperforms®

High Performance Motor Oils

Royal Purple® Motor Oil delivers superior protection and improves performance in four-cycle gasoline and diesel engines. It increases horsepower and torque, saves fuels and reduces heat, wear and emissions. It has unsurpassed oxidation stability that allows for extended oil drains and fewer oil changes, which saves you time and money and reduces the impact on the environment.

Exclusive Performance Advantages

- Outstanding Wear Protection
- Keeps Engines Clean
- Superior Corrosion Protection
- Lowers Temperatures
- Increases Horsepower & Torque
- Saves Fuel

FEEL THE DIFFERENCE!

Testimonial

"It occurred to us that we've yet to run a test with Royal Purple® oil that didn't result in a power gain... We've also torn down some of our dyno engines that have been seriously abused, but with "Royal P" in the pan, the bearings have looked new. So consider this an approval of the company's line of synthetic lubricants with Synerlec®.

— David Freiburger, *Hot Rod* Magazine

Transmission Fluids

Reformulated Max ATF

Enhanced Performance

For More Makes & Models

Max ATF is a synthetic, high-performance, automatic transmission fluid.
Its low co-efficient of friction and high film strength help to dramatically reduce heat and wear. Additionally, Max ATF is more oxidation stable than other transmission fluids for longer fluid life. Max ATF is recommended for a wide variety of transmissions.

Synchromax®

Manual Trans Fluid

Synchromax® is a manual transmission fluid that increases performance and the life of your equipment. It improves shifting, reduces gear noise and increases power transfer to the wheels. It also lowers operating temperatures and provides outstanding wear protection for longer transmission life. Synchromax is recommended for manual transmissions that specify an automatic transmission fluid. It's also ideal for 4x4 transfer cases and motorcycle gear boxes. Synchromax is fully compatible with all types of friction materials. It provides excellent corrosion and oxidation protection without affecting the soft metals commonly found in manual transmission synchronizers.

Exclusive Performance Advantages

- Greater Wear Protection
- Increased Fluid Life
- Increased Equipment Life
- Clean, Efficient Equipment
- Outstanding Rust / Corrosion Protection
- Smoother Shifting
- Reduced Temperatures

XPR Extreme Performance Racing Oils

Extreme Performance Racing oils are formulated for demanding applications such as racing, modified engines and off-road use. XPR's high film strength make it exceptionally well-suited for today's high performance cars and trucks, particularly turbo and supercharged engines and / or engines using a nitrous boost. XPR produces winning results on the race track and is safe enough to use in your daily commuter car.

Exclusive Performance Advantages

- Greater Wear Protection
- Promotes Clean, Efficient Equipment
- Extends Equipment Life
- Compatible w/ Synthetic Oils
- Outstanding Rust Protection
- High Temperature Capability

High Performance Gear Oil

Max-Gear®

Max-Gear® is an ultra-tough automotive gear oil. It's designed to maximize power and provide unsurpassed protection to heavily loaded gears. It makes gears run smoother, quieter, cooler and longer without overhauls.

Max-Gear is recommended for use in truck, motor home / RV, and automotive front or rear differentials, manual transmissions, and lower gear units of marine engines that specify use of an API GL-5 or GL-4 fluid. All viscosities of Max-Gear are formulated with hypoid friction modifiers necessary for use in clutch or cone type differentials. No additional additives are necessary.

Exclusive Performance Advantages

- Severe Service Performance
- Lower Coefficient of Friction
- High Temperature Performance
- Low Temperature Fluidity
- Shock Load Protection
- Prevents Corrosion
- Excellent Water Separation
- Compatible with Other Oils
- Meets Warranty Requirements
- Environmentally Responsible

Radiator Super Coolant Additive

Purple Ice®

Purple Ice is a high performance, synthetic, radiator coolant additive. It reduces engine heat by reducing the surface tension of the radiator fluids for improved heat transfer. Purple Ice fosters optimum coolant flow by helping to prevent formation of scale deposits in the radiator. It also lubricates the water pump seals.
Purple Ice should always be used in conjunction with antifreeze in regions where freezing temperatures occur. Purple Ice is recommended for any water / glycol pressurized cooling system, including those using the traditional green silicate based glycols or the newer OAT or HOAT based glycols.

Exclusive Performance Advantages

- Reduces Coolant Tension
- Promotes Reduced Coolant Temperatures
- Protects Aluminum Cooling Systems
- Lubricates Water Pump Seals
- Provides Corrosion Resistance
- Works in both Gasoline & Diesel Engines

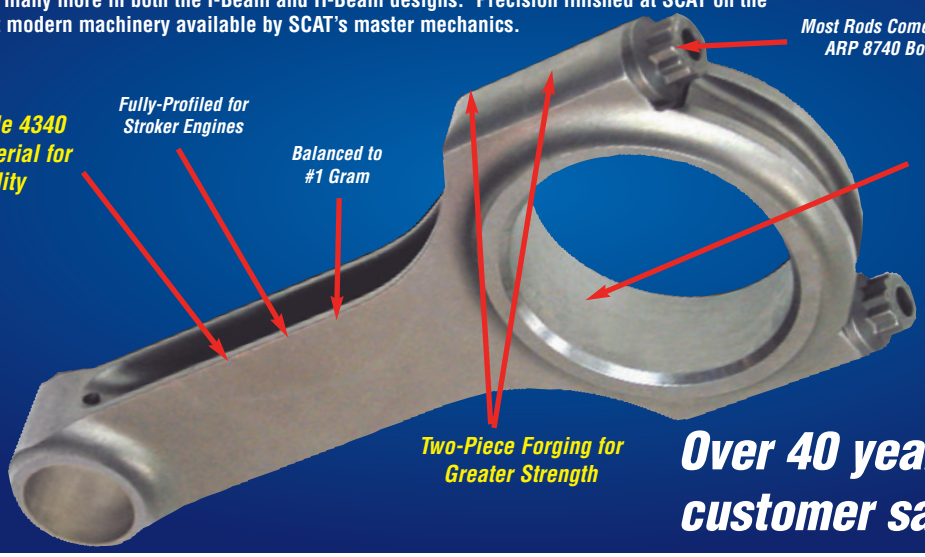
The Anatomy of a SCAT Rod

SCAT connecting rods feature the same hih-quality craftsmanship that has led us to the forefront of the performance industry. All of our rods are made from 2-piece chromoly steel forging to endure maximum strength and durability. We offer a complete line of small- and big-block Chevy, small and big-block Ford, Honda and many more in both the I-Beam and H-Beam designs. Precision finished at SCAT on the newest and most modern machinery available by SCAT's master mechanics.



Over 40 years of customer satisfaction

4340 Forged H-Beam Rods *with ARP 8740 7/16" Cap Screws*

The "Bad Boy" of all SCAT rods available for serious horsepower engines.

- H-Beam design is the strongest SCAT rod available
- Perfect for supercharged and nitrous applications
- Special doweled cap for specific cap-to-rod alignment
- Profiled clearance for stroker applications

4340 Forged Stock Replacement I-Beam Rods

with ARP 8740 3/8" or 7/16" Wave-Loc Thru Bolts

This rod is perfect for the street or strip racer that wants a little extra insurance while on the track.

- Sized and balanced to +/-1 gram
- Press pin or bushed
- Lightweight I-Beam design for increased horsepower and quick RPMs

Pro Stock Premium 4340 Forged I-Beam Rods

with ARP 8740 3/8" or 7/16" Cap Screw Bolts

Lightweight I-Beam design with even more strength to step up to even more horsepower.

- All the same features as the Stock Replacement plus...
- 12-point ARP 8740 cap screw bolts
- Special doweled cap for perfect cap-to-rod alignment resulting in increased strength and longer life
- Extra clearance for stroker applications

Pro-Comp 4340 Forged I-Beam Rods

with ARP 8740 7/16" Cap Screw Bolts

The ultimate I-Beam rod that incorporates the strength and technology of the H-Beam rod and will give you maximum protection.

- All the features listed above plus...
- One rib cab for added strength and bearing support
- Polished beams to eliminate stress risers
- Special hollow dowels

Choose From Three ARP Replacement Rod Bolts:

Because factory connecting rods (of aftermarket versions of OEM rods) are used in a variety of applications from rebuilt stock motors to modified powerplants used in circle track, marine and drag racing engines-including those with superchargers and/or nitrous oxide injection systems-ARP offers replacement bolts in three different models. All of them are substantially better than the stock OEM and most aftermarket bolts.

GOOD: Standard High Performance Bolts

A premium grade 8740 alloy chrome moly steel is used to manufacture ARP High Performance connecting rod bolts. This material is heat-treated to provide a tensile strength in the 190,000 psi range, which is substantially stronger than the OEM bolts. Cycle testing shows ARP High Performance rod bolts to be nearly five time more reliable than stock!

BETTER: Wave-Loc High Performance Bolts

The same heat-treated 8740 chrome moly steel is used to make these rod bolts as ARP's standard High Performance rod bolts. The big difference is in the shank design, with ARP's exclusive (and patented) Wave-Loc technology providing substantial benefits. Because there are fairly wide tolerances in factory bolt holes, the bolt must be able to fit snugly and a knurl is applied. Unfortunately, these knurls cut deep into the bolt material, leaving sharp edges and enormous "stress risers" that promote failure. That's why ARP developed the Wave-Loc design that features symmetrical waves and has an effective interference range of .0005" to .007" for proper cap alignment.

BEST: "PRO" Series Wave-Loc Bolts

For the most severe applications, in conjunction with aftermarket I beam rods, ARP has developed the "Pro" Series Wav-Loc bolts. These ultra heavy-duty rod bolts are made from a special material designated ARP 2000. It has approximately 200% the fatigue life of 8740 chrome moly steel and has a tensile strength of about 220,000 psi, and is capable of more than 12,000 lbs. clamping force.

Pro Series Connecting Rod Bolts

A large number of connecting rod manufacturers have chosen ARP bolts as standard equipment. They're proud to advertise their products as being equipped with ARP bolts. And for good reason. The "weak link" in a connecting rod has always been the bolt, and racers know that nobody builds a better bolt than ARP. However, it is critically important to monitor the stretch of each bolt and replace it when it has permanently elongated by .001".

Pro Series Head Stud Kits

Simply stated, there's not a better stud setup on the market today. For openers, ARP uses a premium grade 8740 alloy that is rated far superior to "aircraft" quality. Then, each stud is precisely heat treated to 190,000 psi. The threads are rolled after heat treat, which gives them about 1000% better fatigue strength than those found on studs that are threaded prior to teat treat (a very common industry practice). Available with your choice of conventional hex nuts or compact 12-point nuts.

Cylinder Head Bolts

HIGH PERFORMANCE SERIES

High Performance head bolts are available with a reduced wrenching hex or 12-point and wide area flanged head that eliminates the need for valve train removal to facilitate cylinder head retorquing. All High Performance Series bolts are 170,000 psi (which is 15% stronger than grade 8) and kits come complete with hardened parallel-ground washers.

Main Stud Kits

There are many important reasons to use ARP main stud kits, including the elimination of main cap walk and fretting, as well as protecting the threads in your engine block. The studs are manufactured from 8740 chrome moly steel, heat treated in-house to 190,000 psi tensile strength, and precision J-form threads rolled after heat treat to create a fastener that has threads 1000% stronger than others. Don't settle for anything less than the best. Insist on genuine ARP studs . . . you'll find the name stamped right on the end!

Main Bolt Kits

HIGH PERFORMANCE SERIES:

Competitively priced, popular applications feature reduced wrenching head and wide area flange provides even load distribution during torquing. Made of chrome moly steel and heat treated to a nominal rating of 170,000 psi.

Chrome Plated Premium Engine Fasteners

Show quality chrome fasteners are available in your choice of Grade 5 Hex head, Grade 8 socket head or Grade 8 twelve point head. The bolt heads of these quality fasteners are individually polished to a high luster, then chrome plated for lasting beauty. Kits come complete (except where noted) with AN" type washers which have no exposed shoulders past the bolt heads to give a very professional appearance. Ideal for street rods and street machines, or any vehicle requiring show quality chrome.

Complete Engine Bolt Kits

Part #	Qty Incl.	Size
Deluxe Engine Bolt Kit for Chevy Small Block		
MRG5001	24	1/4" - 20 x 1/2" - Hex Head
	4	5/16" - 18 x 3/4" - Hex Head
	12	3/8" - 16 x 3/4" - Hex Head
	13	3/8" - 16 x 1" - Hex Head
	2	3/8" - 16 x 1-1/4" - Hex Head
	4	3/8" - 16 x 2" - Hex Head
	1	3/8" - 16 x 2-1/4" - Hex Head
	10	1/4" AN Washers
	14	1/4" Flat Washers
	20	3/8" AN Washers
Standard Engine Bolt Kit for Chevy Small Block		
MRG5000	14	3/8" - 16 x 1" - Hex Head
	10	1/4" - 20 x 1/2" - Hex Head
	1	3/8" - 16 x 2-1/4" - Hex Head
	10	1/4" Flat Washers
	14	3/8" AN Washers (Fits early and late water necks)

Intake Bolt Kits

Part #	Qty Incl.	Size
For Chevy Small Block		
MRG5002	12	3/8" - 16 x 1" - Hex Heads
	12	3/8" AN Washers
MRG5003	12	3/8" - 16 x 1" - 12pt Heads
	12	3/8" AN Washers
For Chevy Big Block		
MRG5004	16	3/8" - 16 x 1-1/4" - Hex Heads
	16	3/8" AN Washers
MRG5005	16	3/8" - 16 x 1-1/4" - 12pt Heads
	16	3/8" AN Washers
For Ford 289-302-351W		
MRG5006	12	5/16" - 8 x 2" - Hex Heads
	12	5/16" AN Washers

Valve Cover Bolt Kits

Part #	Qty Incl.	Size
Valve Cover Bolt Kits		
MRG5019	4	1/4" - 20 x 3/4" - Hex Heads
	4	1/4" AN Washers
MRG5029	4	1/4" - 20 x 3/4" - Button Heads
	4	1/4" AN Washers
MRG2507	4	1/4" - 20 x 3/4" - Socket Heads
	4	1/4" AN Washers
MRG2501	4	1/4" - 20 x 1" - Hex Heads
	4	1/4" AN Washers
MRG2506	4	1/4" - 20 x 1" - Socket Heads
	4	1/4" AN Washers
MRG9822	4	1/4" - 20 x 3-3/8" - Button Heads
	4	1/4" AN Washers (Fits 86-up Chevy Small Blocks)
MRG2508	4	5/16" - 18 x 3/4" - Hex Heads
	4	5/16" AN Washers
MRG2505	4	5/16" - 18 x 1" - Hex Heads
	4	5/16" AN Washers
Acorn Head Valve Cover Nuts		
MRG6304	8	1/4" - 20 x 1-3/8" Nuts - Hex
	8	1/4" - 20 x 7/8" Studs - Hex

Timing Cover Bolt Kits

Part #	Qty Incl.	Size
For Chevy Small Block and Big Block		
MRG5008	10	1/4" - 20 x 1/2" - Hex Head
	10	1/4" Washers
MRG5009	10	1/4" - 20 x 1/2" - 12 pt Head
	10	1/4" Washers

Oil Pan Bolt Kit

Part #	Qty Incl.	Size
For Chevy Small Block		
MRG5010	14	1/4" - 20 x 1/2" - Hex Head
	4	5/16" - 18 x 3/4" - Hex Head
	14	1/4" Flat Washers
	4	5/16" Flat Washers

Rear End Cover Bolts

Part #	Qty Incl.	Size
GM 10 & 12 Bolt		
MRG5016	12	5/16" - 18 x 3/4" - Hex Head

Water Neck Bolt

Part #	Qty Incl.	Size
Fits Mr. Gasket #MRG2661 Chevy Water Neck		
MRG5022	1	3/8" - 16 x 1" - Hex Head

Transmission Pan Bolt Kit

Part #	Qty Incl.	Size
For GM TH 350 & 400		
MRG5012	13	5/16" - 18 x 3/4" - Hex Head
	13	5/16" AN Washers

Header Bolts

Part #	Qty Incl.	Size
Header Bolts		
MRG5025	12	3/8" - 16 x 3/4" - Hex Head
MRG5027	12	3/8" - 16 x 3/4" - 12pt Head
MRG4985	12	3/8" - 16 x 3/4" - Socket Head

Specialty Bolts

Part #	Qty Incl.	Size
Body Bolts, Washer Faced, CA Point		
MRG5026	5	5/16" - 18 x 3/4" - Hex Head
Hood Hinge Bolts, GM 1960 and up		
MRG5028	8	3/8" - 16 x 3/4" - Hex Head

Fuel Pump/Block Off Plate Bolt Kit

Part #	Qty Incl.	Size
Fuel Pump Bolts For Chevy Small Block and Big Block		
MRG4993	2	3/8" - 16 x 1-1/4" - Hex Head
	2	3/8" AN Washers
Block Off Plate Bolts For Chevy Small Block		
MRG4987	2	3/8" - 16 x 3/4" - Hex Head
	2	1/4" - 20 x 1/2" - Hex Head
	2	3/8" AN Washers
	2	1/4" AN Washers

Water Pump Bolt Kit

Part #	Qty Incl.	Size
For Chevy Small Block with Short Pump		
MRG4996	1	3/8" - 16 x 2-1/2" - Hex Head
	3	3/8" - 16 x 1-3/4" - Hex Head
	4	3/8" AN Washers

Intake Manifold Bolts

These 5 hex head and socket head intake bolts are brite zinc plated for protection and appearance. Kits include hardened flat washers for uniform torque and to prevent galling on aluminum intake manifolds.

Description	Part #
Chevy 265-400 Small Block - 12 Bolts & Washers	
3/8" - 16 x 1" - Hex Head	MRG955G
3/8" - 16 x 1" - Socket Head	MRG956G
Chevy 396-454 Big Block - 16 Bolts & Washers	
3/8" - 16 x 1-1/4" - Hex Head	MRG954G
3/8" - 16 x 1-1/4" - Socket Head	MRG957G
Chrysler 273-440 wedge A,B,RB - 12 Bolts & Washers	
3/8" - 16 x 1" - Hex Head	MRG955G
3/8" - 16 x 1" - Socket Head	MRG956G
Ford 260-289-302-351W - 12 Bolts & Washers	
5-16" - 18 x 2" - Hex Head	MRG958G

Carburetor Studs

These bright zinc plated studs help prevent stripping out threads in your aluminum intake manifold. They hold the gasket in place and guide the carburetor on too! Available in four lengths, the studs are threaded 5/16"-18 at on end and 5/16" - 24 at the opposite end. Each package contains four studs, nuts and washers.

Description	Part #
Standard, 1-3/8" length	MRG59
Medium, 1-1/2" length	MRG60
Long, 2" length	MRG61
Extra Long, 2-1/2" length	MRG62

Header Bolts - Hex Heads Stainless Steel

Made from durable 304 stainless steel. Compact bolt head and flange is ideal for use where space is minimal, typical on header flanges. resist corrosion & provides clean professional appearance

Description	Part #
3/8"-16 x_" L (12/set)	MRG2210G
3/8"-16 x_" L (16/set)	MRG2211G

Header Bolts - Hex Heads

Designed for quick, easy installation of headers and heat treated for extra strength. The special washer faced, smaller than standard hex head is ideal for tight spaces. These bolt are Grade 5 with a 7/16" head and a protective black finish.

Description	Part #
3/8"-16 x 3/4" w/ Mini 3/8' Head (12/set)	MRG3409
3/8"-16 x 3/4" (12/set)	MRG915
3/8"-16 x 3/4" (16/set)	MRG919
3/8"-16 x 1" w/ Mini 3/8' Head (12/set)	MRG917
5/16"-18 x 3/4 Mopar (14/set)	MRG976
3/8-16" x_" L	MRG3420G

Header Bolts - Socket Heads

Save time, work and solve the impossible tightening problems of some header installations with socket head bolts. These bolts are Grade 8 and are black oxide plated.

Description	Part #
3/8"-16 x 3/4" (12/set)	MRG916
5/16"-16 x 3/4" (12/set)	MRG3411

Header Bolt Lock Washers

Designed especially for use with all header bolts to help prevent loosening and assure a tight gasket seal for positive header installation. Use with #915, 916, 917, 3409 and 3411 header bolts. Black Finish.

Description	Part #
5/16" (12/set)	MRG3418
3/8"(12/set)	MRG3416

Harmonic Balancer Bolt & Washer

Made from Grade 8 alloy material and heat treated for superior strength, these harmonic balancer bolts feature a high hex head to prevent socket slippage.

Description	Part #
Chevrolet 283-400, 7/16"-20 x 2-1/4"	MRG7845
Chevrolet 396-454, 1/2"-20 x 1-1/2"	MRG7846
Ford, all except 351C, 5/8"-18 x 2"	MRG7847

Cylinder Head Bolts

These longer than stock cylinder head bolts compensate for threads taken up by head bolt washers. The high quality Grade 8 alloy allows you to increase torque settings for high clamp loads on the gasket.

Description	Part #
CHEVY	
265-400 Small Block (17 bolts for 1 head)	MRG940G
396-454 Big Block (16 bolts for 1 head)	MRG941G
CHRYSLER	
361-400-413-426-440 (17 bolts for 1 head)	MRG953G
FORD	
289-302 (10 bolts for 1 head)	MRG950G

Head Bolt Washers

Description	Part #
7/16" ID, 34 pieces per set	MRG87
1/2" ID, 20 pieces per set	MRG87A

Camshaft Bolts & Lock Plate Kit

Mr. Gasket makes it easier to get a "hard-to-find" item by making available specially hardened, sems type (captured washer) bolts. The washers are designed to secure a cam button in place or as stock replacements.

Description	Part #
Chevrolet Small & Big Block & -90˚ V6	MRG944G
Chrysler 426 Hemi	MRG944G
Ford 260-289-302-351W	MRG949G

Oil Pan & Timing Cover Bolts

Special small than standard hex heads are ideal for tight places. Because of the hex flange design, it will not fall back into the socket, allowing for easy installation. Special underhead serration prevent loosening and the wide flange head distributes uniform clamping pressure. Bolts are zinc plated, Grade 5.

Description	Part #
Oil Pan Bolt Kits	
AMC 290-343-360-390-401	MRG6087
Small Block Chevy & 90˚ V6	MRG6085

Super Ultra-Seal III Performance Gaskets

Made from a high-density material that combines a custom-engineered copolymer binder system which holds fibers and fillers together, reinforced with 100% synthetic fiber and high-temperature fillers, to produce a uniform, high-strength composite sealing material. This material delivers excellent sealing properties for oil, fuels and coolant at low flange pressure (clamp force), along with high crush resistance for continuous use to 350oF and intermittent exposure to 650oF.

FEATURES & BENEFITS

- Made from high-density, high-tensile strength and high-temperature gasket material
- Seals using low flange pressure (clamp force)
- Can be trimmed easily to fit custom applications
- Requires no gasket sealer for installation

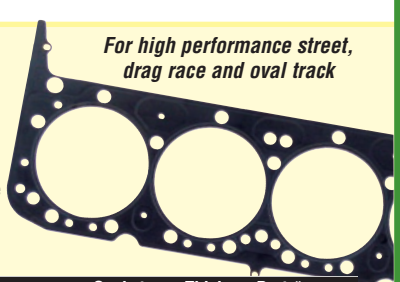
MLS (Multi-Layered Steel) Cylinder Head Gaskets

For high performance street, drag race and oval track



- Manufactured from nitrile coated spring steel layers
- Stress formed embossment provides excellent sealing
- Provides excellent stability and reduces cylinder bore distortion
- Ideal for supercharged, turbo charged, nitrous oxide and extreme compression ratios
- For high performance street, drag race and oval track
- Packaged individually

Ultra-Seal Premium Racing Gaskets

Ultra-Seal Exhaust & Collector Gaskets

These premium exhaust gaskets are designed and constructed to improve sealing of exhaust header flanges. Unlike standard exhaust material, ULTRA-SEAL exhaust gaskets incorporate a graphite-impregnated facing and steel expanded metal core that reinforces and increases the tensile strength. This gives the gasket the ability to conform to warped flanges, allowing better sealing capabilities without deteriorating or cracking under excessive heat and pressure of racing engines.

Application	Part #
Chevy - Exhaust Gasket	
All 265-400, stock & most race ports, 1.45W x 1.55H	MRG5901
All 265-400, stock square ports 1.45W x 1.48H	MRG5900

Collector Gasket - Triangle 3-Bolt Holes	
2-1/2" dia., 3-1/2" bolt circle, 3/8" hole Dynomax, Flowtech, Hedman, Hooker	MRG5980
2-3/4" dia., 3-1/2" bolt circle, 3/8" hole Hush Thrush Muffler #510 Various	MRG5970
3" dia., 3-7/8" bolt circle, 3/8" hole Dynomax/Flowtech/Hedman/Hooker/Thorly	MRG5971
3-1/2" dia., 4-7/16" bolt circle, 3/8" hole Dynomax/Flowtech/Hedman/Hooker/Thorley	MRG5972

Ultra-Seal Cylinder Head Gaskets

- Five layer (graphite core/ perforated steel outer layers) composition construction
- Graphite core has excellent thermo-conductivity; transfers heat away from hot spots in head to coolant passages, this prevents gasket burn-out
- Provides excellent stability, compressibility and high temperature endurance
- Will not creep, cold-flow or brinell (indent) aluminum cylinder heads
- For high performance street, drag race and oval track
- Packaged 2 per set

Application	Part #
Chevy	
All 265-350, flexible graphite core, coldseal elastomer coated, non-retorquing, 4.130" bore, compressed nominal thickness .038"	MRG5800
70-80 400 SB V8, flexible graphite core w/steam holes for street use non-retorquing, 4.190" bore, compressed nominal thickness .038"	MRG5801
All 396-454 BB V8, flexible graphite core, elastomer coated, non-retorquing, 4.520" bore, compressed nominal thickness .038"	MRG5802
Ford/Mercury	
62-95 260, 289, 302, 302HO (exc. Boss), & 75-92 351W flexible graphite core, coldseal elastomer coated, non-retorquing, 4.100" bore, compressed nominal thickness .038"	MRG5807

Ultra-Seal Intake Gaskets

The perfect solution to eliminate sealing problems encountered with today's aluminum cylinder heads and intake manifolds.

Application	Part #
Chevy	
55-85 265-400, 1/16" thick cork seal, 1.25W x 2.00H stock port	MRG5820
55-85 265-400, 1/16" thick cork seal, 1.25W x 2.13H sm. race port	MRG5821

55-85 265-400, 1/8" thick cork seals, 1.31W x 2.19H med. race port	MRG5812
55-85 265-400, 1/16" thick cork seals, 1.31W x 2.31H lg. race port	MRG5823
86-91 350 V8 w/TPI	MRG5851
All 396-454, 1/16" thick cork seals, 1.85W x 2.16H oval port	MRG5827
All 396-454, 1/16" thick cork seals, 1.85W x 2.16H rect. port	MRG5828
All 396-454, same as #5828 use w/manifolds w/o upper bolt holes	MRG5819
Ford	
65-67 289-302 (exc. factory HP) 1/16" thick, 1.20W x 2.13H	MRG5831
77-83 302 (exc. Boss), 1/16" thick, 1.25W x 2.11H	MRG5834
69-74 351W, 1/16" thick, 1.25W x 2.11H	MRG5832
86-95 302 V8 EFI	MRG5835
70-74 351C-V8 4 bbl.	MRG5836
Chrysler/Dodge/Plymouth	
68--89 340-360, 1/16" thick (4bbl. heads), 1.17W x 2.27H	MRG5840

Ultra-Seal Oil Pan Gaskets

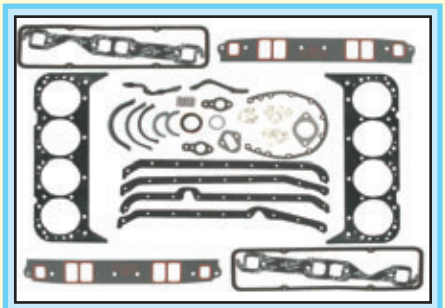
Ultra-Seal oil pan gaskets are designed for today's performance engines that create excessive vacuum and pressure in the oil pan caused by crankcase evacuation systems and dry sump oil systems.

Applications	Part #
Chevy	
265-400 57-74 Thin Front Seal	MRG5880
265-400 75-79 Thick Front Seal	MRG5881
350 80-86 Thick Front Seal	MRG5882
396-454	MRG5883
Ford	
221-302	MRG5890
351W 69-73	MRG5891
351C	MRG5892

Ultra-Seal Valve Cover Gaskets

These premium exhaust gaskets are designed and constructed to improve sealing of exhaust header flanges. Unlike standard exhaust material, ULTRA-SEAL exhaust gaskets incorporate a graphite-impregnated facing and steel expanded metal core that reinforces and increases the tensile strength. This gives the gasket the ability to conform to warped flanges, allowing better sealing capabilities without deteriorating or cracking under excessive heat and pressure of racing engines.

Applications	Part #
Chevy	
265-400, 55-86, 3/16" Thick	MRG5860
265-400, 55-86, 5/16" Thick	MRG5861
396-454, 65-90, 3/16" Thick	MRG5862
396-454, 65-90, 5/16" Thick	MRG5863
Ford	
221-351W, 62-95, 3/16" Thick	MRG5870
302 Boss, 351M/C-400, 3-16" Thick	MRG5871
Chrysler	
276-360, 64-89, 3-16" Thick	MRG5876
361-440 6 bolt cover, 3/16" Thick	MRG5877
Oldsmobile	
330-455, 64-80, 3/16" Thick	MRG5875
Pontiac	
326-455, 64-76, 3/16" Thick	MRG5869



THE COMPLETE SOLUTION

Ultra-Seal Engine Overhaul Gasket Sets

The complete overhaul kit contains the following Ultra-Seal gaskets: Cylinder head, intake, exhaust, valve cover and oil pan. Mr. Gasket distributor (where applicable), timing cover, fuel pump, thermostat, water pump, and rear main seal. For OE replacement, high performance street, drag race and oval track.

Applications	Part #
Chevy Small Block	
283-302-307-327-350, 4.6-5.7L, 57-74	MRG5991
350, 5.7L, 75-79	MRG5991
350, 5.7L, 80-85	MRG5991
350 W/FI, 5.7L, 86-91	MRG5992
Chevy Big Block	
396-402 Gen IV, 6.5-6.6L, 65-72, Oval	MRG5996
396-402 Hi Perf Gen IV, 6.5-6.6L, 65-72, Rec	MRG5995
427-454 Gen IV, 7.0-7.5, 66-90, Oval	MRG5996
427-454 Hi Perf Gen IV, 7.0-7.5L, 66-90, Rec	MRG5995
Chrysler	
318, 5.2L, 75-91	MRG5998
360, 5.9L, 71-91	MRG5999
Ford	
221-260-289-302, 3.6-5.0L, 62-76	MRG5983
302, 5.0L, 77-82	MRG5984
302, 5.0L, 83-95	MRG5985
351W, 5.7L, 69-74	MRG5986
351W, 5.7L, 75-82	MRG5987
351W, 5.7L, 83-97	MRG5988
351C 4 BBL, 5.7L, 70-74	MRG5989
429-460 (Non CJ/SCJ/Boss), 7.0-7.5L, 68-88	MRG5990

Rubber Polymer Edge

Ultra-Seal II Intake Gaskets

Features new gasket sealing technology, a three-part sealing barrier system creates and maintains the seal.

- Comes with manifold end rail seals & distributor gasket
- For OE replacement, high performance street, drag race and oval track
- Packaged 2 per set

Copperseal Exhaust Gaskets

Eliminate gasket leaks with racetrack proven exhaust & collector gaskets. Made from long lasting .043" solid copper which will not shrink, deteriorate, or blowout. All exhaust ports feature an embossed O-ring, increasing sealing pressure around each exhaust port to create a tight, leak-proof seal between the cylinder head & exhaust manifold or header, even on irregular surfaces.

Application	Part #
Chevy - Exhaust Gasket	
All 265-400, stock & most race ports, 1.45W x 1.55H	MRG7153
All 265-400, stock square ports 1.45W x 1.48H	MRG7151
All 265-400, round port, 1.50" diameter	MRG7150
All 265-400, round port, 1.63" diameter	MRG7152G
All 265-400, LT-1 D-shaped port, 1.50" x 1.60"	MRG7154
All 396-502, stock square port, 1.85W x 1.90H	MRG7158
All 396-502, round port, 1.92" diameter	MRG7157
Ford/Mercury - Exhaust Gasket	
62-90 221-351W, stock port, 1.12W x 1.48H	MRG7160
70-74 351C-V8	MRG7164
68-88 429-460, oval port, 1.25W x 2.08H	MRG7165
Chrysler/Dodge/Plymouth - Exhaust Gasket	
67-74 273-318, stock port, 1.34W x 1.82H	MRG7166
59-78 383-440, stock port, 1.78W x 1.48H	MRG7167
Oldsmobile - Exhaust Gasket	
64-76 330-455, all	MRG7170

Overhaul Gasket Sets

Designed for stock and non-high-performance engines. Kits include all seals and gaskets. Works on popular V8s.

Mr. Gasket Intake Gasket Material

Mr. Gasket's own intake gasket material in large sheets for custom cut applications.

Application	Part #
12" x 12" Mr. Gasket Standard Material	MRG77B
6" x 24" Mr. Gasket Standard Material	MRG77C

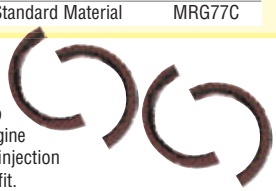
Copper Exhaust Collector Gaskets

Collector gaskets are designed to prevent exhaust leakage between the header & muffler.

Application	Part #
Triangle - 3 bolt holes	
2-1/2" Diameter, 3-1/2" circle, 3/8" holes	MRG7176C
3" Diameter, 3-3/8" circle, 3/8" holes	MRG7177C
3-1/2" Diameter, 4-7/16" circle, 3/8" holes	MRG7178C

Rear Main Bearing Seals

Made from silicone to withstand extreme engine oil temperatures and injection molded for a precise fit.



Application	Part #
CHEVY	
57-85 262-400 silicone	MRG1960
57-85 262-400 polyacrylic (single lip)	MRG1961
65-88 396-502 silicone	MRG1969

High Performance Gaskets

FEL-PRO Intake Gaskets

Most Fel-Pro intake gaskets have Printoseal construction, featuring non-metallic rubber-fiber base material to resist gasoline and alcohol while allowing precision trimming of intake ports. They also include Blue Stripe cork-rubber end strips which have greater allowance for end-gap variations than molded rubber.

FEL-PRO Exhaust Header Gaskets

These gaskets are made from high-temperature, high-density fiber material around a perforated steel core for durability and heat resistance. Precoated for easy removal.

FEL-PRO Valve Cover Gaskets

Your choice of Blue Stripe cork/rubber, Blue Strip cork/laminate (has steel core, thicker for better rocker clearance), or Fel-CoPrene synthetic rubber.

FEL-PRO Cylinder Head Gaskets

Features include PermaTorque/blue gasket body with solid steel core to minimize torque loss and gasket blowout, wire ring combustion seat with stainless steel "armor" for extra sealing strength around combustion chambers, and a Printoseal or Blue Teflon coating, depending on engine type.

FEL-PRO Oil Pan Gaskets

Felcoid/Plus construction uses fiber core with latex rubber coating. Anti-stick treatment means easy removal.

FEL-PRO R.A.C.E. Set

Stands for Remainder to Assemble a Complete Engine. Includes rear main bearing seal, timing cover seal and gasket, water pump gasket, water outlet gasket, fuel pump gasket, and oil pump gasket. (Sets may vary depending on engine type)

Fel-Pro Performance Full-Engine Gasket Sets

The gaskets and seals in Fel-Pro Performance full-engine gasket sets are designed specifically for high-performance and racing applications. These top-quality sets include Perma Torque pre-flattened, steel-ring head gaskets, Printoseal intake-manifold gaskets, Blue Stripe cork-rubber valve-cover gaskets, and all the other top-notch gaskets and seals you'll need to assemble a performance engine.

Year	Engine	Part #
57-79	Chevy Small Block Gen I	FEL2802
70-84	Chevy Big Block Mark IV	FEL2805
62-82	Ford 260/289/302	FEL2804
59-79	Pontiac 389/400/421/428/255	FEL2806

Fel-Pro Gasket Sets

These Fel-Pro gasket kit sets include premium-quality head gaskets, intake gaskets, exhaust gaskets, valve-cover gaskets, oil-pan gaskets, valve-stem seals, and all accessory gaskets--everything you need for a complete engine rebuild, all in one affordable set.

Insulator Gasket, 1/4" Thk, Open Plenum	FEL1908
Carter AFB/Holley 4 bbl. 1-31/64" dia. 4-Hole	FEL1909
Carter AFB/Holley 4 bbl. 1-19/32" dia. 4-Hole	FEL1909

Timing Cover Gaskets

These Fel-Pro timing cover gaskets are ideal for high-performance and racing applications. Made of top-quality materials, these gaskets are designed to ensure a leak-free seal.

Description	Part #
Chevy Small Block/90° V6, 1-piece	FEL2330
Ford Small Block	FEL2331

Valley Pan Gaskets

If you have a vehicle that requires a valley pan gasket, or your gasket kit didn't include it, Fel-Pro valley pan gaskets are just what you need.

Description	Part #
59-79 Mopar, Big Block, 6.8-7.2L	FEL1215
61-78 Mopar, Big Block, 6.3-6.6L	FEL1214

Collector Gaskets

Since Fel-Pro has been making high quality gaskets just about forever, you know these collector gaskets are pretty darn good. The gaskets feature high temperature-resistant material laminated around a steel core, so they seal better, and are less prone to blowouts compared to standard collector gaskets. Sold in pairs.

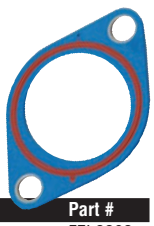
Description	Part #
Steel Core Laminate	
3-Hole, 3-1/2" Bolt Circle, 2.75" Inside	FEL2000
3-Hole, 3-7/8" Bolt Circle, 3" Inside	FEL2001
3-Hole, 4-7/16" Bolt Circle, 3" Inside	FEL2003
3-Hole, 3-1/2" Bolt Circle, 2.875" Inside	FEL2014
4-Hole, 3-5/16" Bolt Circle, 2.5" Inside	FEL2004
4-Hole, 4-1/16" Bolt Circle, 3" Inside	FEL2005
4-Hole, 4-9/16"-5" (slot) Circle, 3.5" Inside	FEL2006
4-Hole, 3-5/8" Bolt Circle, 3" Inside	FEL2010
4-Hole, 4-1/8" Bolt Circle, 3.5" Inside	FEL2012
7-Hole Dual, 3-Hole measures 4-3/8", 4-Hole measures 4-1/2", 3.375" Inside	FEL2013
7-Hole Dual, 3-Hole Flange measures 3-3/4", 4-Hole Flange measures 4", 2.875" Inside	FEL2007

Transmission Pan Gasket

Don't sacrifice your transmission over a cheap pan gasket. Fel-Pro Performance offers these transmission pan gaskets for those harsh racing and towing conditions where superior materials and construction make all the difference. They feature a stout and durable steel core laminate construction that is sure to keep your pan sealed under the toughest conditions.

Description	Part #
GM Powerglide, Steel Core Laminate	FEL2330

Water Neck Gasket



When replacing your water neck, don't forget the gaskets. They feature 1/8 in. thickness for a leak free seal and are ideal for performance aftermarket style water necks.

Description	Part #
55-02 Chevy Small/Big Block V8	FEL2202

STOP EXHAUST LEAKS GUARANTEED!

Seal Warped Flanges

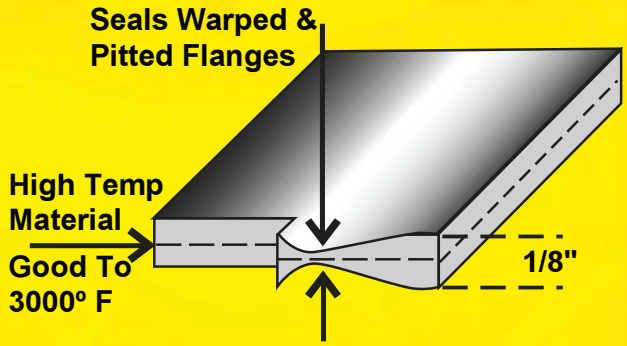
50% Crush – Remflex Exhaust Gaskets come in a standard 1/8" thickness and crush 50%. This allows them to fill gaps in the flange surface up to 1/16"!

No More Burn Outs

Material Good to 3000° F – Remflex Exhaust Gaskets are good to 3000° F. That far exceeds the temperature of any vehicles exhaust system!

No Need to Re-torque

30% Rebound – Remflex Exhaust Gaskets rebound 30%. This creates the optimum seal against both flanges eliminating the need to re-torque!



ABOUT REMFLEX

With over thirty years in the gasket industry we gain our confidence through experience, and we're changing the way people think of exhaust gaskets. Remflex Exhaust Gaskets are made of 100% flexible graphite, a material that conforms to any shape. This allows Remflex Exhaust Gaskets to fill gaps in the sealing surface, i.e., pitting and/or warping on the cylinder head, and header or exhaust manifold.

Anyone who works on cars or trucks, either a professional or enthusiast, has dealt with exhaust leaks and felt the frustration when they come back, again and again.... So, whether you have a street rod in the garage and you're installing a set of quality headers, or you have a pick-up on the farm and need a gasket for that old manifold, Remflex Exhaust Gaskets will do the job right the first time.

It takes a lot of valuable time to repair an exhaust leak. Don't take the chance of having to do it again. Give yourself the peace of mind that the job is going to last where it matters most - at the exhaust gasket!

REMFLEX EXHAUST GASKETS

The Science

Remflex Exhaust Gaskets work because they solve the problems inherent in sealing an exhaust flange. There are two primary causes for an exhaust leak.

Warped and/or Pitted Exhaust Flanges

Due to the extreme heat in a vehicles exhaust system even the best quality header, exhaust manifolds, and cylinder heads are prone to warping and pitting. The best and most economical way to ensure you won't develop a leak due to irregularities in the sealing surface is to use Remflex. Remflex Exhaust Gaskets crush 50% and fill gaps in the sealing surface up to 1/16".

Gasket Failure

The main cause of gasket failure in an exhaust system is heat. Most of the top brands people have used over the years are made of composite materials. These materials are made of a blend of different natural fibers and synthetic compounds which are bound together with rubber. At best the rubber binders begin to burn away at 250 - 400°F. The extreme temperatures of the exhaust system immediately begin to burn away at the different compounds of the composite material, and often times you can even smell them burning. Remflex Exhaust Gaskets are made from 100% graphite and are good to 3000°F, so they will never burn out!

★ We Can Also Custom Manufacture Any Gasket For Any Application.

MSD IGNITION

Digital 6A & 6AL Ignitions

Digitally controlled circuitry

MSD Programmable Digital-7 Ignitions

- Incredible spark energy along with absolute control of ignition timing and rpm.
- Laptop programmable.
- Map a timing curve for each gear.
- Control each cylinder's timing up to 10°.
- Program a timed retard curve during the launch.
- Three retard stages can be ramped on and off.

Base model with boost map _____ #MSD7535
NHRA legal with Traction Control Detection _____ #MSD 7530T
Slew and time based rev limits and data acquisition _____ #MSD7531

Blaster 2 Coils

- High output coil for stock or MSD equipped ignitions.
- Metal, oil filled canister for durability.
- CARB legal, D-40-37.

Blaster 2, Red, for MSD ignitions _____ #MSD8202
Blaster 2, Red, for points ignitions _____ #MSD8203
Blaster 2, Chrome, for all ignitions _____ #MSD8200
High Vibration Blaster Coil _____ #MSD8222

6AL-2 Ignition

- All new with increased output, digital controller and built-in two step rev limiter.

MSD 6AL-2 _____ #MSD6421

MSD 7AL Ignitions

- Designed for high rpm, high compression racing engines.
- Built-in 2-step Soft Touch Rev Control for holeshot and overrev limits.
- For use on 4, 6 or 8-cylinders.

MSD 7AL-2 Plus _____ #MSD7222

- Great for drag racing with built-in accessories like a 3-Step Rev Control, 4-stages of timing retard, start retard and rpm activated switch.

MSD 7AL-3 Drag Race Ignition _____ #MSD7230

Blaster SS Coil

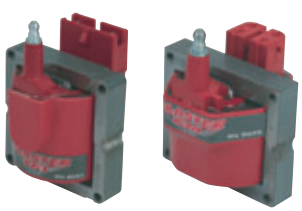
- Ideal for street/strip applications.
- Efficient winding design produces high current and voltage.

Blaster SS Coil _____ #MSD8207

MSD Digital Plus Ignitions

- High output CD Ignition, ideal for serious street/strip applications.
- Two step rev limiter.
- Built-in single stage retard for nitrous and start retard.
- Feature adjusted with rotary dials.
- CARB Approved D-40-31.

MSD Digital-6 Plus, Street _____ #MSD6520
MSD Digital-7 Plus, Strip _____ #MSD7520



Late Model Blaster Coils

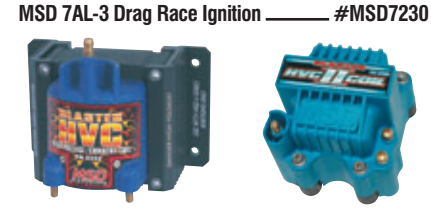
- MSD performance in a stock housing for plug-in installation.
- Improved winding material and lower resistance improve the spark output.

GM Dual Connector Coil _____ #MSD8226
GM Single Connector Coil _____ #MSD8231
Blaster TFI Coil _____ #MSD8227
Ford Coil Pack _____ #MSD8241
Dodge Coil Pack _____ #MSD8228

Direct Plug-In Wiring Harnesses

These harnesses provide a direct plug-in installation of an MSD 6-Series Ignition Control.

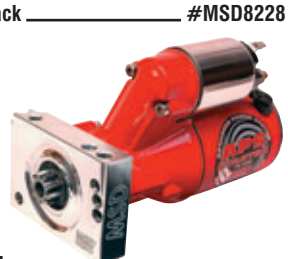
MSD to Ford TFI Harness _____ #MSD8874
MSD to GM Dual Connector Coil _____ #MSD8876
MSD to GM '96-On Single Connector Coil _____ #MSD8877
MSD to '90-'97 Dodge Ram 5.2/5.9L _____ NEW! #MSD8889
MSD to '98-'03 Dodge/Chrysler _____ NEW! #MSD8884



MSD Racing Coils

- Designed for high rpm, long endurance racing.
- High voltage and current output through an efficient e-core winding design.
- Runs cool even at extended high rpm operation.

Blaster HVC for 6-Series Ignitions _____ #MSD8252
Pro Power HVC for 7-Series Ignitions _____ #MSD8251
Blaster HVC II Coil for 6-Series Ignition Controls _____ #MSD8253
HVC Pro Power II Coil for 7-Series Ignition Controls _____ #MSD8261
Pro Power Coil _____ #MSD8201



APS Starter

- Stout motor with 4.4:1 gear reduction for great torque.
- Compact housing with clockable mount for mounting.
- Ball bearing supported armature and pinion gear.

APS Starters:
Chevy V8, 153 and 168 Tooth Flywheels _____ #MSD5095
Chevy LS Engines _____ # MSD5906
Ford 289/351W _____ #MSD5090
Chrysler Replacement _____ #MSD5098

Hyfire® 6 EZ & 6EZL Digital Ignitions

- Power up and go
- High output multi-spark ignition system provides quicker acceleration and throttle response
- Digital microprocessor controlled circuitry provides more performance and lower draw
- Lightweight aluminum housing is easy to mount and dissipates heat for durability
- Easiest ever installation uses the factory external 4 coil to trigger the system
- Complete with matching ProMaster E-Coil #MAL30440

HYFIRE 6 EZ	MAL6855M
HYFIRE 6-EZL (w/ rev limiting)	MAL6856M

Hyfire® 6

High output multi-spark system offers digital performance at analog prices. Can be triggered with points, any OEM or aftermarket electronic ignition, or magnetic crank trigger. Compatible with Mallory PROMASTER® Coil or similar high performance coil. Not for use with Hall Effect sensors.

- Latest digital circuitry
- Easy to install
- Lightweight aluminum housing for maximum heat transfer
- High efficiency delivers more performance and lower power draw

HYFIRE 6	MAL6852M
HYFIRE 6-AL (w/ rev limiting)	MAL6853M

UNILITE® Electronic Distributor

The industry standard in electronic ignition, the Mallory Unilite® is triggered by a self-contained photo-optic infrared LED system with our proven breakerless ignition circuit. The result is a super-reliable unit that has no moving parts to break or wear out, and uses a simple three-wire hookup for easy installation. Other features include a fully adjustable mechanical advance, premium cap and rotor, self-lubricating bushings and a precision cast and machined housing.

Mechanical Advance	Part #
Chevrolet 262-454 exc Tall Block	MAL3748201

Applications available for most popular engines.

HEI Performance Coils

The Mallory HEI Performance coils are a high performance replacement ignition coils for 1975 and later Delco-Remy HEI Distributor equipped cars and trucks with the ignition coil mounted to the distributor cap.

Up to 5,500 RPM	MAL29212
From 4,000 to 7,000 RPM	MAL29215

PROMASTER® Series Ignition Coils

For Street and Strip: High energy coil for street driven vehicles with breaker point ignitions. Effective up to 6,500 RPM

MAL28720

For Street and Strip: High energy coil designed especially for optimum performance with Electronic Ignition. Also, it is an excellent choice for breaker points and original equipment breakerless systems.

MAL29440

High RPM Street Cars, Drag Racing, Endurance Racing, Oval Track and Road Racing: High energy coil designed especially for engines that normally operate above 4,000 RPM and is effective up to 10,000 RPM.

MAL29625

PROMASTER® Coil For Mallory Distributors

Designed for maximum performance with Unilite and MBI distributors. Delivers more power than ballast resistor equipped 29440 ProMaster Coil. No ballast resistor required – wires directly to 12 volts. Famous ProMaster looks with red and black housing. Designed for systems without HyFire CD Ignitions.

Promaster Coil	MAL29450

Ballast Resistor

Mallory Heavy Duty Porcelain Resistors have a 200 watt rating and use threaded terminal connections for better wire retention.

(0.75 – 1.5 ohms)	MAL700

Blaster MSC Packs for GMGen-III

- Bolt-in replacement coil for GM's Gen III engine platform.
- Advanced circuitry produces high output multiple sparks.
- Up to three times the spark energy of stock coils.

Ford C-o-P, '99-'04, 4.6L DOHC, set of eight	MSD 82448

6-HEMI Ignition Controller

- Fire the coils and control the ignition on new Hemi engines.
- Designed for retro-fit carburetor applications or factory EFI (with adapter harness).
- Program the ignition timing, rpm, etc from a PC

Description	Part #
6-Hemi Ignition Control	MSD6013

DSL Shift Light

- Installs to engines with distributors, coil packs, coil-on-plug from single to 12-cylinders.
- Programmable from 100-15,900 rpm in 10 rpm increments.
- Six LEDs are bright in daylight and dim at night.
- Splice-free installation!

Description	Part #
DSL Shift Light	MSD8963

Pro-Billet LT1 Distributor

- All new, CNC machined billet distributor.
- Advanced pickup assembly for accuracy and longevity.
- Adjustable ignition timing +/-5°.
- Supplied with the new MSD Cap and Rotor.

Description	Part #
'94-'96 Late Model	MSD83811
'92-'94 Early Model	MSD8381
Late Model, '94-'96 Cap & Rotor Kit	MSD84811
Early Model, '92-'94 Cap & Rotor Kit	MSD8481

Blaster Coils for Late Model HEMI

- Improved high rpm operation.
- Direct bolt-in to factory connectors.

Description	Part #
'03-'05, Set of 8	MSD82568
'06-'09, Set of 8	MSD82558

MANY MORE PRODUCTS & APPLICATIONS AVAILABLE. CALL OR STOP BY TODAY FOR PRICING AND AVAILABILITY.

Pro-Billet Distributors

- Precision CNC machined billet housing provides incredible strength.
- Reliable magnetic pickup produces accurate trigger signals at high rpm.
- A sealed ball bearing guides a steel shaft for stability at high rpm.
- Must be used with an MSD ignition control.

Street Fire CD Ignition

All new CD Ignition Control with multiple sparks and high output energy. Compact digitally controlled and works on most distributor trigger ed engines.

- High output CD sparks.
- Multiple sparks to improve idle and throttle response.
- Full voltage output.
- Adjustable rev limiter.

Street Fire Ignition _____ #MSD5520

STREET BILLET®

PERFORMANCE ELECTRONIC BREAKERLESS DISTRIBUTOR

FEATURES:

- Ready to run, self-contained electronic breakerless design
- ACCEL's new 12-volt breakerless 6.5 Amps dwell control module
- CNC-machined billet 6061-T6 aircraft grade aluminum housing
- Centerless ground steel shaft with upper and lower Oil Lite bushings
- Easy access top mount fully adjustable and lockable mechanical advance and nylon pads to insure long term smooth operation
- Adjustable vacuum advance, with lockout insert for mechanical advance only operation
- Male HEI tower distributor cap with wire retainer are injection molded in GE Valox glass reinforced material for both high strength & high dielectric properties, also brass inserts are used for excellent long term high conductivity
- Can be converted to a traditional style female points tower by using #ACC8120 cap & rotor kit
- Easy 3-wire hookup with isolate ground circuit and weather tight connector
- Steel alloy drive gear, compatible with either flat tappet or hydraulic roller camshafts
- Race-proven high output magnetic pick assembly
- Recommended electronic breakerless coils with 0.7 Ohms or less of primary resistance; ACCEL #'s ACC8145, ACC8145C, ACC8140HV, ACC140001 & ACC140008
- Compatible with CD ignition systems

ACCEL Billetech™ Distributors

ACCEL BilleTech™ late model replacement distributors are the perfect replacement for the factory distributor in your late model car or truck. All BilleTech™ distributors feature:

- 6061 T6 Billet aluminum housing
- Centerless ground steel shaft
- 10,000 RPM bearing upper with oil lite bushing lower
- ACCEL performance electronic pick up and module (where noted)
- High dielectric strength cap, balanced rotor for trouble free performance
- Brass cap contacts
- Iron or Steel distributor gear compatible with flat tappet cams and OEM hydraulic roller camshafts
- May be used with an ACCEL, Mallory, Crane, Holley or MSD capacitive discharge ignition system

Part #	Application	Cap/Rotor	Module

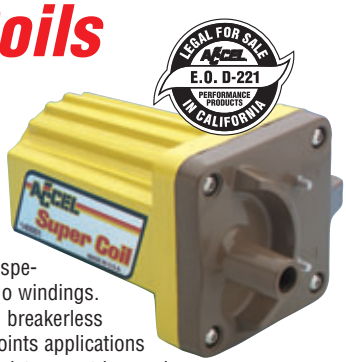
Ignition Coils

Universal Super Coil



Engineered for faster rise time, longer spark duration and increased performance. Unique design with premium grade wire, special low resistance, high turns ratio windings. Produce higher spark energy with breakerless electronic ignition systems. For points applications the supplied 0.85 Ohms ballast resistor must be used in conjunction with the vehicles original ballast resistor, if so equipped. Oversized molded case with integral cooling fins and high capacity oil filled construction provides high thermal conductivity ensuring cool operation and long life. Extra tall tan Alkyd tower and integral voltage dam eliminates "flashover" to primary terminals. Comes complete with mounting hardware and 0.85 Ohms ballast resistor. Effective to 6,500 RPM.

Description	Part #
Super Coil.	ACC140001

Universal Electronic Super Coil

High energy windings optimized for high performance. Designed to work with both breakerless electronic ignition systems and late model computer controlled ignition systems. E-core design minimizes inductance losses and maximizes energy output. The finned injection molded housing provides efficient cooling ensuring long life and great looks. SAE male tower offers greater coil wire retention and protection from arcing. Come complete with adapter harness for late model GM and Ford vehicles, a universal ACCEL 8.8mm coil lead, and mounting hardware kit.

Description	Part #
Electronic Super Coil	ACC140008

SuperStock Breakerless Electronic Coil

Excellent high performance coil for vehicles that have been converted from points to a breakerless electronic distributor or electronic ignition system, where a canister type oil filled can coil is preferred. Designed with optimized low resistance, high turns ratio windings to work specifically with ACCEL 41, 51, 61 & 71000 Series breakerless electronic replacement distributors. Engineered for higher energy output resulting in quicker starting, improved throttle response and more high RPM power. High performance tan Alkyd tower provides "flashover" protection to primary terminals. Available in "ACCEL Yellow" or Chrome Plated can.

Description	Part #
SuperStock Breakerless Electronic Coil Yellow	ACC8145
SuperStock Breakerless Electronic Coil Chrome	ACC8145C
Super Stock Higher Energy Coil Yellow	ACC8140
Super Stock Higher Energy Coil Chrome	ACC8140C
Super Stock High Vibration Coil Black	ACC8140HV

Super Coil for GM LS1 Trucks

These coils feature advanced bobbin technology, highly specialized silicone magnetic steel cores, along with optimized winding, resistance and turns ratios to delivery 10-15% more energy than the OEM coils. Specialized high temperature epoxy resists shock and vibration, while increasing thermal conductivity.These are direct plug in replacement coils for LS1 based engines in GM truck applications.They feature bodies, brackets and towers molded in ACCEL yellow and feature brass secondary contacts.

99.5-06 and 1 ton GM chassis with 6.0L Engine codes "N" and "U"
01-06 1/2 ton GM chassis with 5.3L Engine codes "T" and "Z"
99-00 1/2 and 3/4 ton GM chassis with 5.3L Engine codes "T"
99-06 1/2 and 3/4 ton GM chassis with 4.8L Engine codes "V"

* Be sure to check your stock coils on your truck or van to make sure they physically match our new Super coils. GM offered several styles of LS1 coils that are not all compatible with each other.

Description	Part #
Super Coil for GM LS1 Trucks	ACC140040

EDIS Coil Packs for Ford

These are direct plug-in replacements for OEM coils, advanced bobbin technology, highly silicone magnetic steel cores, along with optimized windings, resistance and turns ratios. Specialized high-temperature epoxy resists shock and vibration, while increasing thermal conductivity. They also feature secondary towers molded in Accel yellow, and brass secondary contacts.

Description	
Super EDIS Coil Pack/Ford 98-07 4.6/5.4/6.8L, 2V Direct fire	ACC140032
Super EDIS Coil Pack/Ford 98-07 4.6/5.4/6.8L, 4V Modular	ACC140032
Super EDIS Coil Pack/Ford 89-99 42,000 Volts, 2V	ACC140018

GM HEI In-Cap Brute Thunder Super Coil

Designed to be the highest output GM style HEI in-cap coil, Period! Compatible with both original HEI ignition systems and later model computer controlled HEI systems. Can also work with an ACCEL, Mallory, Crane, Holley or MSD capacitive discharge ignition system. No need to remove or re-time distributor. Comes complete with simplified ground strap, mounting screws, silicone coil gasket, low Ohm contact brush / spring and an ACCEL tan coil cover. Effective to over 9,000 RPMs.

Description	Part #
BruteThunder HEI in-cap Super Coil	ACC140013

GM HEI Remote Mount 2001-96 Super Coil

Engineered with optimized low resistance, high turns ration windings around on M36 high silicone magnetic steel E-core for higher energy and voltage outputs. Results in quicker in quicker starts, improved idle quality, crisper throttle response and more mount RPM power. Compatible with late model GM computer controlled remote mount HEI systems. Direct bolt-in, plug-in replacement. Can also work with an ACCEL, Mallory, Crane, Holley or MSD capacitive discharge ignition system. Special high temperature epoxy resists shock and vibration, while increasing thermal conductivity. Brass coil wire contact increases energy transfer and resists corrosion better than aluminum. Comes complete with new mounting hardware. High dielectric strength "ACCEL Yellow" over molded housing.

Description	Part #
GM HEI Remote Mount 2004-96 Super Coil	ACC140024

Factory Performance™ Parts

Chevy HEI Electronic Racing Distributors With Coil, 100% New!

Designed to meet the high performance demands of racing competition, these units fit Chevy small block and big block engines. These 100% NEW distributors have all the reliable components of the 66940, but they also include a high-power 50,000 volt coil. This high-performance distributor produces a 50,000 volt spark through 7,500 RPM with true spark alignment for instantaneous response, a high performance curve, a premium cap with brass terminals, and a low-saturation ignition module. All have die-cast aluminum housings, polished to a brilliant billet-look appearance, except as noted.

Part #	Description
SPC66941R	Red Cap
SPC66941RC	Red Cap Polished
SPC66941B	Blue Cap
SPC66941BC	Blue Cap Polished
SPC66941BK	Black Cap
SPC66941BKC	Black Cap Polished
SPC66941BKU	Black Cap, Unpolished

SPC66941TU	Tan Cap, Unpolished
SPC66941TUC	Tan Cap, Unpolished

Extruded Aluminum Roller-Rocker Arms

Rid your engine of internal friction with roller-tipped rocker arms. The race-proven full needle bearing, fulcrum and roller tip not only unleash horsepower, they also lengthen valve train component life and reduce wear and tear on valve stem tips. Precision machined to insure consistency and ratio accuracy. 16 extruded aluminum roller rockers and 16 poly locks.

Part #	Description
Fits Chevy small block engines	
SPC66907C	1.5 Ratio 3/8" Stud

Billet Electric Big-Block Chrysler Water Pump

NEW!

This all new PROFORM billet electric big block Chrysler water pump features the durable PROFORM 12-volt motor, billet mounting plate for added strength, and pumps up to 35+ gallons of water per minute. Fits B, RB and Hemi engines.

Part #	Description
SPC66219	Billet Electric BB Chrysler Water Pum

Electric Water Pumps (Small-Block)

Eliminates unnecessary weight and impeller-drag experienced at high RPM, pumps up to 35+ gallons of water per minute, and delivers the cooling that can make the difference between a win and second place! Durable but light-weight die-cast aluminum, epoxy powder coated for corrosion resistance in the color of your choice. Race or street. Draws 6 amps. Fitting (1" pipe to 1¾" hose) included.

Fitting for Water pump Included.

Part #	Description
SPC66225B	Electric Water Pump, Blue
SPC66225BK	Electric Water Pump, Black
SPC66225R	Electric Water Pump, Red
SPC66225CR	Electric Water Pump, Chrome
SPC66225P	Electric Water Pump, Polished

Electric Water Pumps (Big-Block)

NEW in 2007! All the same great features in our wildley popular Chevy small- block water pump now available for the big-block!. Eliminates unnecessary weight and impeller-drag experienced at high RPM, pumps up to 35+ gallons of water per minute, and delivers the cooling that can make the difference between a win and second place! Durable but light-weight die-cast aluminum, epoxy powder coated for corrosion resistance in the color of your choice. Race or street. Comes with mating weather-tight connector. Draws 6 amps. Fitting (1" pipe to 1¾" hose) included.

Race or Street

Part #	Description
SPC68230B	Chevy B/B, electric water pump, blue
SPC68230BK	Chevy B/B, electric water pump, black
SPC68230C	Chevy B/B, electric water pump, chrome

Ford Small-Block Electric Water Pumps

New in 2007! Based on the popular Chevy versions the new Ford small-block electric water pump features a durable 12-volt motor pumping up to 35+ gallons of water per minute. Each pump is made from durable but light-weight die-cast aluminum with epoxy powder coating for corrosion resistance. Comes with FREE billet aluminum backing plate, mating weather-tight connector and inlet fitting. Draws 6 amps. Available in 5 colors.

Fitting for Water pump Included.

Part #	Description
SPC68220	Ford S/B, electric water pump, polished
SPC68220B	Ford S/B, electric water pump, blue
SPC68220BK	Ford S/B, electric water pump, black
SPC68220C	Ford S/B, electric water pump, chrome
SPC68220R	Ford S/B, electric water pump, red

PROFORM® Trackside Carb Spacer Kits

Easily optimize your flow rates with Proform's 1" modular carb spacer kit. Each kit comes with one and 3 popular inserts: open, 4-hole, and tapered 4-hole. Various engine combinations have different air and fuel distribution requirements for maximum performance. Lightweight heat-resistant phenolic.

Part #	Description
SPC67160C3	Carb spacer frame with inserts

PROFORM® Patented No-Mess™ Funnel

How many times has this happened to you? You're filling up the reservoir (trans, oil, etc.) and suddenly it's full but you have a half-full funnel in your hands. How do you get that back into the jug without making a mess? Yet another patented idea from PROFORM is the trick new No-Mess™ funnel allow ing you to fill anything without worrying about overspills.

Part #	Description
SPC68068	PROFORM® Patented No-Mess™ Funnel

NEW PRODUCT

Perfect Launch Drag Racing Practice Tree

With this shirt-pocket sized PERFECT LAUNCH portable Christmas Tree, you can perfect your launch skills and reaction time almost anywhere...learning to hit 0.000 out of the bleach box numbers at the track. This precision portable electronic device (4.5" x 2.75" x 1") makes a perfect affordable gift for the pro-racer, would-be racer, or anyone who just likes the thrill of competition.

The World's Most Advanced Battery Chargers

Why the Battery Tender® vs. conventional chargers?
Avoid the potentially damaging effects caused by most trickle chargers! Battery Tender® BTP Microprocessor Technology and quick-connect convenience automatically maintains the batteries in all your vehicles so they are ready to go when you are! You just set it, and forget it!

BAT021-0134 **BAT021-0133**

10-Bank Charger & 5-Bank Charger

- To avoid dangerous dead-short sparking, microchip circuitry will not activate output voltage until clips are correctly connected to battery.
- 10 Bank model charges & or maintains up to 10 batteries.
- 5 bank Simultaneously charges & or maintains 5 batteries.
- Maintains batteries at full charge.
- 2 amps per output charging current.
- Six foot lead with clamps included.
- 3 year warranty.

BAT021-0128

Battery Tender Plus

- Temperature compensated to ensure optimum charge voltage according to ambient temperature.
- Automatically switches from full charge to float charging mode.
- Battery Tender at 1.25 amps will charge as fast or faster than any 3 amp charger available.
- Reverse Polarity Protection to ensure user safety.
- Complete 4-step charging program (Initialization, Bulk Charge, Absorption Mode, Float Mode).
- 10 year Warranty!

BAT022-148-DL-WH

4-Bank Charger

- 4 independent charging stations.
- 12 volts @ 1.25 amps per station.
- Extremely lightweight! Less than 3 lbs!
- Operates anywhere in the world! 100-240 VAC 50/60 Hz.
- 25 ft leads available (NOT INCLUDED)
- Microprocessor controlled constant current charging!
- Reverse Polarity Protected.
- Spark Proof.
- Perfect for all AGM (absorbed glass mat), sealed maintenance free and flooded batteries
- Complies with US and international safety stan dards (UL/CE).
- 2 year warranty!

BAT022-0150-DL-WH

Waterproof 800

- "Supersmart" Technology
- Spark Proof
- Short Circuit Protected
- Reverse Polarity Protected
- Waterproof
- Weighs only 1 Pound
- 3 Year Warranty

BAT022-0150-DL-WH

Battery Tender Junior

- Perfect for all lead-acid, flooded or sealed maintenance free batteries (AGM and gel cell).
- Complete 4-step charging program (Initialization, Bulk Charge, Absorption Mode, Float Mode).
- Automatically switches to float / maintenance voltage after fully charging the battery.
- If the battery voltage drops too far under load, full charger output power resumes.
- Solid state two color LED indicates stage of charger.
- Spark proof.
- Reverse polarity protected.
- 12' output cord.
- 5 year warranty

BAT-TWIN800-DL-WH

BT Twin Dual Charger

- "Supersmart" Technology
- Spark Proof
- Short Circuit Protected
- Reverse Polarity Protected
- Dual Output
- Weighs only 2 Pounds
- 3 Year Warranty

DELTRAN CORPORATION 44th ANNIVERSARY 1965 2009 FAMILY OWNED

We constantly improve our processes and leverage new technologies in virtually all aspects of battery charger system engineering, manufacturing, and quality system management to achieve the most cost effective configurations in our product lines. We save you money by making our products better!

Charges and Maintains Sealed, Maintenance-Free, AGM or Lead Acid Batteries

OPTIMA BATTERIES

THE ULTIMATE POWER SOURCE™

OPTIMA SPIRALCELL® TECHNOLOGY

YellowTop®

Deep Cycling & Cranking Power

Get more from your battery with an OPTIMA YellowTop. Even if your vehicle is made to take the abuse of off-roading or cranking out decibels, it's the power under the hood that gets you going and keeps you going. The ability of an OPTIMA to provide a steady amount of current over a long period of time coupled with its extreme resistance to vibration provides performance vehicles with the long-lasting power they need in a spill-proof package.

RedTop®

Automotive Starting Power

The six-pack design generates its own buzz. But OPTIMA SpiralCell Technology is the real hero. OPTIMA RedTop batteries are built to withstand the abuse trucks, SUV's and 4x4's experience on and off-road while delivering a higher level of power to the starter in the critical first 10 seconds of the vehicle starting cycle. The RedTop features the lowest internal resistance of any battery on the market, which is the key to their unparalleled high power delivery, increased cycle life and fast recharge capability.

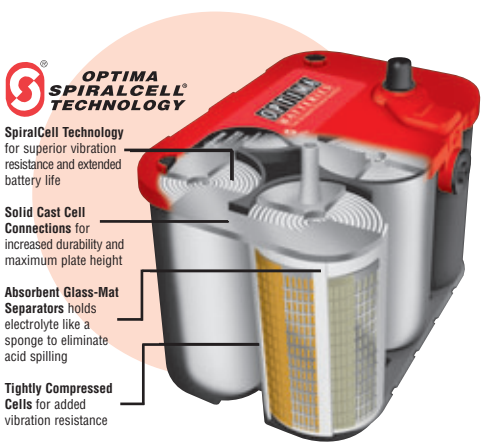
BlueTop®

Marine & RV Power

Installing an OPTIMA BlueTop in your boat or RV means more running time, faster recharge, and up to twice the life of a traditional battery, which leads to one thing – more time doing what you love. The tightly wound construction in an OPTIMA minimizes plate movement and subsequent damage caused by harsh conditions, extending battery life and taking away the need for RV hook-ups. Who knows, staying out on the water longer might actually increase your chances of catching that trophy fish.

Shake it up!

Damage from vibration is a leading cause of battery failure. OPTIMA batteries have over 15 times more vibration resistance than traditional batteries due to patented SpiralCell Technology.



Don't try this with any other battery!
Traditional batteries will spill acid after a rotation of 45º. All OPTIMA batteries can be rotated up to 180º with no acid spills. That's because OPTIMA batteries are sealed and maintenance free.

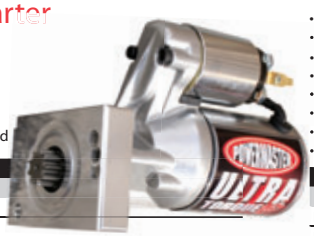
POWERMASTER Performance STARTERS & ALTERNATORS

MADE IN U. S. A.

100% new, designed and manufactured in USA

- Proof of performance tag included with every product
- Race prep applications available
- Largest selection of fans, pulleys, nose-cones, and baffles plates in the industy

ULTRA TORQUE High Speed Starter



- 100% New, Made in USA
- 200 Ft-lbs of torque
  3.4 HP, 2.5+ kW
- 3.7:1 Gear Reduction Ratio
- Fits All Oversize and K/O oil pans
- Designed for 30% faster cranking speed

Part #	Description
UltraTorque High Speed Starters	
POW9450	Chevy 153, 168 Tooth Flywheel
POW9453	Ford 289, 302, 351W A/T & 5 sp. MT (3/4 offset)
POW9463	Chrysler

ULTRA TORQUE LS Starter

- 100% New, Made in USA
- 250 Ft-lbs of torque
- 3.4 HP, 2.5+ kW
- 4.4:1 Gear Reduction Ratio
- Fits All Oversize and K/O oil pans
- Cranking Power for Over 18:1 Compression

Part #	Description
LS Series Starter	
POW9409	Clockable LS Chevy/Pontiac

XS TORQUE Starters featuring: infi-CLOCK

- 200 Ft-lb
- 4.4:1 Gear reduction
- NO HOT START problems
- Recommended for 18:1 compression
- Machined aluminum adapter block
- Clears most oil pans and headers
- Complete w/knurled mounting bolts & shims
- Weighs 8.5 lbs
- InfiCLOCK available for many applications

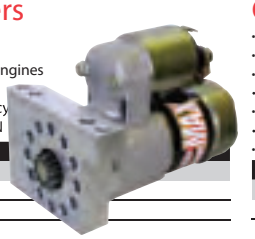
Part #	Description (*features infi–CLOCK)
XS TORQUE STARTERS	
POW9500	Chevy 168 Tooth Flywheel
POW9502	Chevy 153 Tooth Flywheel
POW9503	Ford 289, 302, 351W A/T & 5 sp. MT (3/4 offset)
POW9509	GM LS Engine Applications
POW9513	Chrysler
POW9515	AMC/Jeep exc. 4.0L

MASTERTORQUE Starters featuring: infi-CLOCK

- 180 Ft-lb
- 4.4:1 Gear reduction
- Recommended for 12:1 compression
- No heat soak problems
- Machined Aluminum Adapter Block
- Adjustable mounting block (ex. P/N 9613 Mopar)
- Clears Most oil pans and Headers
- Weighs 10.5 lbs
- InfiCLOCK available for many applications

Part #	Description (*features infi–CLOCK)
MASTERTORQUE STARTERS	
POW9600	Chevy 153, 168 Tooth Flywheel
POW9603	Ford 289, 302, 351W A/T & 5 sp. M/T (3/4 offset)
POW9613	Chrysler

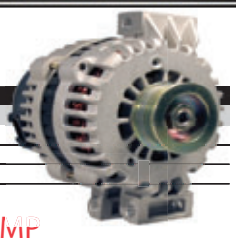
POWERMAX Starters



- 160 Ft-lb
- 4.4:1 gear reduction
- Recommended for 10:1 compression engines
- Clears MOST headers and oil pans
- Permanent magnet for high efficiency
- Weighs 7.5-8.5 lbs depending on P/N

Part #	Description
POWERMAX STARTERS	
POW9100	Chevy 168 Tooth, straight mount
POW9603	Ford SB 289, 302, 351 W/C AT/5sp MT (3/4 offset)

AD244 200/140 AMP



- 200 amp output for late model GM
- Superior output at idle, a whopping 140A!
- High temparture windings
- Heavy duty rectifier and regulator
- Proof of performance tag
- Dual internal fans for high efficiency and excellent cooling
- Late model compatibility with remote voltage sensing control
- Popular upgrade for 2000 to 2007 GM full size trucks

Part #	Description
200/140 amp AD244	
POW68237	Polished 200 AMP w/4 pin voltage regulator
POW48237	Natural 200 AMP w/4 pin voltage regulator
POW58237	Black 200 AMP w/4 pin voltage regulator
POW48302	Natural 200 AMP w/2 pin voltage regulator

CS130D 150/85 AMP & 115/85 AMP

- Hi–Amp unit produces 150 Amps max, and 85 Amps at idle
- Upgraded stator and rotor produce consistent output
- 150 AMP units available in black thermal coating
- Dual internal fans for superior cooling
- Available in chrome, natural, or polished finish
- OE and one-wire operation available
- Heavy duty gold battery post
- Proof of Performance Tag

Part #	Description
150/85 amp & 100/85 amp CS130D	
POW82081	Natural 115 AMP, one-wire
POW282081	Polished 115 AMP, one-wire
POW38208	Chrome 150 AMP
POW58208	Black 150 AMP

140/80 AMP & 100/70 AMP GM ONE WIRE

- Hi–Amp unit produces 140 Amps max, and 80 Amps at idle
- 100 Amp unit produces 70 Amps at idle
- Smooth billet look complete with Baffled fan and V–belt pulley with 6-hole pulley cover
- Available in chrome, natural, or polished finish
- One-wire or OE operation
- Heavy duty gold battery post
- Proof of Performance Tag

Part #	Description
140/80 & 100/70 AMP CUSTOM HOUSING	
POW47295	Natural 140 AMP
POW67295	Polished 140 AMP
POW17295	Chrome 100 AMP
POW27295	Polished 100 AMP

140/80 AMP ONE WIRE UPGRADE–FORD

INTERNALLY REGULATED – 140/80 AMP

- Fits in stock application
- Heavy duty charge wire including
- Internally regulated
- Smooth billet look w/Baffled fan and pulley cover
- Available in chrome, natural, polished or black thermal coat finish
- One-wire or OE operation
- Heavy duty gold battery post
- Proof of Performance Tag

*V-belt pulley & 100A also available

Part #	Description
140/80 AMP CUSTOM HOUSING	
POW8-37140	Chrome w/serp pulley 140 AMP
POW8-47140	Natural w/serp pulley 140 AMP

HIGH AMP ALTERNATOR – most popular GM upgrade

Fits in stock brackets & uses stock wiring harnesses:

'96-94 ALL	CK Pickup, GMC Sierra
'93-87 ALL	ST Pickup, GMC Sonoma
'92-88	Camaro/Firebird (exc. 3.8L)

Requires conversion wire harness Part# 160

'99-96 ALL	CK Pickup, Sierra, Tahoe, Suburban
'99-94 ALL	ST Pickup, Jimmy, Sonoma, Yukon

Part #	Description
200/125 AMP	
POW48203	Natural 200/125 AMP

CS130 ALTERNATOR – 'SMOOTH LOOK' ALTERNATOR

- All new "Smooth Look" housing, Made in USA
- All surfaces optimized for chrome plating and polishing
- Available in one-wire or OE hookup
- Available in chrome or polish finish
- 105 AMP produces 80A at idle, 140A makes 90A at idle
- Complete with V-belt & Serpentine pulley, baffle & cone
- Rear or Side battery post available

Part #	Description
200/125 AMP	
POW17802	Chrome 140 AMP

Performance Wire Sets

Super Stock

Our Super Stock Wire is designed to upgrade an OE ignition system for high spark delivery levels for street-driven applications. The 450°F-rated silicone jacket is extruded over a tightly woven, rugged fiberglass braid which is applied over a high dielectric strength EPDM (Ethylene Propylene Diene Monomer) inner insulation for ignition wire performance that exceeds SAE specifications.

3000 Series-7mm

- 7mm yellow, blue silicone jacket.
- Street-driven applications.
- Graphite RFI Suppression or Copper Core.
- Orange and color matched blue silicone spark plug boots.
- Pre HEI vehicles.
- Universal Fit.

4000 Series-8mm

- 8mm yellow, red, black & blue silicone jacket.
- Street-driven applications.
- Fiberglass braid EPDM insulation.
- Orange and color matched blue, red black silicone spark plug boots.
- Pre and post HEI vehicles.
- Custom Fit, Universal & Import.

5000 Series-8mm

- 8mm red, blue, black or yellow high temperature silicone jacket
- Street-driven applications.
- Pre and post HEI applications
- Custom-fit and universal

Our metallic braided ignition wire delivers maximum spark energy while providing a Pro Street look. Armor Shield Wire sets enhance the appearance of braided fuel lines and coolant hoses.

- 8000 Series, 8mm, 450°F-rated.
- Pro-street applications.
- 8mm blue silicone jacket with braided Armor shielding.
- Carbon/graphite core; EPDM insulation and fiberglass braid.
- Color matched blue silicone boots.
- Pre and post HEI applications.

8.8mm Wire

ACCEL's 8.8 Wire is available in three conductor versions, each providing maximum conductivity for the ultimate performance in any race or street application. Extra-thick 8.8mm double silicone insulation and heavy silicone boots eliminate electrical leakage and misfire.

- 8000, 8800-8900 Series,550˚ F-rated
- 8.8mm yellow high temperature silicone jacket, 550°F-rated.
- Spiral Core 500 Ohms/foot RFI-suppression for street/strip.
- High temperature, extra large bright red silicone insulated boots.

8.8mm Pro-25 Race Wire

Accel Pro-25 Wire features a Ferro-spiral core wound to allow maximum spark energy at only 25 ohms per foot and still suppress RFI noise. The wire features a double silicone construction rated at over 600 degrees Fahrenheit, and its red silicone wire jacket resists extreme heat, petrochemicals ozone and moisture better than any race wire on the market. The stainless steel and brass terminals provide unsurpassed electrical conductivity and corrosion resistance.

NOTE: Part # suffix indicates wire set color; B-blue, K-black, R-red, Y-yellow.
Some 6 cyl. applications require and are shown covered by an 8 cyl.wire set. ACCEL does NOT recommend metallic core wire sets for application with electronic ignition systems because of their incompatibility with EMI / RFI(radio noise) emissions.

Universal Performance Ignition Wires

THUNDERVOLT 50

"Universal" Wire Sets

- ONLY 40 ohms/foot resistance
- T-Volt 50 wires are 10.4 mm dia.
- 102,000 volts dielectric strength
- No additional sleeving required
- T-Volt 8.2 have a 2-layer outer jacket
- Three layers of pure ZIMPLEX® silicone
- 600˚ heat protection
- Smoother idle & improved fuel economy

"409" Pro Race UNIVERSAL Wire

Taylor "409" wire can be seen on winning race cars from NASCAR, NHRA, and SCORE to name a few! "409"'s are simply the best high-tech spark plug wires available, bar none. A tightly woven heat-treated fiberglass braid is applied over our 100% pure silicone 8mm ignition wire. Then, a .409 inch diameter silicone jacket is extruded on top, so that there are no wrinkles or loose, bulky sleeving to collect and hold moisture.

180˚ Flat Head	8	TAY79292	TAY79692

8mm Spiro-Pro Universal Wire Sets

The finest high performance wire engineered to work with today's sophisticated ignitions!

Taylor's Spiro-Pro consists of a high conductive spiral wound core with stainless steel wire and covered with a conductive fluoro carbon material. Spiro-Pro wires provide more fire power to the spark plugs than OEM resistor core wires and still eliminates radio frequency interference (RFI) which can interfere with electronic ignitions, computer electronics, cellular telephones and stereo systems. This wire is a must if you are using a multiple spark discharge ignition system. Two layers of 100% pure silicone make for the highest temperature rated wire on the market (600 F) without need for additional sleeving. While keeping the wires flexible for the life of your vehicle with bright vibrant colors for a clean detailed look.

StreeThunder Universal Sets

500 Ohm Spiral Wound Kevlar

Great performance at an extremely affordable price.

Taylor's StreeThunder Wires are made of a low resistance condutor wire that is wrapped in double synthetic jacketing for heat protection. These 8mm wires resist heat, oil and abrasion and feature double spring locking terminals for secure-vibrationproof connections. Available in Universal, Race-fit, and Vehicle specific applications.

Description	Cyl.		Wire Lengths Per Set 1	2	3	4	5	6	7	8	Coil

All universal sets come with both socket style and HEI distributor boots with appropriate terminal ends

8mm Pro Wire Universal Sets

Setting a new standard in the high performance wire…with two popular conductors, resistor core or wire core.

Taylor's Pro-Wires are designed to withstand over 600˚ F with a 100% pure silicone jacket. Taylor offers the best selection of colors to detail your engine. The most popular wire is offered with two types of conductors: Resistor Core for the high energy ignition systems on your street vehicle or TCW Wire Core for racing. Pro Series Wires are engineered to work in high under-hood temperatures. Connections are exclusive ProBoot® Design.double spring lock terminals available.

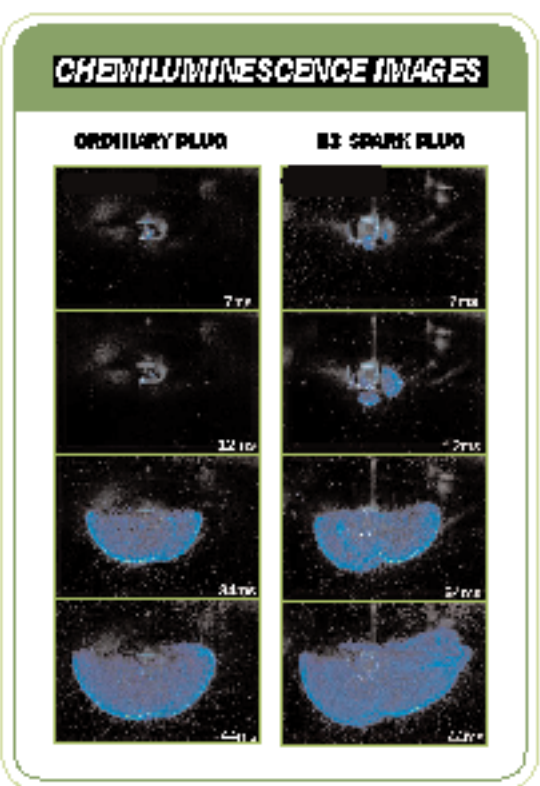
Spark Plugs

The unique patented electrode configuration of the new **E3 SPARK PLUG** increases the amount of combustion pressure created during each power stroke of an engine, which results in a marked increase in power output, fuel economy, and reduced emissions in all gasoline engines.

The E3 Spark Plug company's academic testing partners have been able to verify the following performance gains:

- *Power output improved by 6% to 12% on average in typical operating ranges*
- *Fuel efficiency improved by 3% to 13% depending on engine class*
- *Combustion pressure at each cycle measurably increased*



LONG TERM POWER

These results also revealed an extended performance life characteristic of the E3 Spark Plug. While standard spark plugs still function after many hours of use, their performance rapidly deteriorates. The unique geometry of the E3 design provides optimized spark paths well into the useful life of the spark plug, having long-term effects on engine performance. Since the total combustion process has to take place in a fixed period of time before the exhaust valve (or port, in the case of two stroke engines) automatically opens as the engine rotates, the faster pressure front initiated by the E3 Spark Plug results in a more complete burn of the ingested fuel charge. Thus, more pressure is created against the piston, more fuel is put to work, and less unburned fuel is exhausted to the atmosphere and left behind as carbon deposits in the engine.

E3 PROVIDES A FASTER, MORE COMPLETE BURN

These real-time images captured with advanced testing methods employed at Michigan Technological University show a comparison between conventional designs and E3's advanced DiamondFire design. The images prove E3 ignites the air/fuel mixture more quickly, thereby creating a faster and larger flame kernel. More fuel is burned, resulting in increased combustion efficiency for improved power and fuel economy with reduced emissions.

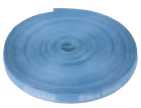
Ignition Wire Accessories

Coil Wire Kit

All the necessary parts to make a coil wire to fit virtually all popular coils and distributor caps. Kit contains three feet of Blue Max Spiral Core 8mm suppression wire, a wire stripping tool and a thirteen piece boot and terminal kit.

Part #	Description
MOR73235	Spiral Core Coil Wire Kit

Insulated Wire Sleeve & Shrink Sleeves



Closely woven fiberglass impregnated with high voltage, leak resistant silicone which adds up to 8,000 volts of extra insulation. Extends plug wire life by adding insulation against header heat. Flts both 7mm & 8mm ignition wires.

Part #	Description
MOR72000	Insulated Wire Sleeve, Blue
MOR72002	Insulated Wire Sleeve, Red
MOR72004	Insulated Wire Sleeve, Black
MOR72011	Ultra 40 Insulated Wire Sleeve, Blue

Numbered Shrink Sleeves

Pre numbered for 1 thru 8 and set includes two sleeves of each.

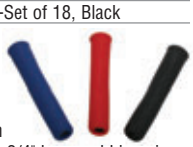
Part #	Description
MOR72020	Numbered Shrink Sleeves

Moroso Shrink Sleeves

Insures complete seal between spark plug and distributor boots and wire.

Part #	Description
MOR72030	Shrink Sleeves-Set of 18, Blue
MOR72031	Shrink Sleeves-Set of 18, Black

High Temperature Boot Sleeves



Protects up to 1200˚ F., non-flammable. Will not react with petroleum products. 1" I.D., 5-3/4" long, sold in pairs.

Part #	Description
MOR71992	High Temp. Boot, Blue
MOR71993	High Temp. Boot, Red
MOR71994	High Temp. Boot, Black

Ignition Wire Loom Sets

Wire Separators

Protect against heat damage by preventing contact with hot engine components. Prevent crossfiring by firmly holding plug wires away from one another. Kit includes two 2-hole, Two 3-hole and two 4-hole separators.

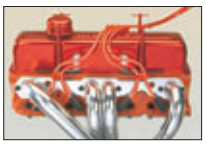
Part #	Description
MOR72160	Wire Separators 7-8mm, Blue
MOR72161	Wire Separators 7-8mm, Red
MOR72162	Wire Separators 7-8mm, Yellow
MOR72163	Wire Separators 7-8mm, Black

Universal Loom Kits

Includes four 2-hole looms, two 3-hole looms and four chrome plated brackets which secure to valve cover bolts.

Part #	Description
MOR72150	Universal Loom Kit, 7-8mm, Blue
MOR72151	Universal Loom Kit, 7-8mm, Red
MOR72152	Universal Loom Kit, 7-8mm, Yellow
MOR72153	Universal Loom Kit, 7-8mm, Black

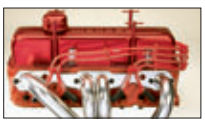
Show Car Loom Kits



Includes eight 2-hole, two 4-hole separators and four chrome plated brackets which secure to valve cover bolts.

Part #	Description
MOR72170	Show Car Loom Kit, 7-8mm, Blue
MOR72168	Show Car Loom Kit, 7-8mm, Red
MOR72169	Show Car Loom Kit, 7-8mm, Yellow
MOR72167	Show Car Loom Kit, 7-8mm, Black

Super Loom Kits



Includes two right and left side chrome plated brackets for mounting on the valve covers. Two 4-hole, six 2-hole wire looms and two 4-hole and two 2-hole separators also included.

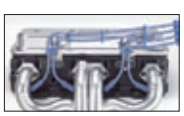
Part #	Description
MOR72171	Super Loom Kit, 7-8mm, Blue
MOR72172	Super Loom Kit, 7-8mm, Red
MOR72173	Super Loom Kit, 7-8mm, Yellow
MOR72174	Super Loom Kit, 7-8mm, Black

Big Block Chevy Loom Kits

Includes four right and four left side chrome plated brackets, two 1-hole, two 2-hole, two 3-hole and two 4-hole looms as well as two 4-hole and two 2-hole separators.

Part #	Description
MOR72175	Big Block Chevy Loom Kit, 7-8mm, Blue
MOR72176	Big Block Chevy Kit, 7-8mm, Red
MOR72177	Big Block Chevy Kit, 7-8mm, Yellow
MOR72178	Big Block Chevy Kit, 7-8mm, Black

Center Bolt Small Block Chevy Loom Kits



Includes two right and two left side chrome plated brackets for mounting to engine. Two 4-hole, six 2-hole and two 4-hole and two 2-hole wire separators.

Part #	Description
MOR72140	Super Loom Kit, 7-8mm, Blue
MOR72141	Super Loom Kit, 7-8mm, Red
MOR72142	Super Loom Kit, 7-8mm, Yellow
MOR72143	Super Loom Kit, 7-8mm, Black

High Temp Under Header Loom Kits

Part #	Description
MOR72195	Small Block Chevy, 7-8mm, Black

Self-Vulcanizing Tape

High dielectric strength, high temperature silicone tape wraps around ignition wire, boots and connectors to provide added insulation to keep spark energy contained in wire. Seals out moisture.

Part #	Description
MOR72038	Self-Vulcanizing Tape, Black

LS Series Products

Remote Coil Mounting Bracket

Fits: LS Series

- Relocates ignition coils from valve cover
- Non-magnetic, stainless steel studs used to help prevent potential crossfire from the coils.
- Fits O.E.M. and larger aftermarket coils
- Use with Moroso Ultra 40 Wire Set # MOR73811

Part #	Description
MOR72395	Remote Coil Mount Bracket

MOR72396

Removable Coil Mounting Bracket

Fits: LS Series

- Hinged to provide quick access to valve covers
- Coil pack removes with a single fastener
- Coils nested toward back of motor to free up front of valve cover for breathers, pumps, etc.
- Use with Moroso Ultra 40 Wire Set # MOR73436
- Use with Moroso Alum. Valve Covers # MOR68355

Part #	Description
MOR72396	Removable Coil Mount Bracket

LS-1 Coil Wire Extension Harness Kit

- This extension harness allows coils to be remote mounted easily and efficiently
- Kit includes: (8) 3ft. long extension harness w/ male plugs, female plug and hardware
- Cords complete with protective shield
- Plugs into factory coils and harnesses
- Weather tight seal to prevent corrosion

Part #	Description
MOR72391	LS-1 Coil Wire Extension Harness

Battery Accessories

Sealed Battery Box

Battery box is completely sealed with external vent. Holds a size 24 or similar size battery with either top or size post terminals. Fully approved for racing by NHRA and IHRA. Outside dimensions: 10-1/2" deep, 13" wide and 9-1/2" tall.

Part #	Description
MOR74050	Sealed Battery Box, Blue
MOR74050	Sealed Battery Box, Black

Battery Disconnect Switch

Required by most sanctioning bodies in racing but can be useful on street vehicles as well.

Part #	Description
MOR74100	Battery Switch, 20 amps @ 6-36 volts
MOR74101	Battery Switch, 175 amps @ 6-36 volts

Starter Heat Shield

Ideal for extending starter life in both racing and street applications. Manufactured from high temperature material sandwiched between two sheets of aluminum.

Part #	Description
MOR74299	Mini, Tilton Type Starters
MOR74300	Chevy Delco Style Starters

Durafire Distributors

Complete bolt-in replacements for HEI Chevrolet V-8 engines. Comes w/ everything needed to customize the ignition timing curve for your particular application. Features several high-output components including Moroso's ProCoil that provides more complete combustion for easier starts, smoother idle, improved acceleration and more horsepower.

Part #	Description
MOR72230	DuraFire Dist., GM HEI, V-8 w/Vac. Advance
MOR72231	DuraFire Distributor, GM HEI, V-8 w/out Adv.

Replacement Parts

Fits Moroso DuraFire and any 4-pin GM HEI-style distributor.

Part #	Description
MOR97857	Ignition Module
MOR97858	Distributor Coil Cover
MOR97859	Dist. Cap, Rotor & Brush Kit
MOR72315	Adjustable Vacuum Advance
MOR72300	HEI Advance Curve Kit, GM HEI-style
MOR72310	Advance Curve Kit, GM/Delco non-HEI-Style

MOROSO®

American ingenuity and integrity, since 1968.

RACE PROVEN PERFORMANCE MADE IN U.S.A.

Our AMERICAN-MADE IGNITION WIRE is produced in our own facility, and guaranteed to be the best! Moroso sets the industry standard and is the right choice for powerful, race-ready ignition wires.

Blue Max™ Spiral Core Ignition Wire

Race proven performance for Street or the Track!

Independent testing confirms Blue Max™ Spiral Core ignition wire delivers more spark energy, more EMI suppression, and more dielectric strength than 14 leading brands – including "low resistance" ignition wires!

Besides the applications listed below, a full line of **Blue Max Vehicle Specific Sets** are listed online and in the 2010 Moroso Performance Products Guide.

BLUE MAX™ UNIVERSAL FIT WIRE SETS

8 mm, 800 ohm Spiral Core wire, wire striping tool included

8 CYLINDER ENGINES

Part #	Plug Boots	Dist Terminals/Boots	Color
MOR73210	90˚	LTI	Blue
MOR73214	135 Deg.	HEI & Non-HEI	Red
MOR73215	135 Deg.	HEI & Non-HEI	Yellow
MOR73216	Straight	HEI & Non-HEI	Yellow
MOR73217	90 Deg.	HEI & Non-HEI	Yellow
MOR73218	Straight	HEI & Non-HEI	Red
MOR73219	90 Deg.	HEI & Non-HEI	Red
MOR73220	135 Deg.	HEI & Non-HEI	Blue
MOR73225	90 Deg.	HEI & Non-HEI	Blue
MOR73226	Straight	HEI & Non-HEI	Blue
MOR73227	Hemi Style	HEI & Non-HEI	Blue
MOR73231	90 Deg.	HEI & Non-HEI	Black
MOR73232	Straight	HEI & Non-HEI	Black
MOR73233	135 Deg.	HEI & Non-HEI	Black

BLUE MAX™ RACE WIRE SETS - SLEEVED

Take them out of the box, plug them in and go! These sets come pre-terminated, with a blue full length silicone impregnated fiberglass sleeve, high temp. boots and terminals, shrink tubing to seal the boots, and numbered cylinder tags.

8 mm, 800 ohm Spiral Core wire, Blue wire

8 CYLINDER ENGINES

Part #	Engine	Plug Boots	Dist Terms/Boots
MOR72400	SBC	90˚	Non-HEI

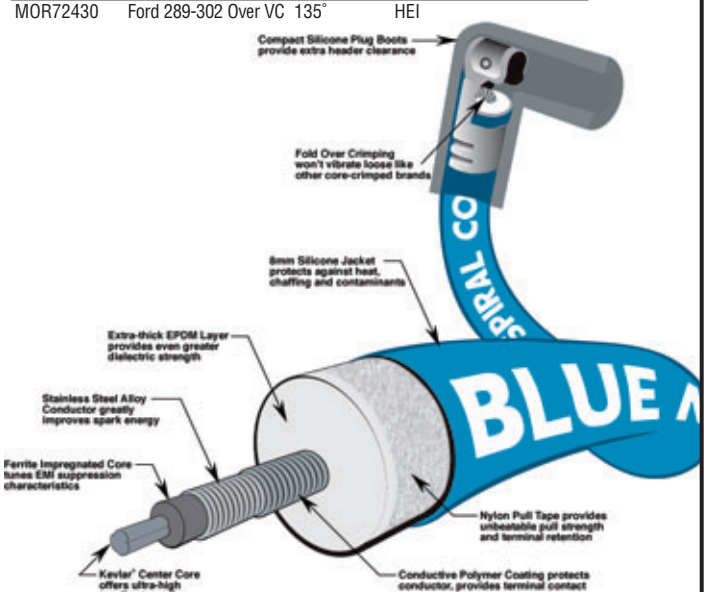
MOR72426	Ford 351W	135˚	HEI
MOR72430	Ford 289-302 Over VC	135˚	HEI



Ultra 40 Race Ignition Wire

The most powerful and RFI/EMI resistant Ignition Wire available for racing today!

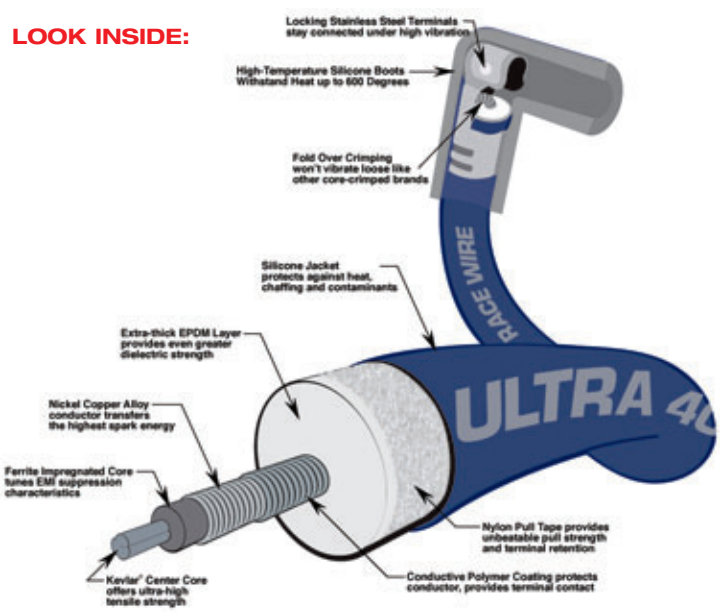
Moroso Ultra 40 Race Ignition wire is used in the highest levels of racing applications from dual-mag Top Fuel Cars thru NASCAR Sprint Cup Series cars.

At 40 ohms of resistance per foot, this 8.65 mm thick wire incorporates a nickel/copper alloy conductor that produces the highest level of spark energy while producing the lowest level of electromagnetic and radio frequency interference. This wire features a Kevlar® core that is four times stronger than the fiber core of other wires. It allows increased tensile strength of the wire while reducing its center diameter. The surrounding insulation can then be increased, resulting in greater dielectric strength.

This combination has produced the ultimate ignition wire for any race combination you have!

Part #	Engine	Plug Boots	Dist Terms/Boots
MOR73800	Universal	90˚	
MOR73801	Universal	Straight	
MOR73802	Universal	135˚	
MOR73535	Chevy LS Ser. 1997-00		Sleeved
MOR73600	SBC Over VC	90˚	Non-HEI
MOR73602	SBC Over VC	90˚	HEI, sleeved
MOR73605	SBC Under Header	90˚	Non-HEI, sleeved
MOR73607	SBC Under Header	90˚	HEI, sleeved
MOR73615	BBC Over VC	Straight	HEI, sleeved
MOR73616	BBC Under Header	90˚	HEI, sleeved
MOR73617	BBC Under Header,	90˚	Non-HEI, sleeved
MOR73626	Ford 351W	135˚	HEI, sleeved
MOR73630	Ford 302	135˚	HEI, sleeved
MOR73631	Ford 302	135˚	Non-HEI, sleeved

LOOK INSIDE:



Coil Wire Kit

Ultra 40, Universal 72"

- Allows installation of ignition coils in remote locations
- Kit includes:
  72" wire, 2-HEI 90 Deg. distr. boots, 2-HEI 90 Deg. spark plug boots, 4-HEI terminals, 2-Non HEI 90 Deg. boots, 4-Non HEI terminals and 2-coil boots

Trinity™

"One Part Number for all applications... T-1000 does it all!"

The all new DiabloSport Trinity brings you tomorrow's technology into a sleek, hand-held, high performance mobile computer available today. Trinity contains all the great features you have come to expect from DiabloSport; flash programming, advanced diagnostic tools and "state-of-the-art" technology. The Trinity is one of the most advanced diagnostic tuning devices on the market today. With over 100MB of on board memory devoted solely to recording and playing back diagnostic PID/DMR data, it allows users to record hours and hours of continuous data streams directly from the vehicle's PCM/ECM. The Trinity interprets PID and DMR data received from the OBD-II Diagnostic port on your vehicle and converts it into a readable format: A Virtual Gauge! Individual user customization is one of Trinity's most recgonizable features.

PREDATOR™

The DiabloSport Predator is our current "state-of-the-art" hand held Flash Programmer. Unlike other Flash Tuners, The Predators programming is performed in very small increments throughout the entire RPM range for a smoother wider and more predictable power delivery. From original factory calibrations the Predator allows you to quickly choose from multiple dyno proven performance tunes including economy, towing and performance calibrations.

POWER PUCK

The DiabloSport PowerPuck was created with one thing in mind, POWER! The additional power that is generated by the PowerPuck makes itself notiveable immediately with an increase inpower that starts the low RPMs and builds into a frenzy at high RPMs.

- Latest digital technology to transfer the performance of the Cummings engine to another level
- Remaps thefuel delivery of the diesel injection pump
- Advances the engine timing curve
- Get Stacked Power Puck with Predator and get up to 200 HP right out of the box!

PREDATOR™

State-Of-The-Art Programmer

- Advanced vehicle diagnostics, real time data monitoring and precise logging capabilities.
- Easy to navigate end user adjustable tuning parameters to suit your specific needs.
- Advanced vehicle diagnostics will read and erase fault codes providing the user with concise viewable text explanations.
- Real time data monitoring and logging allows you to make intelligent tuning and trouble shooting decisions.
- Changes viewed through your PC with DiabloSport's Interactive free software download.
- Diesel trucks enjoy added power and greater fuel mileage. 65-HP "economy" tune has returned up to 30% higher fuel mileage!

The DiabloSport Predator is our current "state-of-the-art" hand held Flash Programmer. Unlike other Flash Tuners, The Predatorsprogramming is performed in very small increments throughout the entire RPM range for a smoother wider and more predictable power delivery. From original factory calibrations the Predator allows you to quickly choose from multiple dyno proven performance tunes including economy, towing and performance calibrations.

Max Energy
POWER PROGRAMMER

Maximum Power & Performance, Improved MPG & Better Driveability in Less Than 15 Minutes

Only the best will do for your vehicle and Hypertech's Max Energy™ Power Programmer is the "no compromise" performance tuner. Whether your ride is gas or diesel, lowered or lifted, Hypertech delivers maximum power and performance and fuel efficiency for regular and premium octane, as well as diesel fuel and many other adjustable features to customize your vehicle the way you want at the push of a button in less than 15 minutes. Plus...The Max Energy reads, displays, and clears diagnostic trouble codes (DTCs).

The Most Powerful 50-State Legal Tuning Available

Diesel Vehicles

Diesel vehicles get 3 optimized fuel tuning programs to choose. Stock diesels gain up to **+176 hp/+289 ft.-lbs. of torque**.

Gas/E85 Vehicles

Gas and E85 vehicles get optimized Power Tuning for regular and premium octane with gains up to **+48 hp/+61 ft.-lbs. of torque**.

Hypertech Exclusive

Only Hypertech's tuning can be used at the maximum power setting when towing up to the maximum weight rating specified by the vehicle manufacturer. We develop all of our Power Tuning under real-world conditions of maximum load and steep grades, while maintaining safe exhaust gas temperatures (EGTs).

Easy Plug-Push-Go Installation

Plug the small connector on the communications cable into the Max Energy and then plug the other end into the vehicle's diagnostic connector, located on the driver's side under the dash.

Follow the on-screen prompts and answer just a few simple "yes/no" questions to select the tuning options for your vehicle.

When programming is complete, the Max Energy screen will instruct you to disconnect the cable. Now your ready enjoy more power and performance, plus better fuel economy!

Application-Specific Performance Features

Note: All features described below are not available in all applications. The year, make, and model of the vehicle will determine the feature set for that application.

0-60 MPH Electronic Throttle Restriction

Remove the wide-open throttle restriction for max throttle response

Active Fuel Management System

Adjust or turn off V4 to V8 mode, as well as install optimized tuning for both

Top-Speed Limiter

Raise the top-speed limiter to match the speed rating of high-performance tires

Engine RPM "Rev" Limiter

Raise the engine's RPM "rev" limiter for increased performance

Transmission Adjustments

Adjust individual automatic transmission shift points and increase shift firmness

Speedometer Calibrator

Recalibrate speedometer for non-stock tire sizes and/or rear gear ratios

Cooling Fan "On/Off" Temps

Adjust the cooling fan "on/off" temperatures to match thermostat rating

More Efficient, Less Throttle=Better Fuel Economy Hypertech Users are Reporting 2 to 6 MPG Gains

We put our tuning methods to the test at a CARB-recognized lab – Automotive Testing Laboratories in Mesa, Arizona. The results from their EPA drive cycle test used for calculating O.E.M fuel economy proved a 13.67% MPG increase on a gas vehicle! A similar test for diesels proved a 9.73% increase in fuel efficiency.

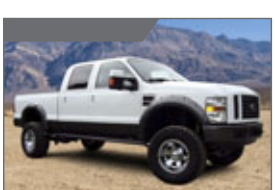
How Much Will You Save Per Gallon? Savings calculated at $4.00 per gallon.

Stock mpg	+1 mpg	+2 mpg	+3 mpg	+4 mpg	+5 mpg	+6 mpg
12	31¢	57¢	80¢	$1.00	$1.18	$1.33
14	27¢	50¢	71¢	89¢	$1.05	$1.20
16	24¢	44¢	63¢	80¢	95¢	$1.09
18	21¢	40¢	57¢	73¢	87¢	$1.00
20	19¢	36¢	52¢	67¢	80¢	92¢
22	17¢	33¢	48¢	62¢	74¢	86¢

NOTE: Actual savings may vary slightly from those shown.

"The power increase is nothing short of 'unbelievable'! Mileage has improved from 13 to 18 mpg, towing my 21' bass boat or not! I would recommend Hypertech to anyone."

Terry McWhirter
2007 Chevy 6.6 Duramax



"I gained an honest 3 mpg in my F250 with Hypertech's Tuning. The increased power to pass on the highway is a great improvement that I enjoy having. Spool it up and hold on!"

Rob Bonnet
2008 Ford F250 6.4 Power Stroke

A similar test for diesels proved a 9.73% increase in fuel efficiency.

The Most Powerful 50-State Legal Tuning Available

Diesel Vehicles

Diesel vehicles get 2 optimized fuel tuning programs to choose. Stock diesels gain up to **+113 hp/+185 ft.-lbs. of torque**.

Gas/E85 Vehicles

Gas and E85 vehicles get optimized Power Tuning for regular octane with gains up to **+39 hp/+42 ft.-lbs. of torque**.

Hypertech Exclusive

Only Hypertech's tuning can be used at the maximum power setting when towing up to the maximum weight rating specified by the vehicle manufacturer. We develop all of our Power Tuning under real-world conditions of maximum load and steep grades, while maintaining safe exhaust gas temperatures (EGTs).

Max Energy SPORT

POWER PROGRAMMER

NO TOOLS REQUIRED PLUG-PUSH-GO INSTALLATION

50 state streetlegal
CARB E.O. D-260-13

Dyno-Developed Power & Performance For:

HONDA • INFINITI • MAZDA • NISSAN • SUBARU

Hypertech's Max Energy Sport Power Programmer is the easiest way to get an expert dyno-tune for your import. The Max Energy Sport with push-button technology gives you the ability to reprogram and personalize your vehicle's onboard computers to deliver maximum power, quicker acceleration, and better driveability in less than 15 minutes.

Features

- Engine tuning for regular and premium octane
- Read, display, and clear diagnostic trouble codes (DTCs)
- Return to stock or change options at any time
- Internet updateable (USB cable and software provided)

Application-Specific Performance Features

- Engine tuning for popular air intakes
- Remove 0-60 MPH electronic throttle restriction
- Adjust top-speed, rev limiter and cooling fan temps
- Adjust VTEC controller/cam phasing

Performance Gains

2007-2009 MazdaSpeed 3 2.3 Turbo **+68 hp/+38tq**
2009-2011 Impreza WRX 2.5 Turbo **+26 hp/+28tq**

Speedometer Calibrator

FULL REFUND SATISFACTION GUARANTEED WITHIN 30 DAYS RETURNING ITEMS

- Corrects speedometer/odometer readings for tire sizes up to 54" (depending on application)
- Read, display, and clear diagnostic trouble codes (DTCs)
- Easy plug-push-go installation
- USB cable and software provided for updates and upgrades

In-Line Speedometer Calibrator Module

- Recalibrates for non-stock tire sizes and/or rear gear ratios
- Installs easily to factory wiring harness - No Splicing
- Kit includes USB cable and software CD

Available for Popular Nissan, Toyota, Ford, and GM Trucks/SUVs

Auto Meter GAUGE WORKS

Give your gauges a factory installed look with a Gauge Pod or Pillar Mount set from Auto Meter. These customized accessories attach easily to many different locatons inside your vehicle and are available in 1, 2, or 3 gauge models. Made in the USA, these products are constructed of tough plastic that resist warping or cracking. Easily paintable (Auto Meter recommends VHT Plastic Paint for all your interior panel painting needs).

The new Ultra-Lite II, Phantom II and Sport Comp II tachometers feature reverse white LED through the dial lighting. By day the gauges look excellent and are easily readable but by night the gauges illuminate using Auto meter's new "through the dial" white LEDs and are the brightest dials in the industry.

Part #	Description

AUTO METER POWER · PRECISION · PASSION

D-Pic Performance Monitoring Gauge

For about what it would cost to do a couple of professional dyno tests or make a few runs down the drag strip; you can own your own performance monitoring station. The Autometer D-Pic all-in-one performance monitoring gauge gives you the power of a dyno and the thrill of the strip in a single 2-1/16" gauge.

- Test horsepower, 1/4 miles times, reaction times, 0-60 acceleration time, 60-0 brake time, G Forces and more.
- Monitor power gains before and after performance and tuning mods.
- All-in-one 2-1/16" gauge fits all standard gauge pods for easy, permanent install.
- Works on gas and diesel powered vehicles.
- Available in the Cobalt or Ultra-Lite Series Gauges

DPIC

AUT5781	Phantom Style 2-1/16" D-Pic Gauge

Wide Band Air/Fuel Monitor

- The ultimate tuning aide - ideal for EFI and carb tuning
- Accurately monitors air/fuel ratio to prevent lean out and detonation damage to the engine
- User selectable air/Fuel or lamda real time display
- 10:1 to 20:1 AFR range for gasoline applications
- Adjustable for alternative fuel types
- Easy to use push button programmable alarm set point warns of dangerous lean conditions as they occur
- Peak recall allows you to view leanest reading that occured during your last run
- Auto Dim mode automatically adjusts display brightnessbased upon light levels in the cockpit
- Compare recorded air/fuel curves to other engine data channels using the NEXUS Data Aquisition software

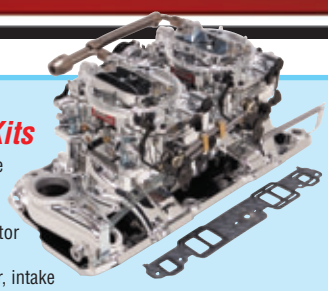
Single Quad and RPM Air-Gap Dual Quad Manifold and Carb Kits



With a new Manifold and Carb Kit it's easy to upgrade your induction system with the best combination of Edelbrock proven performance in a single box. The **Single-Quad kits** include a manifold and carburetor with EnduraShine, a chrome fuel inlet, high-quality Edelbrock intake gasket set, Gasgacinch gasket sealer, intake bolt set and carburetor stud kit. Our **Performer RPM Air-Gap Dual Quad kits** feature the Performer RPM Air-Gap manifold, Dual Thunder Series AVS 500 cfm carburetors, our high-tech progressive throttle linkage, Russel fuel lines and Edelbrock intake gaskets. Quickly turn your engine into a beast. Also, check the nitrous section for Edelbrock's Dual Quad nitrous kits.

RPM Air-Gap LT1

Utilizing the proven short-runner tunnel-ram design for 1992-97 LT1 and 1996 LT4 engines, these manifolds incorporate a .250" longer-than-stock runner and our patented Air-Gap™ design that delivers a cooler, denser air stream for maximum power from 1500 to 6500 rpm. The throttle bore inlets are cast larger than stock to accommodate our 52mm throttle body #EDL3809 or our 58mm throttle body #EDL3810. #EDL7109 has .250" taller ports.

92-97 LT1 #EDL7107 (Red) **96 LT4 #EDL7109 (Red)**

Victor Jr. LS1

With an operating range of 3500-7500 rpm, this high-rise single plane intake is capable of supporting up to 600 hp. Like our Performer RPM LS-1 intake, the Victor Jr. LSI manifold accepts a square bore carburetor and comes with an electronic timing module that picks up MAP, crank position, and cam position in order to drive the stock Coil-on-Plug ignition system. Includes a throttle bracket designed to work with 700R-4, 200R-4 and Turbo 350 Trans.

#EDL2908 - Manifold & TC Mod.
#EDL29085 - EFI Version
#EDL29086 EFI w/ Fuel Rail Kit

Performer RPM LS1

Designed for the LS1 (5.7L) small-block V8 used in 1997 and later Corvettes and 1998-02 Camaros and Firebirds. It also fits the LS6, the LM7 (5.3L), LR4 (4.8L), and LQ4 (6.0L). It allows the use of a carburetor and includes a Timing Control Module from MSD. **#EDL7118**

RPM Air-Gap Dual Quad LS1

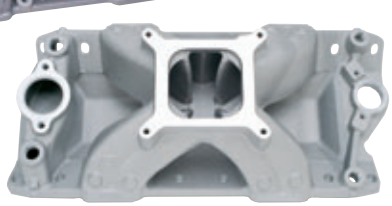
Designed for LS1, LS6, LM7 (5.3L), LR4 (4.8L), and LQ4 (6.0L) engines, the new RPM Air-Gap LS1 Dual-Quad delivers outstanding performance from 1500 to 6500 rpm. Includes Timing Control Module from MSD.

#EDL7518-Satin #EDL75184-EnduraShine

Performer Manifolds

Performer RPM Manifolds

RPM AIR GAP ***Performer RPM Air-Gap Manifolds***



Victor Series Manifolds

Edelbrock Manifolds *The First Step to Maximum Performance...*

Performer Manifolds *(IDLE TO 5500 RPM)*

Performer manifolds are dual-plane, low-rise intake manifolds with a 180° firing order and patented runner design that you won't find in other brands. This patented design **greatly improves torque over a wide rpm range, especially off-idle through the mid-range.** Throttle response is excellent. Performers are ideal for passenger cars, trucks, 4x4s, tow vehicles and RVs. There are EGR and non-EGR versions available for most domestic V8 and V6 engines. **Most Performer Intakes are 50-state street legal, when used with the correct carburetor and in the correct application.**

Performer RPM Manifolds *(1500 to 6500 RPM)*

Performer RPMs are dual-plane, high-rise intakes with 180° firing order. They produce **incredible top-end horsepower while retaining good throttle response.** Performer RPMs have larger plenums and runners to match the free-flowing exhaust, high-lift cams and other modifications of a high output engine. They are intended for high-performance street or competition engines that run up to 6500 rpm. They are not for emissions equipped engines. A Performer RPM intake gives you the ultimate in street high-performance.

RPM Air-Gap Manifolds

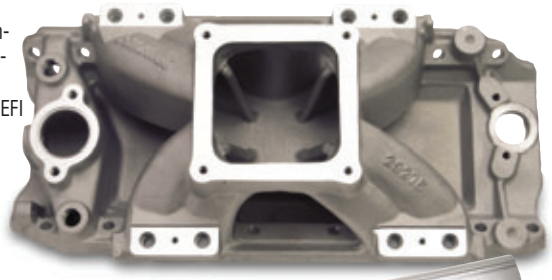
The Air-Gap design results in a cooler denser charge for more power. The open air space separates the runners from the hot engine oil. As a result, the air/fuel mixture stays cooler all the way to the head. This cooler charge creates more power. Includes rear water outlets, two distributor clamp locations, and nitrous bosses. Accepts all late model alternator and A/C brackets for the street. The heater outlet boss is angled for proper fit over the valve cover. The temp sensor boss clears all waternecks. For square bore carburetors only. No provision for exhaust heated chokes and no exhaust crossover.

Victor Series Manifolds *(3500 TO 8500+ RPM)*

Single-plane, high-rise intakes designed for maximum race-winning power at higher engine speeds. Edelbrock engineeres work in conjunction with leading engine builders from all forms of competition to design manifolds compatible with the latest technology. Victor manifolds are available for single- or multiple-carburetor set-ups.

Pro-Tuner EFI Systems *Powered by Mototron*

Edelbrock and MotoTron are working together to bring you the most advanced high-performance and competition Electronic Fuel Injection system available today. Pro-Tuner EFI Systems offer everything you need to build your competition EFI system.



The MotoTron ECU is extremely durable and able to be mounted directly on the engine. It's completely sealed making it waterproof and ideal for not only competition vehicles but for marine use as well. It is pre-calibrated for the sensors, injectors and distributor before shipping to get you started without headaches. Edelbrock's Pro-Tuner EFI software offers easy-to-use, yet sophisticated tuning control with user-friendly pull down menus and screens. The Pro-Tuner USB key allows access to even more features for enhanced tuning parameters.

- ***Extremely durable ECU is heat and vibration resistant, completely sealed and waterproof; can be mounted on the engine***
- ***Windows-based software is easy-to-use with your laptop***
- ***Sophisticated tuning control with the ease of menus and screens for enhanced tuning parameters***
- ***Use the application chart on the next page to select matching components for a complete system***

Pro-Tuner EFI Applications

Follow these four steps to build your EFI kit:

1) Choose either Victor (semi-sequential) or Super Victor (sequential) based on application, desired functionality and hp
2) Choose engine family and manifold for application
3) Choose throttle body Note: These throttle bodies MUST be used with the Electronics Kits listed for proper IAC operation
4) Choose fuel pump and regulator based on horsepower level

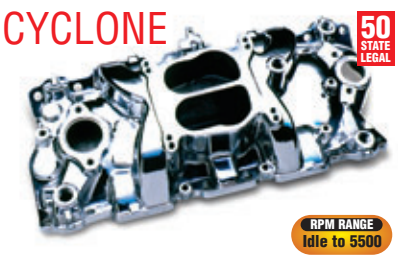
SELECTING THE RIGHT INTAKE MANIFOLD FOR YOU...

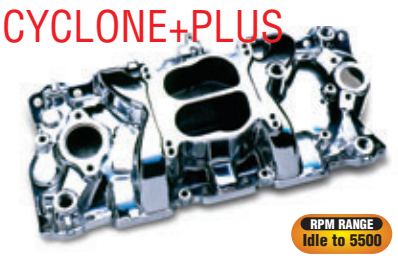
At Professional Products, we make a number of manifolds for small block and big block Chevys, Fords, Mopar engines, Pontiacs and even Oldsmobiles, and for some people it may be confusing trying to figure out which one is the best for a specific application. The following information should be helpful in allowing you to make an informed decision. All of these manifolds will fit up through model years 1995 due to our unique included adapters.

CYCLONE



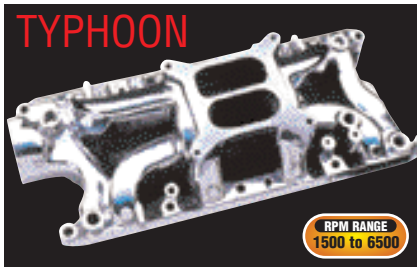
CYCLONE - The Cyclone is our lowest profile SB Chevy manifold and it is also the only one that is street legal on pollution controlled motor vehicles. It is set up to accept a spread bore carb but comes with an adapter plate that permits the use of square bore carbs. To remain street legal with a square bore carb, you must use one that is also approved as street legal for your application. These are great all-around street manifolds for mild performance applications at affordable prices.

CYCLONE+PLUS



CYCLONE+PLUS - The terrific Cyclone+PLUS is a step up from the regular Cyclone. Due to it's slightly taller height, it can provide more power and torque. It is about 3/8" taller than the Cyclone. It also has a rear water crossover (the only SB Chevy manifold made by anyone with this feature), nitrous bosses and a square bore carburetor flange. It comes in versions with or without intake gaskets, a tube of gasket sealer, 12-point stainless bolts, and all necessary pipe plugs.

TYPHOON



TYPHOON - The Typhoon manifolds, along with the similar CrossWinds, are the most powerful dual plane manifolds available for a small block Chevy. For non-pollution controlled street machines, these are among the very best manifolds you can use. They feature a square bore carburetor flange, nitrous bosses, four corner water ports, and dual distributor holddowns. These manifolds are approximately 5/8" taller than the Cyclone series.

CROSSWIND

CROSSWIND - The CrossWind design features the identical plenum and runner design as the Typhoon. The main difference is that there is an open area under the plenum chamber. This feature is sometimes called an air gap design. The air flowing under the plenum provides a cooler charge for the incoming air with less heat transfer from the engine. This cooler air charge provides additional power.

HURRICANE

HURRICANE - We now offer three models of this outstanding racing manifold. The Hurricane is one of our most popular race manifolds. If you are looking for the utmost performance for the least cost, this is your manifold. For all-out racing with small to medium-cubic-inch engines, the Hurricane+Plus is the manifold for you. For large-inch engines (420+) on gas or alcohol, the Super Hurricane is the manifold to select.

TYPHOON LS1/LS2

TYPHOON LS1/LS2
While it was difficult to improve on the original GM design, we were able to show increases all the way up the RPM range with our new TYPHOON LS1/LS2. The LS1 version has an 85mm inlet while the LS2 version sports a 96mm inlet. Each version comes with fuel rails, plumbing and fittings for a complete installation.

Victor Jr. Manifold for Ford 4.6L SOHC

Capable of supporting up to 600 hp, this intake for 99-04 Ford 4.6L SOHC Modular engines allows the use of a carburetor on this engine. Available with a programmable electronic Timing Control Module that controls the spark and rev limit. A timing retard function makes it nitrous capable. The EFI includes injector bosses for aftermarket fuel injection.

Vic Edelbrock's '32 Highboy is topped with an Edelbrock Pro-Flow Fuel Injection System

Performer & Performer RPM Pro-Flo Multi-Point EFI Systems

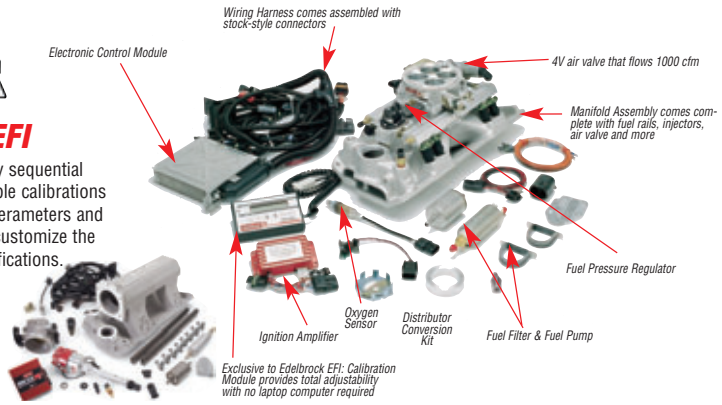
For AMC/Jeep, Chevrolet, Chrysler and Ford Engines Originally Equipped with a Carburetor

Designed for non-emission engines, these high-performance multi-point electronic fuel injection systems include everything you need to convert a carbureted engine to powerful multi-point fuel injection. Using a speed/density system for control over fuel and spark, Edelbrock electronic fuel injection systems give you total engine control... without a laptop computer. **The result is excellent throttle response throughout the rpm range, great fuel economy with incredible horsepower, smooth engine operation and improved cold starting.** Manifold assemblies, air valves and electronics are built by **Magneti Marelli Powertrain USA, a major QS9000-certified OEM supplier.** Components are matched and tested as a set, then serial numbers are added for quality control. Small- and big-block Chevy systems come in two configurations; there are two small-block Ford systems and three Chrylser systems as well as two systems now available for AMC/Jeep.

Made in the USA

Pro Flo XT EFI

Features include: fully sequential injection, downloadable calibrations for different engine perameters and a host of options to customize the system to your specifications.



Edelbrock Multi Point EFI Systems Deliver...

- Excellent Throttle Response Throughout the RPM Range
- Great Fuel Economy with Incredible Horsepower
- Smooth Engine Operation and Improved Cold Starting
- A Complete System to Convert to Multi-Point Electronic Fuel Injection
- Includes Everything You Need in One Kit
- Dyno-Tested and Street Proven
- The Most Complete Systems Available for Adding Powerful and Efficient Fuel Injection
- Total Control of Engine Parameters without a Laptop Computer

LS Series Throttle Bodies

This 50-state legal component is designed to fit the factory intake manifold with no modifications, our new 80mm throttle bodies are just the thing to boost the performance of an already great engine. The increased air flow results in more horsepower and increased throttle response that also works well with other modifications

Applications	Part #
LS1 80mm Throttle Body for 1998-99 Camaros/Firebirds	EDL3867
LS1 80mm Throttle Body for 2000-02 Camaros/Firebirds & 04 Pontiac GTO	EDL3868
LS1/LS2/LS7 90mm Throttle Body	EDL3868

4 Barrel Throttle Bodies

Bolt directly to standard square bore or 4500 Series carb mount flanges on the Victor Series.

Applications	Satin #	Black #
Universal 4-bbl with Delphi/GM IAC mounting		
Std. Square-Bore Carb Mount Flange - Fully machined (1.75" throttle bores, 1000 cfm)	EDL3878	EDL3978
4500 Series Carb Mount Flange - Fully machined (2" throttle bores, 1600 cfm)	EDL3879	EDL3979

NEW! Street Warrior

Don't settle for weak performance. The all new SB Chevy Street Warrior delivers brutal low–end torque and killer horsepower throughout useable RPM range. With the popularity of larger stroker engines and more efficient cylinder head and cam designs came the need for intake Manifolds to support these combinations.

NEW! Speed Warrior

WEIAND's Speed Warrior top-of-the-line high-rise dual plane manifold combines the low-end throttle response of a 180-degree design with the top-end power you'd expect of a single plane. Extensive dynamometer testing confirms that they are the ultimate dual plane on the market,with a power range from 1500 through 6700 RPM.Best suited for engines that are equipped with aggressive cams.

NEW! Track Warrior

Weiand Track Warrior manifolds are 360°, single-plane open plenum design developed for competition. Designed for drag racing, circle track and performance marine applications. The effective rpm range is 2000-8500 rpm. By port matching the manifold to the cylinder heads, the rpm range can usually be raised by 200-800 rpm.

A Holley Performance Brand

NEW! AIR Ram LS Intake Manifold

The Weiand Air Ram™ intake manifold was designed with optimized airflow characteristics, the AirRam gives you the horsepower, torque and durability you need while providing hard-core performance appearance. The unique cast aluminum construction of the manifold makes it ideally suited for use with blower and turbo applications and provides the necessary material for custom NOS Fogger™ nitrous system installations. The manifold features a removable plate that allows for porting access inside the runners and plenum area for peak performance gains on heavily modified engines. The intake is engineered to use gaskets (provided) rather than the factory o-rings to allow unlimited port enlarging and matching. Manifolds are available in satin, polished or Everbright™ coated to dress up that drab engine in your Camaro, Corvette, street rod, or muscle car.

Weiand 671 Supercharger Kits

Rotors are a special thick-wall casting that's designed to prevent "rotor growth". They are CNC precision-machined to maintain a very close tolerance with the case throughout the operating range. Shafts are made from a single, solid piece of 4340 hardened steel. Realize a 14% average boost increase at 3750 RPM, over remanufactured units.

Weiand Pro-Street Supercharger Kits

WEIAND's Pro-Street superchargers represent the leading edge in technology for obtaining substantial performance gains (25 to 40% over stock) while maintaining everyday driveability and long term reliability. What's more, WEIAND has received a C.A.R.B. exemption (D-256-2) covering all 1962-86 Chevrolet passenger cars and light trucks equipped with 262-400 c.i.d. small block engines (pulleys supplied with kit, as well as OEM carburetor and emission controls must be used to retain 50 state smog legal status). Some of the factors that contribute to the exceptional reliability of the WEIAND blower include a thicker-wall case and rotors, plus a more stable mounting pad to eliminate flex. WEIAND relies on close machined and set-up tolerances to provide the require boost.

WEI6523

All Superchargers are dynoed and shipped with a dyno sheet!

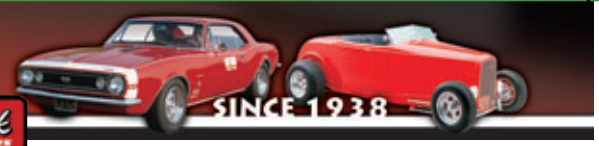
Edelbrock Carburetors



ENDURA SHINE™ Edelbrock's Thunder AVS and Performer Series Carburetors are now available with the new Endurashine chrome like finish. This is an industry first for a carburetor. You get unsurpassed reliability with a chrome like finish that lasts.

E85 Carburetor

The exciting new Edelbrock E85 600 cfm carburetor is redesigned and calibrated for E85 105-octane, renewable fuel. In fact, testing proved that the new E85 carburetor improved performance over our standard carb with regular gas. Expected in Spring 2007. **#EDL1414** Ask your salesman for specific release details.

THUNDER SERIES AVS™ AIR VALVE SECONDARY

- Exciting new performance features that include the new Qwik-Tune adjustable secondary air valve
- Distinctive black accented hardware
- Lightweight ball-burnished aluminum that's CNC-profiled for an attractive finish
- The same outstanding features as the dependable Performer Series

Carburetor Accessories

CHRYSLER & FORD Throttle Lever Adaptors

EDL1481 fits 1966 and later Chryslers. EDL1483 is for Ford automatic transmission equipped vehicles with cable operated throttle (except A.O.D.).

Description	Part #
Chrysler Throttle Lever Adapter (1966 and later)	EDL1481
Ford Throttle Lever Adapter (1968 and later)	EDL1483

Calibration Kits

Use these Edelbrock Performer Series Calibration Kits to customize your Edelbrock carb...if needed.

Description	Part #
Kit For EDL1404	EDL1486
Kit For EDL1405	EDL1479
Kit For EDL1406	EDL1487
Kit For EDL1407 & EDL1410 & EDL1412 & EDL1413	EDL1480

Electric Choke Kit

Includes all parts necessary to convert EDL1404, EDL1405 and EDL1407 Edelbrock Performer Series.

Description	Part #
Electric Choke Kit	EDL1478

Heat Insulator Gaskets

Designed to help prevent fuel percolation in Performer and AVS Series Carburetors exposed to extreme underhood temperatures. Use #9265 with open plenum manifolds such as Torker II and Victors.

Description	Part #
Square-Bore (0.320" thick)	EDL9265
Divided Square-Bore (0.320" thick)	EDL9266

Secondary Idle Adjusting Lever

Allows adjustment of secondary air flow without removing carb from manifold. For all Holley Double Pumper carbs.

Part #
HOL26-137

Throttle Cable Bracket

Chrome throttle cable bracket and throttle return spring installation. Includes dual stainless steel throttle return springs (P/N 20-89). Works on Holley models 4150 and 4160 carburetors. Throttle Return Springs (2)

Part #
HOL20-88

Choke Control Cable (Manual)

The perfect item to complete your purchase of the Holley manual choke conversion kit. Can also be used on all Holley manual choke carburetors (like the double pumpers) or any other manual choke carburetor. Cable length is 6 feet and the control knob has the Holley name prominently displayed.

Part #
HOL45-228

Diaphragms

Accelerator Pump Discharge Nozzles

Call our sales department for specific part number for your application.

Carburetor Jets

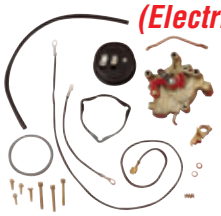
2 Jets Per Card

Call our sales department for specific part number for your application.

Adjustable Needle and Seat Hardware Kit

This Kit contains:
- 1 EA Adjusting nut with gasket
- 1 EA Locking screw with gasket
- 1 EA O-ring

Choke Conversion Kits (Electric & Hot Air)



These kits are used to convert Holley carburetors which originally came equipped either with a hot air or manually-operated choke to full automatic/electric operation.

Part #	
HOL45-223	Internal Vacuum Source, Standard Finish
HOL45-224	External Vacuum Source, Standard Finish

HOL34-1 assembly required

Fuel Line

Designed for use on any Holley model 4150, 4160, 4165 and 4500 DOMINATOR carburetor with center hung "cathedral" fuel bowls. Features 5/8 - 18 inverted flare male fuel fittings and 1/4 - 1/8 NPT female fitting to receive the line coming from the fuel pump. Includes 1/8 NPT fuel pressure gauge tap.

Part #	Description
HOL34-150	Fits 4150/4150HP w/ 7/8-20 threads
HOL34-160	Fits 4150/4150HP w/ 5/8-18 fittings
HOL34-550	Fits 4500 w/ 5/8-18 threads

Float Kits

The float material used in any carburetor is very often dependent on the carburetor usage. For example, carburetors designed to run on alcohol must use a brass float: carburetors set up for "blow-through" forced induction systems need to use nitrophyl floats; carburetors used on a "draw-through" forced induction system could use either a brass or a nitrophyl float.

Call our sales department for specific part number for your application.

Viton & Steel Needle & Seat Assemblies

Seat size determines how much fuel can flow at a certain pressure. A bigger seat size will flow more fuel; a smaller seat size will flow less fuel at a given pressure.

Call our sales department for specific part number for your application.

Adjust-A-Jets

These kits are designed to allow one to adjust the main jet metering of a carburetor without having to remove the fuel bowl(s) to access the main jets. The carburetor can now be calibrated on the motor saving time and avoiding fuel spills.

NEW! Carburetor TPS Kit

534-202

Holley is proud to introduce the new TPS kit for electric choke carburetors. The TPS kit is designed to be used on electric choke equipped Holley Carburetors and is perfect for use with an electronic overdrive transmission such as a 4L60E or 4L80E and can also be used for data acquisition.

Single-Stage Power Valves

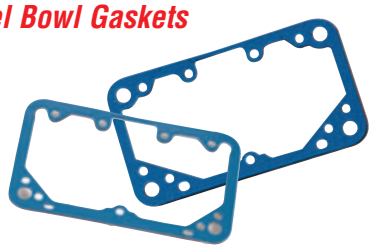
All Single-Stage Power Valves include required gasket.

Power Valve Plug and Gasket

Racers sometimes will prefer to run without a power valve. In these cases a power valve plug must be used to block the power valve circuit. Furthermore, jet sizes must be increased to compensate for loss of the fuel enrichment provided by the power valve. An increase of 6 to 8 jet sizes will, in most cases, be enough compensation. Power Valve Thread: 1/2-28

Call our sales department for specific part number for your application.

Blue Non-Stick Fuel Bowl Gaskets

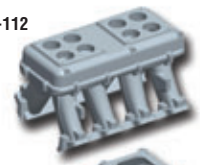


Metering Block Gaskets

Call our sales department for specific part number for your application.

NEW! LS "Hi-Ram" Style Intake Manifolds

300-112



300-113

300-116

300-118

- The Holley GM LS3/L92 Modular Hi-Ram Style Intake Manifold is introduced as a cost effective alternative to fabricated sheet-metal for high-performance applications where induction system height is not limited. Coupling this Hi-Ram style intake with the high flowing LS3/L92 style cylinder heads has outstanding potential for N/A and forced induction applications at a budget-minded cost.
- Aggressive, bold, race-bred styling will make bad intentions clear for drag race, muscle car, marine, off-road, sandrails, pulling trucks, track, street-rod applications and more!
- The base is designed to be modular in configuration to accept a wide range of carbureted and EFI tops and to be attractive to builders and fabricators as the foundation for custom induction systems.
- Runner length and the tapered cross-section was designed to perform well for a wide range of engine configurations
- EFI fuel rails feature -8 fittings with passages large enough to accommodate high fuel flows and dampen pressure pulsations in the fuel system and come standard with EFI Hi-Ram style kits.
- Cast aluminum construction.
- Intended for use on N/A or forced induction engines in the 6.0 to 7.0+ liter range, max power at 7000-8000+RPM.

Part #	Description
300-112	Carbureted Hi-Ram Style Intake, 2 x 4500 Dominator (sideways mount)
300-114	EFI Hi-Ram Style Intake, 2 x 4500 (2 x 2000cfm sideways or inline mounting)
300-113	Carbureted Hi-Ram Style Intake, 2 x 4150 (sideways and inline mounting)
300-115	EFI Hi-Ram Style Intake, 2 x 4150 (2 x 1000cfm sideways or inline mounting)
300-116	EFI Hi-Ram Style Intake with 1 x 92mm GM LS Throttle Body – Longitudinal Mount Plenum Top (top can be mounted forward or backward)
300-117	EFI Hi-Ram Style Intake with 1 x 102mm GM LS Throttle Body – Longitudinal Mount Plenum Top (top can be mounted forward or backward)
300-118	Carbureted Hi-Ram Style Intake with Blank Configurable Top
300-119	EFI Hi-Ram Style Intake with Blank Configurable Top
300-213	Carbureted Base Only (Plenum-Top-Mounting Fabrication Flange Available)
300-214	EFI Base Only (Plenum-Top-Mounting, 92mm and 102mm Throttle Valve Fabrication Flanges Available)
300-217	Blank configurable Top only
300-218	1 x 92mm GM LS Throttle Valve Top Only
300-219	1 x 102mm GM LS Throttle Valve Top Only
300-215	2 x 4500 Top Only
300-216	2 x 4150 Top Only
300-220	Lower to top Mounting flange (For use when fabricating a sheet metal top)
300-222	102mm Throttle Body flange (For use when fabricating a sheet metal top)
300-221	92mm Throttle Body flange (For use when fabricating a sheet metal top)

NEW! LS 80 & 90mm Throttle Bodies

Got an LS engine retrofitted with an LS2, LS3, LS7 or FAST™ 4-bolt intake manifold? Need more air? How about an 80mm or 90mm billet aluminum throttle body? Here they are - the finest LS throttle bodies on the market! They are throttle cable actuated and feature a full roller bearing supported throttle shaft to prevent sticking and improve longevity. Their contoured throttle bore design provides smooth and predictable performance from idle to WOT. They also feature factory style stamped steel throttle linkage and an included throttle cable bracket for a precise fit. They feature a clear anodized finish for long lasting good looks! Ideal for converting a drive-by-wire engine to a throttle cable.

Part #	Description
112-574	Gen 3 - LS2/LS3/LS7/Fast™ LSX™ - 80mm
112-576	Gen 3 - LS2/LS3/LS7/Fast™ LSX™ - 90mm

Holley AVENGER EFI

NEW!

Call our sales department for specific part number for your application.

- Bolt on and Go! - Complete plug and play EFI systems!
- Self-tuning technology – The **EASY** EFI Solution!
- Included hand-held tuner – No laptop required!
- Ideal for the enthusiast making the switch to EFI
- Available in TBI, 4bbl MPFI or Stealth Ram™ systems

Holley HP EFI

NEW!

- Full featured systems with full laptop tunability plus Self-tuning!
- Versatile capabilities - Control power adders and other functions!
- Intuitive software - Easy to use!
- Ideal for LSx engine swaps!
- Ideal for street, drag race, road racing, off road and marine applications
- Available in TBI, 4bbl MPFI or Stealth Ram™ systems, plus stand-alone ECU and harness kits

Call our sales department for specific part number for your application.

Holley DOMINATOR EFI

NEW!

Tune with optional 5.7" LCD touchscreen!

- The new standard in EFI with virtually unlimited capabilities!
- Integrated controls – electronic transmissions, drive by wire, progressive nitrous, boost control, water meth injection and more!
- Extensive data logging capabilities!
- Massive amount of user programmable inputs and outputs!
- Ideal for the experienced user and professional tuners

Call our sales department for specific part number for your application.

LS Coil Covers - BB Chevy replica

Do you own a vehicle with a LS based engine, but love the looks of a Big Block Chevy? Well now, thanks to Holley, you can give your LS a macho Big Block look with the new Big Block Chevy replica coil covers. The Holley Big Block Chevy replica coil covers are equally at home on a 2010 Camaro or a LS swap muscle car.

NEW!

The new Holley Big Block Chevy replica coil covers are constructed from Glass Filled Nylon Composite for strength and durability. The covers are easily installed by using basic hand tools. Just replace a few coil bracket mount bolts with the included ball studs and snap the covers in place. The Holley Big Block Chevy replica coil covers are completely paintable so they can be customized to your taste.

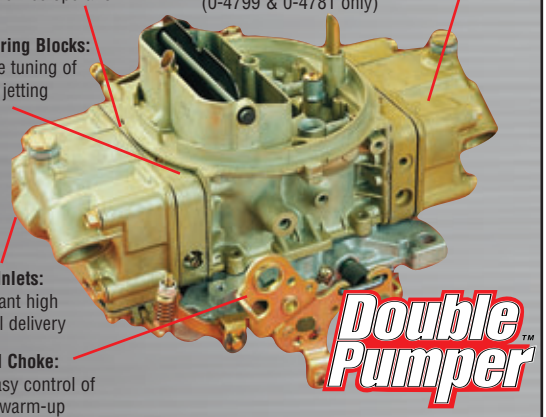
STREET/STRIP

The Famous Holley Double Pumper® Carburetors



Model 4150:
100% Wet-Flow Tested and Calibrated
4-Corner Idle System for precise idle control
(0-4799 & 0-4781 only)

Power Valve Blow-Out Protection:
• For trouble-free operation

Dual Metering Blocks:
• Allow fine tuning of secondary jetting

Dual Fuel Inlets:
• For constant high volume fuel delivery

Manual Choke:
• For easy control of engine warm-up

Features
• C = Chromate dip & S = Shiny finish
• Double pump
• Mechanical secondaries
• Center hung float bowls
• Power valve blow-out protection

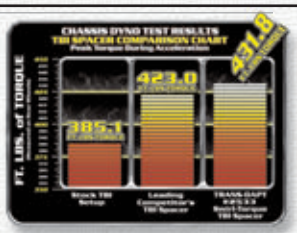
TBI SPACERS

Trans-Dapt Throttle Body Injection Spacers and adapters easily bolt on to improve air\fuel mixture quality, and increase volume into your intake manifold. They provide better throttle response, MPG increases of 8% or more and torque gains you will feel the first time you stomp on the "GO" pedal.



TSD2533

Swirl-Torque TBI spacers create a vortex that provides a better air/fuel mixture for greatly improved **low-to-mid** range Torque and improved fuel economy.

STATE 50 SMOG LEGAL E.O. #D-578

91-95 7.4L Chevy/GMC Trucks/SUVs & Motorhomes	TSD2536

FUEL LINE EXTENSIONS

Prevent damage to your fuel lines. Trans-dapt fuel line extensions lengthen the fuel lines to your TBI system, eliminating the need to reposition the fuel fines. Recommended for all TBI Spacer installations.

TSD2458

TRANS DAPT PERFORMANCE PRODUCTS

SWIRL TORQUE Slotted Spacers

Swirl-Torque™ Carburetor spacers give your engine the best, most efficient air/fuel mixture possible with a carburetor spacer. The slots in the ports create a vortex that dramatically improves air/fuel mixture, without compromising plenum volume.

Dynamometer tests clearly prove that these new generation carburetor spacers increase torque, and make your engine run cleaner and leaner for increased power and improved fuel efficiency. Phenolic spacers provide added insulating properties for a cooler fuel mixture, and create an DENSER air/Fuel charge, for even more horses!

BETTER FUEL ATOMIZATION FOR:

- IMPROVED AIR/FUEL MIXTURE QUALITY
- INCREASED TORQUE OUTPUT & THROTTLE RESPONSE
- IMPROVED TOWING, HAULING & PASSING POWER
- BETTER PERFORMANCE THAN ANY SMOOTH PLENUM SPACER

The slots provide the improved air/fuel mixture quality that performance based engines require to perform!

Hamburger's Performance Products

Hamburger's Performance Products manufactures a full line of CNC machined, billet aluminum carburetor spacers and adapters.

Individually milled from extremely durable 6061 T6 aluminum billets, these spacers can handle anything you can dish out. They're so tough, they're guaranteed for life. The precision milling process ensures the best flow of air and fuel possible, and that means max power.

Includes all necessary gaskets and hardware for a quick, hassle-free installation.

TORQUE FLOW CARBURETOR SPACERS

TSD3211 TSD3213

- CNC MACHINED USING 6061 T6 ALUMINUM
- IMPROVED THROTTLE RESPONSE & SHIFT RECOVERY TIMES
- INCREASED POWER POTENTIAL FROM ALL YOUR PERFORMANCE ACCESSORIES
- LIFETIME WARRANTY

Throttle Return Springs

Carburetor Mounted

The answer to throttle return spring linkage problems if your running a Holley carburetor. Designed and built rugged enough for competition, yet it's polished chrome finish is suitable for the finest show car. Includes one set of heavy duty and one set of light duty springs.

Part #	Description
MOR64923	4500 Holley
MOR64927	4150/4160 & 2300/2305 Holley

Manifold Mounted

Provides positive throttle return required by several sanctioning bodies. Each kit fits Holley 2 or 4 bbl single car applications. Includes one set of return springs.

Part #	Description
MOR64925	Small Block Chevy & 90˚ V-6
MOR64926	Big Block Chevy

Throttle Return Springs

Package of two stainless steel springs can be used as spares or replacement for throttle return spring kit #64925 and #64926.

Part #	Description
MOR64929	Throttle Return Springs

Carburetor Linkage Bushings

Steel linkage busing set allows the fitting of a ¼" fastener to the ½" hole found in the throttle linkage plate of Holley four barrel carburetors. Split bushing design permits simple installation and eliminates the sloppiness present when rubber bushings are used. Gold iridite steel finish.

Part #	Description
MOR64920	Carburetor Linkage Bushings

Fuel Line Fittings

Streamline Fuel Fittings

90˚ streamline fuel line fittings are manufactured of brass and provide a quick, easy fuel hose connection. Streamline fittings offer the racer improved fuel flow to the carburetor over the right angle fittings more commonly available. One per package.

Part #	Description
MOR65130	3/8" NPT to 1/2" Hose
MOR65140	3/8" NPT to 3/8" Hose

Throttle Stops

Throttle Stop For Holley 4150 Carburetors

Throttle stop for Holley 4150 Series carburetors provides a very strong and positive stop. Also prevents excessive side loading on the throttle shaft bores to wear out.

Part #	Description
MOR65042	Throttle Stop-4150 Holley

Carburetor Spacers

Insulated Plastic and Phenolic

Advanced plastic and phenolic compounds are specially formulated to reduce heat conductivity 10 times greater than aluminum. Reducing fuel temperatures inside the carburetor results in a denser, more powerful fuel charge to the manifold. Insulating phenolic spacers come pre-drilled for alignment pins and include all mounting hardware. Gaskets not included.

Part #	Description
MOR64930	4150/4160, 1" Thick 4-Hole
MOR64940	4150/4160, 1" Thick Open
MOR64943	4150/4160, 1/2" Thick 4-Hole, 1.750"
MOR64945	4150/4160, 1/2" Thick 4-Hole, 1.467"
MOR64946	4150/4160, 1" Thick 4-Hole, 1.467"
MOR64947	4500, 1/2" Thick Open

Billet Aluminum

CNC machined from 6061-T6 billet aluminum to extremely accurate specifications. Billet design eliminates porosity and improves engine appearance. Available for 4150/4160 and 4500 Series Holley carburetors.

Part #	Description
MOR64951	4500, 1" Thick Open Design
MOR64971	4150/4160, 2" Thick Open Design

Cast Aluminum

Increase performance with Open plenum design increase plenum volume for high rpm horsepower while the 4-hole design increases mixture velocity for midrange torque.

Part #	Description
MOR64950	4500, 1" Thick, Open
MOR64970	4150/4160 2" Thick, Open
MOR64980	4150/4160 1" Thick, Open
MOR64992	4150/4160 1" Thick, 4-Hole 1.467"

Fuel Log Pressure Regulated Fuel Log

Meets the high fuel delivery demands in today's race engines. Increases the orifice to nearly twice that of two regulators combined, creating a totally free flowing fuel system that allows the pump to deliver full capacity at all times. Regulates pressure after the carburetor has been supplied and requires a return line to the fuel tank. Shims are included to allow easy pressure adjustment from 6-10 psi.

Part #	Description
MOR65145	Pressure Regulating Fuel Log

Fuel Pressure Gauge & Fittings

Fuel Pressure Fittings

Allows easy plumbing up to 1/8" NPT fuel pressure gauge lines. Save wear and tear on carb inlet fittings by allowing quick and easy disconnection of fuel line.

Part #	Description
MOR65300	-6 AN male to -6AN male
MOR65310	3/8" NPT female to 3/8" NPT male
MOR65315	3/8" NPT male to -6AN male
MOR65360	3/8" nipple fittings

Fuel Pump Block-Off Plate

Billet Aluminum Fuel Pump Block-Off Plates for the most popular applications. Includes gaskets and bolts.

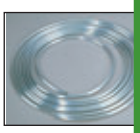
Part #	Description
MOR65395	Billet Block-Off Plate/SBC
MOR65396	Billet Block-Off Plate/ BB Ford, Chrys.

Fuel Pressure Gauge

Heavy duty Liquid-filled gauge dampens pointer fluctuation and improves durability when subjected to engine vibration. Accurate to within 1% and marked in 1/4 pound increments. 1/8" NPT fitting.

Part #	Description
MOR65370	Fuel Pressure Gauge 0-15 psi

Aluminum Fuel Line



Lightweight aluminum tubing replaces small diameter fuel lines. Large diameter, thin wall seamless tubing flows more fuel and eliminates fuel starvation.

Part #	Description
MOR65330	3/8" o.d. - 25' Roll
MOR65340	1/2" o.d. - 25' Roll
MOR65345	5/8" o.d. - 25' Roll

Holley Carburetor Accessories

Reusable Buna-N Holley Gaskets

Made from a high grade Buna-N compound with an anti-wicking nylon backing. Can use with gasoline or alcohol. 2 per pack.

Part #	Description
MOR65222	Replaces Holley #108-29
MOR65223	Replaces Holley #108-30
MOR65224	Replaces Holley #108-32 & 33

Carburetor Jet Extensions

Eliminates fuel starvation during hard acceleration or cornering by extending the fuel pickup point of the jet farther into the float bowl. Each kit contains three sets of extension: 1/2", 3/4" and 1" long.

Part #	Description
MOR65227	Jet Extensions

Nylon Float Bowl Washers

The cure for deteriorating fiber Holley float bowl washers.

Part #	Description
MOR65225	Nylon Float Bowl Washers

Clear-View Sight Plugs

Clear sight plugs are like having a window to your float bowl. Allows you to check your float level without removing the sight plugs.

Part #	Description
MOR65226	Clear-View Sight Plugs

Holley 1:1 Slip linkage

Replaces the progressive stock link to provide simultaneous, 1:1 primary and secondary opening rates.

Part #	Description
MOR65444	Slip Link, 1:1-Holley 4150

Transmission Expansion Tank

Billet Aluminum

- Meets requirements of 1-1/2 Pint Transmission NHRA
- Pressurized fluid is captured in the Expansion tank & will drain back into the transmission as the trans cools
- Includes breather & billet aluminum bracket (No. 41222)

Part #	Description
MOR41221	Transmission Expansion Tank, Billet Alumn

Gasket, Transmission Pan

Powerglide Trans

Perm-Align gaskets are manufactured from 30 durometer rubber molded over and vulcanized to a rigid steel frame Quick removal and installation of transmission pan

Part #	Description
93100	Gasket, Transmission Pan, Powerglide

AEROMOTIVE

NEED RACING FUEL PARTS? WE HAVE 'EM ALL!

NOT JUST FOR DRAG CARS ANYMORE

Many More Appllications Available. Call Today!

We Have More Fuel Pumps Than Anyone!

We have the Aeromotive parts you have been looking for right here at P&E. Come see why Aeromotive is the best. Making bold statements is easy to do. Backing 'em up... not quite as easy. In this industry, we all share the desire to WIN. It's a passion to be the best. No one shows up to lose just like Aeromotive doesn't make fuel systems to be almost the best or a close second. CNC machines are used to manufacture the billet line of fuel pumps, regulators, and filters. Fabricating and assembling the complete line of products in-house at Aeromotive ensures the consistency & quality control that results in product integrity and reliability.

Fuel Pumps

- A1000 Fuel Pumps are durable reliable and support high horsepower &to work with EFI & carbureted engines.
- Pumps flow 600 lbs. per hour @ 13.5 V & 45 PSI Features -10 AN inlet and outlet ports and is fully submersible.
- Street Strip SS Series Pumps are for carbureted applications only and Fuel flow exceeds 140 GPH @ 13.5 V equipped with 3/8" NPT

Regulators

- A1000 Injected Bypass Regulator works with EFI & provides two -10 AN ORB inlet ports & one -6 AN ORB return port.
- Carbureted ASdjustable Regulator 13201 has -6 AN female inlet and outlet ports.

Part #	Description
FUEL PUMPS	
ARO11101	A1000 Fuel Pump EFI or Carbureted appl.
ARO11106	700 HP Fuel Pump EFI Only
ARO11109	In-Line Fuel Pump EFI Only
ARO11202	A2000 Fuel Pump Drag racing applications
ARO11203	Billet Fuel Pump for Carbureted appl.
ARO11209	7 PSI Fuel Pump for Carbureted appl.
FUEL REGULATORS	
ARO13101	EFI appl. Injected Bypass EFI Regulator
ARO13103	A4 Carbureted Billet Regulator Gas/Alcohol
ARO13105	EFI Billet Regulator up to 1,000 HP
ARO13109	A1000-6 EFI Billet Regulator
ARO13201	Carbureted Billet Regulator 5-12 PSI
ARO13202	Carbureted Billet Bypass Regulator 2-20 PSI
ARO13203	Super Class 4-Port Regulator 5-15 PSI
ARO13204	A1000 Carbureted Reg Bypass 2-Port
ARO13205	Carbureted Adjustable Regulator 2-Port
ARO13301	EFI Bypass Reg 3-Port 3-20 PSI
FUEL RAILS/ VALVES/ GAUGES/ PUMP CONTROLLER	
ARO14106	97-04 GM LS1 Fuel rail kit
ARO14107	Unmachined, Raw fuel extrusion(17.75")
ARO1563	Billet Fuel Simple Valve
ARO15632	15 PSI Pressure Gauge
ARO15633	100 PSI Pressure Gauge
ARO16302	Billet Fuel Pump Speed Controller - fits any pump
FUEL FILTERS	
ARO12301	In-Line Fuel Filter Billet -10 AN Ports Replaceable Element
ARO12302	In-Line Fuel Filter Pro Series -12 AN Ports
ARO12304	In-Line Fuel Filter Billet -10 AN Ports Stainless Steel Element

Fuel Filters

- Filter #12301 & 12304 Are billet in-line filters 12301 has a fine replaceable element where the 12304 has a coarse washable filter.

MANY MORE PRODUCTS & APPLICATIONS AVAILABLE. CALL OR STOP BY TODAY FOR PRICING AND AVAILABILITY.

Mechanical Fuel Pumps

110 GPH Fuel Pump

Features
- High output fuel flow
- Shutoff pressure pre-set from 6 1/2 - 8 PSI
- Heavy duty construction for continuous high RPM operation
- Inlet & outlet tapped for 3/8" NPT
- Fuel body casting can be rotated to accommodate various plumbing situations
- Fuel pressure regulator is not required

130+ GPH Fuel Pump

Features
- High output fuel flow
- Shutoff pressure pre-set from 7 1/2 - 9 PSI
- Heavy duty construction for continuous high RPM operation
- Redesigned high flow valves ensure adequate fuel delivery
- Inlet & outlet tapped for 3/8" NPT
- Fuel body casting can be rotated to accommodate various plumbing situations
- Fuel pressure regulator is required. Recommend Holley #12-704

170+ GPH Fuel Pump

Features
- Shutoff pressure pre-set at 8psi
- AN-10 inlet and -8 outlet ports
- Body can be rotated for various plumbing combinations
- Used in race or extreme street applications

HP & HP Ultra Series Mechanical Fuel Pumps

NEW!

Features
- HP Series flow 170 GPH while ultra HP Series flow 200 GPH (low pressure) and 225 GPH (high pressure)
- Made from 6061-T6 billet aluminum for durability and good looks
- HP Series feature a CNC billet finish while Ultra HP is hjard coat anodized for corrosion resistance
- Ultra HP fuel pumps are rebuildable
- Bases are independantly rotatable from the top for ease of operation

Part #	Description
HOL12-327-25	Small Block Chevy
HOL12-454-25	Big Block Chevy
HOL12-289-25	Small Block Ford
HOL12-327-30	Small Block Chevy, 180° Inlet/Outlet

HOL162-523	3/8" Hose size - Chrome filter
HOL162-524	5/16" Hose size - Chrome filter

NEW! HP Billet Fuel Filters

Holley's new HP Billet Fuel Filters are part of the complete HP Fuel Systems product line. HP Billet fuel filters are precision CNC machined from 6061-T6 billet aluminum for strength and durability. They feature a black bright dip anodized body and clear bright dip anodized ends for superior corrosion resistance and good looks. Holley HP Billet fuel filters are available 10, 40, 100 micron rating and in 100 and 175 GPH flow ratings. Replacement elements are available. 0-15 and 0-30 PSI ranges. They contain a liquid glycerin which dampens the needle movement and makes it more linear in operation. Liquid gauges are premium quality instruments which will give years of service.

Filter Rating	100 GPH (3/8" NPT)	175 GPH (-8AN)	175 GPH (3/8" NPT)
10 Micron	162-500	162-554	162-552
40 Micron	162-562	162-555	162-563
100 Micron	162-551	162-564	162-553

Mechanical Fuel Pressure Gauge

Features
- 1 1/2" Diameter
- Chromed steel case
- 1/8" NPT brass fitting
- Includes elbow fitting
- Fits Holley chromed fuel lines and fuel block

HOL26-504

Holley offers two (2) types of mechanical fuel pressure gauges: dry and liquid filled. The "dry" gauges are offered in 0-15 and 0-30 PSI increments and are budget priced but not short on quality. The "liquid filled" gauges are also offered in the 0-15 and 0-30 PSI ranges. They contain a liquid glycerin which dampens the needle movement and makes it more linear in operation. Liquid gauges are premium quality instruments which will give years of service.

Part #	Description
HOL26-500	0-15 psi gauge (non-liquid filled)
HOL26-502	0-30 psi gauge (non-liquid filled)
HOL26-504	0-15 psi gauge (liquid filled)
HOL26-69	90˚ elbow to attach to Holley fuel line

Holley THE OVERALL PERFORMANCE LEADER

HP 125 & 150 Fuel Pumps

The HP 125 delivers 125 GPH of fuel at free flow (110GPH at 7 PSI) and is internally regulated to 7 PSI to eliminate the need for a separate regulator on most carburetd applications

The HP 150 delivers 150 GPH (140 GPH at 7 PSI) of free folw and is internally regulated at 16 PSI to work effectively with the included 4-7 PSI regulator (#12-8.3)

- HP 125 will support up to 750 horsepower
- HP 150 will support up to 900 horsepower
- Both pumps at home on the street and at the races
- Regulator included (12-150 only)
- Gerotor design for quiet, smooth operation and durability

Part #	Description
HOL12-125	125 HP Fuel Pump Billet Base Gerotor
HOL12-150	150 HP Fuel Pump Billet Base Gerotor

NEW!

Rebuild Kits for HP125 & 150 Fuel Pumps

12-819

Forgot to install a fuel filter between the tank and your fuel pump? Is your pump not holding steady pressure or it's making noise? Sounds like dirt may have gotten in the relief valve. Our gerotor kits service Holley's 12–125 & 12-150 HP electric fuel pumps.

Part #	Description
12-819	125 HP Fuel Pump Check Valve Kit
12-820	150 HP Fuel Pump Check Valve Kit
12-821	125 & 150 HP Fuel Pump Gerotor Kit

Carburetor Fuel Pressure Regulators

HOL 12-707 Features

- Regulates from 4-1/2 to 9 PSI
- One -8 inlet port and four -6 outlet ports
- .437" (7/16") restriction
- Aluminum billet body and top cover are hard coat anodized

HOL12-704 Features

- Regulates from 4-1/2 to 9 PSI
- One 1/2" NPT inlet and two 1/2" NPT outlet ports
- .437" (7/16") restriction
- Includes hardware and AN style fittings

Part #		Description
HOL12-803	(B)	4-1/2 9 PSI Standard
HOL12-804	(B)	1-4 PSI Standard
HOL12-704	(B)	4-1/2 to 9 PSI
HOL12-707	(B)	4-1/2 to 9 PSI

140 GPH "Black" Electric Fuel Pump (B) 2

Features

- New tumble polished billet look
- New lower housing casting for enhanced fuel flow
- Improved design for street/strip applications
- Compatible with alcohol or methanol fuels
- Flows 120 GPH at 9 PSI
- 3/8" NPT inlet and outlet ports
- Fuel pressure regulator is required. Recommend P/N 12-803
- Motor draws only 4 Amps current
- Provides constant fuel flow with no pulsation
- Not designed or recommended for use with fuel injection systems

RACE OUT READY OF THE BOX

Part #	Description
HOL12-815-1	Black Electric Fuel Pump

97 GPH "Red" Electric Fuel Pump (B) 2

Features

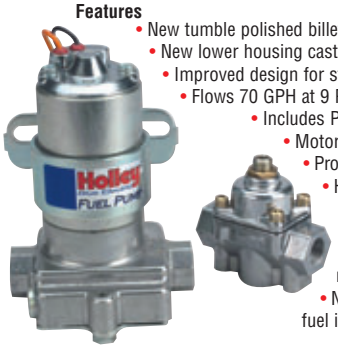
- New tumble polished billet look
- New lower housing casting for enhanced fuel flow
- Improved design for street/strip applications
- Flows 67 GPH at 5 PSI
- Regulator is not required for most applications
- Motor draws only 2 Amps current
- Provides constant fuel flow with no pulsation
- Has externally accessible pressure relief valve
- Includes mounting bracket
- NOT compatible with alcohol or methanol fuels
- Not designed or recommended for use with fuel injection systems

Part #	Description
HOL12-801-1	Red Electric Fuel Pump

110 GPH "Blue" Electric Fuel Pump (B) 2

Features

- New tumble polished billet look
- New lower housing casting for enhanced fuel flow
- Improved design for street/strip applications
- Flows 70 GPH at 9 PSI
- Includes P/N 12-803 fuel pressure regulator
- Motor draws only 3 Amps current
- Provides constant fuel flow with no pulsation
- Has externally accessible pressure relief valve
- Includes mounting bracket
- NOT compatible with alcohol or methanol fuels
- Not designed or recommended for use with fuel injection systems



Part #	Description
HOL12-802-1	Blue Electric Fuel Pump

In-Tank Electric Fuel Pumps

These new Electric Fuel Pumps flow significantly more fuel at higher pressure. For example, at 80 PSI the standard 255 lph pump will flow around 132 liters (35 gallons) per hour. At that same 80 PSI the equivalent forced induction fuel pump will flow over 210 liters (50 gallons) per hour. The chart below aptly illustrates the capabilities of the Holley in-tank electric fuel pump line. These are complete fuel pump kits and include all drop parts, accessories and installation instructions. Also included is an inlet filter that meets or exceeds original equipment specifications and provides improved filtration and durability.

Liters	Gallons	Lbs. of fuel	Horsepower
155	41	246	491
190	50	301	600
255	67	404	800

1 CA Air Resources Board exemption, an "EO" number, or direct or consolidated replacement part. 50-state legal

2 The manufacturer represents that it has not been found, nor is believed to be, unlawful for use under provisions of the Clean Air Act, per the manufacturer's application guide. This product is not legal for sale or use in the State of CA (or in states which have adopted CA emission standards) except on pre-emission-controlled motor vehicles/motor vehicle engines (pre-1966 model year).

3 Legal only for off-highway use (except in CA or states that have adopted CA emission standards), racing use or for use on pre-emission-controlled motor vehicles/motor vehicle engines (pre-1966 domestic vehicles certified to CA standards, pre-1968 domestic vehicles certified to federal standards and all pre-1968 foreign vehicles), per the manufacturer's application guide.

(A) Not legal for street use in CA on vehicles originally equipped with 2-barrel carburetors for which there was no 4-barrel option.

(B) Not legal for sale or use in CA on any pollution controlled motor vehicles.

Universal Fuel Pressure Regulators For High/Low Pressure Fuel Injection

New design utilizes dual layer diaphragm material not affected by today's gasoline additives. All billet housing allows for easy servicing - not a "throw-away". Easy to adjust high flow bypass system. Vacuum and boost compensating for normally aspirated and boosted engines. Multiple inlet and outlet ports for maximum flexibility and ease to installation.

Universal Regulator 3-25 PSI Range Up to 200 GPH	MAL4307M
Universal Regulator 30-100 PSI Range Up to 200 GPH	MAL4305M

COMP PUMP® Series 70 High Performance Electric Fuel Pump

The COMP PUMP® 70 Series Electric Fuel Pump is intended for gasoline powered applications needing a low volume and low pressure pump. The quiet Gerotor design has a free flow rating of 70 GPH and an internal by pass that is set at 6 psi from the factory. Features a high-quality permanent magnet electric motor, fully machined housing and pump body and an integral bracket for easy mounting.

Automotive applications, Gasoline	MAL4070M

COMP PUMP® Series 110 High Performance Electric Fuel Pump

The COMP PUMP® 110 Series Electric Fuel Pump is an excellent choice for high performance street and marine engines. The quiet Gerotor design has a free flow rating of 110 GPH is internally bypassed and factory set to 7 PSI, and feature a full machined housing and pump body as well as a high quality permanent magnet electric motor.

Automotive applications, Gasoline	MAL4110

COMP PUMP® Series 140 High Performance Electric Fuel Pump

The 140 series is a 12-volt electric fuel pump intended for applications needing a high volume and high pressure electric fuel pump. The quiet Gerotor design has a free flow rating of 140 GPH and must be run with a fuel pressure regulator. The 140 series is internally bypassed and factory set to 12 PSI and feature a full machined housing and pump body as well as a high quality permanent magnet electric motor.

Auto/Street and Racing applications, Gasoline. (Includes Fuel Pressure Regulator) - No Return	MAL4140
Auto/Street and Racing applications, Gasoline. (Includes Return Style Fuel Pressure Regulator)	MAL4142
Auto/Street and Racing applications, Gasoline. Fuel Pressure Regulator sold separately.	MAL4150

COMP PUMP® Series 250 Racing Electric Fuel Pump

The COMP PUMP® 250 Series Electric Fuel Pump is designed for racing applications needing a high volume and high pressure 12 volt electric fuel pump. It has an external bypass that is adjustable and preset at 16 psi. Fully machined housing and pump body as well as a high quality permanent magnet electric motor. The Gerotor design provides stable output and pressure with a track record for dependability. Because of the high pressure and free flow rating of 250 GPH, it must be used with a regulator.

Automotive applications, Gasoline	MAL5250

Chrome Ignition Coil

The Mallory universal 12-volt high output Chrome Ignition Coil is engineered to improve the performance of breaker point ignition systems.

Point Systems	MAL29217
Electronic Systems	MAL29216

2-Port Fuel Pressure Regulator

The 2 Port fuel Pressure Regulators are designed to regulate fuel pressure between high pressure fuel pumps and carburetors. This style of regulator features a fully machined housing from #6061-T6 billet aluminum with two outlet ports and specially designed high flow fuel passages.

Competition Auto/Street and racing applications	MAL4207
Marine applications	MAL4207M

3-Port Fuel Pressure Regulator Return Style

The 3 port return style fuel pressure regulators are designed to regulate fuel pressure between high pressure fuel pumps and carburetors of fuel injection system. The bypass port sends the excess pressure back to the fuel tank. Features a fully machined housing with three outlet ports and high flow fuel passages.

Competition auto/Street & Gas Racing applications	MAL4309

4-Port Fuel Pressure Regulator

The 4 port fuel pressure regulators are designed for use in all out racing applications to regulate fuel pressure between high pressure fuel pumps and carburetors. Features a fully machined housing with four outlet ports and high flow fuel passages.

Gasoline Racing applications	MAL4200

COMP FILTER High Efficiency 140 Series Fuel Filter

The 140 Series Comp Fuel Filters are designed for the high performance enthusiast who knows the importance of always ensuring that there is a fuel filter between the fuel tank and the electric fuel pump. The 140 Series Filter are perfect for those engines which require maximum flow and minimum restriction. An integrated mounting bracket is provide for easy installation in almost any application. The filter element is replaceable and the filter canister unscrews readily for ease of filter service.

Fuel Filter - 3/8 NPT Inlets/ Outlets	MAL3140
Replacement Element	MAL3141

1-1/2" Fuel Pressure Gauge

This high quality, 1-1/2" diameter gauge is designed for use in street and racing applications where space is a premium. Made using the best available castings and gauge faces to guarantee long and dependable life. The 1/8" NPT fitting can be screwed into fuel pumps, fuel logs, fuel filters and fuel pressure regulators.

0-15 PSI, liquid filled gauge	MAL29724

Fuel System Accessories and more...

Carb Adapter Kits

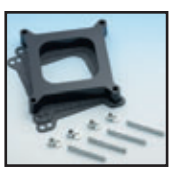
These carburetor adapter kits install quickly and easily. Gaskets, studs, nuts an washers are included. Adapters are made of diecast aluminum.

Description	Part #
Most 4 barrel to most 4 barrel	MRG1932
Most 2 barrel to most 4 barrel	MRG1933
Holley 350/500 2-bbl. carburetor to quadrajet bolt pattern	MRG1929

Aluminum Carb Spacer Kit

Increase your power and performance with a one- or two-inch carburetor spacer from Mr. Gasket. Designed to fit the standard Holley/ Carter bolt pattern, these precision diecast aluminum spacer kits are complete with studs, washers, nuts and gaskets.

Description	Part #
1" open center	MRG6005
1" 4 hole	MRG6006
2" open center	MRG6007
2" 4 hole	MRG6008



Phenolic Thermal Insulating Carb Spacer

Manufactured from advanced phenolic thermoset plastic and engineered to withstand extreme high intake manifold temperatures, these spacers were designed to insulate and reduce heat flow to the carburetor. A must for any serious racing enthusiast.

Description	Part #
Four-hole bore	MRG3404
Open center	MRG3405

"T" Style Fuel Blocks

The classic "T" design for today's needs. These are precision die-cast, chrome plated blocks, ideal for plumbing tri-power set-ups, dual inlet Holleys with nitrous or any combination requiring multiple fuel distribution. Minimum restriction is assured with 3/8" dia. NPT tapped inlet and 1/4" dia. NPT tapped outlets. Four corner holds and screws are provided for easy installation.

Description	Part #
Dual Outlet (2)	MRG6150
Triple Outlet (3)	MRG6151
Quad Outlet (4)	MRG6152

CHOKE Cable Kit

Description	Part #
Choke Cable Kit	MRG2078

Chrome Gas Line Kit

The bright chrome-plating of the gas line kit adds that special "touch of class" to your engine. It's constructed with copper tubing, brass fittings and silver brazed connections.

Description	Part #
Dual-inlet Holley (3/8" tube 8-21/32" centers)	MRG1551
Dual-inlet Holley (3/8" tube, 9-5/16" centers)	MRG1552

Chrome Plated Fuel Lines with Fuel Pressure Gauge

These fuel lines are not only great looking but are very functional. They incorporate a small, convenient 1-1/2" diameter fuel pressure gauge. The gauge is designed to read in 1/2 pound increments and has a range of 0-15 lbs.

Description	Part #
Fits Holley w/8-21/32" centers	MRG1558
Fits Holley w/9-5/16" centers	MRG1559

Chrome Plated Carburetor Linkage Plates

These plates take the hassle out of throttle linkage hook-ups. Available for Holley, AFB and Quadrajet Carburetors. These linkage plates are polished and chrome plated for lasting beauty. Linkage plates come complete with gaskets and standard cable bracket for GM vehicles.

Description	Part #
For Holley & AFB	MRG6035

Throttle and Trans Kick Down Brackets

These precision formed, chrome plated throttle cable brackets will make carburetor swaps a breeze and add the finishing touch to any engine compartment. One bracket is made for throttle only, the other has a secondary attachment for vehicles with automatic transmission kickdown cables.

Description	Part #
Throttle Cable Bracket STD	MRG6038
Throttle Cable Bracket-Auto	MRG6039

Carburetor Heat Shields

The carburetor heat shield will help eliminate fuel boiling and vapor lock caused by heat conducted from the manifold to the carburetor.

Description	Part #
Fits all Holley square flange (Exc. 4500) and Carter AFB 4-bbl-1/2" high	MRG3710

Billet Fuel Filters

Machined from T6061-T6 billet aluminum alloy, this fuel filter incorporates a 304 stainless steel pleated filter disc rated at 10 microns and flows over 15 gpm or 800 gph.

Description	Part #
Billet Fuel Filter 5/16" Barbed Ends	MRG6160G
Billet Fuel Filter 3/8" Barbed Ends	MRG6161G
Billet Fuel Filter -6 AN Ends	MRG6162G
Billet Fuel Filter -8 AN Ends	MRG6163G
Billet Fuel Filter -10 AN Ends	MRG6164G
Replacement Fuel Filter Disc	MRG6165G
Fuel Filter Mounting Bracket	MRG6166G

Chrome Plated Fuel Pump Block Off Plates

The block-off plates are precision cut to cover stock fuel pump openings. Gaskets included.

Chevrolet 265 thru 400 cu. in.	MRG1515
Chevy BB & most V-8's	MRG1516
Ford 351 and 400 Cleveland Only	MRG1517

Chrome Plated Fuel Pump Mounting Plate

This chrome plated mounting plate, for the 265-400 cu. in. Chevrolet small block engine, is ideal for mounting a stock OEM pump.

Description	Part #
Fuel Pump Mounting Plate	MRG1514

Vacuum Cap Assortment

Use to block off open engine vacuum fittings. Sixteen pieces of quality "Buna-N" rubber makes for a much more durable, long-lasting part as compared to neoprene or vinyl materials.

Description	Part #
Vacuum Caps	MRG3704

Mounting Clamps

Insulating with Adel 75005 compound means easier mounting of wire, fuel hose, etc., to any solid surface. Aircraft-quality materials are used. Six per kit.

Description	Part #
3/16" ID	MRG3770G
1/4" ID	MRG3771G
3/8" ID	MRG3772G
1/2" ID	MRG3773G
9/16" ID	MRG3774
5/8" ID	MRG3775G

Carburetor Bushing

This carburetor bushing replaces a worn out or sloppy factory bushing and gives smooth, trouble-free throttle operation. Accommodates 1/4" diameter throttle rod. All GM and most Holley carbs with 1/2" diameter throttle hole

Description	Part #
Carburetor Bushing/Pivot	MRG1512
Carburetor Linkage Bushing	MRG6026

Universal Dual Throttle Return Spring

Description	Part #
Throttle Return Spring	MRG19

Throttle Return Spring Kit

Designed for positive throttle return to assure added safety, this kit features a custom return spring bracket that is notched to provide adjustment for eight spring tension settings.

Description	Part #
Fits King, Race, Speed & Road Demon Carburetors	MRG9680G

Carburetor Cap

Keeps dirt and foreign materials out of the carburetor during storage, transportation and down time at the race track. Injection molded for strength and durability and to resist gasoline. Fits carburetors with 51/8" necks.

Description	Part #
Carburetor Cap	MRG6413

Electric Fuel Pumps

Manufactured by Essex Industries, one of the most renowned fuel system manufacturers, these state-of-the-art electric fuel pumps offer maximum performance in a compact package. With anodized aluminum housings and high-quality internals, they are both strong and durable. Each pump is factory tested and includes mounting brackets. EDL1790 features a -10 AN inlet/outlet and a flow rate of 80 GPH at 45 psi for use with high-hp fuel injected applications. The in-line design keeps the pump motor and components cool even under harsh conditions. EDL1791 is factory preset to 6.5 psi and no regulator is required. EDL1792 has a free flow rate of 160GPH, enough to feed a 1000 hp engine.

Description	Part #
80 GPH at 45 psi, -10 AN inlet/outlet for EFI applications	EDL1790
120 GPH free flow, 3/8" NPT inlet/outlet for carb. appl.	EDL1791
160 GPH free flow, 1/2" NPT inlet/outlet for carb. appl.	EDL1792

Victor EFI Fuel Pump

Designed and built by Essex Industries, the leading manufacturer of fuel system components, our EDL1794 fuel pump runs on 12 volts and can deliver 120 gph at 45 psi, which is enough to support an astounding 1500 hp. this pump has -12 inlet and outlets and is compatible with all grades of gasoline and methanol type fuels.

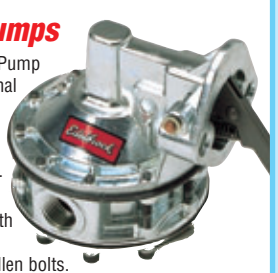
Application	Part #
Victor EFI Fuel Pump	EDL1794

High Performance In-Tank Fuel Pumps

These OE in-tank upgrade pumps are ideal for supporting performance improvements such as a high performance intake manifold, cams, turbo, direct port nitrous systems, big bore throttle body, etc. They replace your original pump exactly and include all necessary hardware for an easy installation.

Description	Part #
For 1985-97 Ford Mustang (except 96-97 Cobra)	
155 liter/hr. (41 gph)	EDL17930
190 liter/hr. (50 gph)	EDL17931
255 liter/hr. (67 gph)	EDL17931
255 liter/hr. (67 gph) - high pressure for Turbo or Nitrous	EDL17931
For 1985-92 Fuel Injected GM vehicles	
255 liter/hr. (67 gph)	EDL17933

Victor Series Racing Fuel Pumps



Flow capacity for Edelbrock's 6-Valve Racing Fuel Pump is 130 gallons per hour as compared to conventional racing pumps at 114 gallons per hour. A must for drag racing, circle track racing, street machines or any application that demands a high-volume fuel delivery. High-volume 1/2" NPT inlet and outlet orifices surpass the capacity of conventional models. Also, the finest quality materials are used along with 6-valve pump body and large alcohol-proof diaphragm. Beautifully detailed with aircraft-type allen bolts. Produces 13 to 14 psi. For gasoline and alcohol. Use with our Fuel Pressure Regulator #8190.

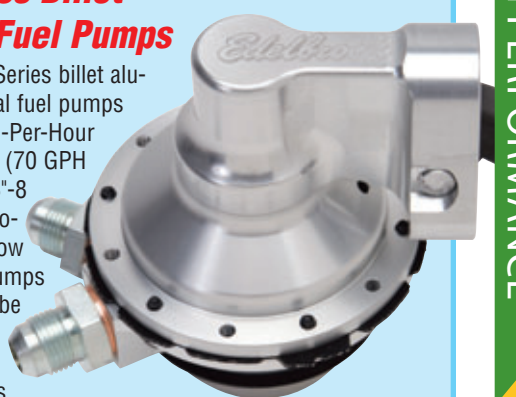
Description	Part #
Small-Block Chevrolet	EDL1711
Big-Block Chevrolet	EDL1712
289-351 Windsor Ford	EDL1715
Fuel Pump Repair Kit (for #1711 and #1712)	EDL1799
Fuel Pump Repair Kit (for #1715)	EDL1796

Performer Series Street Fuel Pumps

Designed to match Performer Series carburetors, Edelbrock's High-Performance Street Fuel Pumps have 6-valves and a flow capacity of 110 gallons per hour. The unique valve design improves flow quantity and quality, and will support engines up to 550 hp. High-volume, 3/8" NPT inlet and outlet surpasses the capacity of conventional models. Produces 6 psi which is correct fuel pressure for street. For gasoline or mixed fuels only. NOTE: Use Edelbrock's Fuel Pump Kit #1797 for tight engine compartments.

Description	Part #
Small-Block Chevrolet.	EDL1721
Big-Block Chevrolet	EDL1722
289-351 Windsor Ford	EDL1725
429/460 Ford	EDL1726

Victor Series Billet Aluminum Fuel Pumps



Edelbrock Victor Series billet aluminum mechanical fuel pumps have a 170 Gallon-Per-Hour free-flow capacity (70 GPH @ 6 PSI). The 5/8"-8 inlet and outlet provides increased flow over street fuel pumps and the base can be rotated to allow for various fuel line configurations.

These billet aluminum pumps produce 8.5-9 PSI, and require a pressure regulator. They have a clear anodized finish with the Edelbrock logo laser engraved on the pump body. For use with gasoline only.

- Superior materials: 100% machined from 6061-T6 aluminum
- Quality construction CNC-machined to exact tolerances
- Tough design with stronger mount for increased durability

Application	Part #
170 GPH fuel pump for small-block Chevy	EDL17000
170 GPH fuel pump for big-block Chevy	EDL17001
170 GPH fuel pump for small-block Ford	EDL17002
170 GPH fuel pump for small-block Chrysler	EDL17003

Fuel Pressure Regulators

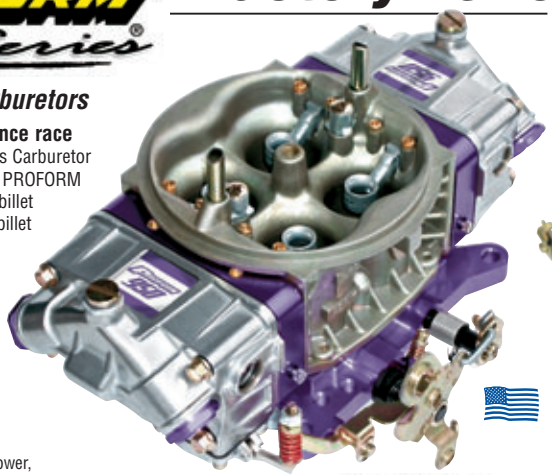
These new Fuel Pressure Regulators are machined from aircraft quality aluminum for those who demand the best. Manufactured by Essex Industries, these regulators have fluorosilicone diaphragm material for extended life and high temperature protection. They are compatible with all grades of gasoline/methanol and have 1/8" NPT gauge ports. Mounting bracket, fittings and hardware are included. #1727 has 1/2" NPT inlet/outlets and is adjustable from 5 to 10 psi providing extremely consistent pressure regulation for carbureted applications. #1728 is adjustable 35 to 90 PSI and has two -6 AN inlet ports plus a single -6 AN outlet. #1729 offers the same flow performance but with a longer body and -10 AN inlet ports. both are capable of handling the flow from two #1790 pumps for systems well beyond 1000 hp.

Description	Part #
160 GPH w/ single 1/2" NPT inlet dual 1/2" NPT outlets for carbureted applications	EDL1727
180 GPH w/ dual -6 AN inlets, single -6 outlet external bypass for EFI applications	EDL1728
180 GPH w/ dual -10 AN inlets, single -10 outlet external bypass for EFI applications	EDL1729

Factory Performance™ Parts

PROFORM® Race Series Carburetors

Finally an affordable high-performance race carburetor! PROFORM's new Race Series Carburetor is hand assembled in the U.S. utilizing the PROFORM High-Flow Carburetor Main Body, durable billet metering blocks, and a high performance billet throttle baseplate.



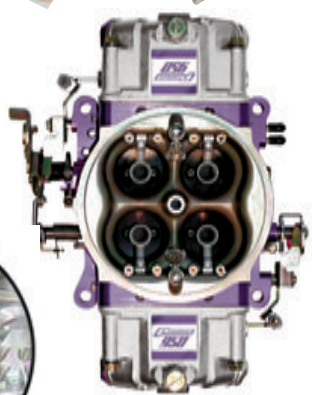
The PROFORM® Race Series Carb includes:

PROFORM® Carburetor Main Body
- High-Flow Main Body!
- Dyno-Proven Horsepower & Torque Gain!
- Adjustable, Screw-In Air Bleeds!
- High-Performance Down-Leg Boosters! (except 650 CFM)
- Maximum Air Flow: No Air Horn, Choke Tower, or Choke Control!
- High-Rate Air-Flow Section Design!
- Uses standard service & tuning components!

PROFORM® Billet Throttle Base Plates!
- Adjustable Secondary Air Flow Cam Bracket!
- Solid Billet Construction!
- Manufactured in the U.S.A.!
- Timed and Full Vacuum Tubes for Accessories and Tuning!
- Teflon® Coated Shafts!
- Button Torx Head Throttle Plate Screws!
- Power Valve Blow Out Protection!
- Slip Link Mechanical Secondary Linkage!
- Serviceable Throttle Levers!

PROFORM® Billet Metering Blocks
- Solid Billet Construction!
- Durable, No Warping or Porosity Problems!
- Changeable Idle Feed Restriction!
- Manufactured in the U.S.A.!

PROFORM® Aluminum Fuel Bowls
- Lightweight Aluminum
- Sight Glass Windows for easy float adjustment



Part #	Description
Mechanical Secondary Race Series Carburetors	
SPC67199	650 CFM mechanical secondary race series carburetor
SPC67200	750 CFM mechanical secondary race series carburetor
SPC67201	850 CFM mechanical secondary race series carburetor
SPC67202	950 CFM mechanical secondary race series carburetor
SPC67209	1050 CFM Race Series Carburetor; Mechanical Secondary; Aluminum main body
Vacuum Secondary Race Series Carburetors (with adjustable secondary housing)	
SPC67204	650 CFM vacuum secondary race series carburetor
SPC67205	750 CFM vacuum secondary race series carburetor

Aluminum Fuel Bowls with Sight Windows

Adjustable Billet Fuel Log

Trick out your carb with Proform's new billet adjustable fuel line! Fits all Proform Race Series carburetors and Holley 4150 or 4500 carburetors. Comes with both 6AN and 8AN fittings with a 3/4" hex. 3/8" NPT outlet gives you more room, for a regulator.

Part #	Description
SPC67183PU	Adjustable Billet Fuel Log (Purple)
SPC67183B	Adjustable Billet Fuel Log (Natural Finish)

Carburetor Main Bodies

Direct replacement components turn a street carburetor into a high-performance carb: get that extra performance out of your ride in less than 30 minutes.
Add up to 25-35 HP with Proform's 100% New main bodies. Easy installation and comes with gaskets.

Part #	Description
SPC67100C	650 CFM 700CFM, & 800 CFM
SPC67203	650 CFM Replacement(Flows Up To 690 CFM)
SPC67107C	850 CFM (Requires 1-3/4" Throttle Body)
SPC67108C	950 CFM ((Requires 1-3/4" Throttle Body)
SPC67101C	750 CFM Vacuum Secondary Carb

PROFORM® Street Carburetors

A Dozen Reasons to Buy Proform Street Carbs over the Competition at NO EXTRA COST!

1. Die-cast aluminum fuel bowls!
2. Fuel level sight glass windows!
3. Changeable idle air bleeds!
4. Billet Metering Blocks!
5. Changeable idle feed restriction!
6. Billet base plates!
7. Serviceable throttle lever!
8. Easy Access Secondary idle air flow!
9. Enhanced look with bright anodizing
10. Changeable high speed bleeds!
11. Notched secondary floats!
12. Secondary jet extensions!

The PROFORM® Street Carb Includes:

Based on the wildly successful Race Series carburetors the new PROFORM street carburetors are constructed of light weight aluminum, including provisions for a choke assembly and changeable idle air bleeds for easy non-permanent calibration changes if needed. Keep your drills in your tool box; fine tuning is accomplished by simply changing air bleeds not opening calibration restrictions with a drill bit.

Each street carburetor features billet metering blocks with a street performance calibration developed for today's high performance engines. Four corner idle on mechanical secondary carburetor to help fine tune the idle with aggressive camshaft profile. Changeable idle feed restrictions further expand the idle adjustment capabilities. Conventional service and tuning components are available in most performance retail outlets.

You'll also find the popular billet throttle body for superior strength, coupled with precision throttle shafts to ensure long term performance. All PROFORM carburetors have easy access adjustable secondary air flow. Other carburetors require special tools or removal of the carburetor to accomplish this simple adjustment.

The package is completed with high quality, light weight die-cast aluminum fuel bowls with fuel level windows for quick visual reference. Float level changes do not require removal of a sight plug with the risk of fuel spilling all over the top of your engine. Bowls come equipped with 3/8" inverted flare fuel inlet fittings and will except all conventional dual feed fuel lines compatible with Holley® four barrel carburetors.

Part #	Description
Mechanical Secondary Race Series Carburetors	
SPC67211	650 CFM mech. secndry race series carb
SPC67212	650 CFM mech. secndry race series carb
SPC67213	750 CFM mech. secndry race series carb

POWERFLOW® Fuel Filters

The POWERFLOW line of fuel filters covers the entire range of filters for carbureted automotive applications, with fuel injected models being developed for the future. The Professional Products line of POWERFLOW Filters are modular in design with each filter (other than our Inline Street Filters) being supplied with pipe tapped inlet and outlet ports. We also offer a line of inexpensive adapter fittings which will allow the user to adapt any of our filters to a wide variety of applications and hose styles or sizes.

POWERFLOW® Fuel Pressure Regulators

Professional Products Fuel Regulators are packed with features, yet remain some of the most affordable regulators available. These regulators are a great combination of function, looks and price.

POWERFLOW® Fuel Pressure Regulators - FOR CARBURETED APPLICATIONS

Part #	Description	Bypass	Range
AAM10650	2-Port: (1) 1/2 NPT inlet, (2) 3/8 NPT outlets (Blue)	No	4.5 to 9 PSI
AAM10651	2-Port: (1) 1/2 NPT inlet, (2) 3/8 NPT outlets (Aluminum)	No	4.5 to 9 PSI
AAM10652	3-Port: (1) 3/8 NPT inlet, (3) 3/8 NPT outlets (Blue)	Yes	4.5 to 9 PSI
AAM10653	3-Port: (1) 3/8 NPT inlet, (3) 3/8 NPT outlets (Aluminum)	Yes	4.5 to 9 PSI
AAM10654	4-Port: (1) -8 AN inlet, (4) -6 AN outlets (Blue)	No	4.5 to 9 PSI
AAM10655	4-Port: (1) -8 AN inlet, (4) -6 AN outlets (Aluminum)	No	4.5 to 9 PSI

AAM10672	4-Port: (1) 3/8 NPT inlet, (4) 3/8 NPT outlets (Blue)	Yes	25 to 75 PSI
AAM10673	4-Port: (1) 3/8 NPT inlet, (4) 3/8 NPT outlets (Aluminum)	Yes	25 to 75 PSI
AAM10678	1986-93 Ford 5.0L (Blue)	Yes	25 to 75 PSI
AAM10679	1986-93 Ford 5.0L (Aluminum)	Yes	25 to 75 PSI
AAM10680**	1994-95 Ford 5.0L & 96-97 4.6L (Blue)	Yes	25 to 75 PSI
AAM10681**	1994-95 Ford 5.0L & 96-97 4.6L (Aluminum)	Yes	25 to 75 PSI

**Also fits 98 Cobra & 94-98 3.8L Mustang

2-Port (Carbs) w/o return - For one carb with a dual inlet or two carbs with a single inlet
4-Port (Carbs) w/o return - For engines wth two dual inlet carbs or four single inlet carbs
3-Port (Carbs) w/ return - Same as 2-port above but in vehicle using EFI fuel pump w/ return line
5-Port (Carbs) w/ return - Same as 4-port above but in vehicle using EFI fuel pump w/ return line
2-Port (EFI) - Use this in EFI systems where only one outlet to fuel rails is required. Has return port.
4-Port (EFI) - Use this in EFI systems where up to three outlets to fuel rails are required. Has return port.
Ford Mustang Regulators are replacement for stock regulators but provide adjustability.

POWERFILTER™ Oil Filters

The Powerfilter line of Oil Filters feature a fully machined housing and an extra fine double mesh stainless steel washable filter element. Here are some of the outstanding features of this unit: CNC machined to provide exacting tolerances & fit.

- Quad bypass filter design assures no unfiltered oil reaches the engine
- Duplex woven deep pleated 45 micron stainless filter element
- Easy maintenance cleanable s/s filter element
- Magnet in base to collect tiny particles.

ProFlex Stainless Steel Braided Hose

For maximum protection and reliability, more professionals and enthusiasts choose Russell ProFlex performance hose. Constructed with a stainless steel outer braid that resists abrasion and corrosion, both have a Chlorinated Polyethylene (CPE) synthetic rubber liner with a nylon inner braid that will not collapse under extreme heat, yet is extremely flexible.

- Stainless Steel covering for a more attractive installation that is abrasion resistant
- Temperature range of -40 degrees F to +350 degrees F for a wider variety of uses and routing
- Compatible with all hydrocarbon and alcohol-based fuels, lubricants and additives

Full Flow Swivel Hose Ends

Unique 360° Swivel Hose Ends Fit Proflex Hose Perfectly

Russell's Full Flow Swivel Hose Ends swivel 360° to maximizehose installation allowing for quick alignment of ends after hose assembly.

- 360° of adjustability after assembly
- Full Flow ends are completely re-usable
- Unique taper design ensures easy assembly
- 37° angled sealing surface guarantees a positive anti-leak seal (does not require a sealing compound or Teflon tape)
- Mandrel bent tubing for superior flow
- Available in Red and Blue Anodized or ultra brite EnduraShine finish

Pre-Made Nitrous & Fuel Lines

Russell Nitrous hose assemblies are manufactured at the Russell facility and assembled by dedicated Russell professsionals. All Nitrous hose assemblies are constructed using Russell Power-Flex stainless steel braided hose and provide a leak-free connection. Use blue hose ends for nitrous lines and red hose ends for fuel lines.

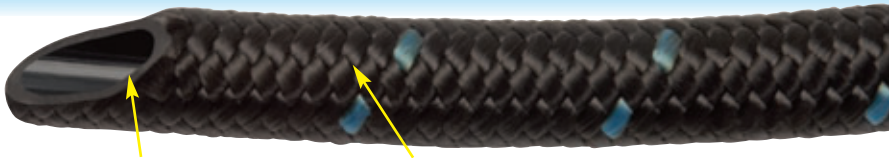
RUSSELL

Russell Performance Products... An Edelbrock Company

ADVANCED FLUID TRANSFER SYSTEMS SINCE 1973

PRO CLASSIC



Made of extruded, synthetic rubber, inner liner is compatible with most fluids

High-quality nylon fiber braid cover... excellent flexibility and resistance to abrasion

Quick, trouble-free assembly without special tools

ProClassic Hose *All the Performance with Less Weight*

- Lightweight nylon fiber covered hose is rated up to 350 psi
- Rated to perform from -40° F to 300° F
- Performs up to 27" HG
- Easy to cut and assemble
- Accepts Full Flow Swivel Hose Ends
- Matches Full Flow Black Adapters for many applications

Launcher Progressive Nitrous Controller With LCD Touch Screen

Nitrous control has just been taken to the next level.
Fully programmable via laptop or with the included 3.5" color, touch screen LCD for the ultimate in programming and looks. New innovative NOSbus 2-wire network interface for seamless integration with other Holley/ NOS supported items.

Description	Part #
Nitrous controller with touchscreen	NOS15975NOS

Fuel Injection Nitrous Systems

NOS carries a complete line of easy to install, state-of-art nitrous systems for cars with EFI. Many of these systems are 50 state legal. Due to the technical sophistication of today's fuel injected engines, relatively few options exist for increasing performance other than a NOS Nitrous System.

Description	Part #
NOS EFI Nitrous Systems	
GM LS2 EFI Nitrous System	NOS05169NOS
GM LS1 EFI Nitrous System	NOS05168NOS
Universal EFI V8 75-125HP (Wet)	NOS05131NOS

Ford 5.0L V8 stage 1	NOS05115NOS

2005-2009 Mustang Wet Plate Systems

The Nitrous plate installs between the upper and lower manifold sections and the dose of fuel and nitrous delivered to the intake tract is highly atomized for instantaneous power.

Description	Part #
05-07 Ford Mustang 4.6L 3V Wet Plate System	NOS02121NOS

Big Shot Systems

The world's most powerful systems! The Big Shot utilizes a unique "fogging" plate design to vastly improve nitrous flow, fuel atomization and mixture distribution. This highly efficient combination can create as much as 400 extra hp from a single plate!

Description	Part #
NOS Big Shot Systems	
Holley 4bbl (200-400hp)	NOSO2101NOS
Holley Dominator (200-400hp)	NOSO2102NOS

Converts #02001 Cheater Kit to #02101 Big Shot Kit	NOSO025NOS

Sniper™ Nitrous Systems

Description	Part #
Sniper Kit – Adjustable from 50-75 HP	
Fits Standard Holley 4-Barrel Carb/Square bore apps.	NOSO7001NOS
Fits Quadra-jet 4-Barrel Carb/Square bore apps.	NOSO7004NOS

Cheater System "The World's Most Popular"

The Cheater System was designed with the serious racer in mind and is the most popular nitrous system available. The Cheater uses larger nitrous and fuel solenoids than our Powershot systems and can be adjusted in a matter of seconds to any desired power level from 150-250 extra hp by changing fuel and nitrous jets.

Description	Part #
NOS Cheater Systems	
V8 Holley and Carter AFB (late) 4bbl	NOSO2001NOS
V8 Holley Dominator 4bbl	NOSO2002NOS

The Powershot "The Low-Buck Option"

The Powershot kit was designed as an excellent entry level system for use on stock or slightly modified carbureted engines. A safe, high quality , and easy to install kit, the Powershot offers you up to 125hp on V8 applications at the touch of a button.

Description	Part #
NOS Powershot Systems	
V8 Holley 4bbl (125hp fixed)	NOSO5001NOS

Super Powershot "The Adjustable Option"

Adjustability is what this system is all about. Choose the power level that best suits your needs. 50-150hp levels can be increased or decreased in a matter of seconds. The Super Powershot System is an excellent choice for the drag strip.

Description	Part #
NOS Super Powershot Systems	
V8 Holley and Carter AFB (late) 4bbl (adj to 150hp)	NOSO5101NOS

Sportsman & Pro Fogger Systems

Sportsman Fogger and Pro Shot Foggers are for the serious nitrous user. Each kit comes with hardware to plumb directly into your intake manifold.

Part #	Description
Sportsman Fogger™	
NOS05088NOS (A,B)	V8 small block, 50-250 Extra Horsepower
Pro Shot Fogger™	
NOS02462NOS (A,B)	Fogger Pro Shot, 150-500+ Extra Horsepower

Note A: Available with 15 lb. bottle. Add -15 to part number.
Note B: Available with 20 lb. bottle. Add -20 to part number. NOS Big Shot Single

NEW! Pro Shot & Pro Race Fogger Systems

Pro Shot Fogger and Pro Race Foggers are for the serious nitrous user. Each kit comes with hardware to plumb directly into your intake manifold.

Part #	Description
Pro Race Fogger™ Professional Kits	
04466NOS	150-500+ Extra Horsepower, Soft Plume Nozzle, no bottle

NEW! Crosshair™ Nitrous Plate Systems

The CrossHair™ plate systems feature double down nitrous bars for improved distribution and atomization, along with new track tested tune up's. The New CrossHair™ nitrous plates will give you the power you need, when you need it.

CrossHair™ kits come with a blue anodized CrossHair™ plate in Holley 4150™ bolt patterns, new improved solenoids, jetting, plumbing and hardware. Available separately, NOS offers electrical wiring kits and Bottle kits in a variety of combinations so you can make up your own custom kit combination.

Description	Part#
Crosshair Plate 4bbl flange Nitrous System	02153NOS
Crosshair Plate Dominator flange Nitrous System	02154NOS

NEW! LS Nitrous Systems

The NOS LS plate system uses a billet plate with no spray bars. This unique design allows better atomization which prevents fuel puddles in your manifold and provides the best cylinder to cylinder distribution for maximum power. This is no ordinary low HP kit. The plate and Solenoids supplied will easily support 200HP.

NOTE: To install 05169NOS plate kit, minor fabrication is required to the idler pulley for throttle body clearance on the 2010 Camaro.

Description	Part#

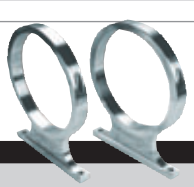
Nitrous Bottle Blow Down Tube

Part #	Description
Blow Down Tube	
NOS16160NOS	Nitrous bottle blow down tube

Billet Aluminum Bottle Brackets

The ultimate mount for your NOS bottle. Precision CNC machined from solid billet aluminum.



Part #	Description
Bottle Brackets	
NOS14130NOS	Billet Aluminum Bracket set for 10 lb. and 15 lb. (7" dia.) bottles

Octane Booster

Each 12 oz. bottle treats 16 gallons of gas and is catalytic converter and 02 sensor friendly. Raise your octane 2-7 points.

Part #	Description
Octane Booster	
PTX12002	Street Formula (6 per case) adds 2-3 points
PTX12007	Off-Road Formula (6 per case) adds 3-5 points
PTX12010	Rasing Formula (6 per case) adds 4-7 points

THE LEADER IN NITROUS

Fogger Nozzles

- Original Fogger & Fogger2 Nozzles are made from brass and sport a coated black finish
- The Fogger Annular Discharge Nozzle features a radial pattern of orifices that provide superior atomization of the nitrous and fuel mix
- Soft Plume 90º Fogger Nozzles are Ideal for E.F.I. applications

Part #	Description
Replacement Fogger Nozzle	
NOS13700NOS	Fogger™ nozzle, std.
NOS13700BNOS	Fogger2™ nozzle, std.
NOS13700RNOS	Annular Discharge Fogger™ nozzle, Stainless Steel
NOS13716NOS	Soft Plume 90º Fogger™ nozzle, Stainless Steel

Electrical Components

NOS15651

NOS15606

NOS15610

Part #	Description
Electrical Components	
NOS15606NOS	Covered Toggle Switch
NOS15610NOS	Push-button (momentary) Switch
NOS15618NOS	30-amp Relay Assembly
NOS15651NOS	Remote Nitrous Push-button (waterproof)
NOS15750NOS	Fuel Pressure Safety Switch (5PSI-normally open)

Purge Valves

The primary purpose of a purge valve is to release trapped air or gaseous nitrous from feed line(s). Helps to ensure consistent performances, and it looks cool, too. You've probably seen the Pro Mod guys do it. Includes all required components.

Part #	Description
Purge Valves	
NOS16030NOS	Purge valve for -4AN line
NOS16032NOS	Purge valve for -6AN line

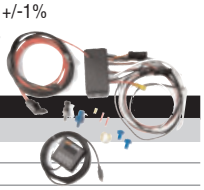
Ntimidator™ LED Lighted Purge Kit

- Unique purge kit utilizing a bright blue LED to illuminate a 4 foot plume of nitrous from the purge nozzle - striking fear into all nighttime competitors!
- Installs easily with common hand tools to get you out of the garage in no time!
- Fits all nitrous kits with a -4AN feed line.

Part #	Description
Purge Valves	
NOS16033NOS	Accessory, LED purge kit
NOS16039NOS	Blue LED only

P.O.D (Pressure On Demand) Kit

- Pressure sensor for accurate pressure readings within +/-1%
- Temp sensor for monitoring actual bottle temperatures
- Works with any brand bottle opener
- Controls bottle heater & opener



Part #	Description
Purge Valves	
NOS14180NOS	P.O.D Only
NOS14181NOS	P.O.D With Heater
NOS14182NOS	P.O.D With Heater & Opener

Mini 2-Stage Progressive Nitrous Controller

- Pressure sensor for accurate pressure readings within +/-1%
- Temp sensor for monitoring actual bottle temperatures
- Works with any brand bottle opener
- Controls bottle heater & opener

Part #	Description
Nitrous Controller	
NOS15974NOS	Mini 2-Stage Progressive Nitrous Controller

Bottle Blankets

Insulating the bottle helps maintain pressure by keeping heat in the bottle when it's cold, or heat out when it's hot outside. The blankets are made of a rugged, easily cleaned Nylon outer shell with insulation. It's also an excellent "dress up" accessory —and perfect for "covering" battle-scarred bottles.

Part #	Description
Bottle Blankets	
NOS14165NOS	7" dia. blanket for 10 lb. bottle

Standard Replacement & Quick Release Bottle Brackets

NOS brackets are designed to securely hold your nitrous bottle at the proper angle for maximum flow through the siphon tube. Standard brackets available made of steel with black vinyl coating, or Nylon. Quick-release aluminum models also available.

Part #	Description
Bottle Brackets	
NOS14120NOS	10 lb. - old style bottle, 6-3/4" dia. (steel)
NOS14125NOS	10 lb. & 15 lb. - new style bottle, 7" dia. (steel)
NOS14147NOS	Quick Release hinged aluminum bracket for carbon fiber bottle

Carbon Fiber Bottles

For optimum weight reduction and distinctive high-tech looks, these DOT-approved NOS carbon fiber-wrapped bottles are it! Weighs about half of standard bottle (empty).

Part #	Description
Carbon fiber wrapped Bottle	
NOS14747NOS	12.5 lb. Capacity, 24-3/4" x 6-5/8" Diameter

Replacement Flare Jet Sets For Plates & Foggers

Part #	Description
Flare Jets	
13721NOS	Super Powershot 100,125,150HP
13726NOS	Cheater 150, 180, 210, 250HP
13760-24-8NOS	Flare jet 8 pack .024

Performer Nitrous Systems

For carbureted V8 applications with standard flange, spread-bore carburetors. Three ranges of adjustability provide power increases from 50-100 extra hp by changing fuel and nitrous jets. A 1/2" spray bar plate fits between your carb and manifold, makes it among the easiest to install.

System includes: 10 lb capacity nitrous bottle (shipped empty), nitrous and fuel solenoids, spray bar plate, aircraft quality steel braided hose, nitrous and gasoline filters, jet selection, aircraft quality fittings, and all necessary switches, brackets, and hardware for a complete installation.

Description	Silver #	Polished #
Performer Single Stage		
Standard flange carburetor (50-75-100 hp)	EDL70001	EDL70031
Spread-bore carburetor (50-75-100 hp)	EDL70002	EDL70032
Performer RPM Single Stage		
Standard flange carb. (100-150-175-200-250 hp)	EDL70050	EDL70033

4500 Series carburetor (100-150-175-200-250 hp)	EDL70053	EDL70035
Performer RPM Dual Stage		
Square-bore carburetor (100-250 hp)	EDL70003	
4500 Series carburetor (100-250 hp)	EDL70004	

Edelbrock Performer RPM Dual-Quad Nitrous Kits

These kits are designed to fit dual-quad applications with either standard flange or 4500 series carbs. The nitrous plates may be mounted in a front-to-back or side-to-side configuration with #EDL70092, or side-to-side only with #EDL70090. Each kit comes complete with everything you need including a 10-pound nitrous bottle (shipped empty) and four stages of jetting ranging from 100 hp to 250 hp.

Application	Part #
Performer RPM dual-quad nitrous kit for 4150 flange	EDL70090
Performer RPM dual-quad nitrous kit for 4500 flange	EDL70092

05-07 Ford Mustang GT

EFI Dry Nitrous System (80 HP)

Performer EFI Dry Nitrous Systems supply nitrous directly into the intake stream. The extra fuel is supplied through the injectors by raising the pressure or changing the duty cycle, making them the safest and most reliable way to get power gains. Kit includes a 10-lb coated aluminum bottle, Performer solenoids, steel braided hose, dry tip, filter, stainless steel jet, fittings, switches, brackets & hardware.

Application	Part #
05-07 Ford Mustang GT EFI Dry Nitrous System (80HP)	EDL70410

EFI Dry Nitrous Systems

Original equipment-friendly nitrous systems for fuel-injected factory hot rods such as the Z-28 Camaro, 4.6/5.0 Mustang and Sport Compacts. Designed to interface with the on-board powertrain computer, producing an emission-friendly nitrous boost from 50 to 150 hp. By introducing a "dry" charge of nitrous oxide, Performer EFI nitrous kits provide even distribution to each cylinder and won't harm emissions components, such as catalytic converters and oxygen sensors.

System includes: 10 lb capacity nitrous bottle (shipped empty), nitrous solenoid, aircraft quality steel braided hose, nitrous filter, jet selection, aircraft quality fittings, and all necessary switches , brackets, and hardware for a complete installation.

Part #	Description
Performer EFI Dry Nitrous Kits	
EDL70202	1997-04 Corvette C5 with LS1 or LS6 (75-100-125 hp)
EDL70203	2004-06 Pontiac GTO (75-100-125 hp)
EDL70200	**1998-02 LS1 Camaro/Firebird (80-100-125 hp)**
EDL70205	1993-97 LT1 (80HP)
EDL70211	2002-03 Chevy Cavalier Ecotec 2.2L Nitrous Dry System (40-60 hp)
EDL70400	1986-95 Mustang 5.0L & 96-98 4.6L (80 hp)
EDL70402	1996-95 Ford 5.0L and 96-98 4.6L Nitrous Dry System (150 hp)
EDL70403	1999-05 Ford F-150 SVT Lightning (80 hp)
EDL70404	2003-04 Ford Mustang Cobra SVT (80-100 hp)
EDL70405	1999-04 4.6L Mustang (80 hp)
EDL70406	2003 Mercury Marauder Nitrous Dry System (80 hp)
EDL70408	2000-04 Ford Focus Z-Tec (50 hp)
EDL70600	2001-03 PT Cruiser & Dodge Neon (50 hp)
EDL71000	Universal Sport Compact Kit w/ Silver Bottle (50-60-70 hp) (4 cyl. engines with return style fuel system and a vacuum compensating fuel pressure regulator)
EDL71006	Same as above w/ Polished Bottle

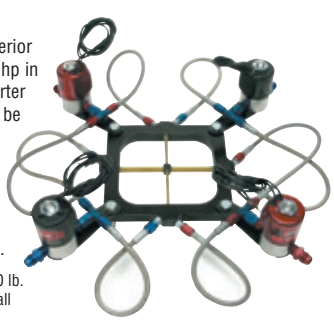
EFI Wet Nitrous Systems

Performer Nitrous Systems are the best way to get a major power increase in your Sport Compact. The nitrous system interfaces with the OE fuel system and increases fuel flow to the existing fuel injectors when the system is armed and triggered.

System includes: 10 lb capacity nitrous bottle (shipped empty), nitrous solenoid, aircraft quality steel braided hose, nitrous filter, jet selection, aircraft quality fittings, and all necessary switches , brackets, and hardware for a complete installation.

Part #	Description
71001	2002-03 Acura RSX, including Type S (40-70 hp)
71001	2003 Honda Civic Si (40-70 hp)
71002	2001-03 Honda Civic EX (40-60 hp)
71003	2002-03 Subaru WRX (60 hp)
70214	2005-07 Chevy Cobalt (40-60 HP)
71820	Universal 4/6/8 Cyl with 10-lb. powder-coated bottle (50, 60, 70 hp)
71008	Universal 4/6/8 Cyl with 10-lb. polished bottle (50, 60, 70 hp)

Victor Jr. Plate System



All new Edelbrock nitrous system has superior distribution characteristics for 400+ more hp in competition engines. Features include shorter spray bars allowing more liquid nitrous to be injected into the intake for more even distribution across the plenum, a more balanced air/fuel ratio and a quicker response time. With four nitrous and four fuel jets, this system has more tuning capabilities then most other plate systems.

System includes everything shown here plus a 10 lb. nitrous bottle (shipped empty), jet selection and all necessary hardware for a complete installation.

Part #	Description
Victor Jr. Plate System	
EDL70055	For 4500 Series carburetors (200-300-400+ hp)
EDL70056	For Standard Flange Square-Bore carburetors (200-300-400+ hp)

Nitrous Upgrade Kits

Upgrade kits include everything needed to upgrade Performer nitrous systems to a Performer RPM system including plates, solenoids, jets and all necessary hardware.

Part #	Description
Nitrous Upgrade Kits	
EDL70021	Performer RPM Square-Flange Upgrade kit (100-250 hp)
EDL70022	Performer RPM Spread-Bore Kit Upgrade kit (100-175 hp)
EDL70206	EFI 150 hp Upgrade for the LT1 Camaro/Firebird System #70205
EDL70401	EFI 150 hp Upgrade for the Ford 5.0/4.6L System #70400

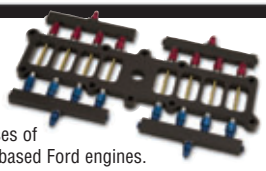
Microswitch and Bracket Kits

Designed especially for Edelbrock and other carburetors, these kits include a snap-action microswitch, mounting hardware and a CNC-machined, red anodized billet aluminum bracket.

Part #	Description
Microswitch and Bracket Kits	
EDL72279	Standard Microswitch w/ Universal Bracket
EDL72280	For Edelbrock PerformerAVS Thunder Series carb.
EDL72281	For Edelbrock 4500 Series carburetors
EDL72282	For Holley Standard Flange carburetors
EDL72284	For Barry Grant Race Demon carburetors
EDL72285	Fpr Barry Grant King Demon carburetors

Nitrous Accessories

Performer RPM Ford 5.0L Nitrous Kit



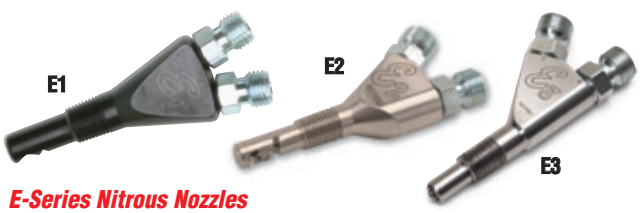
This nitrous kit uses a 9/16" thick spray-bar plate between the upper and lower manifold of our Performer 5.0 #3821, Performer RPM 5.0 #7126 or Performer RPM II 5.0 #7123 for power increases of 150, 200 or 300 hp in street or competition 5.0L based Ford engines. Each cylinder is individually tunable allowing for maximum power and efficiency.

Part #	Description
Performer RPM Ford 5.0L Nitrous Kit	
EDL70057	Performer RPM 5.0L Ford Nitrous Plate kit for #EDL7126 (150-300 hp)
EDL70058	Performer RPM 5.0L Ford Nitrous Plate kit for #EDL7123 (150-300 hp)

Edelbrock Solenoids

Designed for Edelbrock nitrous systems, these stainless steel solenoids have a very low amp draw. They feature a stainless steel base for corrosion resistance and tighter tolerances, a low current-consumption coil, a teflon plunger for reliability and longevity, and a powder-coated coil cover for durability and appearance.

Part #	Description
Nitrous Solenoids	
EDL72000	Performer Nitrous Solenoid - up to 150 hp with 1/8" NPT inlet & outlet
EDL72001	Performer RPM Nitrous Solenoid - 250 hp+ with 1/4" NPT inlet & 1/8" NPT outlet
EDL72002	Victor Pro "Bottom Exit" Nitrous Solenoid - 500 hp with 1/4" NPT inlet & 1/8" NPT outlet
Fuel Solenoids	
EDL72050	Performer Fuel Solenoid - up to 150 hp with 1/8" NPT inlet & outlet
EDL72051	Performer RPM Fuel Solenoid - 250 hp+ with 1/4" NPT inlet & 1/8" NPT outlet
EDL72052	Victor Pro "Small Base" Fuel Solenoid - 500 hp with 1/4" NPT inlet & 1/8" NPT outlet



E-Series Nitrous Nozzles

Used in all Performer EFI nitrous systems, the patented Edelbrock Series 1 nozzle is one of the most advanced in the industry. Edelbrock Series 1 nozzles are a direct bolt on upgrade for other brands that use a 90˚ 1/8" NPT design. Series 2 nozzles are designed for use in Victor and Super Victor Direct port nitrous systems. The new Series 3 Titanium Direct port Nozzle is the latest design for all out competition, producing the highest power output of any nozzle currently available.

Description	Single #	8-Pack #
E Series 1, 2 & 3 Nozzles		
E1 Aluminum Nozzle 90˚ (1/8" NPT, 1 only)	EDL72550	EDL72560
E2 Steel Nozzle (1/16" NPT, 1 only)	EDL72552	EDL72562
E3 Titanium Nozzle (1/16" NPT, 1 only)	EDL72553	EDL72563

Nitrous Replacement Parts, Bottles & More

Part #	Description
Nitrous Accessories	
EDL72204	Replacement Coil for Performer Nitrous Solenoid
EDL72205	Replacement Coil for Performer Nitrous Solenoid
EDL72206	Replacement Coil for Performer RPM Fuel Solenoid
EDL72207	Replacement Coil for Performer RPM Fuel Solenoid
EDL72210	5 psi Fuel Pressure Safety Switch
EDL72211	7 psi Fuel Pressure Safety Switch
EDL72212	15 psi Fuel Pressure Safety Switch
EDL72213	30 psi Fuel Pressure Safety Switch
EDL72214	50 psi Fuel Pressure Safety Switch
EDL72270	30 Amp Relay Assembly
EDL72271	Lighted Toggle Switch
EDL72272	Covered Toggle Switch
EDL72283	Nitrous Power Panel for 5.0L Mustangs (hides in the ashtray)
EDL72288	4500 Series Two-Solenoid Bracket
EDL72289	Square-flange Two-Solenoid Bracket
EDL72290	Q-Jet Two-Solenoid Bracket
EDL76504	Bottle Nut Combo Wrench with 3AN, 4AN, 6AN and 1-1/4"
EDL76510	-6 AN Purge/Gauge Adapter
EDL76512	-4 AN Purge/Gauge Adapter
EDL76514	-4 AN to 1/8" NPT Filter Fitting
EDL76515	-6 AN to 1/8" NPT Filter Fitting
EDL72705	Nitrous Bottle Blanket for 10 lb. Bottles
EDL72700	Nitrous Bottle Heater for 10 lb. & 15 lb. Bottles
EDL72703	Nitrous Bottle Heater for 2 lb. Bottles

Nitrous System Pressure Gauges

Nitrous System mechanical pressure gauges are an important element in maximizing and tuning your nitrous system. The 1½" gauges may be fitted onto a nitrous bottle or just in front of the nitrous solenoid. A high-quality engineered mechanism provides durability and accuracy. Braided stainless steel lines are recommended for high-pressure applications. 2⅝" gauges come with all necessary adapter fittings.

Part #	Description
1.5" Pressure Mechanical Gauges	
EDL73800	Nitrous Pressure Gauge, 0-1400 PSI
EDL73801	Liquid Filled Nitrous Pressure Gauge, 0-1400 PSI
EDL73825	Fuel Pressure Gauge, High Pressure Fuel Systems 0-100 PSI
EDL73826	Liquid Filled Fuel Pressure Gauge, High Pressure Fuel Systems 0-100 PSI
EDL73831	Fuel Pressure Gauge, 0-15 PSI
EDL73832	Liquid Filled Fuel Pressure Gauge, 0-15 PSI
EDL73801	Liquid Filled Nitrous Pressure Gauge, 0-1400 PSI
2.625" Pressure Mechanical Gauges	
EDL73802	Nitrous Pressure Gauge. 0-1400 PSI
EDL73827	Fuel Pressure Gauge. 0-15 PSI
EDL73828	Liquid Filled Fuel Pressure Gauge. 0-15 PSI
EDL73829	Fuel Pressure Gauge, High Pressure Fuel Systems 0-100 PSI
EDL73830	Liquid Filled Fuel Pressure Gauge, High Pressure Fuel Systems 0-100 PSI

10 lb. Aluminum Nitrous Bottles

Edelbrock nitrous storage bottles are D.O.T. approved aluminum. All aluminum bottles are powder-coated silver or polished and come with a CGA approved valve with built in siphon tube. Pre-installed pressure/temperature venting system in case your bottle is overfilled or if pressure increases beyond the maximum safety level. (All bottles are shipped empty)

Description		
Nitrous Bottles	**Silver #**	**Polished #**
12 oz. unsiphoned w/o guage	EDL72370	EDL72470
2 lb. unsiphoned w/o guage		EDL72460
2.5 lb. w/o guage	EDL72302	
5 lb. w/o guage	EDL72304	
10 lb. w/o guage	EDL72300	EDL72400

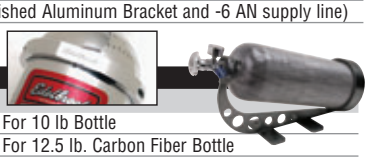
Nitrous Bottle	**Carbon Fiber #**	
12.5 lb. Carbon Fiber w/ guage	EDL72500	

Nitrous Bottle Kits

Part #	Description
Bottle Kits w/ Silver Powder Coated Bottle	
EDL72305	10 lb. Bottle Kit (Red powder-coated brackets and -6 AN supply line)
EDL72309	15 lb. Bottle Kit (Red powder-coated brackets and -6 AN supply line)
EDL72320	10 lb. Bottle Kit (Quick Release Bracket and -6 AN supply line)
EDL72330	15 lb. Bottle Kit (Quick Release Bracket and -6 AN supply line)
EDL72321	10 lb. Bottle Kit (Polished Aluminum Bracket and -6 AN supply line)
EDL72331	15 lb. Bottle Kit (Polished Aluminum Bracket and -6 AN supply line)
Bottle Kits w/ Polished Bottle	
EDL72306	10 lb. Bottle Kit (Red powder-coated brackets and -6 AN supply line)
EDL72307	15 lb. Bottle Kit (Red powder-coated brackets and -6 AN supply line)
EDL72322	10 lb. Bottle Kit (Quick Release Bracket and -6 AN supply line)
EDL72334	15 lb. Bottle Kit (Quick Release Bracket and -6 AN supply line)
EDL72323	10 lb. Bottle Kit (Polished Aluminum Bracket and -6 AN supply line)
EDL72335	15 lb. Bottle Kit (Polished Aluminum Bracket and -6 AN supply line)
Bottle Kits w/ Carbon Fiber Bottle	
EDL72308	12.5 lb. Bottle Kit (Quick Release Bracket and -6 AN supply line)
EDL72340	12.5 lb. Bottle Kit (Polished Aluminum Bracket and -6 AN supply line)

Bottle Brackets



Part #	Description
Bottle Brackets	
EDL72602	Quick Release Bracket For 10 lb Bottle
EDL72621	Quick Release Bracket For 12.5 lb. Carbon Fiber Bottle
EDL72604	Quick Release Bracket For 15 lb. Bottle
EDL72603	Polished Billet Aluminum Bracket for 10 lb. & 15 lb. Bottles
EDL72623	Polished Billet Aluminum Bracket for 12.5 lb. Carbon Fiber Bottle

Refill Pump Station

Comes complete with all the plumbing, hoses, gauge, valve, fittings and bottle stand necessary to transfer nitrous from a mother cylinder to the receiving bottle.

Part #	Description
Refill Pump Station	
EDL78000	Refill Pump Station
EDL78001	Replacement Pump

Premium Performance

AIRAID® Intake Systems are computer designed to give your engine maximum air flow, which means more horsepower, torque and improved fuel efficiency. Every AIRAID® intake system is dyno tested and tuned to provide maximum performance and efficiency. By utilizing computer-aid design, AIRAID® Intake Systems offer unmatched fit and finish, and a lifetime warranty. And each AIRAID® intake provides superior air filtration, since it comes with an AIRAID® Premium Filter featuring our exclusive SynthaFlow® Technology.

- Cold Air Dam Design
- Increased Fuel Efficiency
- SynthaFlow® Technology
- Maximum Airflow & Filtration

EFI POWERJECTION™ III

The new Powerjection III is the first major leap in technology for aftermarket fuel injection systems. It is by far the least expensive and the easiest system to install that is available. The Powerjection III features the Engine Management System (EMS) mounted directly on the throttle body. This eliminates a major portion of the wiring harness found on most EFI systems. The injectors, and the idle air control are contained inside the throttle body and the unit that controls them is attached to the side of the throttle body. Despite its compact size, the EMS is still laptop programmable although this is normally not required with most installations. It is a feature for those enthusiasts who prefer to do their own programming.

For most enthusiasts, the installed program is more than suitable. This, like our other EFI systems, is fully self learning. Install it, fire it up, drive it around for 30 minutes or so and it dials itself in. It continues to fine tune itself as it adjusts to your driving habits and various atmospheric conditions

The Powerjection III, unlike our Powerjection I and II, is not set up for a returnless fuel system. By returnless, we mean you do not need a fuel return line to the gas tank. However, an optional Fuel Returnless System is available that will provide a returnless system on engines making less than 500 horsepower.

A true breakthrough in aftermarket EFI systems!

Part #	Description
AAM70020	750 CFM Powerjection III with die cast throttle body - satin
AAM70021	750 CFM Powerjection III die cast throttle body - polished
AAM70030	Returnless Fuel Kit (Controller, pump, filter, fuel sensor and fittings)
AAM70031	Return Fuel Kit (Pump, filter and fittings)

- A true "no hassle" EFI that actually works as intended.
- Two hours or less installation time.
- Most compact full featured system available.
- EMS (computer) mounts directly on throttle body.
- MAP sensor integral with EMS (computer).
- No welding required to mount O2 sensor.
- Self learning system - no laptop required.
- Programmable with laptop if desired
- Jobber price of only ***$1,495.00!!!***

POWER™ Throttle Bodies

Our new Throttle Bodies are made from permanent mold castings of 356 aluminum. They are offered in all popular sizes for GM LT1/LS1 and Ford Mustang fuel injected engines. Our Throttle Bodies are offered in a polished and satin finish, adding a custom touch to any street machine. Early model Mustang Throttle Bodies include an OEM throttle position sensor. Use the 65mm model for stock manifolds, the 70mm model is ideal with our EFI Mustang Intake System, and the 75mm is for higher horsepower engines which will require matching to the intake port on most manifolds. Note that for street legal applications the 1986-93 Mustang Throttle Bodies must be used with our companion EGR Plates. Throttle bodies not legal for sale or use on any pollution controlled motor vehicles.

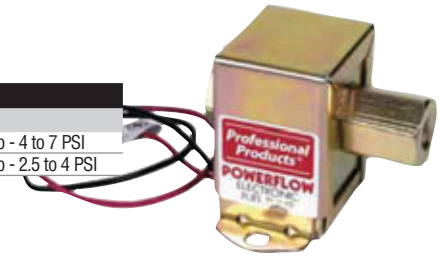
POWERFLOW® Electronic Fuel Pump

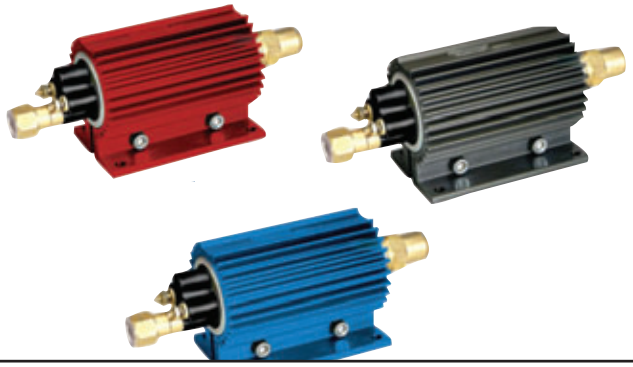
Professional Products now offers two very inexpensive Electronic Fuel Pumps ideal for replacing that stock pump when it dies. Easily installed, the pump comes in two versions. One supplies an working pressure of 4 to 7 psi which is suitable for most carbureted domestic vehicles. The second version supplies a working pressure of 2-1/2 to 4 psi which is used on many carbureted import vehicles.

Part #	Applications #
POWERFLOW ELECTRONIC FUEL PUMP 4-7 PSI	
AAM10700	Electronic Fuel Pump - 4 to 7 PSI
AAM10701	Electronic Fuel Pump - 2.5 to 4 PSI



POWERFLOW® EFI Fuel Pump

The Professional Products pumps are similar in physical size and appearance to Walbro or Airtex pumps with one very important difference. Our pumps have 1/4-NPT pipe threads on both the inlet and outlet port which allows users a wide range of fuel line connection fittings. To connect to a 3/8" hose, use Professional Products fitting #10244. To connect to a -6AN hose end, use Professional Products adapter fitting #15242. All three pumps operate at 45 PSI of fuel pressure. They come with an extruded aluminum mounting clamp which also acts as a heat sink.



Part #	Applications #
POWERFLOW EFI FUEL PUMP	
AAM70150	180 L/H 45 PSI (Red) Up to 460 hp*
AAM70151	220 L/H 45 PSI EFI (Blue) Up to 600 hp*
AAM70152	255 L/H 45 PSI EFI (Black) Up to 700 hp*

*Reduce horsepower ratings by 5% for supercharged or turbocharged applications. Reduce by 30% for E85.

304 Series Honda & Acura Muffler

Made with 304 stainless steel, this performance muffler has offset 2½" flange-mount inlet and centered 3" tip. The high-flow stainless steel core delivers great power and sound. Included in Cat-Back System, or use as the start for a custom system. Measures 12" x 5"x 14½".

Part #	Description
Muffler	
EDL5552	Honda/Acura 304 Series Muffler

Acura Cat-Back Exhaust

Engineered for improved performance and sound in Acura Integras (VTEC and on-VTEC), this Cat-Back System uses our polished 304 stainless steel muffler for a substantial improvement over the factory exhaust. This system will produce great mid to top end gains in horsepower and torque, while remaining C.A.R.B. legal with great powerful sound. Features include: stainless steel, 2⅜" diameter, 17-gage tubing with mandrel-bends for outstanding flow and durability.

Part #	Description
Cat-Back Exhaust	
EDL5752	94-01 Integra (VTEC)
EDL5756	94-01 Integra (non-VTEC)

Rebuildable Race Muffler

These stainless steel competition mufflers are designed especially for high-horsepower racing applications. They are rebuildable and can be mounted to the Racing B-pipe. Edelbrock Rebuildable mufflers feature a straight-through core design for superior flow without restriction and they measure 16" long by 5" diameter. Made of durable stainless steel inside and out.

Part #	Description
Rebuildable Race Muffler	
EDL5538	Victor Series Race Muffler for 3" diameter header collectors
EDL5588	Rebuild kit for Victor Series Race Mufflers (includes stainless steel wool sleeve, Fiberfrax® packing, ceramic cloth, rivets)

Tuner Jet Kit

Edelbrock stainless steel jets are now available in Tuner Kits packaged in reusable, heavy-duty plastic boxes. These new Tuner Kits include a variety of high-quality stainless steel jets to tune your nitrous system. Keep track of your jet changes on our tuning cards included in this great kit.

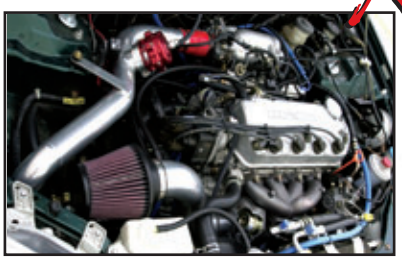
Part #	Description
Tuner Jet Kit	
EDL73003	Master Tuner Jet Kit (includes 328 jets)
EDL73004	Race Tuner Jet Kit (includes 216 jets)
EDL73005	Street Performance Jet Kit (includes 80 jets)

Honda Oil Fill Caps

These oil fill caps let you boast your loyalty to your favorite turbo or all-motor racer. Machined from polished and clear anodized billet 6061 T-6 aluminum and heat treated, the caps are a 2-piece design with a set screw so the oil fill cap can be oriented in the proper direction.

Part #	Description
Oil Fill Caps	
EDL4710	High-Compression
EDL4711	Turbo

PERFORMER X



Performer X Turbo Systems

With over a 60% increase in power, this complete and simple to install Turbocharger Kit gives an option to costly non-emissions legal engine swaps. The Garret T28 ball bearing Turbocharger comes pre-assembled as one unit with a Ni-resist cast exhaust manifold, a cast iron exhaust elbow, and inlet oil and water lines for the simplest possible installation. The system includes a high-performance Performer X intake manifold with four extra injectors and a separate electronic controller to add fuel under boosted conditions. It also includes an oversized Spearco (EDL1500 & EDL1501 only) intercooler and Tial blow off valve. The Edelbrock exhaust manifold and elbow are designed for maximum flow at high velocity for quicker turbo spool-up. We've included a windshield pillar mounted boost gauge and pre-assembled Russell oil, water and fuel lines to make this one of the most complete kits on the market.

Part #	Description
Performer X	
EDL1500	86-00 Honda Civic SOHC V-Tec (D16YB)
EDL1501	99-00 Honda Civic DOHC Si (B16A2)
EDL1502	92-95 Honda Civic SOHC EX/Si (D16Z6)
EDL1505	94-95 Acura Integra GSR (B18C1)
EDL1510	96-01 Acura Integra GSR (B18C1)

Short Shifter

Designed to fit 92-up Integras, this polished billet T-7075 aluminum shifter decreases travel and moves the shift pattern toward the driver with a compound bend for a more comfortable position. The shifter is mounted with two sealed DU® self lubricating bearings for a positive feel. Works with our polished billet shift knob or the stock knob.

Part #	Description	Part #	Description

FLOWTECH EXHAUST
A Holley Performance Brand

PUNISH THE PAVEMENT!

Flowtech I and II Headers

At Flowtech strict quality control is maintained at all levels of fabrication and assembly. All Flowtech headers are constructed from specially selected lengths of .049 computer controlled mandrel-bent cold roll flash-controlled tubing, precision die-cut exhaust port flanges, and the exclusive Flowtech mandrel formed Power Plenum collectors. These components are then precisely assembled and welded in specially designed fixtures to assure you of a precision fit and increased performance following assembly, each header is water leak-tested under pressure to assure problem free performance. After passing quality control testing each set is then finished with an electrostatically applied paint.

Flowtech I headers come with the following features:

- Exclusive Power Plenum Collectors for low back pressure for more horsepower.
- Constructed of specially selected-lengths of .049 cold roll flash controlled mandrel-bent tubing.
- Precision engineered for fit, maximum performance and economy.
- All ports are precisely fitted and finished with a sturdy leak proof port seal.
- All hardware and gaskets included.
- The standard finish is electrostatically applied satin black paint or optionally with Flowtech's ceramic coating.

Block Hugger Headers/Hugger Toobs

Block Hugger headers are ideal for street rods sheer fit and finish is really important. Block Huggers make performance and style easy for engine swaps, and with our new Hugger Toobs you can hook up to an existing exhaust system with ease.

Block Hugger headers come with the following features:

- Precision die-cut exhaust port flanges.
- Computer controlled mandrel bent tubing
- Engineered and tested for leak-proof seal.
- All hardware and gaskets included.
- The standard finish is electrostatically applied satin black paint or optionally with Flowtech's ceramic coating.

Complete the system with Hugger Toobs!

Our Hugger Toobs offer a universal installations solution for all small block Chevy V8 applications (Headers Sold Separately).

- Designed to connect Block Huggers to existing exhaust system.
- Built from thick, heavy-duty 16-gauge mandrel bent tubing.
- Kits sold in pairs, complete with flanges and premium gaskets.
- Universal block Header installation kit for small block 265-400 Chevy V8.

HEDMAN HEDDERS

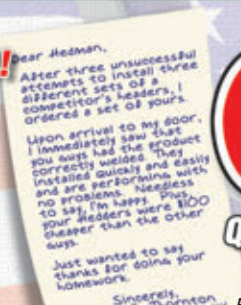
HEDDERS THAT WORK!
HEDDERS THAT FIT!
HEDDERS THAT LAST!

Hedman Hedders are designed to fit right in to the application for which they were expertly designed. Since 1954, Hedman has been pioneering the field of automotive exhaust products, and the listing on this page is only a small sample of the many applications Hedman manufactures here in the U.S.

Hedman Hedders doesn't only manufacture the most applications, but they also offer there most popular models as Elite Heavy-Duty hedders, Tork-Step Stepped Tube Hedders, and all Hedman Hedders are available HTC Coated.

Hedman Hedders are so reliable, they're guaranteed for life.



Dear Hedman,
After three unsuccessful attempts to install three different sets of a competitor's headers, I ordered a set of yours.
Upon arrival to my door, I immediately saw that you guys had the product correctly welded. They installed quickly and easily and are performing with no problems. Needless to say, I'm happy. Plus your Hedders were $100 cheaper than the other guys.
Just wanted to say thanks for doing your homework.
Sincerely,
J. B. Thornton
Louisville, KY

Actual customer letter.

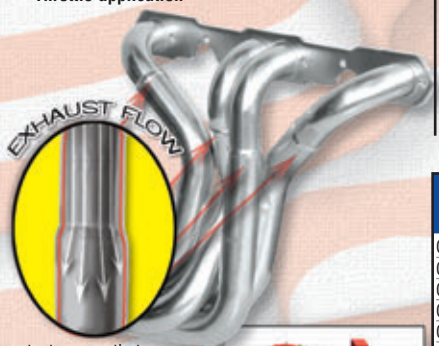
HEDMAN HEDDERS

QUALITY, AMERICAN-MADE HEDDERS SINCE 1954

MORE TORQUE GAINS THAN ANY STANDARD TUBE HEDDER DESIGN

TORK STEP TECHNOLOGY

- Improves Combustion Efficiency
- Adds Torque Throughout Entire Torque Range
- Increases Horsepower Output
- Quicker Acceleration Times Improved Fuel Efficiency
- State-of-the-art in Hedder Design
- Race Exhaust Technology For the Street
- A must have for any Towing or Wide-open Throttle application



Dyno tests prove that a strategically positioned change in the primary tube broadens your engine's overall torque curve. After installing **TORK-STEP**™ Hedders, a Small Block Chevy engine will experience a "Torque Boost" in the 2800 to 3200 and 3600 to 4000 RPM ranges. The result is a solid increase in low RPM towing and pulling power, increased RPM recovery rates upon gear shifts, and more power during downshifts for passing. All these gains with no loss of torque during the mid-RPM range.

EXTREME-DUTY HEDDERS THAT ARE DESIGNED TO TAKE THE ABUSE

HEDMAN ELITE HEDDERS

Hedman *ELITE*™ Hedders are made with ultra-thick 14 gauge tubing and bulletproof 3/8" flanges, then thermal coated to resist intense heat and adverse elements. A must for any hi-performance or towing application!

HEAVY-DUTY 3/8" FLANGES
These thick 3/8" flanges stand up to the brutal punishment and vibration and prevent warping for a leak-free seal.

CERAMIC-METALLIC THERMAL COATING
Ceramic-Metallic coating to protect your hedder investment against the elements, and withstand temperatures up to 1300° F.

ULTRA HEAVY-DUTY 14 GAUGE TUBES
Heavy gauge tubes prevent burn-through caused by the excessive heat produced in high performance and towing applications.

FINISH GUARANTEED FOR 5 YEARS

HEDMAN HTC HEDDERS

- Protection up to 1300°
- Won't Chip or Peel
- Tougher than Chrome
- Won't "Blue" like Chrome
- Easy to Maintain
- Better Heat Insulation
- Increases exhaust velocity to produce more horsepower.
- Available on all Hedman Hedders
- Guaranteed Against External Rust-Through

Super Competition Headers

Hooker Super Competition Headers are the World's Best Header! Racer's for years have relied on Hooker's quality, performance and durability. This is why Hooker is the winningest header manufacturer in automotive drag racing history.

Super Competition headers are made from "tuned length" primaries from lightweight 18 gauge mild steel tubing and are available in high heat black paint or Hooker's Metallic Ceramic Thermal Barrier Coating. Our flanges are 5/16" thick and have machined weld rings around the port for a leak free system.

FLOWMASTER INC.

70 Series™ Big Block II® - High Performance Street

The 70 Series Big Block II is designed using a large Flowmaster case for maximum valume and efficiency. The caase is two inches narrower than Flowmaster's original Big Block muffler, making for easier installation in tight applications. The 70 Series offers a mild mellow exhaust tone and incorporates a resonant Tuning Chamber for reduced interior sound levels.

5" Thick - 10" Wide - 28" Overall Length - 22" Case Length

80 Series™ Cross-Flow - Performance Street

The 80 Series performance street muffler is specially designed for applications where the muffler must be mounted transversely (cross-flow) behind the rear axle, either to match an OEM system or for increased ground clearance. The 80 Series is a true cross-flow with single or dual inlet/dual outlet configurations and produces an aggresive muscle car sound.

4" Thick - 9.75" Wide - 21" Overall Length - 15" Case Length

No matter what vehicle you drive, Flowmaster has a system specifically for it with the tone you desire.

Looking for the famous, full-on Flowmaster tone? Look no further! American Thunder Kits will deliver the aggressive tone you want, as well as the performance you demand. Force II systems are designed to provide plenty of Flowmaster tone under acceleration but produces lower sound levels while cruising. All Flowmaster's systems will improve acceleration and passing power, as well as help improve fuel mileage. Every system is individually engineered and dyno-tested for each application and includes all required mounting hardware. All tubing is mandrel bent for superior exhaust gas flow, and is a key to the system's performance improvements. Both mufflers and tubing are fabricated from aluminized steel for corrosion resistance.

40 Series™ - Performance Street & Strip - The "Original" Two Chamber

The 40 Series is the most aggressive sounding street and strip muffler in Flowmaster's product line. If you are looking for the original "Flowmaster Sound" then the 40 Series is the one. The performance street and strip muffler will generate interior resonance within the vehicle. So if you want to really hear your exhaust system inside as well as outside the vehicle the 40 Series is for you.

4" Thick - 9.75" Wide - 19" Overall Length - 13" Case Length

50 Series™ with Delta Flow - Performance Street & Strip (Some Available in 409 Stainless Steel)

The Flowmaster 50 Series Delta Flow muffler is designed to produce a mellow, deep sound in most vehicle and truck applications. It is milder than the 40 Series mufflers on the outside of the vehicle, and is significantly quieter inside the vehicle, yet it still has the right performance sound and feel which is achieved with the use of a special Resonant Tuning Chamber within the muffler. Performance is comparable to the 40 Series.

NEW Titanium

TITANIUM EXHAUST WRAP

Titanium Wrap is the most advanced exaust wrap available. Designed to keep heat in the exhaust and evacuate it out of the engine compartment. The Titanium T3 Turbo Shield keeps your turbo running at its coolest.

Part #	Description
DES.010126	Titanium Exhaust Wrap 1in x 50ft
DES.010127	Titanium Exhaust Wrap 2in x 50ft
DES.010128	Titanium Exhaust Wrap 1in x 15ft
DES.010129	Titanium Exhaust Wrap 2in x 15ft
DES.010140	Titanium T3 Turbo Shield
DES.010141	Titanium T3 Turbo Shield Kit

EXHAUST WRAP

Wrapping headers helps reduce underhood heat and promotes cooler air intake temperatures for more power. Withstands 1200ºF of direct heat and protects underhood components.

Part #	Description
DES.010101	1˝ x 50´ roll
DES.010102	2˝ x 50´ roll
DES.010104	6˝ x 100´ roll
DES.010105	1˝ x 15˝ Short
DES.010106	2˝ x 15˝ Short

Part #	Description
DES.010107	1˝ x 50´ Black
DES.010108	2˝ x 50˝ Black
DES.010120	1˝ x 15´ Black
DES.010121	2˝ x 15´ Black

HT SILICONE COATING (High TempSpray)

Used to seal and protect exhaust wrap against hot oil spills, abrasion while prolonging the lifespan of the wrap. Many other uses.

Part #	Description
DES.010301	Black-12 oz
DES.010302	Aluminum-12 oz
DES.010303	White-12 oz

LOCKING TIES™ (Stainless Steel)

Ideal to secure exhaust wrap and many other uses. Made of high-grade stainless steel and withstands temps up to 2500ºF.

Part #	Description
DES.010201	8˝ (8 per pack)
DES.010202	14˝ (4 per pack)
DES.010205	Combo Kit P(8) 8" Stainless Ties (4) 14" Ties

PROTECT-A-BOOT™ & PROTECT-A-BOOT XL

Protects spark plug boots and wires from damage caused by the extreme temperatures created by headers and exhaust manifolds (up to 1200º F). Fits most boots whether straight or 90º angle.

Color/Size	2 Cylinder Kits	8 Cylinder Kits
Silver 6"	DES.010501	DES.010502
Black 6"	DES.010511	DES.010512
Red 6"	DES.010521	DES.010522

XL Silver 8"	DES.010503	DES.010504

HEAT SCREEN™ (Aluminized Mylar Radient Matting)

Used to reflect radient heat up to 2500ºF. Perfect for floor boards, under carpet, body panels, painted surfaces,& more. Secure with DEI's Heat Resistant Sealant or spray adhesive or fasteners.

Part #	Description
DES.010401	36" x 40" Mat
DES.010410	Heat Resistant Adhesive
DES.010490	Spray Adhesive- 10 oz

HEAT SHEATH™

Hi-temp fiberglass fabric bonded to an aluminum material to reflect direct heat up to 500ºF. Designed to slide over and protect wires, cables, hoses, fuel lines and more. Fireproof and also protects against abrasions and hot oil spills.

Part #	Description
DES.010418	1/2" Dia. x 3'
DES.010403	3/4" Dia. x 3'

Part #	Description
DES.010404	1-1/4" Dia. x 3'

Other sizes and bulk lengths available.

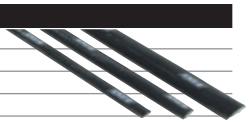
COOL-TAPE™

Can be used to directly shield any item to be protected against radiant heat. Cool-Tape can reflect 30% more heat than competing brands; up to 1000º F.

Part #	Description
DES.010408	1-3/8" x 15´ roll
DES.010416	1-3/8" x 30´ roll
DES.010413	2" x 60´ roll

FIRE SLEEVE & TAPE KIT

Fire sleeve can be used to bundle and insulate hoses, cables, oil and fuel lines from extreme heat. Woven braided fiberglass material coated with oxide silicone rubber withstands direct heat to 500ºF. Includes 16" lenth of fire tape for sealing



Part #	Description
DES.010470	Fire Sleeve 3/8" ID x 3´ Kit
DES.010472	Fire Sleeve 5/8" ID x 3´ Kit
DES.010474	Fire Sleeve 1" ID x 3´ Kit
DES.010476	Fire Tape 1" wide x 36´

BOOM MAT – Performance Acoustical Material

Eliminates sqeaks, rattles, vibrations and unwanted engine and road noise. No surface prep needed. Simply trim, peel and stick. Boom Mat is also an excellent thermal insulator and sound absorber.

Part #	Description
DES.050200	Boom Mat 12" x 11-1/2" (2 pack)
DES.050202	Boom Mat 12" x 11-1/2" (4 pack)
DES.050204	Boom Mat 12" x 11-1/2" (8 pack)
DES.050206	Boom Mat 12" x 23" (6 pack)
DES.050210	Boom Mat 12" x 23" (10 pack)
DES.050212	Boom Mat 12" x 23" (20 pack)

Speaker Baffles

Made of soft-cell poly foam, baffles seal out dirt & moisture serving as a water-tight protective shell for speakers. Improves speaker performance & helps reduce reverberation.

Part #	Description
DES.050311	4" Round Slim
DES.050320	5-1/4" Round
DES.050321	5-1/4" Round Slim
DES.050330	6-1/2" Round

DES.050331	6-1/2" Round Slim
DES.050341	6-3/4" Round Slim
DES.050370	6" x 8" Oval
DES.050380	6" x 9" Oval
Other sizes available	

FLOOR & TUNNEL SHIELD

Constructed of embossed 10 mil aluminum bonded to 1'8" fiberglass insulation & only 3/16" thick. Withstands direct heat up to 1750ºF with self adhesive backing that holds past 450ºF. Perfect for under hoods, fuel cells, firewalls, under floor pans, near exhaust system & much more. Extremely easy to work with. Just trim, peel & stick.

Part #	Description
DES.050501	2´ x 21˝ (3.5 sq. ft.)
DES.050502	4´ x 21˝ (7 sq. ft.)
DES.050503	4´ x 42˝ (14 sq. ft.)

VERSA-SHIELD™

Designed to prevent starter and solenoid failure due to damaging radiant heat. Constructed using an aluminizrd reflective material along with an insulation barrier, Versa-Shield is capable of protecting up to 2000°F of radiant heat.

Part #	Description
DES.010402	Versa-Shield™ (7" wide x 24" long)

Reflect-A-Gold™

Light weight polymer material that can handle temps up to 850ºF & reflects up to 80% of the heat. Self adhesive. Trim, peel & stick.

Part #	Description
DES.010391	12" x 12" Sheet
DES.010392	12" x 24" Sheet
DES.010393	24" x 24" Sheet
DES.010394	1-1/2" x 15 ft Sheet
DES.010395	1-1/2" x 30 ft Sheet
DES.010396	2" x 15 ft Sheet
DES.010397	2" x 30 ft Sheet

MBRP INC.
PERFORMANCE EXHAUST

Available For:

Performance Gas Cool Duals

Bolting on dual exhaust on your gas powered truck has never been easier than with MBRP's Cool Duals for your late model foreign or domestic pickup truck. Designed as a simple bolt on installation, our Cool Duals performance exhaust systems work with factory installed hitches and spare tires and install with simple hand tools. For the ultimate in looks and performance look no further than MBRP Performance Exhaust.

Performance Gas Singles

MBRP's single side exit exhausts are some of the highest flowing kits on the market for today's late model pickup trucks. Featuring mandrel bends and one of the most efficient mufflers available, these single side exit exhausts increase the sound and performance of your ride. Available in both stainless steel and heavy gauge aluminized steel and finished off by a mirror polished T304 stainless tip. Settle for nothing less than MBRP for your gas powered truck!

Flowtech Raptor Mufflers

If you want a mean muffler that won't tear the guts from your wallet, get a Raptor -- and watch out!

Flowtech's new Raptor Turbo Performance Muffler features a unique sound rib case design and aluminized, lock seal construction. It offers gigantic, high output flow tubes to provide more horsepower, better mileage and a sound of pure performance.

- Free-flowing inner pass tubes up to 2 1/2" inner diameter.
- Low restriction, reduces backpressure.
- Heavy gauge ribbed case for durability and sound control.
- Great performance sound.
- Bi-directional for easy installation.

Description	Part #
Raptor Muffler- Case Size 4 1/2"High x 10"Wide x 13"Long	
2" offset - 2" center Universal muffler	FLW50050FLT
2 1/4" offset - 2 1/4" center Universal muffler	FLW50051FLT
2 1/2" offset - 2 1/2" center Universal muffler	FLW50052FLT
3" offset - 3" center Universal muffler w/3" core	FLW50054FLT

2005-07 Mustang Set

Flowtech Terminator Mufflers

The Terminator is constructed entirely of super thick, fully welded aluminized steel, with huge 3" inner pass tubes that reduce backpressure and increase horsepower like no other muffler can. Put a couple of Terminators behind your powerplant and you'll hear a bark that will scare the meanest junkyard dog in town!

- Fully Welded for Strength and Durability.
- Thick Aluminized Steel Construction
- Huge 5" x 11" x 15" Case

Description	Part #
Terminator Muffler - Case Size 15"Long x 11"Wide x 5"High	
2-1/4" Center - 2-1/4" offset	FLW50121FLT
2-1/2" Center - 2-1/2" offset	FLW50122FLT
3" Center - 3" offset	FLW50130FLT
05-07 Mustang GT Terminator Muffler Set	FLW50253FLT
Mustang 5.0L 2-1/4"	FLW50151FLT
Mustang 5.0L 2-1/2"	FLW50152FLT
82-92 Camaro/Firebird 2-1/2"	FLW50162FLT
88-95 Chevy/GMC Trucks 3"	FLW50170FLT

Flowtech Purple Hornies

The classic Purple Hornie tubular design glasspack mufflers give sound and performance gains that are more than impressive--they're wild! The 16-gauge 3 1/2" diameter steel shell encloses an interior spiral louvre baffle design that increases exhaust velocity while decreasing backpressure, projecting the sound waves into a temperature fibermat material. Available in an 18" case length with 2 1/4" slip fit or choose from 3 different style of 3" three-hole direct to header mount designs.

- Rich, powerful sound!
- Decreases backpressure to increase horsepower!
- Distinctive Purple finish!

Description	Part #
Purple Hornies	
Slip Fit Muffler	FLW50225FLT
3" 3 hole header muffler	FLW50230FLT
3" 3 hole turnout header muffler	FLW50231FLT
3" 3 hole Jeep header muffler	FLW50232FLT

Flowtech Red Hots

Red Hots from Flowtech may be the best muffler value on the market today. The classic design includes thick, long-lasting, high heat CeramaGlass packing wrapped around a power louver baffle. Backpressure is decreaseed to increase flow, help boost power and they sound RED HOT!

- Delivers Rich, powerful, RED HOT sound!
- Low backpressure to increases performance
- RED HOT looks, RED HOT Value

Description	Part #
Purple Hornies	
Slip Fit Muffler 2" in 2" out	FLW50250FLT
Slip Fit Muffler 2 1/4" in 2 1/4" out	FLW50251FLT
Slip Fit Muffler 2 1-2" in 2 1/2" out	FLW50252FLT

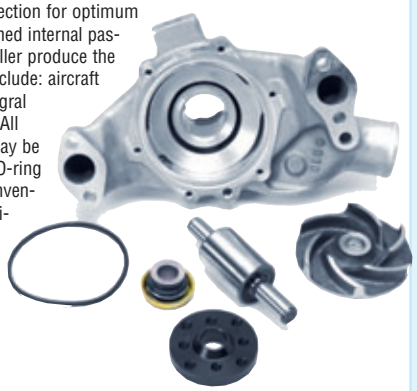
Victor Series Water Pumps

Made in the USA

Using state-of-the-art racing technology, Edelbrock has designed these "super cooling" aluminum water pumps to provide maximum flow, maximum pressure and equal distribution to both sides of the block within 1%. Available for most popular applications, these high-performance pumps flow in only one direction for optimum efficiency. The casting's computer-designed internal passages and CNC-machined cast iron impeller produce the maximum flow rate possible. Features include: aircraft industry clearances; heavy-duty 3/4" integral ball/roller bearings and billet steel hubs. All Edelbrock Chevrolet water pumps that may be used in race applications have a unique O-ring that provides a far superior seal than conventional gaskets. This exclusive O-ring minimizes clearance and maximizes flow for racing and heavy-duty applications. All Victor Series high-performance aluminum water pumps are extremely durable as well as efficient.



Available with Edelbrock PermaStar Finish

PermaStar™ GOODRICH TECHNOLOGY

Water Pumps with EnduraShine™ Finish

Now you can get a show-quality water pumps right out of the box with the custom look you want. EnduraShine is a Vacuum Metalizing Process utilizing a three step process: base coat, aluminum coat, and a clear top coat to enhance abrasion and chemical resistance. The result is a bright, durable, maintenance-free polished aluminum look.

EnduraShine™

EDL8811

EDL8851

Small Block Chevy Standard Rotation

Short-Style Pump (5/8" pilot shaft)	**EDL8810**
EDL8810 w/ PermaStar Finish	**EDL88102**

Fits all 1955-68 small-block Chevy passenger cars, 1969-70 350 c.i.d. Corvette and 1955-72 light duty trucks. Has 3/4" ball/ball bearing. Dimension from block surface to hub: 5-5/8".

Long-Style Pump (5/8" pilot shaft)	**EDL8811**
EDL8811 w/ PermaStar Finish	**EDL88112**

Fits all 1969-87 small-block Chevy or 90˚ V6 passenger cars and 1973-86 light duty trucks. Does not fit Corvette (use #8810 or #8812) or late-model vehicles with serpentine accessory drive belts (use #8881). Has heavy-duty 3/4" ball/roller bearing. Dimension from block surface to hub: 6-15/16".

Small Block Chevy Reverse Rotation

Long-Style Pump (5/8" pilot shaft)	**EDL8881**
EDL8881 w/ PermaStar Finish	**EDL88812**

Fits all 1987-95 small-block Chevy V8s and 90˚ V6s using serpentine accessory drive belt. Does not fit LT1 or Vettes. Heavy-duty 3/4" ball/roller bearing. Dimension from block surface to hub: 6-15/16".

Victor Series Circle Track Water Pumps

These competition water pumps are designed for small-block Chevy circle track and endurance racing applications. They feature a revised impeller entry, a black anodized finish and .100" thicker rear cover for greater durability. Auxiliary water outlets ease fabrication of custom plumbing systems and auxiliary fittings are available as AN or NPT. These water pumps provide max cooling with equal distribution to both sides of the block within 1%. By eliminating hot spots, the engine produces optimum power from every cylinder without detonation and pre-ignition. Other features include cast-iron impeller, billet hub and ball/roller bearings.

NPT aux. fittings at 45° to the block	**EDL8817**
3/8" -8AN at 90˚ to the Block	**EDL8816**

Big Block Chevy Standard Rotation

Short-Style Pump (5/8" pilot shaft)	**EDL8850**
EDL8850 w/ PermaStar Finish	**EDL88502**

Fits all 1965-68 big-block Chevy passenger cars, 1966-72 trucks and 1969-70 big-block Corvette. Has 3/4" ball/ball bearing. Dimension from block surface to hub: 5-3/4".

Long-Style Pump (5/8" pilot shaft)	**EDL8851**
EDL8851 w/ PermaStar Finish	**EDL88512**

Fits 1969-87 big-blocks and some 1988-91 heavy duty trucks with Mark IV engines. Does not fit Corvette or trucks over 1 ton. Includes 3/4" ball/roller bearing. Dimension from block surface to hub: 7-5/16".

Big Block Chevy Reverse Rotation

Long-Style Pump (5/8" pilot shaft)	**EDL8853**

Fits 1988 and later C/K pickups equipped with 454 big-blocks using serpentine drive belt (no "V" Belts). Heavy-duty 3/4" ball/roller bearing. Dimension from block surface to hub: 7-5/16".

Short-Style Pump for Serpentine Belt (5/8" pilot shaft)	**EDL8854**

This pump is ideal for street rods with aftermarket serpentine belt pulleys. Comes with heavy-duty 3/4" ball/ball bearing. Dimension from block surface to hub: 5-3/4".

Ford 5.0L Water Pump EDL8840

5.0L Ford

Ford 5.0L Water Pump (5/8" pilot shaft)	**EDL8840**

Fits all 1986-93 5.0L V8s using a serpentine accessory drive belt. Reverse rotation; not for early model 289-302 V8s. Has heavy-duty 3/4" ball/roller bearing. Dimension from block surface to hub: 5-3/4".

SMALL-BLOCK FORD

For 65-68 289, 68-69 302,'69 351-W	**EDL8841**
EDL88412 w/ PermaStar Finish	**EDL88412**

Right hand inlet with back plate. Dimension from casting to hub: 5.42".

For 1965-67 289 Special	**EDL8842**

"K" engine code with right hand inlet with no back plate. Dimension from casting to hub: 5.16".

For 1970-78 302, 1970-87 351-W	**EDL8843**

Left hand inlet with back plate. Dimension from casting to hub: 5.70".

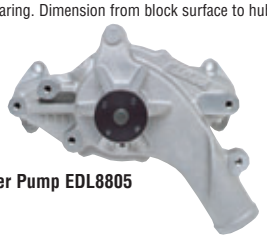
351C & 351M/400 FORD

For 1970-79 351C & 351M/400	**EDL8844**

429/460 Ford

For 1970-92 429/460	**EDL8866**

Left hand inlet and no backing plate. Accepts Ford backing plate #C8SZ-8508A. Fits all 1970-92 429/460 V8s in passenger cars, trucks, vans and motorhomes. Has heavy-duty 3/4" ball/roller bearing. Dimension from block surface to hub: 5-1/2".



Ford Water Pump EDL8805

Ford FE

For 65-76 352/428 Ford FE Engines	**EDL8805**

Fits all 1965-76 Ford FE V8s. Comes with heavy-duty 3/4" ball/ball bearing. Dimension from block surface to hub: 7.56".

Chrysler Water Pump EDL8814

Big-Block Chrysler

For 1958-79 361-440 Chryslers	**EDL8814**

A unique design for maximum cooling and performance. Engineered to directly replace the stock pump in the factory cast-iron housing or work with the Mopar.

Small-Block Chrysler

For Small-Block Chryslers	**EDL8877**

Performance Water Pumps

Small Block Chevrolet

1955-1968 "Short" Design-5/8" Shaft

Reinforced housing for extra strength. Lightweight, low drag impeller adds 14 HP @ 7500 rpm.includes integral cam stop boss.

Part #	Description
MOR63500	Aluminum Water Pump
Replacement Part:	
MOR97450	Gasket and Seal Kit

1971-1982 Corvette Design-3/4" Shaft

Large diameter shaft and extra housing reinforcements for Oval Track applications. Includes integral cam stop boss. Overall length of 5.795" from rear mounting face to hub face

Part #	Description
MOR63505	Aluminum Water Pump
Replacement Part:	
MOR97450	Gasket and Seal Kit

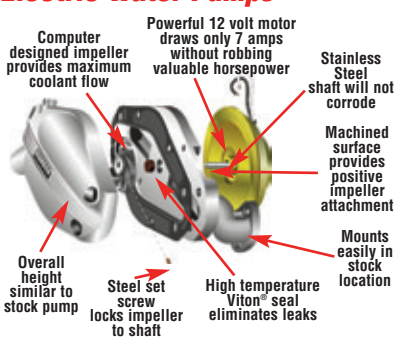
Big Block Chevrolet

1965-68 "Short" Design-5/8" Shaft

Lightweight aluminum housing reduces total engine weight.

Part #	Description
MOR63520	Aluminum Water Pump
Replacement Part:	
MOR97450	Gasket and Seal Kit

Electric Water Pumps



Unique impeller design and polished housing operate as an integral unit to pump approximately 19 gallons per minute. Powerful 12 volt electric motor eliminates V-belt drive. Draws only 7 amps, allowing the battery to remain fully charged during racing without an alternator. Mount in stock location to eliminate any confusing bracketry. Fittings sold separately.

Part #	Description
MOR63539	Small Block Chevy 5" Height
MOR63546	Big Block Chevy
Replacement Part:	
MOR97255	Gasket and Seal Kit

Aluminum adapter fittings used with Electric Water Pumps to adapt to most popular hose sizes.

Part #	Description
MOR63541	1" NPT to -16 AN hose
MOR63542	1" NPT to 1-1/2" hose
MOR63543	1" NPT to 1-3/4" hose
MOR63544	1" NPT to 1-1/4" hose

Alternator Mount Kits

- Made from Billet Aluminum
- Put mini alternators anywhere
- Works w/ old and new style drive mandrel kit

Part #	Description
MOR63827	For SBC, w/ Moroso Pump
MOR63828	For SBC, w/ CSR Pump
MOR63832	For BBC, w/ Moroso Pump
MOR63834	For BBC, w/ CSR Pump

Electric Water Pump Drives

Engine dynamometer test prove that many pumps produce severe drag on the engines at high RPM, absorbing as much as 15-20 hp. This kit gives you back that lost horsepower on most popular applications including: AMC, Chevrolet V-6 and V-8's, Ford 351C, 351W and Big Blocks as well as Chrysler small and big blocks. Complete with 12 volt electric motor, all drive pulleys, belt, fasteners and toggle switch. Intended for drag racing use only.

Part #	Description
MOR63750	Electric Water Pump Drive

Water Pump Spacers

Converts short water pump design Chevrolet water pumps to longer style. Aluminum spacer blocks are precision ground to align pulleys perfectly. Includes special heat-treated bolts and gaskets.

Part #	Description
MOR63510	Small Block Chevrolet
MOR63610	Big Block Chevrolet

Radiator Caps

High pressure caps increase boiling point to improve heat transfer. Stainless Steel spring maintains accurate pressure setting over time and will not rust. Includes solid brass spring retainer.

Part #	Description
MOR63307	6-8 lbs.
MOR63309	8-10 lbs.
MOR63313	12-16 lbs.
MOR63316	14-18 lbs.
MOR63320	19-21 lbs.
MOR63324	23-25 lbs.
MOR63328	27-29 lbs.
MOR63332	31-33 lbs.

Weld-On Radiator Filler Neck

Made from 6061-T6 billet aluminum, it can be welded on where a custom application filler neck is required. Includes screw-in 1/8" NPT hose fitting for expansion tanks and accept standard size radiator caps.

Part #	Description
MOR63486	Weld-On Filler Neck

Water Outlet For -16AN

Blue anodized aluminum -16 AN fitting for use with steel braided reinforced upper radiator hose. Designed for oval track racing and fits Small and Big Block Chevy as well as 90° V-6 Chevrolet engines.

Part #	Description
MOR63460	Water Outlet -16 AN

MOROSO®

American ingenuity and integrity, since 1968.

Manifold Filler Neck Kit

Locate filler neck at the highest point on cars with low-mounted radiators to bleed off air. Unit can be flipped 180° for either right of left outlet location. Includes 1/2" NPT fitting for installing water temperature sending unit and two 1/4" NPT fittings for return lines on popular aftermarket cylinder heads. Made of 356T-6 cast aluminum and they are 3-1/4" high. Includes gaskets, bolts and washer. Fits standard size radiator caps.

Part #	Description
MOR63420	Manifold Filler Neck Kit

Radiator Hose Fillers

356T-6 cast aluminum radiator filler necks are spliced into the rubber upper radiator hose to provide complete filling of the coolant system. Fits standard size radiator cap and includes overflow tube for easy routing to overflow tanks.

Part #	Description
MOR63730	Fits 1-1/2" to 1-1/2" hose
MOR63740	Fits 1-1/2" to 1-1/4" hose
MOR63745	Fits 1-1/4" to 1-1/4" hose

Water Outlet Restrictors

Restricts coolant flow leaving the engine lets you control the amount of heat absorbed by the coolant. Red, gold and blue anodized aluminum restrictor plates and mounted under the water outlet on the intake manifold. Kit includes 5/8", 3/4" and 1" ID holes for optimum coolant flow. 2-1/8" OD.

Part #	Description
MOR63440	GM V-8's, Ford 260-302, 351W

Radiator Overflow Tanks

One quart capacity tanks can be used in many forms of competition and are NHRA, IHRA and SCCA accepted. Tanks are vented and include hose and drain fittings.

Part #	Description
MOR63657	Overflow Tank, plastic
MOR85505	Overflow tank, billet aluminum

Cooling Expansion Tanks

Perfect for cars with low-mount radiators to provide a convenient filling location and to bleed off unwanted air that can cause overheating. Rugged 6061-T6 billet aluminum filler neck welded to tank to withstand continuous removal and installation. Includes ¼" NPT water intake fitting and a ½" NPT fitting at the bottom for plumbing a line to the radiator. 100% pressure tested to eliminate leaks. Dimensions: 6½" high by 7" wide.

Part #	Description
MOR63650	1½ quart capacity

Temperature Gauge Fitting

Corrosion resistant brass fitting fits standard ½" NPT tapped holes in cylinder heads and intake manifolds. 5/8"-18 threaded hole in fitting accepts popular sending units.

Part #	Description
MOR63645	Temperature Gauge Fitting

Aluminator SERIES MODULES

PROUDLY MADE IN THE USA

Be Cool America's leader in power cooling technology, has done it again with their NEW Aluminator Series Modules. These new modules include an Eliminator radiator, single 16" euro-black electric puller fan, aluminum fan mounting brackets, an electric fan wiring harness w/temperature sending unit and 40 AMP water proof relay, diamond-cut aluminum vented recovery tank, and a round billet Be Cool signature cap. Models also available with automatic transmission coolers. Install one today and never lose your cool again!

11" x 7-1/4" x 3/4" rated at 13,000 BTU	BAM70268
11" x 5-3/4" x 1-1/2" rated at 14,400 BTU	BAM70264

SuperCooler™ Universal & Race Coolers

- Can be used for ATF, engine oil, rear differential oil or power steering fluid cooling
- Ideal for racing and heavy-duty applications
- Oven-brazed, all aluminum construction
- Efficient 'Stacked Plate' design
- 1/2" NPT fittings easily adaptable to AN fittings

Also available in Polished

Application	Part #
STANDARD	
11" x 5-3/4" x 1-1/2" rated at 15,000 BTU	BAM70273
11" x 8" x 1-1/2" rated at 20,500 BTU	BAM70266
11" x 11" x 1-1/2" rated at 29,200 BTU	BAM70274
POLISHED	
11" x 2-3/4" x 1-1/2" rated at 7,500 BTU	BAM70265
11" x 8-1/2" x 1-1/2" rated at 20,500 BTU	BAM70272

Hi-Tek Engine Oil & Automatic Transmission Cooler

- Ideal for the toughest cooling applications
- Fin and plate cooler construction
- Includes 12 volt high flow fan
- Thermal switch included activates fan at 175°
- Pressure tested to 200psi
- Coolers fitted with 1/2" NPT fittings easily adaptable to AN fittings
- Black finish

Application	Part #
13-1/2" x 9" x 3-1/2" w/9-1/2" dia. fan @ 500 CFM, 6 amps, weight 7lbs.	BAM70297
10" x 7-1/2" x 4" w/7" dia. fan @ 350 CFM, 6 amps, weight 5 lbs	BAM70298

SuperCooler™ Domestic & Import Engine Oil Cooler Kits

The same design as the B&M transmission Supercooler! Without a cooler, high engine speeds and oil temperatures can break down lubricants and destroy your engine. Includes mounting hardware, filter adapter, hoses and fittings.

Application	Part #
Most Chevrolet big block and small block V-8's with recessed filter.	BAM70270

Hi-Tek Engine Oil Cooler Kit

For those that demand the best! This engine oil cooler kit comes complete with CNC machined billet aluminum remote filter mount and engine oil adapter, -10 braided steel hose and stacked plate design oil cooler. Utilizing the small stacked plate oil cooler this kit is ideal for the sport compact car. This kit will fit most vehicles with spin on oil filters and 20mm X 1.5 oil filter threads and many domestic U.S. vehicles with spin on oil filter and 3/4"-16 oil filter threads. This kit is designed to remotely mount the oil filter and includes an adapter to mount to the engine block.

Application	Part #
Hi-Tek Engine Oil Cooler Kit	BAM70296

Transmission Temp Gauge

Most transmission and converter failures can be traced directly to excessive heat. This accurate B&M Temperature Gauge comes with a light kit, color-coded dial face, anti-glare enclosure, wires, term-inals, special sending unit and T-fitting for easy installation.

Application	Part #
Temperature gauge kit	BAM80212
Replacement sending unit	BAM80214
Temp guage kit with white gauge face	BAM80226
Water gauge kit with white gauge face	BAM80227

Deep Transmission Pans

- Extra oil capacity = more cooling ability
- No modification to the dipstick needed
- Some models include fluid pickup extension & gasket (or require a 4wd filter)
- Filter included for TH-350, Powerglide, Ford & TF-727/518
- Pans feature built-in drain plugs & mounting hardware

Application	Part #
DEEP TRANSMISSION PANS	
GM All TH-400 (Will not fit Jeep CJ7)(+2 quarts)	BAM20280
GM All TH-350 & 250 (+3 quarts)	BAM30280*

For B&M pan #70289	BAM70288
For B&M pan #70260 (w/4L60E)	BAM70354

*Replacement filter use B&M filter 10288.
**Fits Corvette with side-fill plug.

Thermostatic Control Valve

This remote oil thermostat will help maintain proper oil temperatures required in today's high performance vehicles outfitted with auxiliary oil coolers. When oil temperature is below 180° F, the valve bypasses 90% of the oil, allowing 10% to flow through the cooler to prevent possible air pockets. Above 180° F, the valve opens fully and flows 90% through the cooler.

Application	Part #
Thermostat Control Valve	
Thermostatic control valve	#BAM70259

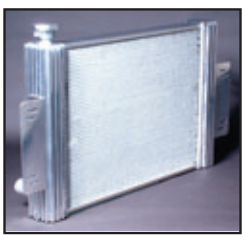
Flex-a-Fit® ALUMINUM RADIATORS



Radiators & Radiator/Fan Combo Kits

A patented T-fin feature on all Flex-a-Fit radiator tanks permit brackets to be attached almost anywhere on the radiator, making the installation quick, strong and reliable. Flex-a-Fit radiators feature an all-aluminum 2-row core designed for high air flow and heat rejection. Internally finned tanks dissipate added heat and increase the radiant heat surface by 300%. Pair these radiators with one of our industy leading electric fans for a complete cooling package.

Belt-Driven Flex Fans

Stainless steel blades are designed to flex at higher RPM when ram air cools the engine. Reduced drag on fan belt improves fuel economy and maximizes cooling at idle. Available in 15"-19" diameters with 2-1/4" projected width. Highest industry rating 10,000 RPM.

FLE5720	20-1/4" x 2-3/16" Aluminum Blades

Mojave Heater & Plenum

The MOJAVE heater is designed to make the job of fitting (or refitting) your hot rod with cabin heat. It eliminates the need to locate hard-to-find OE parts, or go through expensive rebuilds to get old units working again. It's design offers several mounting options, and the optional plenum includes adjustable louvers and a flange for defroster ducting. Just like an O.E. unit, the MOJAVE gets it's heat from the hot water in your vehicle's cooling system.

Part #	Description
FLE640	Mojave - 10-1/8" x 9" x 5" - 12,000 BTU
FLE650	Plenum - 8-3/4" x 4-3/4" x 4-1/2"

MANY MORE PRODUCTS & APPLICATIONS AVAILABLE. CALL OR STOP BY TODAY FOR PRICING AND AVAILABILITY.

Thunder Stick Shifter

When you require a high-performance street/strip shifter, TCI's Thunder Stick shifters are the perfect choice. Featuring lightweight yet rugged construction, they can handle race-level applications, yet still perform well in daily-driven vehicles. Having met all NHRA/IHRA safety standards for reverse lockout systems, these shifters are offered in a choice of mounting configurations, including an optional quick release. For those requiring compatability with line lock/trans-brake systems, an optional shifter knob with integral 12-volt switch is available.

TCI's Thunder Stick shifter features Park/Neutral safety switch along with provisions for a reverse light system. Designed for GM's venerable Powerglide transmission and most popular GM, Ford and Mopar 3 & 4-speed transmissions, the Thunder Stick shifter includes 5-feet of heavy duty and all the hardware required for installation. Optional 3-speed reverse pattern gate plates are also available.

Streetfighter Shifter

These TCI StreetFighter shifters are designed to provide ultra-reliable, ratchet-action shifting that commands your transmission and is compatible with both forward and reverse pattern valve bodies. They are are very affordable and feature an NHRA/IHRA-approved reverse lockout system, a lighted OEM-style gearshift indicator, and a shifter cover which can be custom-fitted to your transmission tunnel for a professional final appearance. The shifters also feature a park/neutral safety switch along with a reverse light activation switch, 5 ft. of heavy-duty shift cables, and all of the hardware required for installation.

Outlaw Shifter

TCI's Outlaw shifters not only ensure that you will find the right gear when you need it, but they deliver great looks as well. Constructed of billet aluminum with a pistol grip shifter and black-anodized cover with an optional quick release set, these shifters are rugged enough to handle both street and race-duty, while complementing the interior of any vehicle. They feature rugged construction, and are perfectly suited for competition use, being compliant with NHRA/IHRA legal reverse lockout regulations. In addition, Outlaw shifters feature a park/neutral safety switch, along with provisions for a reverse light system. A shifter cable and installation hardware are included.

Lightning Stick Shifter

TCI's Lightning Stick is the best all around shifter available! Racers in Super Gas, Top Sportsman, and Competition Eliminator have proven our shifter is a durable performer. Available for both forward and reverse shift patterns and designed with an adjustable positive stop to prevent over shifting, the Ligtning Stick is engineered with performance in mind. Lightning Stick shifters are sold without the cable so you can shoose the cable length that best suits your application. All shifters include mounting bracket and shift lever.

Circle Track Shifter

Lightweight, easy mounting, with solid linkage connections. This shifter is everything you need for circle track racing and available at half the cost of a drag race shifter. Comes complete with 29" adjustable linkage rod, spherical rod ends and adjustable reverse lockout.

Stealth Pro Ratchet™

- Lightweight, stealthy black anodized aluminum cover and carbon fiber grip
- Single hand operated reverse lockout feature meets NHRA & IRHA requirements
- Quick and easy to operate
- Stick always returns to center position after shift
- Easiest unit to 'double shift' with an air, CO2 or electric shift mechanism
- Short throw ratchet action reduces shift time
- The leading choice for 3 & 4 speed transmissions
- Supplied with a lightweight brushed aluminum cover
- Precision ratchet action works with either standard or reverse pattern valve bodies
- Includes neutral safety switch, backup light switch, gear position indicator and both forward and reverse pattern indicator decals
- Supplied with 5' Super Duty race cable part #8083

1st Another B&M Innovation!

Universal Hammer™

The B&M Hammer shifter may just be the most comfortably operated automatic shifter you can buy. Grab the handle of a Hammer shifter and it feels like it was molded to your hand. The multi-position trigger is spoon-shaped for easy finger operation in a multitude of grip positions. The result is a shifter which is perfect for all new generation vehicles and street rods where style is not just form, but function. Get your hands on a Hammer! Dimensions measure 13.55" long, 10.07" high and 6.25" wide.

Mustang Console Hammer™

The Hammer has been designed to fit the stock factory full console for '82-'00 Mustangs with the AOD & AODE transmission! It has a full ratchet action mechanism for positive upshifts and downshifts. When shifting the Mustang Hammer from neutral or reverse to park positions, just lift the trigger and ratchet the shifter forward for each position. Uses factory cable.

Application	Part #
Ford 94-99 Mustang console w/AODE	BAM81001
Ford 87-93 Mustang console w/AOD	BAM81002
Ford 82-86 Mustang console w/AOD	BAM81003
Mustang Hammer C-4 conversion kit	BAM81020

MegaShifter™

The MegaShifter is one of B&M's all-time classic designs. We've sold more MegaShifters alone than some others have sold in their entire line. The MegaShifter is one of our most popular shifters due to it's timeless good looks and high performance ratchet action. And it's ideally suited for most popular universal applications. Dimensions measure 12.98" long, 12.61" high and 6.57" wide. Part number 80690.

Application	Part #
GM TH400,350,250,200,700R-4,200R-4 Ford C4,C6 & AOD* Chrysler 66 & later Torqueflite 727 & 904	BAM80690
*AOD requires installation kit	BAM40496

GM Console MegaShifter™

Got a '73-'92 Camaro or '70-'92 Firebird with a console shifter? You can have B&M shifter performance with the Console MegaShifter! This shifter features full ratchet action performance, a lighted gear position indicator, chrome stick and trigger assembly, as well as a satin aluminum B&M T-handle. The Console MegaShifter has all the features of the classic universal model that made it the most popular aftermarket automatic shifter around!

Application	Part #
82-92 Camaro/Firebird TH400,350,250,200,700R-4, 200R-4 (will not fit '88-92 Firebird Formula)	BAM80692
73-81 Camaro/70-81 Firebird w/TH400,350,250,200,700R-4,200R-4	BAM80694

QuickSilver™

This top of the line ratchet action shifter provides performance shifting without a trigger. To get into park or reverse from drive lift the know/stick assembly and move it forward into position. Universal floor mount design make the perfect shifter for almost any vehicle. Includes neutral safety switch, backup light switch, lighted gear indicator, chrome knob and 5' shifter cable.

Application	Part #
GM TH400,350,250,200,700R-4,200R-4 Ford C4,C6 & AOD* Chrysler '66 & later Torqueflite 727 & 904	BAM80683
*AOD requires installation kit	BAM40496

GM Console QuickSilver™

Get the polished look of the QuickSilver shifter for your second generation Camaro or Firebird! It features everything the universal QuickSilver does, and like the QuickSilver, it's cable operated (factory cable), so it's easy to install and you won't miss a shift! Uses factory able.

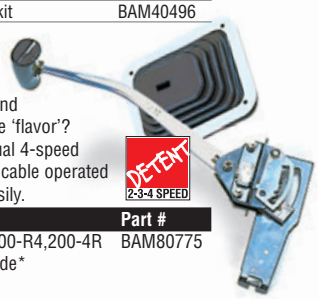
Application	Part #
73-81 Camaro/70-81 Firebird w/TH400,350,700R-4,200R-4	BAM80688

Truck/SUV MegaShifter™

The classic MegaShifter design in a configuration that will fit your light truck! The Truck MegaShifter includes a taller base and an adjustable floor mount bracket for proper installation. Dimensions measure 14.89" long, up to 14.85" high and 6.42" wide.

Application	Part #
GM TH400,350,250,200,700R-4,200R-4 Ford C4,C6 & AOD* Chrysler '66 & later Torqueflite 727 & 904	BAM80680
*AOD requires installation kit	BAM40496

Unimatic™



Want to turn your column shifter into a floor shifter and still retain that performance 'flavor'? It looks identical to a manual 4-speed shifter and, because of it's cable operated design, can be installed easily.

Application	Part #
GM TH400,350,250,200,700-R4,200-4R 62-73 Aluminum Powerglide* Ford C4,C6 and AOD** Chrysler '66 & later TF-727/904***	BAM80775
* Requires P/G install kit BAM70497, ** AOD requires kit BAM40496, *** Requires cable BAM80740	
UNIMATIC REPLACEMENT CABLES	
5ft Blue Cable - 600lb pull strength	BAM80735
6ft Blue Cable - 600lb pull strength	BAM80740

Automatic Street/Race Shifters

Z-Gate™

If you're building a project on a budget, or just want to upgrade your automatic shifter, the Z-Gate is the only choice! The patented 'Z' shaped architecture eliminates the possibility of overshifting and missing a gear. Even more, this easy to operate shifter has many of the features found in our top of the line units, and it includes a T-Handle and T-Trigger - so you get the most bang for your buck! Dimensions measure 13.15" long, 11.83" high and 4.04" wide. Cannot be used with reverse pattern valve bodies.

Application	Part #
GM TH400,350,250,200 Ford C4,C6 Chrysler '66 & later Torqueflite 727 & 904	BAM80681

Star Shifter™

The B&M StarShifter is one versatile shifter - wrapped up in a clean, timelessly styled package! In the normal mode the StarShifter is a straight line detent shifter. When the lever is in Low, lift the trigger all the way and pull the stick back to convert to ratchet action. Move the stick forward for the 1-2 and 2-3 shifts. Fits 3-speed automatic transmission only. Dimensions measure 12.22" long, 12.12" high and 2.90" wide. Cannot be used with reverse pattern valve bodies.

Application	Part #
GM TH400,350,250,200 Ford C4,C6 Chrysler '66 & later Torqueflite 727 & 904	BAM80675

Sport Shifter™

The Sport Shifter may be a low cost alternative to B&M's top of the line MegaShifter - but it performs as if it were twice the price! The Sport Shifter is not a ratchet shifter and not intended for racing applications, but it makes a perfect addition to any street machine - making daily driving something to look forward to. Utilizing a simple detent action between First, Second, High and Neutral, it features a lighted gear indicator, black plastic T-handle, neutral safety switch, backup light switch and flat aluminum stick. Dimensions measure 12.18" long, 11.15" high and 6.19" wide.

Application	Part #
GM TH400,350,250,200,700R-4,200R-4 Ford C4,C6 & AOD* Chrysler '66 & later Torqueflite 727 & 904	BAM80776
*AOD requires installation kit	BAM40496

Magnum Grip Pro Bandit™

Features a black anodized and shotpeened shifter body& cover plate. This shifter exudes attitude with the choice of Magnum Grip style or Blade style handle. Both are CNC machined black anodized stick. The Magnum Grip handle includes carbon fiber side plates. Ideal for dragster applications and includes mount for CO2 ram or electric solenoid.

Application	Part #
GM Powerglide 62-73 door cars, roadsters & altereds	BAM81111
GM Powerglide 62-73 rear engine dragsters	BAM81112

Stealth Pro Ratchet™

Stealth is the new black!The ultimate race shifter in light weight, black anodized aluminum.The leading choice for 3&4 speed transmissions. It's easy to operateand install, it comes supplied with a 5' super duty race cable. Ratchetshifting action with reverse lock-out means you never miss a shift.

Application	Part #
TH-700R4, 400, 200-4R, 350, 250 & 200, 3& 4 Speed Ford C4, C6 & AOD, neutral sfety	BAM81120
Powerglide 62-73 NHRA/IHRA reverse lock-out, neutral sfety, anodized aluminum cover	BAM81121

Hard Core Street Bandit™

The Hard Core Street Bandit comes with an edgy "blade" style grip for that extra racecar like feel. All the same advanced features as the other Street Bandit series of shifters, such as the narrow styling, street-able drive ability, and milledfrom a solid 7-lb billet aluminum. Measures 9.96" long, 9.31" high, and 1.33" wide.

Application	Part #
GM TH400,350,250,200,700R-4, 200-4R GM TH-400, 350, 250, 200 & 700R4. FordC4, C6. Chrysler '66 & later Torqueflite A727 & A904. Backup light switch, neutral safety switch	BAM80798

Pro Bandit™

Milled from a 7-pound block of billet aluminum, the Pro Bandit shifter features an easy to operate gate type mechanism. Designed as a rear exit cable mode for Powerglide transmissions with standard or reverse shift pattern valve bodies. Made for rear engine dragsters and includes: 8' super duty race cable, B&M P/G pro lever, Quick Disconnect and cable extension (CO2 or electric solenoid may be used on this shifter for a P/G transmission). Dimensions measure 9.96"L, 9.31"H and 1.33"W.

Application	Part #
GM Powerglide 62-73 Kit for rear engine dragsters	BAM80793
GM Powerglide 62-73 Shifter only (Needs Floor Bracket BAM80884)	BAM80794

Pro Stick™

Precise gate action, one hand NHRA approved reverse lockout and a variety of accessories make the Pro Stick the most versatile race shifter we offfer! Quick change gate plates, optional covers and quick release mounts and a super duty race cable make it easy to customize the Pro Stick to your needs. Dimensions 8.23"L, 9.22" H, 2.92" W

Automatic Transmission Kits & Precision Sport Shifters

Shift Improver Kit™

- Recalibrate your automatic transmission for optimum performance & extended life!
- Select the mode that best suits your application
- Provides crisp shifts on any stock automatic trans
- Eliminates shift overlap & excess wear on clutches & bands due to slippage

The B&M Shift Improver Kit the easiest way to get the stout performance you've always wanted out of your automatic transmission - and you get two modes of performance to select from: Heavy Duty, or Street/Strip. It's our least expensive and simplest to install kit. All you need are some hand tools!

Application	Part #
CHEVY / BUICK / OLDS / PONTIAC / GMC

Transpak™

- Recalibrate your automatic transmission for optimum performance
- Select the mode that best suits your application
- Improves transmission life
- Transmission removal not required

The next step up from the Shift Improver Kit is the Transpak. It has all the features in the Shift Improver Kit plus it provides additional driver manual control (GM TH-400, 350, Ford C-6 & Chrysler Torqueflite only). Most stock automatic transmissions won't downshift into low gear above 15 mph, and automatically upshift at a predetermined speed no matter what gear you're in. With the Transpak, you can downshift at any speed, and you can hold the transmission in first gear to any speed that you want! This is an asset when you've got a modified engine, and you want additional RPMs, or you're towing a trailer or driving heavy loads downhill.

The Sizzler® Transmissions

These economical TCI Sizzler transmissions are ideal for vehicles with engines producing up to 300 HP. Equipped with a TCI automatic valve body with a valve body improver kit, they allow you to achieve a firmer, yet not too harsh shift in the vehicle, and remain fully automatic. They also retain the stock shift pattern. For the systems to operate properly, all throttle linkage, vacuum lines, and kick-down components must be connected. These transmissions feature special clutches and bands, an improved lubrication system, and a chrome plated TCI-logo transmission pan. They offer increased thrust capacity, more torque capacity with less slippage, and are TCI factory blueprinted, inspected, and dyno-tested.

Streetfighter® Transmissions

The TCI Streetfighter transmission is tough enough to withstand the rigors of even the toughest street machines. It is ideal for vehicles powered by engines producing 450 horsepower with a non-supercharged system using pump gasoline. Equipped with our Manual/Automatic valve body, it allows you to manually shift the vehicle into each gear or by placing it in the drive position, remain fully automatic. In either mode, you get a racetrack shift that bangs through the gears and shaves time off your ET's. When you are using the manual gear selection feature, the Streetfighter upshifts and downshifts right when you move the lever, with no lag. When you select the normal drive position, it retains positive shift for the ease of driving you look for in an automatic tranny.

Super Streetfighter® Transmissions

The TCI Super Streetfighter transmission bridges the gap between our Streetfighter series and our Competition Series transmissions. It is intended for normally aspirated vehicles powered by engines producing up to 600 horsepower. Featuring all the same great features as our Streetfighter transmissions, these Super Streetfighter models have many performance upgrades that make them ready for your high powered vehicle.

Street Rodder® Transmission Packages

This package is ideal for vehicles that are powered by engines producing stock up to 300HP. Equipped with an automatic valve body with a Valve Body Improver Kit, it allows you to achieve a firmer, yet not harsh shift in the vehicle and remains automatic. TCI Sizzler series transmission feature special high gear clutches and bands, an improved lubrication system, chrome pan, increased thrust capacity, more torque capacity with less slippage, as well as being TCI factory blueprinted, inspected and dyno tested. Packages are complete with Sizzler transmission, Sizzler torque converter, universal cooler, 3-gallons of Max Shift fluid, and for the TH-350 and TH-400, the dipstick and detent cable is included.

Max Shift® Performance Transmission Fluid

Add performance, shift quality and durability to any automatic transmission by simply pouring in Max Shift (ATF) Transmission Fluid. Proven to run 30+ degrees cooler, Max Shift features an advanced formula that drastically reduces internal friction and heat, yet does not affect critical clutch and band lock-up.

- Run 30+ degrees cooler for increased component life & extended fluid change intervals
- Contains exclusive anti-foaming, friction reducer & extreme-heat additives; no extra additives needed
- Compatible with all transmission fluids; simply drain current fluid & pour in Max Shift™

Description	Part #
Max Shift Performance Trans Fluid (One Case/Three Gallons)	TCI950600
Max Shift Performance Trans Fluid (One Gallon)	TCI950601
Max Shift Performance Trans Fluid (One Quart)	TCI950620
Max Shift Synthetic Trans Fluid (One Case/12 Quarts)	TCI950650
Max Shift Synthetic Trans Fluid (One Quart)	TCI950655

PRO-X ™ OVERFLOW CANISTERS

To eliminate the safety concerns and messy clean-up associated with high rpm fluid blow-by, TCI offers three new PRO-X ™ Overflow Canisters.

- Lightweight Aluminium Construction, black powder-coated exterior & etched logo
- Compact size to provide ample ground & header clearance for drag race cars

Description	Part #
PRO-X ™ GM Powerglide Overflow Canister	TCI528206
PRO-X ™ GM Turbo 400 Overflow Canister	TCI228005
PRO-X ™ Ford C4 Overflow Canister	TCI518005

The Roll Stop®

The TCI Roll Stop allows you to do a burnout like the professionals. The precision solenoid valve can withstand 3,000 psi of pressure and is designed to draw only one amp of current. The Roll Stop Kit comes complete with solenoid, our 387600 microswitch, red powder coat mounting bracket, in-line fuse connector and mounting hardware.

The Best in the Business

A TCI torque converter is designed to improve the performance of your vehicle. A new TCI torque converter can help your car run quicker, faster, idle in gear better, leave from a stop harder, "chirp" the tires on the gear changes, or pull a steeper hill. Torque converter design and construction is a dynamic art and cannot be patterned on the results of a "plug-in" formula. TCI looks at torque converter technology as an important process to match your torque converter to your camshaft, gear ratio, and other engine specifications for peak performance.

Sizzler

Designed as economical, 50-state legal street rod converters. Use them in stock or slightly modified engines to gain improved drivability and a smoother idle while in gear, without adversely affecting your gas mileage.

Saturday Night Special

Saturday Night Special Converters are fully furnace-brazed, has a new hardened pump hub, and is pressure tested and balanced prior to shipment.

Breakaway

These TCI Breakaway torque converters will give you about 1,000 more rpm stall speed than stock, so you'll launch and accelerate faster. TCI remanufactures them to last with furnace-brazed fins, needle bearings, and a flame-hardened hub--the same qualities they gave their street/strip converter.

Streetfighter

Completely remanufactured with furnace-brazed fins, needle bearings, and a flame-hardened hub. StreetFighter converters will give you about a 3,000 to 3,500 rpm stall speed, while the Super StreetFighters provide up to 4,000 rpm and competition-style launches. They're recommended for use on high-compression street/strip engines and higher performance cars.

Footnotes for torque converters chart on right:

1. Built with 7/16"x20 mounting lugs (Hemi Style)
2. Functional lock-up torque converter, only for lock-up transmissions
3. With heavy duty front anti-ballooning plate for nitrous applications
4. With 9-3/8" bolt pattern for Mustang II applications
5. With 11-7/16" bolt pattern retains case fill overall length
6. For Buick, Pontiac, Oldsmobile w/small bolt circle and mounting lugs
7. Special high stall unit, great for light vehicles
8. 12" dia. converter
9. Non lock-up (Ford AOD applications must use TCI 439600 input shaft)
10. Ballooning plate on trans-side
11. LS1 applications (1998 & later except Corvette)
12. Must be used with TCI® 439600 non lock-up shaft.
13. Flats on hub
14. 1.806 pilot, 18-spine early model
15. 10" converter with 12" lock-up assembly
16. 11.4" bolt pattern

Performance Clutches

Look for the weights to get the PERFORMANCE. We Put the Power of Centrifugal Force to Work for you. TRUE Performance from a Higher Force.

Centerforce® I

The Centerforce I is designed as a high-quality entry-level performance clutch for those in need of a superior stock replacement. Using the patented centrifugal weights (where applicable) and premium friction materials the Centerforce I clutch system is perfect for applications with stock engines or mild power increases from minor bolt on modifications.

Centerforce® II

The Centerforce II system utilizes a full disc with premium friction materials and a pressure plate and a combination plate with patented centrifugal weights (where applicable). Furthermore, static clamp load is increased via their patented machining process, this combination allows superb holding power and maximum clutch life making this stage ideal for select street/strip, off-road and towing applications.

Centerforce Dual Friction®

The Centerforce Dual Friction clutch system is a performance matched pressure plate & disc combination. Centerforce Dual friction pressure plates feature their patented centrifugal weight system (where applicable) and specialized machining processes to provide a performance clutch that offers exceptional street characteristics while offering outstanding holding capacity and durability. Furthermore, the disc has a long facing on the pressure plate side for drivability and longetivity while a carbon composite puc style (segmented) facing is used on the flywheel side for a positive engagement and increased holding capacity.

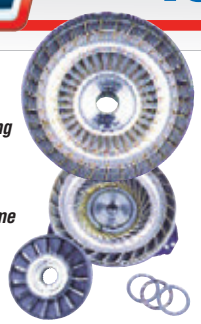
Torque Converters

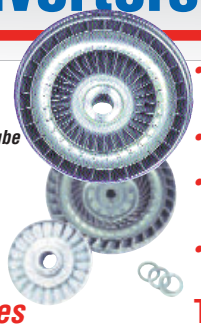


- *Furnace brazed impeller*
- *New precision steel alloy pump drive tubes*
- *New heavy duty needle bearing between stator & turbine (not a thrust washer)*
- *Furnace brazed turbine*
- *Dual pattern drive lugs on same Holeshots*
- *New turbine hub*

HoleShot™ Series

A higher that stock stall speed as delivered by the Holeshot converter will provide several advantages and benefits in vehicles with modified engines, many modifications, particularly big cams, tend to reduce low end power and torque. The high stall converter allows the engine to launch the car at a higher rpm where more torque is available. The Holeshot is generally a very good choice for the typical street machine that is looking for better launch capability and more tractability.

- **2000 SERIES** 1900-2100 RPM, small & big blocks, mild performance applications
- **2400 SERIES** 2300-2500 RPM, small & big blocks, mild to medium, serious performance, Pro Street
- **3000 SERIES** 2800-3200 RPM, small & big blocks, Serious Performance, Pro Street Applications
- **3600 SERIES** 3400-3800 RPM, Pro Street



- *Low cost and high quality*
- *Pressure tested*
- *Fully balanced*
- *New alloy steel pump drive tube*
- *Needle thrust bearing when equipped*
- *New thrust washer between turbine and cover when required*

Tork Master™ Series

Pressure tested and fully balanced the Tork Master Series is the best "value priced" converter available. Similar in performance characteristics to the Holeshot series, the Tork Master is B&M's lowest cost performance torque converter. The Tork master is an excellent all-around performance street converter. The Tork Master features a new alloy steel pump drive tube, needle thrust bearing when factory equipped and a new thrush washer between turbine and cover when required.

- **2000 SERIES** 1900-2100 RPM, mild performance not for big blocks
- **2400 SERIES** 2300-2500 RPM, mild performance not for big blocks
- **3000 SERIES** 2800-3200 RPM,mild performance not for big blocks

- *Fully furnace brazed fins in both the impeller and turbine (not spot brazed)*
- *New precision alloy pump drive tubes*
- *Heavy duty needle thrust bearings between stator and turbine (not a thrust washer)*
- *New thrust washer between turbine & cover*

Traveler™ Series

The Traveler converter is intended for use in motorhomes, tow vehicles or other heavy duty applications where a slightly higher stall speed is helpful in getting the vehicle moving. The Traveler is also stronger than a stock converter and has been internally modified to provide about 300rpm more stall speed for help in initial acceleration without sacrificing normal highway operation. It is manufactured to B&M's exacting tolerances for long life.

WARNING:
High stall torque converters create extra heat. Install a supplementary transmission oil cooler to control this extra heat or premature transmission failure could occur. B&M's High Performance Converters are not to be used with transbrake.

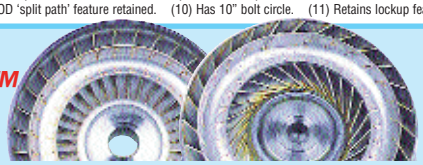
* Engines smaller than 350 cid may not achieve stall speed indicated. Converters listed on this chart are not to be used in transbrake applications. Stall speed listings are based on engine producing 230 lb. ft. of torque @ 2,500 rpm. If your engine produces more torque at 2,500 rpm stall speed may be higher. If your engine produces less torque you'll get less tall speed. Converters Footnotes: (1) B&M Chrysler converters when used with an externally balanced engine require a B&M Flexplate. (2) Specially designed non-lockup converter, so that no input shaft change or transmission modification is required. (3) Ford C6 converters are supplied with an 11.4" diameter bolt circle mounting pattern, may require a flexplate change. (4) GM vehicles with variable pitch transmissions (same models of '65-67 Olds, Buick & Cadillac) must have the pump and input shaft changed to a fixed pitch design to use a B&M converter. (5) Requires TH350 flexplate or dual pattern flexplate. (6) Will not fit lock-up converter or clutch converter models. (7) V-8's only, retains lockup feature. Can be run as lockup or non-lockup. This converter will not fit V6 or 4 cyl. (exc. 4.3L V6). (8) Non-lockup converter which requires transmission modifications. Parts instruction are included. (9) Standard lockup feature retained. AOD 'split path' feature retained. (10) Has 10" bolt circle. (11) Retains lockup feature. NOTE: Like all aftermarket converters, B&M Torque Converters are remanufactured.

Diesel Task Master™ Series Converters



The Task Master converters for diesel powered light trucks are engineered to improve the efficiency of the vehicle from off idle to maximum RPM. These converters are intended to maximize the efficiency of the vehicles engine and torque converter combination to improve acceleration and pulling power in light trucks. With all of the performance engine recalibrating components available on the market for the diesel engines, the next product needed to optimize the vehicles performance is the torque converter. These converters will provide the performance you need for your diesel powered light truck. The Task Master converters include the latest in converter technology and are suitable for highly modified diesel powered applications. If you are towing a trailer (5th wheel, large travel trailer, horse trailer, off shore boat) with a combined vehicle and trailer GVW of 20,000lbs or above, this converter is ideal for your vehicle. You will need the multiple disc lock-up clutch, that provides three times the surface over the stock clutch, and billet cover for long service life and dependability.

- Ideal for stock to modified diesel engines - tighter coupling for more efficient performance
- Multiple disc lock-up clutch
- New one-way clutch components
- Furnace brazed turbine & impeller

Description	Part #

"Ten Factory, by Motive Gear," is the brand you can trust for High Quality, properly engineered drivetrain solutions. While some brands are just repackaged parts imported in bulk, TEN Factory is engineering driven, with specific drawings for each part and a complete in-house Quality Assurance Lab - The only one in the industry.

TEN YEAR...

ALL TEN Factory Axles feature a REAL TEN-Year Replacement Warranty! Buy with confidence knowing the latest technologies in metallurgy, heat treating and CNC machining have produced an axle you can count on in the most difficult situations.

PERFORMANCE GEAR OILS

High Performance Gear Oil

Max-Gear® is an ultra-tough gear oil recommended for use in truck and automotive front or rear differentials, manual transmissions and lower gear units of marine engines that specify use of an API GL-5 or GL-4 fluid. Contains Royal Purple's Synslide® additive technology.

Exclusive Performance Advantages

- Severe Service Performance
- Lower Coefficient of Friction
- High Temperature Performance
- Low Temperature Fluidity
- Shock Load Protection
- Compatible with Other Oils
- Environmentally Responsible

DESCRIPTION	PART #
Max-Gear® 75W90 1-Quart Bottle	ROY12300
Max-Gear® 75W140 1-Quart Bottle	ROY12301
Max-Gear® 85W140 1-Quart Bottle	ROY01303

RACING GEAR LUBES

High performance gear lubes contain special friction modifiers to eliminate chatter & excess wear. Cuts friction and reduces wear over 50%.

Description	Part #
Straight hypoid gear lube	LKW32950
Limited slip gear lube	LKW32970

Climbing Gear Lube

- High-performance, extreme high-pressure gear lube
- Multi-purpose applications including manual transmissions and both conventional and posi-traction differentials
- Contains special "clinging" agents that provide direct adhesion to all moving parts; whereas conventional lubes rely on "splashing and sloshing" to distribute lubricant
- Increased speed of roating parts causes continuous film of oil to "climb" and spread over surfaces
- Insures complete lubrication of gears, bearings, bushing, shift yokes, synchros, etc.
- Packaged in quarts and gallons
- Recommended for Moroso Differentials Nos. 83000, 83010, 83020 and 83030

Description	Part #
Climbing Gear Lube, 1 quart	MOR34800
Climbing Gear Lube, 1 gallon	MOR34801

Gear Lube Tips

• In enclosed gear drives, with either splash or circulation systems, a magnetic plug or magnetic filter will help collect harmful wear debris. Removing wear debris can help extend oil and machine life.

• Enclosed gear drives typically have a couple of plugs or bullseyes to see if it is operating. When the drive is running, the oil level should show in the upper bullseye.

• Worm gear drives that are exposed to high operating temperatures should be filled with oil until the gears are covered. This allows for more rapid heat dissipation. To allow for expansion of the lubricant, be sure to leave some room at the top of the gearbox.

RATECH Ring and Pinion Installation Kits

Basic Overhaul Kits

Kits include pinion shims, crush sleeve, pinion seal, and cover gasket.

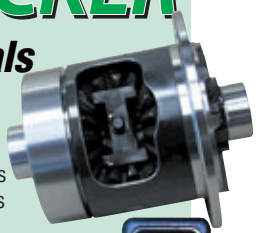
ECTED AuburnLOCKER

Performance Differentials



Auburn Gear has developed an Electronically Controlled Traction Enhancing Differential – the ECTED™. The electronic activation feature allows the ECTED to be interactive with vehicle systems to provide optimum traction. The ECTED greatly enhances the traction required for severe off-road and towing applications. It can also be integrated with ABS and traction-control systems to provide the enhanced traction required for luxury and sport performance vehicles.

Just like a traffic signal, when you see green on our Ected green light switch that means it's time to hook up and go wherever you wish!

- Lock the rear wheels with the flip of a switch!
- Selectable limited slip or locker/spool mode.
- Can be switched on or off "on the fly".
- Backed by 1 year warranty and 4 years of D-REX coverage

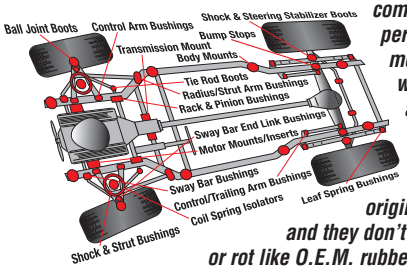
On The Street, In Competition or Off Road–Increase Control & Improve Handling!

ENERGY SUSPENSION®
Performance POLYURETHANE Components

GET IMPROVED HANDLING, BETTER LAUNCHING and GREATER STOPPING CONTROL!

HYPER-FLEX SYSTEM™
Complete Master Bushing Sets- available in red or black.

Take control with Energy Suspension's HYPER-FLEX™ performance polyurethane suspension components! HYPER-FLEX™ components are performance durometer. Install them when adding more horsepower & torque to your vehicle and when modifying the suspension. And, when adding grippier tires to diminish wheel hop on hard launches. Adds greater cornering control! HYPER-FLEX™ lasts much longer than original rubber components and they don't permanently compress or rot like O.E.M. rubber often does.



For Color Of All Products: place G= black or R= red after each part number.

Complete Hyper-Flex System™ Master Bushing Sets

Get the Complete Master Set for the maximum in performance!

Many more sets are available than listed, please see Energy's web site.

PLEASE NOTE: When ordering Master Sets, many do not include sway bar bushings due to the multiple sizes available for that vehicle and must be ordered separately.

Performance Polyurethane Sway Bar Bushing & Link Sets

For Cars & Trucks. Improves high speed cornering and handling–makes a vehicle's sway bar system much more effective! Many sets are complete with zerk fittings for the frame bushings utilizing a unique bushing channel design. That allows grease to flow to all inner bushing surfaces, thus eliminating any possible squeaking.

Complete Truck & SUV Front Sway Bar Bushing Sets- Selected rear sets also available. See Energy's web site for Car and more Truck specific applications.

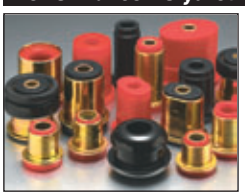
Performance Polyurethane Control Arm Bushing Sets



Maintains alignment while cornering, stopping and hard launching–better than those too-soft O.E.M. rubber bushings. Use for both raised and lowered vehicles where weight transfer causes distortion. Full floating and non-binding. Restores better than new!
(See Energy's web site for applications.)

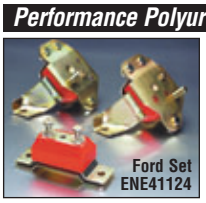
Performance Polyurethane Leaf Spring Bushing Sets

Be in control when maneuvering through turns, launching, braking and over bumps! Allows the leaf springs to function more effectively. More durable than O.E.M. rubber bushings.
(See Energy's web site for applications.)

Performance Polyurethane Body & Cab Mount Sets

For cars and trucks. Stronger than stock mounts and a much softer ride than those harsh aluminum mounts. Lasts much longer than rubber! Replace worn O.E.M. mounts to restore ride height and to align a truck cab to its bed.
(See Energy's web site for all applications.)

Performance Polyurethane Motor & Transmission Mount Sets



For cars and trucks. Replace weak rubber mounts with performance polyurethane mounts. Re-engineered to handle higher horsepower, torque and the demands of both racing and the off-road! Vastly outlasts rubber and impervious to vehicle fluids. Most models have metal safety interlocks.
(See Energy's web site for all applications.)

Polished body w/ gauge	SSBA0707G

RESIDUAL PRESSURE VALVES.

Used to store brake pressure in brake lines. Available for disc and drum brake cars with either anodized or polished body.

Description	Part #
Residual Pressure Valves	
2lb. for disc brakes; blue anodized body	SSBA0764
2lb. for disc brakes; polished body	SSBA07642
10lb. for drum brakes; red anodized body	SSBA0765
10lb. for drum brakes; polished body	SSBA07652

PROP-BLOCK: ADJUSTABLE PROPORTIONING VALVE AND DISTRIBUTION BLOCK ALL-IN-ONE.

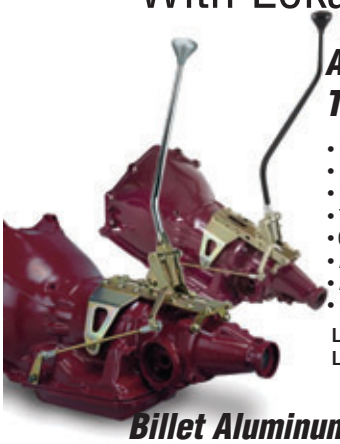
Why splice into your brake line twice to install a distribution block and a separate adjustable proportioning valve? That's just more cuts, more time and more places for leaks. Now you can cut all those things in half with our new PROP-BLOCK that combines these two performance braking necessities into one.

A0730

A0730P

Description	Part #
PROP-BLOCK	
Black anodized; accepts 3/16" lines	SSBA0730
Polished; accepts 3/16" lines	SSBA0730P

Customize Your Ride With Lokar Quality & Style



Automatic Transmission Shifters

- Neutral Safety Switch
- Positive Lock-Out in Park and Neutral
- Easy-to-remove shifter knobs for boot installation
- Teflon lined button in shifter knobs
- Chrome-plated lever available in 32", 23", 16", 12", 10", 8", & 6" lengths*
- All hardware included for installation
- Available for GM, Ford and Chrysler Automatic Transmissions*
- Boots sold separately

LOKATS6350C Automatic Trans Shifter TH-350 12"
LOKXATS6350D Black Automatic Trans Shifter TH-350 10"

Billet Aluminum Boot Sets

- Black Anodized Billet Aluminum
- Boot and Stainless Steel Flathead Screws Included
- Boot Rings Available separately

LOKX70-BFR Black Billet Rectangular Boot Ring
LOK70-CLB Classic Shifter Boot with Ring

Cable Operated LED Shift Indicator Kits

- CNC machined from 6061-T6 Billet Aluminum
- Programmable Solid State Circuit Board
- Cable operated for flexibility in mounting housing and 6' of inner control wire
- Neutral safety switch built in
- Long Life LED Indicators
- Stainless steel and zinc plated mounting hardware
- All Lokar Cable Operated LED Shift Indicator Kits available in Horizontal or Vertical Dash or Boot Mount

Billet Led Boot Indicator w/sensor
LOKCINB-1747 TH350/400
LOKCINB-1753 Ford C4/C6

Billet Led Dash Indicator w/sensor
LOKCINB-1715 TH350/400
LOKCINB-1721 Ford C4/C6

Shifter Knobs

- Plain design (no shift pattern)
- Mushroom and Lokar knobs available polished
- Shift pattern engraved on knobs meets NSRA safety requirements.
- Solid colored knobs
  - Ivory
  - Black
  - White
- Designer Knobs
  - Ivory 8-Ball with Red number spot
  - Black 8-Ball with Ivory number spot
  - Flamed Knob available in transparent red

Lokar Dial-in Board, Cage Mount & Universal Adjustable Angle Mount Brackets

- 6061 aluminum
- No interference w/roll-bar padding
- No welding or drilling required
- Bracket available for 1 1/2" and 1 5/8" cages
- Reversible Dial-In Board
- Universal Adjustable Angle Mount style available
- Polished, Black and Clear anodized

LOK1110104 1 1/2" Polished Dial-In Board, Cage Mount

Billet Aluminum Pedal Assemblies

- Ball-milled Aluminum or black anodized
- Spring loaded pad like OEM
- Mount centered or off center
- CNC machined for looks and durability

LOKBAG-6004 Billet Aluminum Throttle Pedal w/Rubber
LOKBAG-6005 Billet Aluminum Brake Pad w/Rubber
LOKBAG-6006 Billet Aluminum Dimmer Switch Cover w/Rubber
LOKXBAG-6121 1964-1970 Black Billet Aluminum Mustang Clutch & Brake Pad Manual w/Rubber

Door Handles, Window Cranks & Vent Window Cranks

- Two screw installation
- Deep pocket - 4 finger width
- Rolled finished upper edge
- Designed to recess in arm rest
- Stainless screws included
- Available in brushed and polished finish

LOKIDP-2003 Polished Billet Aluminum Crescent Oval Arm Rest Door Pull (Pair)
LOKXIDP-2002 Black Billet Aluminum Crescent Door Pull
LOKIDH-2012 Brushed Billet Aluminum Window Crank GM Pre 1949 (Pair)
LOKIDP-2003 Polished Billet Aluminum Crescent Oval Arm Rest Door Pull (Pair)

Floor Mount Emergency Hand Brake

Floor Mount Emergency Hand Brake is black powder coated steel
Ratchet cut gear plate and lock are heat treated for strength and safety
includes 4-point mounting capabilities for floor mount or side mounting

LOKXEHB-7000F Black Floor Mount Emergency Hand Brake

Back-Up Light or Neutral Safety Switch Kit

This kit offers the choice of Back-Up Light Switch OR Neutral Safety Switch Kit. Kit fits TH-350, TH-400, 700-R4, TH-200, 200-4R, 4L60, 4L60E and 4L80E transmissions.

BL-1400U Back-Up Light/Neutral Safety Switch Kit TH-350, TH-400, 700-R4, TH-200, 200-4R, 4L60, 4L60E and 4L80E

Anchor-Tight® Locking Flexible Engine Dipsticks

NHRA accepted for use in all categories of competition!

- Locking mechanism eliminates expulsion of dipstick handle under pressure
- Teflon-lined stainless braided outer housing
- Flexible inner dipstick measuring cable
- Available for most engine applications
- Available in brite, black, red and blue anodized
- Manufactured and Assembled in the USA

LOK1220004 Anchor-Tight® Locking Flexible Engine Dipstick SB Chevy '80 & Later Brite
LOK1209124 Anchor-Tight® Locking Trans Dipstick 3" Direct Mount For Powerglide - Brite

"The Inventors of Performance Air Conditioning."

Vintage Air is owned and operated by experienced street rodders who have been involved in the sport for over thirty years. We offer you the most comprehensive line of high performance air conditioning components available. Every Vintage Air product incorporates the very latest technology available and offers you the greatest efficiency and reliability available.

Our goal is to help you cool your specialty vehicle in a more informed way with parts specially designed for street rods, sport trucks and performance cars. We want to supply you what you really need to get the job done right! Therefore, we are always interested in your air conditioning questions and we welcome technical inquiries. Feel free to call or write.

The All-In One Kit For Your Classic Chevy!

EVAPORATOR KIT: Air conditioning, heating and defrost combination designed specifically for your vehicle. Original deluxe control assembly in your dash connects to our cable replacement modules and controls this unit. Designed to mount to existing holes in your dash and firewall without drilling or fabrication. Evaporator kit comes complete with all mounting brackets, hardware, louvers, duct hose, wiring harness and installation instructions.

Gen-IV Sure-Fit™ System Features:

- Fully electronic Fly-by-wire controls
- High capacity aluminum plate & fin cooling coil
- Copper/brass Cprobraze™ parallel flow heater coil
- Molded high volume center plenum vent design
- Optional 4-duct plenum available
- Complete "just right temperature" air blending
- High capacity dehumidified defrost volume
- Smooth steel firewall cover panel

Complete Kit

All above plus underhood kit including condenser and drier package. Attaches to existing V8 or 6 Cylinder radiator mounting holes (see next page for various radiator/core support combinations). Comes with SuperFlow TM condenser, mounting brackets, standard drier, safety switch, pre-formed aluminum lines, steel firewall cover plate and all mounting hardware. You must provide v-belts and refrigerant.

Valve Covers fo SB Chrysler LA	EDL4176	EDL41763
Valve Covers fo SB Chrysler Magnum	EDL4177	EDL41773
Valve Covers fo BB Chrysler 383/440	EDL4192	EDL41923

Signature Series Accessories

Black Powder Coat Tectured Finish

Dress up your engine with the New Signature Series black powder coated air cleaner, valve covers and breather.

Applications	Part #
Signature Sreries Air Cleaners	
10" air cleaner black powder coat, (3-3/4" tall)	EDL1203
10" air cleaner black powder coat, (3-3/4" tall)	EDL1223
Signature Sreries Valve Covers	
Valve covers for 59-86, 262-400 SB Chevy	EDL4443
Signature Sreries Valve Cover Breathers	
Round breather w/ black powder coat	EDL4403

Header-Back Exhaust Systems

For use with Edelbrock Muscle Car & Retro-Fit Headers in GM A-body vehicles. These systems are part of the complete Retro-Fit Kits for placing a GM LS or LM series engine in a muscle car.

Description	Part #
Header-Back Exhaust System for 64-67 GM A-Body	EDL5765
Header-Back Exhaust System for 67-69 GM F-Body	EDL5793
Header-Back Exhaust System for 70-81 GM F-Body	EDL5779

LS1 Performance Parts

Coil Covers For GM Gen III LS Series Engines

Cast aluminum coil covers are a great way to dress up the LS1 in your street rod or muscle car.

Applications	Part #
Coil Covers	
LS Series Engines	EDL4118
LS Series Engines w/ polished finish	EDL41181
LS Series Engines w/ Black powder coat finish	EDL41183

Retro-Fit Headers & Engine Mounts

These Retro-Fit Conversion Headers are designed for installing a LS series engine into a GMA-body of F-body vehicle. These headers are made of high quality 409 stainless steel tubing with a 3/8" port & collector flange that feature Ti-Tech Coating for durability.

Applications	Part #
Retro-Fit Headers	
67-69 GM F-body w/ LS series V8(1-3/4", stepped to 1-7/8", 3" collector)	EDL65043
Engine Mount Kit 67-69 F-body w/ LS series V8	EDL6706
64-67 GM-A-body w/ LS series V8(1-3/4", stepped to 1-7/8", 3" collector)	EDL65063
68-72 GM A-body & 70-81 GM F-body w/ LS V8(1-3/4", stepd to 1-7/8", 3" collector)	EDL65073
Engine mount kit for 64-72 GM A-body with LS series V8	EDL6701

Pro-Flo XT Electronic Fuel Injection

The Most Complete Fuel Injection System Available Edelbrock is known for complete performance packages that offer bolt-on performance ready to run right "out-of-the-box". Pro-Flo XT is no exception. Each package includes a complete intake manifold assembled with fuel injectors, fuel rails and throttle body, electronic engine control unit (ECU), handheld calibration module, Mallory® distributor, complete pre-terminated two-piece efi harness, fuel pump, fuel filter, fuel hose, attaching hardware and software. The unique two-piece harness offers quick connection of the engine and chassis harness at the bulkhead on the firewall.

Description	As-Cast #	Black #
PRO FLO XT EFI THROTTLE BODIES		
90mm Pro-Flo XT Throttle Body Small Block Chevy	EDL3869	EDL38693
90mm Pro-Flo XT Throttle Body for Small Block Ford	EDL3818	EDL38183

95mm High Flow Intake Elbow for 4500 flange	ED3814	EDL38143
120mm High Flow Intake Elbow for 4500 flange	ED3815	EDL38153

Street Scoop II

Here's the sequel to the Original Street Scoop... A shorter version, only 14-1/2" long, a full 5-1/2" shorter than the Original. Ideal for V6 and V8 engines. Like its predecessor, Street Scoop II is a precision cast aluminum unit that is fully machined and polished to a high luster. It features three large diameter red anodized butterflies that operate off the carburetor linkage. Also available in a black crinkle finish.

Description	Part #
Street Scoop II	MRG6658
Street Scoop II - Black Wrinkle Finish	MRG6658B

Easy-Flow Air Cleaners

A gleaming, chrome finished top cover with a plated-steel base encloses a high CFM, replaceable, flame-retardant paper element in multiple sizes.

Description	Part #
2/3/4-BBL Carburetors, Fits 5-1/8" Neck - Plain Top	
14" dia., 2-1/4" high	MRG1480
9" dia., 2-3/4" high	MRG1487
6-1/2" dia., high riser, 3" high	MRG1485
6-1/2" dia., low riser, 2" high	MRG1486
Fits 2-5/16" or 2-5/8" Neck - Plain Top	
6-1/2" dia., high riser, 3-1/4" high	MRG1490
6-1/2" dia., low riser, 2" high	MRG1491

Deep Dish Air Cleaners

These attractive air cleaners feature a deep-dish, highly polished, chrome top accented by a chrome-plated wing nut. For safety, a flame retardent, replaceable, paper element with a high CFM rating is used in these units. The air cleaners are available in a variety of sizes to suit your application needs.

Description	Part #
2/3/4-BBL Carburetors, Fits 5-1/8" Neck - Plain Top	
14" dia., 2-1/4" high	MRG4340
9" dia., 3-1/4" high	MRG4342

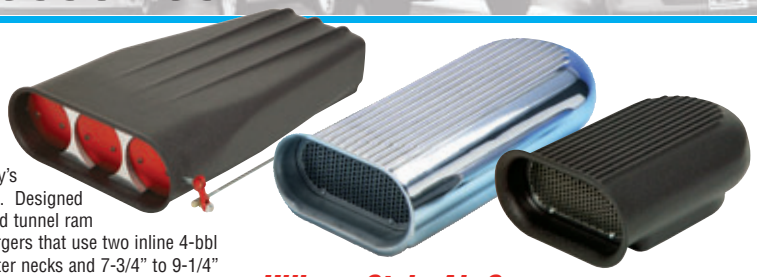
6-1/2" dia., high riser, 2" high	MRG4348
1/2-BBL Fits 2-5/16" or 2-5/8" Neck - Plain Top	
6-1/2" dia., high riser, 3-1/2" high	MRG4350
6-1/2" dia., low riser, 2-5/8" high	MRG4352
1/2-BBL (including most VW)	
4" dia. 2-5/16" or 2-5/8" Neck	MRG4354

The Original Street Scoop



Gives the competition look of fuel injection scoops, popular on today's Top Fuel and Funny Cars. Designed to bolt on most stock and tunnel ram manifolds and superchargers that use two inline 4-bbl carbs with 5-1/8" diameter necks and 7-3/4" to 9-1/4" center line spacing. Also fits single 4-bbl carbs. The Original Street Scoop is a precision cast-aluminum unit that is fully machined and polished to a high luster. The three large diameter butterflies are red anodized and operate off the carburetor linkage. Also available in a black crinkle finish for those who don't want the shine.

Description	Part #
Fits two 4-bbl carb setups - Polished	MRG6650
Fits two 4-bbl carb setups - Black	MRG6650B
Fits single 4-bbl carb setups - Polished	MRG6651
Fits single 4-bbl carb setups - Black	MRG6651B

Low Rider Air Cleaner

These 14"air cleaners are designed to fit late-model GM cars where the hood clearance is minimal. The air cleaner features a chrome plated top with a flame retardant, high CFM filter for maximum efficiency.

Description	Part #
2-BBL with 3" Carb neck	MRG4338
2/3/4-BBL with 5-1/8" neck (for Corvettes)	MRG4339

Street Stacks

For the all-out street machine... Mr Gasket's Street Stack combines a free flow velocity stack with an 8" paper element air filter, topped off with a Competition style air cleaner cover. Great for dual quad set ups. The velocity stck is polished aluminum and has a chrome plated steel top.

Description	Part #
2/3/4-BBL Carburetors, Fits 5-1/8" Neck - Plain Top	
8" dia., 6-3/8" high	MRG6031

Air Cleaner Adapter Rings

End air cleaner fit problems when you change carburetors with Mr. Gasket's air cleaner adapter ring. These adapters are molded from a high-impact, heat resistant material for durability.

Description	Part #
Adapts 5-1/8" cleaner to 4-7/32" neck	MRG2082
Adapts 5 1/8" cleaner to 3" neck	MRG6406
Adapts 5 1/8" cleaner to 2 5/8" neck	MRG6407
Adapts 5 1/8" cleaner to GM Dual Carb	MRG6400

Air Cleaner Risers

Air Cleaner Risers allow additional clearance between the carburetor and air cleaner for specialty carburetor linkage, competition carburetor return spring kits, and modified, larger than stock, fuel lines. Designed to fit 2 or 4 barrel and throttle body fuel-injected carbs with 5-1/8" diameter inlet.

Description	Part #
1" Tall	MRG9341

Hilborn Style Air Scoops

Give your street rod or street machine that race car look by using one of these new "Supercharger" Air Scoops from Mr. Gasket. Both scoops are made from high quality aluminum castings that are beautifully polished to a high luster, and come with a chrome plated inlet screen and bezel for a great look!

Description	Part #
Single 4 barrel - Polished	MRG5232
Single 4 barrel - Black Crinkle	MRG5232B
Dual 4 barrel - Polished	MRG5233
Dual 4 barrel - Black Crinkle	MRG5233B

MRG9862

MRG9868

MRG5326

Air Cleaner Spin Nuts

The custom accessory for engine apperance from Mr. Gasket! Fits all 1/4-20 and 5/16-18 studs.

Description	Part #
Small Spin Nut - Chrome and black	MRG9862
Wing Style Spin Nut - Chrome	MRG6398
Large Spin Nut - Chrome and black	MRG9863
Tri-Bar Spin Nut - Chrome	MRG9868
Custom Nut - Clear Aluminum	MRG5326
Custom Nut - Blue Anodized	MRG5327
Custom Nut - Red Anodized	MRG5328

Hood & Deck Pin Kits

Secure hoods with a competition look. Kit permits quick removal of hood or deck. Two chromed safety pins, scuff plates and necessary hardware are included in each kit. Overall pin length is approximately 4" with 2-1/2" of threads.

Description	Part #
with Screw-On Scuff Plates	
7/16"-20 thread-safety pins	MRG1016
7/16"-20 thread-torsion clips	MRG1017
1/2"-20 thread-safety pins	MRG9655
1/2"-20 thread-torsion clips (NASCAR)	MRG1018
with Self Adhesive Scuff Plates	
7/16"-20 thread-safety pins	MRG1216
7/16"-20 thread-torsion clips	MRG1217
1/2"-20 thread-torsion clips (NASCAR)	MRG1218

Oval Track Hood Pins

Designed specifically for oval track cars where pit stop time must be kept to a minimum, these kits feature a tappered hood and safety pin to allow quicker alignment and insertion. Kits are complete with 3/8" dia. chrome plated steel hood pins, 1-1/2" dia. stainless steel scuff plates, and 10" long lanyard cables.

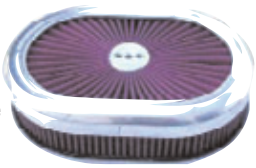
Description	Part #
Oval Track Hood Pin Kit	
3" Long Hood Pin Kit	MRG1619

Super Flow Air Cleaner Black Finish

- Super Flow Air Filter top w/ aluminum base
- 14" Super Flow fits single quad carbs w/ 5-1/8" neck
- Mounting stud included
- Easy to install

RPCR244X — Black 14-inch x 3-inch Super Flow Filter Air Cleaner Set - Washable Element & Flat Base

Super Flow Air Cleaner Poilshed Finish



- Super Flow Air Filter top w/ aluminum base
- 12" Super Flow fits single quad carbs w/ 5-1/8" neck
- Easy to install
- Polished steel mounting stud included

RPCR5020 — Polished Aluminum 12-inch x 2-inch Oval Super Flow Filter Air Cleaner Set - Washable Element

Polished Aluminum Air Cleaners

- Perfect for single quad carburetors
- Available in polished, ball-milled, & flame polished
- Easy to install

RPCR6020 — Polished Aluminum 12-inch x 2-inch Oval Air Cleaner Set - Ball Milled & Paper Element

Polished Aluminum Finned Valve Covers

- Chevrolet, Ford, & Chrysler applications
- Available in polished,& chromed finish
- Available with baffles

RPCR6280 — Polished Aluminum BB Chevy -inchFinned-inch Valve Cover - Tall with Hole

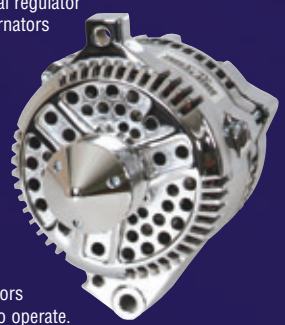
finest Quality

Our Chrome Will Get You Home

Manufacturing custom finished components for hot rods and custom cars is our only business. Available powder coating, plating, and polishing options create a variety of textures and contrasts to set your engine - and your car - apart from all the others. We are experts in the processes necessary to create each of those special decorative finishes. All polishing, chrome plating and powder coating is done in house, along with the assembly and testing of every unit.

Alternators



GM Alternator (New)
Model Number: TUF7127NA
- Fits: 71-86 Chevy, Olds, Pontiac, Buick with internal regulator
- Only 1 wire to battery (+) is needed for 1 wire alternators
- Turbo fan

GM Alternator (New)
Model Number: TUF7102NA
- Fits 1962-1971 with external regulator
- Use 7127NB, D, E or F for 1 wire conversions
- No Bracket modifications are required

Chrysler Alternator (Remanufactured)
Model Number: TUF7509RBSP
- Fits 61-85 with all small case alternators
- Types (A), (C), and (F) require external regulators
- 1 wire alternators need only 1 wire to battery (+) to operate. In this case your firewall mounted regulator is no longer needed

Ford (3G)
Model Number: TUF7771A
- Fits: 1994 - 99 Mustangs 5.0L & 3.8L/1994 - 97 T - Bird 3.8L/ 1994 - 97 Cougar 3.8L/1995 - 97 F Series Pickup 7.5L
- Supplied with easy to install wiring harness
- Specify 6G after your Model# for 6 Groove Serpentine Pulley Example: 7771A6G

Ford (O.E. Case) Alternator (New)
Model Number: TUF7078NA
- 61-85 All small case with external regulator
- For 1 wire models your firewall mounted regulator will no longer be needed.
- 1 Wire hookup Alternators are great for Street Rod builders
- Also available with a 6 Groove pulley (Add 6G to the end of the Model #)

Power Steering Pumps

Saginaw Power Steering Pump
Model Number: TUF6176A
- New reservoir & dipstick
- Keyed shaft for easy pulley installation
- Chrome hardware & cap
- Pully not included (Available from your local dealer)

Type II Power Steering Pump (New)
Model Number: TUF6175ALP
- Compact size is ideal for tight installations
- For use with factory or remote reservoirs depending upon part number
- 5/8" Shaft requires a press on pulley (not included)

Power Brake Booster

Chevy Nova 9" single diaphragm booster
Model Number: TUF2233NA
- Chevy Nova Power Brake Booster with the 3 stud bolt pattern
- This is a direct replacement for 1964 - 67 Nova's

A/C Compressors

A/C Compressor (Peanut) (New)
Model Number: TUF4517NA6G
- Sanden Style R134
- 6 Groove Serpentine pulley Supplied
- Smaller design is used on many aftermarket Bracket sets
- A/C Compressors are shipped with oil

R12 Style A/C Compressor (New)
Model Number: TUF4505NA6G
- Sanden style R12
- Specify pulley style br adding DP or 6G
- EXAMPLE: 4505NB6G is a polished 6 groove serpentine pulley
- A/C Compressors are shipped with oil

R134 Style A/C Compressor R134 Style (New)
Model Number: TUF4515NA6G
- Sanden style R134
- Specify pulley style by adding DP or 6G to model number
- A/C Compressors are shipped with oil

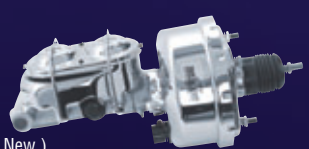
Starters

Chevy Starter
Model Number: TUF6772A
- Super Gear Reduction
- Same as 6584 but has a bigger, stronger motor
- Adjustable drive end frame for added oil pan header clearance
- Used on 153 or 168 tooth flywheels
- Bolts and Shims included

Water Pumps

Chevy(Short) (New)
Model Number: TUF1495AA
- Fits 1965-1972 396 and 427CI
- This pump has a 5/8" fan pilot.
- Cast iron housing.
- Supercool water pumps create 30% more flow to help cool engines under abnormal conditions.

Master Cylinders



GM (Dual Port) Master Cylinder (New)
Model Number: TUF2020NA
- 1" Bore w/ Shallow Hole
- 3/8" Ports on both sides (These are not O.E. Ports)

Most parts are available in Chrome Plated, Polished Aluminum, Powder Coated or Plain finishes. Call today for more applications to fit your ride.

Very High Temperature Coating System

Strip Fast

VHT STRIP FAST is the absolute best paint remover on the market today. This extremely effective formula bubbles and removes lacquers, enamels, acrylics, varnishes, and oils from metal and wood.

Part #	Color
VHTSP575	Strip Fast

Sold in 13oz. cans

Prime Coat

VHT Prime Coat is a unique, multipurpose formula designed for use on metal, fiberglass, wood, and most plastic surfaces. These primers are excellent foundations for any enamel, acrylic, epoxy or synthetic lacquer finish paint products. VHT Prime Coat air dries quickly, provides a rust and corrosion resistant barrier that allows for excellent adhesion for intermediate (color) coats and top (clear) coats. VHT Prime Coat can be sanded for multi-layer buildups. Multi-layer build coatings optimize smoothness on flat and contoured surfaces.

Part #	Color
VHTSP302	Dark Grey
VHTSP303	Red Oxide
VHTSP305	Black
VHTSP306	Yellow Zinc Chromate

Sold in 11oz. cans

Plastic Paint

Ideal Applications:
- Gauge pods
- Plastic door panels
- Speaker covers

VHT Plastic Paint was specifically formulated for interior plastics
- Withstands the heat of interiors
- Scratch resistant
- Won't flake off

Recommended by: Auto Meter for Gauge Works Products

Part #	Color
VHTSP973	White Satin
VHTSP977	HONDA Clr Gray
VHTSP970	White

Sold in 11oz. cans

Hi-Tech Engine Enamels

VHT Engine Enamels are a unique blend of urethane resins, which produce a tough, long lasting heat and solvent resistant finish. Vht has developed Engine Enamel specifically for use on engine blocks, heads, and components. Available in a wide range of factory match colors.

Classic Colors Hi-Tech Engine Enamel

Part #	Color
VHTSP999	Nite Shades

Sold in 13oz. cans

Headlight Restoration

- See brighter at night look better during the day
- No sanding buffing or tools required
- Just clean restore and seal
- 8 Packs per case

See Brighter is a revolutionary new kind of headlight restoration product. Designed with special chemicals, we've created a new and easier way to restore your worn and yellowed headlights, making them clearer and safer in just minutes.

See Brighter significantly increases the amount of light passing through your headlight lens, in some cases up to 10 times the amount of light.

See Brighter is much easier than the sanding, buffing, grinding, that you have to do with other kits. It requires no tools, the chemical does all the work. It leaves your lens smooth, with no distortion. Why spend up to an hour working with a drill and a buffing wheel, or sandpaper and water, when you could be done in less than 10 minutes.

- SeeBrighter restores the oxidized polycarbonate head light lenses on cars, trucks, and other vehicles.
- SeeBrighter has been tested on various automotive surfaces without adverse effect. However, covering any surface other than the headlight lens being restored is recommended as an extra precaution.
- SeeBrighter, depending on conditions, will on average protect your headlights for up to 12 months. Vehicle storage and driving conditions may affect the longevity of the product. If the headlights become oxidized again, they may be retreated and resealed.
- SeeBrighter is more effective when the headlight sur face temperature is above 70 degrees.

See Brighter At Night

And Look Better During The Day

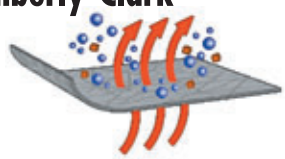
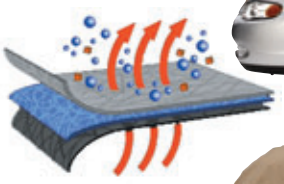
Block-It™ Fabric
by Kimberly-Clark



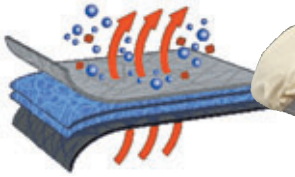
Block-It Fabric 100-Series Ready-Fit® Covers

This lightweight, single-layer polypropylene fabric provides good basic protection against harmful UV damage from the sun. This cover is breathable that allows moisture and condensation to evaporate. Dries quickly to keep the cover from rotting or collecting mildew. The soft fabric is non-abrasive and it won't shrink or stretch.



Block-It Fabric 200-Series Ready-Fit® Covers

The material was developed by Kimberly-Clark to be a mid-price leader in quality and performance. It uses 3-layer polypropylene construction for moisture and dust resistance, and the fibers are treated for extra UV resistance. This U.S. made fabric offers good, basic protection and is an excellent value. Easy to use, and less bulky for compact storage and this cover is so soft that it will not scratch the paint. While the cover is resistant to moisture, it will saturate after long periods of exposure to moisture. What makes this cover better than the competition is that is breaths, letting the moisture dry up and eliminated mold and mildew between the cover and your vehicle.



Block-It Fabric 400-Series Ready-Fit® Covers

Block-It 400 Series, (formerly know as Evolution®4) uses 4-layer polypropylene construction for maximum protection in all weather conditions. Often imitated but never equaled, this U.S. made fabric is used by millions of satisfied enthusiasts around the world. The 4-layer thickness helps absorb impacts to help protect the finish from nicks, dings, dents and scratches. The soft inner layer will not scratch, mar or dull paint or delicate clearcoat finishes. This cover, like all Block-it Fabrics, does a outstanding job of resisting moisture, while allowing air to circulate through the fabric. This eliminate mold and mildew between the cover and your vehicle.

The kit includes vinyl-coated steel cable, padlock, non-scratch plastic snap grommets and iron-on reinforcing patches.

Description	Part #
Cover Lock Cable	COVZCBL

Who should use a Car Cover?

The answer to that question is anyone who wants to keep their car or truck cleaner, newer looking and shinier. Anyone who wants to protect their vehicle from damaging UV exposure, acid rain, bird droppings and pollutants.

The best kind of car or truck covers are American Made, breathable, water resistant and sun-proof. If you are thinking about buying a car cover and t does not have these characteristics, do yourself a favor, don't buy it! All Covercraft covers have these desirable qualities.

Covercraft offer a wide selection of fabrics, to allow you to select the one that will meet your vehicle's protection needs and budget. Different fabrics offer different levels of protection performance, and some focus on protecting from a specific element, like intense sun exposure or dust.

FLITZ Professional Polishing Products

PASTE METAL POLISH

Flitz Paste Metal Polish is a concentrated cream that is unequaled in its ability to Clean, Polish, Deoxidize and Protect All metals, Painted Surfaces, Glass, Plexiglas®, Fiberglass® & Armatel®. Flitz Waxx / Speed Wax

Flitz It!

Flitz Waxx Speed Wax is an extraordinary spray-on, wipe-off wax product that ills in swirls and hairline scratches. It's water-based, will not streak or smear and will not leave behind any white residue. It is also Environmentally friendly. Exceptional performance on: Clearcoat, Gelcoat, Lacquer, Fiberglass, Auto Paint, Marine Finishes, Ceramic & Powder Coatings, Polyurethane, Plexiglass®, Eisenglas, Acrylics, Plastics, & Chrome.

Duragloss

Professional Cleaning Products

Duragloss has a product for your every need in automotive detailing.

Fabric & Carpet Cleaner

Is a blend of surfactants, which gently foam away soil, oil and grease from fabric and carpet surfaces. Spot cleaning can be done without-leaving rings on fabric and velour.

Ultimate Orange

Is a blend of specially formulated cleaners that penetrate, emulsify and remove all traces of soil.

Plastic Lens Polish

Is formulated to polish and protect all types of clear and colored plastic: Plexiglas, Fiberglass, ABS, Lexan, Lucite, Acrylite, and all other acrylics, (including painted surfaces).

Glass Cleaner

Is formulated to clean tinted windows, windows, mirrors, windshields and chrome.

Leather Conditioner

Contains a blend of mink oil and lanolin that penetrates and softens leather. Gives a natural, non-greasy treatment to both new and older leather. A special fragrance enhances the aroma of leather.

Non Silicone Dressing

Restores the Lustre and Beauty to vinyl, leather and tires. Body Shop Safe. Contains no silicone.

Polish & Cleaner

Duragloss PC (Polish & Cleaner) contains synthetic polymers, which form a protective coating on the surface of painted vehicles. Durable to both acid and alkaline washes.

Paste Wax

Contains a blend of waxes, polymers and polishing agents.

Total Performance Polish

Formulated to clean, shine and protect from harsh conditions and environmental pollutants. Clear coat safe.

Clear Coat Polish

Gives a "wet look" shine and durable protective coating.

Fiberglass Polish & Cleaner

Contains synthetic polymers which form a protective coating on the surface of painted vehicles.

Aquawax

Formulated to wax after washing in one easy step.

Voodoo Blend Leather Rejuvenator
This is far more than a conditioner, Voodoo blend contains the best beeswax on the planet plus oil replenishing lanolin. It will transform the most weather-beaten, cracked seats, jackets and saddle bags into soft, supple leather. Theres no way to clean your new leather and condition it from the start than with Voodoo Blend. Voodoo also waterproofs and even works on vinyl.

Available Sizes: 8oz, 16oz, 32oz bottles and 2L refill bottle

Dash Away Interior Cleaner
Dash Away is an incredible cleaner, spot remover and protectant for all interior surfaces, including carpets, vinyl and smooth leather seats, and of course the dash. Non-greasy and never leaves a film.

Available Sizes: 24oz spray bottle, 2L refill bottle

SUR100 SUR106

Detailing Sprays

Speed Demon Wax Detailer
Most speed detailers trap dust which scratches paint. Speed Demon actually suspends dust and leaves an unbelieveably long lasting shine. Uses our proprietary Avanced Particle Suspension Technolgy™.

Available Sizes: 24oz spray bottle and 2L refill bottle

Hot Rod Protective Detailer
The only detail spray that provides long-lasting UV protection for paint. Also offers a great, no-wax alternative to carnauba. Uses our proprietary Micron Adhesion Technolgy™.

Available Sizes: 24oz spray bottle and 2L refill bottle

Many more applications and styles available. Give us a call today!

SUR140 SUR132 SUR139 SUR138

Metal Polishes

Diamond Edge Metal Dressing
Here is the only metal dressing product that waxes seals and polishes all-in-one. The secret is our proprietary Nanofriction Activation Technolgy™. Friction from polishing actually activates the sealer & more friction activates the carnauba wax.

Available Sizes: 8oz, 16oz, 32oz bottles and 2L refill bottle

Maximum Metal Perfect Polish
Formulated so you have the choice of polishing by machine or by hand. Removes years of tarnish and restores mirror finish. Great for chrome, aluminum or stainless steel.

Available Sizes: 8oz, 16oz, 32oz bottles and 2L refill bottle

Absolutley Aluminum Perfect Polish
Polish by hand or with machine. Gets rid of heavy oxidation. Great for chrome, aluminum or stainless steel.

Available Sizes: 8oz, 16oz, 32oz bottles and 2L refill bottle

Killer Chrome Perfect Polish
Polish by hand or with machine. Gets rid of surface rust. Perfect for chrome, aluminum or stainless steel surfaces.

Available Sizes: 8oz, 16oz, 32oz bottles and 2L refill bottle

Microfiber

Nano-Detail Microfiber
- Nono-Detail microfiber products are exclusive to surf city garage
- Highest grade of microfiber for painted surfaces
- Lint-free, scratch-free and streak free
- Ultra absorbent

Nono-Detail Washing Sponge
- Highest grade of microfiber for painted surfaces

Contains 1 Sponge

Nano-Detail Applicators
Contains 2 Applicators
- Great for applying waxes
- Soft fibers evenly distribute product

Nano-Detail Poishing Cloths (3-Pack)
Contains 3 16”x16” Polishing Cloths
- Great for washing and drying
- Perfect for applying and removing waxes and polishes

Nano-Detail Signature Series Towels
Contains 2 16”x16” Microfiber Towels
- Special edition of our Nano-Detail Polishing Cloths
- All towels feature the Surf City Garage logo

Nano-Detail Drying Towel
Contains 1 36”x25” Drying Towel
