Universal 14" Air Filter

CONCEPT II

SynthaMax
NoOil.com

Concept II features a beautiful lightweight aluminum lid. The lid is also perfect for user customization. The curved top enhances air flow and provides additional clearance for the carburetor float bowl vents. Ideal for applications with minimal hood clearance. Along with the re-designed lid, the Concept II also features a new base that enhances air flow. Available in 3", 4" & 5" elements, Concept II features SynthaMax, a 100% synthetic, non-oiled, color fast, classic red media. Billet tool & key fob included! "Conceptually" the perfect finishing touch to your custom ride!

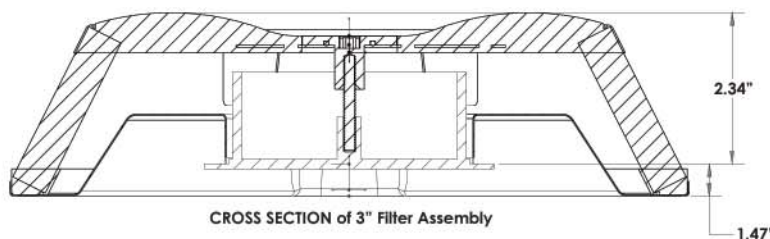

Billet tool and key fob included

In Stock, Ready to Ship!
