Increase Fuel Efficiency

Triple Dog GT Gauge/Tuner

Diesel

The Triple Dog Gauge Tuner is a vehicle engine tuner, monitor, gauge and diagnostic device all in a single unit. The GT dramatically improves the utility of several vehicle applications by providing an increase in horsepower and torque and by improving fuel economy through better engine tuning.

The GT does it all and it works on most late model diesel pickups including Dodge, Ford and GM.

DIESEL TRUCK 40420 **\$412.64**

Gas

The Triple Dog Gauge Tuner is a vehicle engine tuner, monitor, gauge and diagnostic device all in a single unit. The GT dramatically improves the utility of several vehicle applications by providing an increase in horsepower and torque and by improving fuel economy.

Ignition System

ROUSH YATES & MALLORY teamed up for a superior racing ignition system

Roush Yates - Mallory Racing Ignition - 6864RY **\$308.84**

High out-put multi-spark CD ignition for the ultimate in ignition reliability. Fully encapsulated for maximum resistance to moisture, heat, dirt and vibration. Built-in, easy to adjust rev limiting for ultra smooth control. 1000-9,900 - No chips required. Works with Mallory:points, crank triggers or electronic distributors. Designed for use with racing coil part #30460RY

Roush Yates - Mallory Racing Coil - 30460RY **\$108.74**

Fully encapsulated for extreme heat and vibration resistance. Heat regulating construction for sustained high RPM with minimized dwell time. Extruded aluminum enclosure, anodized for a long lasting finish & heat dissipation. High output E-Core design performance coil. Plug-In connector harness for easy installation.

Power Grid System **MSD**

Power Grid System
 • USB connection for ease of programming
 • Timing based on engine rpm and gear value
 • Advanced individual cylinder timing based on gear
 Use with 6A, 6AL or most any MSD ignition boxes

Description Part #
 Power Grid **7730** **\$325.68**

Power Grid System - Ignition Control Only

- USB connection for ease of programming
- Timing based on engine rpm and gear value
- Advanced individual cylinder timing based on gear or time
- Five retard stages for nitrous
- Output switch set on rpm, pressure or time
- Shift light settings for each gear
- Ignition data acquisition accepts multiple runs

Description Part #
 Ignition Control Power Grid **7720** **\$354.32**
